

Can you find all the good things that we can do to reduce our waste and help prevent pollution?
See below for answers.

CRD
Making a difference...together

ANSWERS: REDUCE: Pack a garbage-free lunch; Grow local fruits and vegetables; Buy bulk foods. REUSE: Buy, sell or donate used items; Use reusable food and beverage containers. RECYCLE: Recycle metal, plastic, paper, cardboard and glass; Take back electronics and hazardous waste. COMPOST: Compost kitchen scraps. For more ideas, visit www.myrecyclopedia.ca

WORD SCRAMBLE

The mixed-up words to the right are things that can be recycled. Unscramble the words, then fill in the boxes at the bottom to discover other ways you can reduce waste at home.

- 1. PEPWANSRE (this can be read daily)
- 2. MULANUMI (juice cans are made of this)
- 3. SNCA (a metal item that rhymes with "pans")
- 4. SLGAS (this is made using sand)
- 5. CISPALT (made from petroleum oil)
- 6. IZPAZ XBO (contains something yummy)
- 7. LIKM NACORT (contains something made by cows)

Answers: 1. NEWSPAPER, 2. ALUMINUM, 3. CANS, 4. GLASS, 5. PLASTIC, 6. PIZZA BOX, 7. MILK CARTON
Mystery word: COMPOST

MAZE FUN!

Can you make less garbage as you find your way through the maze with the 3R's and C?

START

MIX & MATCH

Recycling reduces garbage going to the landfill by turning something used into something new. Match the item to the picture of what it will become.

- ___ PAPER
- ___ PLASTIC
- ___ ALUMINUM
- ___ STEEL
- ___ GLASS
- ___ PLASTIC FOAM

1	2
3	4
5	6

Answers: 5, 4, 1, 6, 2, 3
