

Climate Action To-Go Kits

Cool tools for a warm planet (K-12)

Climate Action To-Go Kits for the classroom support K-12 instruction about climate change, energy and conservation and are available to educators in the capital region for **free**.

Each kit contains tools, resources and activities to:

- ✓ Learn about local solutions to climate change with ready-to-use K-12 lessons and elementary and high school DVD's.
- ✓ Measure electricity use from classroom and school appliances.
- ✓ Discover air leaks in your classroom and school.
- ✓ Test new energy saving technologies.
- ✓ Assess water efficiency of your faucets.

Borrow a Climate Action To-Go Kit for K-12 instruction.

For locations, contact [CRD Education](#)

Climate Action at Home

Link classroom learning with energy savings at home. Encourage students to loan Climate Action To-Go Kits for home available at regional libraries.
