

# How to use Walk & Wheel for 5 sites as a school:

WW5 sites can be used for drop off/pick up/meet up for pedestrians and cyclists. If driving to these sites, only a quick stop is permitted unless public parking is available. \*\*If a site is on private property, you must gain permission from the property owner to use it as a Walk & Wheel for 5 site for your school\*\*

## Meet Up & Go

Encourages safety in numbers by identifying landmarks to meet at on the way to school. Encourage your neighbours and friends to tag along!

## Kiss & Go

A quick stop is all that is permitted! These sites are located in the school drop-off loop, parking lot and/or along nearby streets where parking is limited or unavailable.

## Park & Stroll

These sites are located along nearby streets where **parking is permitted** using public street parking or local parks. If a site is located on private land, be sure to seek permission with the property owners for liability purposes.

Walk & Wheel for 5 locations for our school: (list locations or include map with labels)
