

**Now offering cool tools for a warm planet –  
for the classroom!**

**Borrow a Climate Action To-Go Kit sourced for your  
local District Teacher Resource Centre.**

Each kit contains tools, resources and activities specific to elementary school aged children for you to:

- ✓ Measure electricity use from classroom and school appliances
- ✓ Discover air leaks in your classroom and school
- ✓ Test out new energy saving technologies
- ✓ Read award winning children's books and watch fun DVD's by Elmo and Bill Nye the Science Guy to teach children about climate change and energy savings
- ✓ Challenge your classroom with activities that demonstrate climate change, energy and conservation
- ✓ Link what children learn in the classroom with energy savings at home - directing students to sign out Climate Action To Go Kits available at regional libraries
