

Island View Beach Regional Park Campground — Accessibility Information

Island View Beach does not have any designated accessible campsites. Below is an outline of what to expect with regards to accessibility.

Entrance

Island View Beach Regional Park Campground is located along Homathko Road in North Saanich. A CRD Regional Parks sign is visible along the Patricia Bay Highway, both north and south bound just before the Island View Road intersection. Vehicular access routes into the campground are a mix of asphalt and gravel. A kiosk is located at the entrance to the RV side of the campground and contains campground information and park map.

Campground Access Routes

Campground access route surfaces are level with gravel or grass. A paved path leads to some portable washrooms, including a portable wheelchair-accessible washroom that has a wide door, level ground entrance, grab bars on the walls around the toilet and transfer space.

Campsites

Campsite surfacing is level with gravel on the RV side (sites 1-18) and gravel or grass on the tent/camper/tent trailer side (sites 19-47). Each site has one standard picnic table.

Waste Receptacles and Drinking Water

Waste receptacles and drinking water are located on the RV side of the campground. Drinking water is dispensed through a turn style handle that is at approximately 30cm height.
