

Making a difference...together

Backgrounder: Distributed Wastewater Treatment Strategy Decision Core Area Liquid Waste Management Committee

The distributed a wastewater treatment strategy chosen reads as follows:

MOVED by Director Fortin, **SECONDED** by Alternate Director Hunter:

1. That the Capital Regional District (CRD) proceed with Option 1 with further investigation of variations on the strategy, including:
 - a) Continued analysis of Options 1a, 1b and 1c through the triple bottom line analysis, including an assessment of biosolids integration with solid waste activities and functions.
 - b) Investigation of a wastewater heat recovery system and delivery mechanism in James Bay.
 - c) Integration of inflow and infiltration management with appropriate phasing of the wet weather strategy at Clover Point.
 - d) Relocation of the solids processing from the liquid processing site to allow potential integration with solid waste activities and functions.
 - e) Further development of the biosolids management plan to reduce operational risks associated with biosolids end uses.
 - f) Complete siting investigations in Saanich East/North Oak Bay.
 - g) Investigation of opportunities for heat recovery and water reuse with the University of Victoria.
 - h) Research the possibility of a single larger site in the event that the McLoughlin Point site is not selected.
 - i) Evaluation of the financial and rate impacts of the costs and revenues, including revenues and/or carbon tax benefits of resource recovery and use for each option; and
2. That the CRD look at options for sewage treatment in the West Shore by working in cooperation with the Administrators and Engineers of Colwood and Langford.
