

## NEW Weight Room Equipment

### Precor Fitness Equipment

Precor designs and builds premium fitness equipment for effective workouts that feel smooth and natural. Their equipment is chosen by health clubs, hotels, spas, and individuals all over the world. For nearly three decades, they have driven fitness forward with a passionate focus on ergonomic motion, proven science, and superior engineering. They are constantly studying and anticipating the needs of the people and organizations they serve, and continually redefining the levels of innovation, quality, and service necessary to deliver the very best fitness experiences – all with the goal of improving the ways people improve themselves.

- Precor cardio equipment and strength equipment is manufactured in Woodinville, WA. That is only 86 miles (139 km) away!
- Each piece of Precor cardio equipment is tested by a real person prior to delivery to the customer.

Over the past decade, Precor has established a strong track record of progressive environmental stewardship, and gained industry and government recognition for environmental and manufacturing best practices. Throughout the organization, Precor has pursued opportunities to reduce hazardous substance use and hazardous waste, while increasing recycling and acceptable treatment methods.

Today, Precor's practices include recycling corrugated paper, wood pallets, aluminum shavings, steel strapping and metal scraps in the production environment, while practices such as recycling bins and limiting use of paper cups in Precor offices reinforce the commitment to environmental stewardship to employees throughout the organization. Further, to prevent waste and provide employees with an added benefit, outdated or used tools and equipment are made available to employees for personal use.

Precor's Industry Awards include:

- King County "Distinguished Business in the Green" Award
- King County Industrial Waste "Gold Compliance" Awards
- King County "Model Metal Working Fluid Management Program" designation
- Washington State Department of Ecology Metal Machining Sector "Best Practice" recognition
- Washington State Labor & Industries Model Ergonomic program "Ergonomics-in-Action" award
