76. Saturna View (Loop Trail)
77. Ellena Road (Loop Trail)
78. Mirada Road Ocean Access
79. Ursula Poepel Park

Pender Islands Parks & Recreation Commission Community Parks and Trails Map

The Pender Islands Parks & Recreation Commission welcomes you to the Pender Islands where unique Gulf Island ecosystems co-exist with people of all ages. Come and explore our PIPRC trails and parks to get a feel for the diverse and special natural habitats that our islands have to offer.

The Pender Islands Parks & Recreation Commission (PIPRC) manages community parks, trails and ocean accesses on the North and South Pender Islands delegated to it by the Capital Regional District (CRD). Other parks on the islands are managed by agencies such as Parks Canada – Gulf Islands National Park Reserve (GINPR), Islands Trust Fund (ITF), and CRD Regional Parks. Some of our trails interconnect with theirs to form a trail system.

The longer PIPRC trails may encompass more than one ecological zone and reflect the natural ecosystems of Eastern Vancouver Island and the Gulf Islands as a whole. Some parks celebrate the contribution of humans in the history of the islands. Parks provide recreational and educational opportunities for everyone. Protecting them means that the future generations will be able to observe the amazing natural history of this area.

Most PIPRC parks and trails are now marked by wooden posts at or near the entrance. Further information about community parks and trails can be obtained at the PIPRC website <http://www.crd.bc.ca/penderparks>.

Fire: The risk of a fire on a forested island is extreme. No fires are permitted on community parks and trails. Report all fires by calling 911. Always be extra cautious with smoking materials and observe no smoking signs.

Dogs: Keep dogs under control at all times, preferably by keeping them on a leash. Please keep them away from areas where children play, especially at the swim hole and baseball diamond. Please clean up after your pet.

Privacy: Be aware that many parks and trails are next to residential areas. Please respect private property and stay on the trail or park.

Caution: Many of the trails are unimproved with exposed roots and rocks reflecting the PIPRC's low environmental impact trail construction. The terrain can be rugged and steep in places and care should be taken especially when the ground is slippery. Be alert for wood ticks when walking through areas of high grass and underbrush.

ATV's and bikes are not permitted on any parks or trails. You use the parks and trails at your own risk.
