## Supervisor, Geo-Environmental Programs

### *Parks & Environmental Services – Environmental Protection*

Competition	<b>20/027</b>
Status	<b>Regular Full time</b>
Hours of Work	<b>70 hours bi-weekly</b>
Rate of Pay	<b>\$45.72 to \$51.85 per hour</b>
Review of applications begins	<b>4:00pm on March 10, 2020; however, this competition will remain open until the successful candidate is found.</b>

### Summary

This position provides scientific, technical and regulatory oversight for several environmental monitoring programs, including the Hartland landfill program, contaminated sites program, and several other smaller programs (e.g., septage, controlled waste, landfill gas).

### Duties & Responsibilities

- Oversees planning, implementation, evaluation and reporting of the landfill's environmental monitoring including special projects.
- Provides technical, scientific and regulatory support to operations and capital projects associated with the Hartland landfill.
- Provides technical, scientific and regulatory support for contaminated sites liability across the organization, including monitoring programs, site assessments, risk management and remediation projects.
- Oversees the residuals (biosolids) program, including contract management, monitoring and planning functions
- Responsible for the administration, budgets and staffing associated with program delivery, including contract management and oversight of consultants.
- Oversees the controlled waste permitting program for the Hartland Landfill.
- Oversees various contaminant management programs such as the septage disposal service.
- Collaborates with other departments to identify and address contaminated sites issues.
- Collaborates with internal/external stakeholders with respect to contaminated sites issues to negotiate options, provide direction, input or exchange information, etc.
- Develops relationships and collaborates on regulatory compliance, research initiatives and information exchange with internal and external stakeholders.
- Responds to public and regulatory enquiries.
- Develops technical and summary reports for various audiences, including the preparation of annual program and staff reports.
- Prepares and delivers presentations to various stakeholders.
- Supervise, evaluate and lead staff.
- Oversees consultants and manages contracts.
- Prepares and manages budgets.
- Follows all policies, procedures and standards of the CRD.
- Performs other related duties as required.

## Qualifications

- A master's degree in hydrogeology, geology, environmental engineering or other related discipline and 6 years of directly related experience or a university degree with 9 years of directly relevant experience.
- Experience should include 2 years of supervisory experience
- Membership or eligible for registration with the Association of Professional Engineers and Geoscientists of BC (APEGBC) as a P.Geol or P.Eng.
- Must have proven experience in hydrogeology, chemistry, air quality, environmental monitoring, environmental impact assessment, risk management and remediation of complex contaminated sites, management of hazardous waste, data analysis and interpretation, and solid waste disposal and the related environmental effects.
- Excellent communication (verbal and written), interpersonal and customer service skills are required.
- Experience in project management and budget management.
- Ability to supervise scientific staff and consultants.
- Knowledge of and experience with provincial and federal regulations and guidelines that pertain to discharges to the environment, site remediation, hazardous waste and contaminated sites and negotiating with senior levels of government.
- Ability to deal tactfully with representatives of municipalities and regional districts, senior government agencies and the public.
- Ability to work as part of a team, use initiative, be innovative, solve problems, produce results and meet deadlines.
- Knowledge of and ability to use various computer word processing, spreadsheet and project scheduling programs and databases.
- Must possess a valid BC Driver's Licence.
