

Health & Safety Notice

Making a difference...together

We are actively monitoring the status of the COVID-19 (coronavirus) outbreak and ensuring appropriate precautions are in place.

At this time, public health officials recommend the same precautions you would use to prevent the common cold or flu:

- Wash your hands often with soap and water
- Cover your mouth and nose when coughing or sneezing
- Avoid others who are unwell
- Stay home when you are sick

For the latest updates on COVID-19, follow the BC Centre for Disease Control on Twitter @CDCofBC or visit the website: <http://www.bccdc.ca/>

Health questions? Contact HealthLinkBC by dialing 8-1-1 or call the federal information line at 1-833-784-4397.
