3. REPORT OF THE CHAIR - No report.

4. PRESENTATIONS/DELEGATIONS

4.1 Presentations

**16-368** Chief Gordon Planes, T’Sou-ke First Nation re Traditional Use Access Agreement (Leech Water Supply Area)

Councillor Allan Planes advised that Chief Planes sends his regrets. Councillor Planes spoke in favour of the Traditional Use Access Agreement (Agenda Item 5. 16-351). He noted the importance of this area as a traditional source of medicine and wild foods, and as a place for the Elders to teach children about their culture.

Directors Helps and Screech entered the meeting at 1:45 pm.

**16-77** Traffic Safety Commission - Barb McLintock & Alan Perry

Using a PowerPoint presentation, Barb McLintock, Vice Chair and Alan Perry, Project Coordinator, reviewed the Commission’s mandate, membership, The Four E’s (Education, Engineering, Enforcement, Evaluation) or criteria used for their projects, how successful campaigns are created, partnership principles including leverage, community partners, performance measurements, and current and upcoming traffic safety projects.

**16-406** Mervyn Lougher-Goodey, Chair, Regional Water Supply Commission re Leech Water Supply Area

M. Lougher-Goodey spoke in favour of restricting access to the Leech Water Supply Area (WSA). He described a recent trip to get to Weeks Lake in the Leech WSA, and the many challenges and obstacles faced trying to reach this destination. He also described evidence of trespassing, firearms use, ATV damage, alcohol consumption and illegal campfires. In closing, Mr.
Lougher-Goodey noted the efforts planned for wildfire preparedness, security monitoring, rehabilitation and forest management in the Leech WSA, and asked the Board to use caution on the issue of access to this area. The delegation provided a written submission, on file at Legislative and Information Services.

16-407 Berth Burton-Krahn, Councillor, Township of Esquimalt, re Integrated Waste Management Options

Councillor Burton-Krahn, spoke in favour of the Integrated Resource Management Task Force recommendations and moving forward with a pilot project. She spoke to the need to find a solution given the various wastewater treatment facilities that are, or will be, producing wastes, and that newer technologies, such as gasification, may produce cost savings.

4.2 Delegations

16-390 Capt. Jamie Marshall, VP Fleet Operations, BC Ferries re Canadian Ferry Operators Association (CFOA) Membership

Captain Marshall spoke in favour of the CRD becoming a member of the Canadian Ferry Operators Association. He noted the importance of ferries in connecting communities and as an economic driver.

16-408 Terrance Martin, South Island Recreation Association

In addition to to the South Island Recreation Association, Terrance Martin was also representing the Consultants Invitational Derby Society and 0881301 BC Ltd. (company operates the District of Sooke’s public boat launch and marine facility). Mr. Martin spoke in favour of allowing public access to the Leech Water Supply Area (agenda Item 8. 16-356), recognizing there would need to be regulations and permit access on designated routes. He advised that the Association has a standing access agreement with Timberwest, which is currently being renegotiated, and described their activities. Mr. Martin distributed invitations to the Consultants’ invitational 11th Annual Fishing Derby, which has provided donations to societies involved in salmon enhancement. He opined that the groups he represents are responsible recreational users.

16-409 Eoin Finn, My Sea to Sky (a BC Society) re Improved Marine Safety Regulations in Salish Sea

Eoin Finn spoke in favour of the Notice of Motion (agenda Item 8 16-367). In a PowerPoint presentation, he reviewed: LNG export projects approved by the National Energy Board, and in particular, the Steelhead (Malahat Floating) LNG; Classification of Gases under the International Maritime Dangerous Goods system; risks if there is an LNG tanker spill; hazard zones that should be applicable around the Malahat LNG route; LNG hazard zones in the Salish Sea; security of LNG tankers, e.g. Boston harbour; critique of BC regulations draft of July 2014. In closing, Mr. Finn requested that the Capital Regional District Board request the Provincial and Federal Governments to implement world-leading safety and environmental standards for the siting and operation of LNG facilities, suggesting that this be done: prior to the granting of Environmental Assessment certificates to such facilities; and prior to the
adoption of international trade agreements with investor-state provisions which would deter post-approval implementation of these standards. The delegation provided a written submission, on file at Legislative and Information Services.

16-410  Paul Elworthy, CRD Water Advisory Committee, re Leech Water Supply Area

Paul Elworthy spoke in favour of restricting public access to the Leech Water Supply Area on the basis of the majority public input received, history of trespass onto private lands in the area, illegal vehicle access and camping, and wildfire risks. In concluding, he noted that the long-term benefits of security of this water supply area should overcome the recreational opportunities of a few. Mr. Elworthy provided an email from Dr. R. Stanwick, Chief Medical Health Officer & Drinking Water Officer, Vancouver Island Health Authority supporting restricted access.

16-411  Robert McConnell, Victoria Rods & Reels, re Leech Water Supply Area

Robert McConnell spoke in favour of allowing public access to the Leech Water Supply Area. He suggested that the Timberwest model, access by agreement, is a better model to follow. He asked that associations such as the Rods and Reels be treated as constituents and not as a threat.

16-412  Rick Illi, CUPE Local 1978, re Integrated Waste Management Options

Rick Illi spoke in favour of publically-owned and operated wastewater treatment facilities as well as facilities that will deal with integrated resource management. He expressed concern regarding the Integrated Waste Management Task Force’s report which suggested looking at other procurement options in order to enhance innovation, which could lead to the further expansion of a P3 model in the management of integrated wastes. He urged the Board to establish clear procurement policies that eliminate further privatization of public services. The delegation provided a written submission, on file at Legislative and Information Services.

16-413  Late Request: Zac Doeding re RGS Water Servicing Policy

Speaking to Agenda Item 8. 16-335, Zac Doeding requested that the Board not re-visit the decision on the extension of water services and instead send the draft Regional Growth Strategy out for comment. The delegation provided a written submission, on file at Legislative and Information Services.

Late Request: Laurel Collins re Improved Marine Safety Regulations in Salish Sea

Laurel Collins spoke in favour of the Notice of Motion in Agenda Item 8. 16-367, and the need to protect coastal communities and for stronger safety regulations for LNG transport.

5. REPORTS OF COMMITTEES

Core Area Liquid Waste Management Committee (March 9, 2016)
Options Analysis and Recommendation - Core Area Wastewater Treatment and Resource Recovery

A revised recommendation from the Committee was distributed at the meeting.

MOVED by Director Helps, SECONDED by Director Atwell,
1. That a conditional Liquid Waste Management Plan Amendment No. 10 be prepared as a basis for approval and submitted to the Minister of Environment with the following elements:
   a) A secondary, advanced (tertiary) or equivalent to advanced (tertiary) wastewater treatment plant at Clover Point, servicing all flows currently directed to Clover Point, up to 2030 (see Note 1 below), and;
   b) A secondary, advanced (tertiary) or equivalent to advanced (tertiary) wastewater treatment plant at McLoughlin Point or Macaulay Plain, servicing all flows currently directed to Macaulay Point outfall, up to 2030, and;
   c) Provision for a Westside wastewater treatment plant for future growth, at a location to be determined; and
   d) Hartland Landfill as the preferred site for biosolids processing with technology to be confirmed by the process below.
2. That included within the Plan amendment is a process under which the CRD would invite the submission of project concepts to achieve the goals of the Project Charter. The submissions would include sufficient detail to allow for meaningful evaluation of the project concepts against each other and against the base case, including details regarding sites, technology, a feasibility assessment, demonstration of compatibility with current infrastructure, compliance with provincial and federal requirements and demonstration of significant fiscal advantages and/or environmental advantages over the base case, including financial backing.

   The submissions could demonstrate solutions for:
   a) A Rock Bay/Westside combination.
   b) A secondary, advanced (tertiary) or equivalent to advanced (tertiary) wastewater plant at either McLoughlin Point or Macaulay Point as an alternative to Rock Bay, an advanced (tertiary) wastewater plant at Clover Point, provision for an advanced (tertiary) plant on the Westside.
   c) The treatment of biosolids at Hartland, possibly in combination with food scraps, municipal solid waste and wood waste.
   d) Other feasible alternatives that demonstrate compatibility with current infrastructure, compliance with provincial and federal requirements and demonstration of significant fiscal advantages and/or environmental advantages and financial backing.
3. That the preferred approach be formally communicated to all senior levels of government involved in funding the project, including the Province, 3P Canada and Infrastructure Canada.
4. That a referral be made to both Esquimalt and Victoria Councils seeking approval in principle of the proposed sites as locations for tertiary wastewater treatment plants.
5. That staff be directed to continue working with Colwood, Songhees and Esquimalt First Nations on issues related to purchased capacity and cost considerations for those system users and report back to the Core Area Liquid Waste Management Committee.

Note 1: Facility footprint to accommodate 2045 flows with tender process to incent longest term capacity.

Integrated Waste Management Task Force

16-369 Integrated Resource Management Options for the Capital Regional
District

As Chair of the Task Force, Director Derman reviewed the report and
recommendations.

MOVED by Director Derman, SECONDED by Director Ranns,
1) That, subject to future approval of costs involved, the Board authorize the
establishment of an appropriate structure to attract, evaluate and potentially
help procure IRM approaches to managing CRD waste streams including:
   a) A select committee comprised of the Board Chair, the Chair of the
   Environment Committee, the Chair of the Core Area Liquid Waste Committee,
   the Chair of the Finance Committee and, during the process of establishing a
b) That the committee would provide political oversight on behalf of the CRD board. Specifically this would include recommending appointments to the Evaluation Team, providing oversight, along with staff, to the creation of RFEI documents and directing recommendations to the Board.

c) An Evaluation Team comprised of a Project Lead and members with expertise in: procurement of innovation, liquid waste (innovative design and implementation), solid waste to resource technologies, financial analysis of complex business cases, analysis of greenhouse gas (GHG) reduction claims and legal advice.

d) The Evaluation Team would be mandated to provide advice on creation and implementation of high level requests for expressions of interest (RFEI). On the solid waste side the team would also evaluate RFEI submissions, provide a recommended short list and, through a process of competitive dialogue, work with those on the short list to shape a final proposed project. On the liquid side, the team would also evaluate RFEI submissions, provide a recommended short list and evaluate submissions on the short list against a base case provided by the Core Area Liquid Waste committee. The team would also manage an RFEI for a solid waste to resource pilot project, would recommend a short list of respondents to be evaluated in greater detail and would recommend a provider for the pilot program. All Evaluation Team reports would be directed to staff who would make recommendations to the select committee and through that committee to the board.

2) That the Board authorize the creation of RFEI documents for:

a) a pilot waste to resource program for biosolids, kitchen scraps and municipal solid waste (MSW),

b) a full region wide waste to resource program for biosolids, kitchen scraps and MSW, and

c) submission of conceptual designs for liquid waste treatment designed to be evaluated against a base case established by the Core Area Liquid Waste Management committee.

In the ensuing discussion, concern was raised about the proposed procurement process, and the need to ensure procurement meets CRD policies and procedures. Also, that the report lacked staff review.

MOVED by Director Isitt, SECONDED by Director Brownoff,
That the motion be referred to staff, inviting comment to inform the Board's consideration of the Task Force recommendations at the next Board meeting.

The Board moved to closed session at 3:58 pm and rose and reported from the closed session at 4:04 pm.

16-335

Motion to Recommend to the Board to Re-Examine a Previous Decision

Chair Desjardins reported that after considering legal advice, the Board is unable to implement the following motion of October 23, 2015 regarding a 2/3 majority requirement: To protect the access to water in a balanced manner and respect existing OCPs, that any changes to a Regional Context Statement or a Juan de Fuca Official Community Plan would require a 2/3 majority vote.

MOVED by Director Finall, SECONDED by Director Blackwell,
That the following Board decision of October 23, 2015 regarding the extension of water services be re-affirmed:
A. That staff be directed to prepare a servicing policy for the updated Regional Growth Strategy (RGS) that would apply to both municipalities and the CRD that is silent with respect to the expansion or provision of water services. The policy would thereby focus exclusively on liquid waste systems as the servicing tool for managing growth and would read as follows:
i. Restrict extension and/or expansion of regional/municipal liquid waste systems
outside the Growth Containment Area unless there is a pressing public health, public safety or environmental issue for existing development.

CARRIED

Draft Update to the 2003 Regional Growth Strategy

The following issues were discussed regarding the draft Regional Growth Strategy (RGS):
- absence of other strategies such as food security, which will be included in departmental work plans
- how climate change and adaptation will be incorporated
- further Board review of whole document versus informal referral now

MOVED by Director Finall, SECONDED by Director Hicks,
1) That municipal councils and the Juan de Fuca Land Use Committee be invited to provide comment on the document through an informal referral, by May 18, 2016;
2) That staff be directed to report back to the PTPSC with a summary of municipal council input; and
3) That following a decision on the final content of the 2016 RGS document, staff be directed to consider integration of Regional Sustainability Strategy content not captured in the draft 2016 RGS in subsidiary CRD documents as updates occur through the regular departmental work planning process.

MOVED by Director Finall, SECONDED by Director Windsor,
That 2) be amended to delete "PTPSC" and replace it with "Committee of the Whole".
CARRIED

MOVED by Director Finall, SECONDED by Director Isitt,
That 2) be further amended to add "that staff be directed to consider integrating a food systems strategy section in the 2016 RGS itself."

New Building Canada - Small Communities Fund (NBC-SCF):
Applications for Round 2, 2016

MOVED by Director McIntyre, SECONDED by Director Hicks,
That the Board endorse three resolutions to enable the Capital Regional District’s participation in the New Building Canada - Small Communities Fund grant program closing on April 28, 2016:

a) That the Capital Regional District (CRD) Board endorse a New Building Canada - Small Community Fund grant application for funding to cover up to a maximum of two-thirds of the grant eligible cost of the Ganges Wastewater System Renewal Project and commit the CRD to funding its share of the grant-eligible costs and all the ineligible costs. Loan authorization Bylaw No. 4007 provides access to the requisite funding.

b) That the Capital Regional District (CRD) Board endorse a New Building Canada - Small Community Fund grant application for funding to cover up to a maximum of two-thirds of the grant eligible cost of the Juan de Fuca - Kemp Lake Water Main Extension Project and commit to completing, within six months of a grant award, an alternative approval process to seek elector consent for service establishment and loan authorization bylaws required to finance the CRD’s share of the grant-eligible costs and all the ineligible costs.

c) That the Capital Regional District (CRD) Board endorse a New Building Canada - Small Community Fund grant application for funding to cover up to a maximum of two-thirds of the grant eligible cost of the Magic Lake Estates Wastewater Renewal Project and commit the CRD to funding its share of the grant-eligible costs and all the ineligible costs. Loan authorization Bylaw No. 4048 will provide access to the requisite funding pending favorable outcome of its Alternative Approval Process being conducted in the spring of 2016.

8. MOTIONS WITH NOTICE

16-357  AVICC Resolution regarding Island Corridor Foundation - Director
Blackwell

Director Isitt recused himself at 5:38 pm as the CRD Board Director on the Island Corridor Foundation Board of Directors.

MOVED by Director Blackwell, SECONDED by Director Seaton,
WHEREAS the Island Corridor Foundation (ICF) was established in 2003 to oversee the management and operations of the E&N rail Line which has a direct impact on many municipalities on Vancouver Island but these same municipalities have no direct representation on the ICF Board.
AND WHEREAS although the rail service has not been operating for the past several years, and the services provided to municipalities along the corridor by the Management of ICF has not met the expected standard, the costs to support the ICF continue to be significant.
THEREFORE BE IT RESOLVED that the AVICC work with impacted municipalities, Regional Districts and the ICF Board to conduct a financial and governance review of the ICF;
AND
That the review include the consideration of options to provide a cost effective transportation alternative should the costs of resurrecting rail prove too costly.
