## **2024 Budget**

### **SGL Grants in Aid**

#### **EAC Review**

OCTOBER 2023

**Service:** 1.117 SGI Grants in Aid

**Committee:** Electoral Area

**DEFINITION:**

To make grants-in-aid to any organization deemed to be contributing to the general interest and advantage of the electoral area (Letters Patent - March 24, 1977; April 17, 1985).

**SERVICE DESCRIPTION:**

Provide Grants to support organizations that are outside the existing services in an electoral area. Each electoral area budgets their anticipated requirements separately.

**PARTICIPATION:**

Southern Gulf Islands Electoral Area.

**MAXIMUM LEVY:**

Greater of \$129,912 or \$0.05 / \$1,000 on basis of converted hospital assessed value of land and improvements. To a maximum of \$268,244.

**COMMITTEE:**

Electoral Areas Committee

**FUNDING:**

### **Galiano Island Community Use Building**

#### **EAC Review**

OCTOBER 2023

**Service:**    **1.137    Galiano Island Community Use Building**

**Committee: Electoral Area**

**DEFINITION:**

To establish a service for the purpose of constructing and operating a building on Galiano Island that will be used for library, community and local government purposes by Bylaw No. 3792 adopted Dec 2011.

**SERVICE DESCRIPTION:**

This service provides funding to operate, build and debt service a public use building on Galiano Island. It was started after a successful referendum in 2011. This building is home to the local library run by the Galiano Island Library Society and has a room for public use.

**PARTICIPATION:**

A portion of the Electoral Area of Southern Gulf Islands.

**MAXIMUM LEVY:**

Greater of \$100,100 or \$0.165 / \$1,000 of actual assessed value of land and improvements. To a maximum of \$195,649.

**MAXIMUM CAPITAL DEBT:**

|                         |                                 |                                |
|-------------------------|---------------------------------|--------------------------------|

### Assumptions/Background:

New Building. Transfers to reserve should provide for future capital repairs and improvements as well as replacement in long term

\* Interest is included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

### **SGL Regional Library**

#### **EAC Review**

OCTOBER 2023

**Service:**     **1.138   SGI Regional Library**

**Committee: Electoral Area**

**DEFINITION:**

To establish a service for the purpose of contributing to the cost of maintaining, equipping and operating the Southern Gulf Islands Library service by Bylaw No. 2880 adopted July 2001.

**SERVICE DESCRIPTION:**

This is a contribution service to provide funding and advisory support for the operation of the Pender Island Public Library and other 4 reading centres on the Southern Gulf Islands. Each centre is managed by volunteers and each has representation on the commission. Funding is provided under a 5-year agreement.

**PARTICIPATION:**

The Electoral Area of Southern Gulf Islands.

**MAXIMUM LEVY:**

Greater of \$165,391 or \$0.07 / \$1,000 of actual assessed value of land and improvements. To a maximum of \$368,835.

**COMMISSION:**

Southern Gulf Islands Public Library Commission (Bylaw No. 3523, April 9, 2008).

### **Gossip Island Electric Power Supply**

#### **EAC Review**

OCTOBER 2023

**Service:**    **1.170    Gossip Island Electric Power Supply**

**Committee: Electoral Area**

**DEFINITION:**

A service established to provide capital financing for the supply and installation of underwater cabling from Galiano Island to Gossip Island (Bylaw No. 3578 - June 2009).

**SERVICE DESCRIPTION:**

This is strictly a financial service by which the CRD has agreed to borrow \$770,000 to fund the replacement of electric cabling to Gossip Island, off Galiano Island. CRD Corporate Services Department, Finance Division manages the service which includes annual debt charges and the related recovery from Gossip Island taxpayers. The service was started in June 2009 after a petition by a majority of residents. Electrical cabling to the island is provided by BC Hydro. The Gossip Island Electrification Society provides liaison with BC Hydro on electrical cabling matters.

**PARTICIPATION:**

56 of 66 parcels on Gossip Island

**MAXIMUM LEVY:**

Greater of \$85,310 or \$3.76 / \$1,000 of actual assessed value of land and improvements.

**MAXIMUM CAPITAL DEBT:**

|                         |                                  |                  |

### **SGI Small Craft Harbour Facilities**

#### **EAC Review**

OCTOBER 2023

**Service:**     **1.235**     **SGI Small Craft Harbour Facilities**

**Committee: Electoral Area**

**DEFINITION:**

A local service, established by Bylaw No. 2614, October 6, 1998, in the Southern Gulf Islands Electoral Area to establish, acquire and operate a service of small craft harbour facilities.

**SERVICE DESCRIPTION:**

The SGI Small Craft Harbour Facilities service funds and operates 12 small craft harbour facilities in the Southern Gulf Islands. The docks are located on Mayne, Galiano, North and South Pender, Saturna, Piers and Vancouver Islands. The service was undertaken by the CRD upon the Federal Government of Canada's divestiture of ownership and operation of small craft harbour facilities. The Federal Government provided 1-time funding of \$1.6 million to the CRD for dock rehabilitation. The service is administered by the Southern Gulf Islands Harbour Commission.

**MAXIMUM LEVY:**

Greater of **\$112,878** or **\$0.10 / \$1,000** of actual assessed value of land and improvements. To a maximum of **\$536,488**.

**COMMISSION:**

Southern Gulf Islands Harbour Commission as established by Bylaw No. 2972 in 2002.

**FUNDING:**

Parcel Tax  
Moorage Fees

|--------------------------|--|------------------------------|--------------|------------------------------------|--|
| <b>Project Number</b>    | 19-02  | <b>Capital Project Title</b> | Retreat Cove | <b>Capital Project Description</b> | Upgrades to the Retreat Cove Dock Facility to maintain level of service. |
| <b>Project Rationale</b> | This project includes works to maintain the current level of service as recommended in the Moffatt & Nichol Summary Report for Southern Gulf Islands Harbour Commission (SGIHC) Facilities December 11, 2015 and Stantec's 2018 top-side inspection. Recommended works include repairs to the approach piles, and repairs to the floats. |                              |              |                                    |  |

|                          |  |                              |            |                                    |  |
|--------------------------|--|------------------------------|------------|------------------------------------|--|
| <b>Project Number</b>    | 19-03  | <b>Capital Project Title</b> | Horton Bay | <b>Capital Project Description</b> | Rehabilitation of the Horton Bay dock after including coordination with WCMRC. |
| <b>Project Rationale</b> | This project is for decommissioning of the Horton Bay facility after construction of the Anson Road dock. Funds are required to carry out the required archeological investigation and retain a contractor to remove the infrastructure. |                              |            |                                    |  |

|                          |   |                              |                                       |                                    |   |
|--------------------------|---|------------------------------|---------------------------------------|------------------------------------|---|
| <b>Project Number</b>    | 21-03   | <b>Capital Project Title</b> | ANNUAL PROVISIONAL: Dock Improvements | <b>Capital Project Description</b> | An annual provisional fund is required to address unplanned dock safety issues. |
| <b>Project Rationale</b> | This project includes works to maintain the current level of service as recommended in Stantec's 2018 inspection. Recommended works include approach decking, bull rail, and hand rail repair and replacements, float and gangway repairs. Funds are required for staff to retain a contractor to carry out the works. In 2020 it was noted that float B had rotting frame indicating requirement to replace the float. |                              |                                       |                                    |   |

| <b>Project Number</b>    | 23-01  | <b>Capital Project Title</b> | Miners Bay Wharfhead Deck Resurfacing | <b>Capital Project Description</b> | Project to replace failing decking at Miners Bay which has been flagged as a safety |
| <b>Project Rationale</b> | This project includes works to maintain the current level of service as recommended in Stantec's 2018 inspection. Recommended works include approach decking, bull rail, and hand rail repair and replacements, float and gangway repairs. Funds are required for staff to retain a contractor to carry out the works. |                              |                                       |                                    |   |

## Reserve Schedule (Revised)

### Reserve Fund: 1.235 SGI Harbour Facilities - Capital Reserve Fund - Bylaw 2719

Surplus money from the operation of small craft harbour facilities services may be paid from time to time into the reserve fund.

## Reserve Cash Flow

# **CAPITAL REGIONAL DISTRICT**

## **2024 Budget**

### **Pender Fire Protection**

#### **EAC Review**

OCTOBER 2023

**Service:** 1.356 Pender Island Fire

Protection & Emergency Response Service

**Committee:** Electoral Area

**DEFINITION:**

A specified area established to provide fire protection and emergency response on a volunteer basis to Pender Islands. Local Service Bylaw No. 2050 (October 28, 1992). Amended by Bylaw No. 3015 (November 29, 2002) to increase the levy rate to \$1.87. Amended by Bylaw No. 3283 to change the name and geographical area to include both North and South Pender Islands to create one fire service area known as the Pender Islands Fire Protection & Emergency Response Service. This Amendment also decreased the levy to \$0.92.

**PARTICIPATION:**

On all lands and improvements on the basis of taxable hospital district assessments. Local Service Area #18 - J(764).

**MAXIMUM LEVY:**

Bylaw No. 3994 states "Greater of \$918,000 or \$0.998 / \$1,000" to a maximum of \$2,023,829.

**FUNDING:**

Requisition

### Assumptions/Background:

Gradual increase in fund as per long term plan

\*Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

## **2024 Budget**

### **Emergency Program (SGI)**

#### **EAC Review**

OCTOBER 2023

**Service:**    **1.373    SGI Emergency Program**

**Committee: Electoral Area**

**DEFINITION:**

To establish and maintain an emergency management organization to develop and implement emergency plans and other preparedness responses and recovery measures for emergencies and disasters for the Electoral Area of Southern Gulf Islands.

Establishment Bylaw No. 2656 (November, 1998).

Order in Council #287 provides the CRD with the same powers as a local authority under the Emergency Program Act.

**SERVICE DESCRIPTION:**

Governed by Bylaw #3445, this service provides planning and management of an emergency response plan for the Southern Gulf Islands Electoral Area. The service was started in 1998 in response to the *Provincial Emergency Program Act*. The emergency response plan involves response to, and recovery from, a community disaster or emergency.

The Planning and Protective Services department has administrative responsibility for the service and the Manager of Electoral Area Fire and Emergency Programs has immediate operational responsibility.

The Southern Gulf Islands Emergency Management Commission (SGIEMC) advises the service.

**PARTICIPATION:**

The service and participating area shall be coterminous with the Electoral Area of Southern Gulf Islands.

**FUNDING:**

Requisition

**1.373 - Emergency Program (SGI)**

#### Assumptions/Backgrounds:

Require sufficient funding to meet long range capital plan

\*Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

## 5 YEAR CAPITAL PLAN

2024 - 2028

Service #:

1.475

Service Name:

### Mayne Island Community Parks

[illegible]

Service:

1.475

Mayne Island Community Parks

Project Number

25-01

Capital Project Title

Dinner Bay well pumps

Capital Project Description

Replace two well pumps

Project Rationale

The existing pump house is old and needs to be rebuilt to ensure adequate insulation and protection of the pumps for the well.

Project Number

25-02

Capital Project Title

Kippen Road staircase

Capital Project Description

Replace heavy wooden staircase with lighter metal staircase

Project Rationale

The existing pumps are getting old and should be replaced when the pump house is rebuilt as part of the sustainable service delivery plan.

Project Number

24-02

Capital Project Title

Miners Bay parking wall

Capital Project Description

Instal a retaining wall in front of the street parking

Project Rationale

Project Number

26-01

Capital Project Title

Adachi Pavilion kitchen

Capital Project Description

Replace fridges and stove

Project Rationale

## Reserve Schedule

### Reserve Fund: 1.475 Mayne Comm. Parks & Rec - Capital Reserve Fund - Bylaw 2866

Surplus money from the operation of parks, recreational and related community programs and facilities may be paid from time to time into this reserve fund.

## Reserve Cash Flow

## **2024 Budget**

### **Storm Water Quality Management (SGI)**

#### **EAC Review**

OCTOBER 2023

**Service:** 1.533 SGI Stormwater Quality Management

**Committee:** Electoral Area Services

**DEFINITION:**

To provide for the control of pollution in stormwater runoff from land. In Bylaw No. 2452 (adopted February, 1997 for the EA of Southern Gulf Islands) "stormwater runoff" includes seepage, overland flow and stormwater runoff within ditches, streams, rivers, ponds, lakes and other watercourses.

**SERVICE DESCRIPTION:**

The service provides a stormwater quality program in the Southern Gulf Islands Electoral Area to coordinate and provide information for management of stormwater quality and surface water resources. The program identifies levels of contaminants in stormwater discharges and prioritizes the level of public health and environmental concern posed by the discharges and then works to reduce/eliminate the contaminants.

**PARTICIPATION:**

The Electoral Area of the Southern Gulf Islands.

**MAXIMUM LEVY:**

None stated

**FUNDING:**

# **CAPITAL REGIONAL DISTRICT**

## **2024 Budget**

### **Magic Lake Water**

#### **EAC Review**

OCTOBER 2023

**Service:**     **2.630 Magic Lake Estates Water**

**Committee: Electoral Area**

**DEFINITION:**

LSA -1 To provide and operate water supply and distribution facilities for the Magic Lake Estates Water System.  
Specified Area on North Pender Island. Bylaw No. 1874 (June 11, 1991).

**PARTICIPATION:**

Local Service Area # 1 - D(764) LSA #9.

**MAXIMUM LEVY:**

Greater of \$160,000 or \$3.50 / \$1,000 of actual assessed value of land and improvements. To a maximum of \$3,080,195.

**COMMITTEE:**

Magic Lake Estates Water & Sewer Committee established by Bylaw No. 1870 (November 28, 1990).

**FUNDING:**

Any deficiencies after user charge and/or frontage tax or parcel tax to be levied on taxable school assessments.

**User Charge:**

Annual charge per single family equivalency unit connected to the system.

The consumption charge for water will be the total volume of water metered to the water service connections, measured in cubic meters at the following rate:

- Greater than 50 cubic metres - \$0.50 / cubic metre
- Greater than 80 cubic metres - \$1.00 / cubic metre

**Parcel Tax:**

LSA-1 Annual charge only on properties capable of being connected to the system.

**Turn on/Turn Off Fee:**

\$0 during normal working hours; \$25 outside of normal working hours

**Connection Charges:**

Actual Engineering and Construction costs, plus 15% Administration costs. The minimum charge is \$500

**RESERVE FUND:**

Magic Lake Estates - Water System Capital Reserve Fund. Bylaw No. 1498

Magic Lake Estates - Water System Operating Reserve Fund. Bylaw No. 4144

Service: 2.630 Magic Lake Estates Water (Pender)

|                   |   |                       |                                 |                             |  |
|-------------------|---|-----------------------|---------------------------------|-----------------------------|--|
| Project Number    | 21-04   | Capital Project Title | Buck Lake Dam Repairs - Phase 1 | Capital Project Description | Conduct additional inspections, minor repairs, and performance analysis highlighted in the 2019 Dam Safety Review. Phase 2 dam improvements to be completed in the following five years. |
| Project Rationale | Resulting from the Hatch 2019 Dam Safety Review, funds are required to conduct additional inspections, minor dam repairs, and performance analysis. Phase 2 dam improvements to be completed in the following five years. |                       |                                 |                             |  |

|                   |  |                       |                     |                             |  |
|-------------------|--|-----------------------|---------------------|-----------------------------|--|
| Project Number    | 22-02  | Capital Project Title | EV Charging Station | Capital Project Description | Construct a new EV Charging Station at the Water Treatment Plant, project to be split across MLE Water, Waste Water, and a possible grant. |
| Project Rationale | Construct a new EV Charging station at the water treatment plan, proeject is to be partially funded through a cost matching grant and the MLE Waste Water Service. |                       |                     |                             |  |

|                   |  |                       |                                    |                             |  |
|-------------------|--|-----------------------|------------------------------------|-----------------------------|--|
| Project Number    | 23-01  | Capital Project Title | Decommission Magic Lake old Syphon | Capital Project Description | The old syphon is still in place and will require decommissioning to ensure dam performance. |
| Project Rationale | The old syphon at Magic Lake is no longer required, and does not function. Funds are required to remove the overland and underwater pipe, and decommission the underground pipe. |                       |                                    |                             |  |

|                   |  |                       |                                     |                             |   |
|-------------------|--|-----------------------|-------------------------------------|-----------------------------|---|
| Project Number    | 23-02  | Capital Project Title | ISOPAC Permanent Handling & Storage | Capital Project Description | Permenant solution to reduce drum waste and reduce handing is required. |
| Project Rationale | Safety improvements to reduce Operator injury when handling the ISOPAC drums were carried out in 2019-2020. A permanent solution to reduce the use of drums which cannot be readily disposed of, and reduce handling of the product is proposed in 2023. |                       |                                     |                             |   |

|                   |  |                       |                                 |                             |   |
|-------------------|--|-----------------------|---------------------------------|-----------------------------|---|
| Project Number    | 26-01  | Capital Project Title | Buck Lake Dam Repairs - Phase 2 | Capital Project Description | Conduct additional geotechnical investigations, seepage analysis, monitoring, tree removal and the next DSR (2029). |
| Project Rationale | Resulting from the Hatch 2019 Dam Safety Review, funds are required to conduct additional geotechnical investigations, seepage analysis and monitoring, tree removal, and the next Dam Safety Review (2029). |                       |                                 |                             |   |

Service: 2.640 Lyall Harbour Boot Cove Water (Saturna)

|                |       |                       |                              |                             |   |
|----------------|-------|-----------------------|------------------------------|-----------------------------|---|
| Project Number | 19-01 | Capital Project Title | Air Valve Replacement - Ph 2 | Capital Project Description | Replace aging air valves that are a safety concern. |
|----------------|-------|-----------------------|------------------------------|-----------------------------|---|

Project Rationale The air valves are 35 years old and are corroded, giving rise to safety concerns.

|                |       |                       |                                 |                             |  |
|----------------|-------|-----------------------|---------------------------------|-----------------------------|--|
| Project Number | 19-02 | Capital Project Title | PRV Bypass Assembly Replacement | Capital Project Description | Construct bypasses on the East Point, Narvaez and Boot Cove PRV stations to maintain system operation while the PRV's undergo maintenance. |
|----------------|-------|-----------------------|---------------------------------|-----------------------------|--|

Project Rationale The inlet and outlet piping at the East Point, Narvaez and Boot Cove PRV stations are very corroded and there is no way to isolate the stations to replace or maintain the pressure reducing valves. It is proposed that new inlet and outlet piping be installed with 100mm gate valves and bypass piping so that customers are not without water when PRV's are being serviced.

|                |       |                       |                                 |                             |  |
|----------------|-------|-----------------------|---------------------------------|-----------------------------|--|
| Project Number | 19-03 | Capital Project Title | Standpipe and Valve Replacement | Capital Project Description | Replace the standpipe valves at 119 and 155 East Point Road that are seized and inoperable |
|----------------|-------|-----------------------|---------------------------------|-----------------------------|--|

Project Rationale The standpipe valves at 119 and 155 East Point Road are seized and inoperable. Therefore, the operators cannot use them for flushing or draining of the mains. It is proposed the valves and corroded 50mm supply line to the standpipe be replaced. The scope of work and material pricing was re-evaluated in 2016. It was determined that the budget needed to be increased from \$5,000 to \$8,000 to accommodate the required works.

|                |       |                       |                              |                             |   |
|----------------|-------|-----------------------|------------------------------|-----------------------------|---|
| Project Number | 19-04 | Capital Project Title | Alternative Approval Process | Capital Project Description | Conduct public consultation to inform strategies for a referendum (AAP) to borrow necessary future capital funds. If the grant is not successful. |
|----------------|-------|-----------------------|------------------------------|-----------------------------|---|

Project Rationale Future required projects to maintain public safety and level of service require funding in excess of current projected reserve balance. Future funding will be for improvements the Water Treatment Plant to increase reliability and optimize for improved operations, conducting a regulatory requirement for a dam safety review and construct a larger supply line to the storage tank.Funding is required to undertake public consultation to inform borrow strategies and conduct a referendum.

Service: 2.640 Lyall Harbour Boot Cove Water (Saturna)

Project Number 19-05

Capital Project Title Autoflush Installation

Capital Project Description

Install 3 autoflushes within the water distribution system to maintain distribution water quality.

Project Rationale Three water mains require frequent flushing to maintain disinfectant residuals and water quality. Flushing requires operator time which can be utilized conducting other maintenance tasks. Funds are required to construct 3 autoflushes.

Project Number 20-02

Capital Project Title

Raw Water Turbidity Meter

Capital Project Description

Supply and install a new turbidity meter in the raw water line to aid in operation of the WTP.

Project Rationale Install a new turbidity meter in the raw water line to aid in operation of the WTP.

Project Number 21-01

Capital Project Title

Source Water Viability Study

Capital Project Description

Study to determine vulnerability of the source water and its viability and assess recently acquired well.

Project Rationale Study to determine the medium to long term vulnerability of the source water (Money Lake) and its viability as a water source (quantity and quality) for the LHBC system in light of pressures such as projected demand.

Project Number 22-01

Capital Project Title Install Larger Supply Line to Tank

Capital Project Description

Construct a larger supply line to the tank to improve system reliability and operation.

Project Rationale The supply line to the tank is undersized, installation of a larger supply line will improve operation. Funding is required to construct a larger supply line to the tank.

### Assumptions/Background:

Set level of transfers in order to avoid spikes in requisition resulting from unforeseen breakdowns in water infrastructure

\* Interest is included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

## Reserve Schedule

### Reserve Fund: 2.640 Lyall Harbour Water System - Capital Reserve Fund - Bylaw 1785

Surplus money from the operation of the water system may be paid from time to time into the reserve fund.

## Reserve Cash Flow

Skana Water (Mayne)

|                       |       |                              |                              |                                    |   |
|-----------------------|-------|------------------------------|------------------------------|------------------------------------|---|
| <b>Project Number</b> | 17-03 | <b>Capital Project Title</b> | Alternative Approval Process | <b>Capital Project Description</b> | Conduct an alternative approval process (AAP) to seek elector assent to borrow funds for storage tank replacement and well protection upgrades. |
|-----------------------|-------|------------------------------|------------------------------|------------------------------------|---|

**Project Rationale** A loan will be required to fund the storage tank replacement any other capital work which will not be included under the capital reserve fund. The proposed loan will required public engagement and a referendum.

|                       |       |                              |                 |                                    |  |
|-----------------------|-------|------------------------------|-----------------|------------------------------------|--|
| <b>Project Number</b> | 17-04 | <b>Capital Project Title</b> | Well #8 Upgrade | <b>Capital Project Description</b> | Conduct well improvements including new well liner, replacement of well seal and investigations into future SCADA automation; relocate first customer service line to achieve proper CT. |
|-----------------------|-------|------------------------------|-----------------|------------------------------------|--|

**Project Rationale** A recent inspection of Well #8 identified a number of deficiencies. Recommended improvements include the installation of new well liner, replacement of the well seal, and other associated minor improvements to protect it from surface runoff.

|                       |       |                              |                          |                                    |   |
|-----------------------|-------|------------------------------|--------------------------|------------------------------------|---|
| <b>Project Number</b> | 18-01 | <b>Capital Project Title</b> | Storage Tank Replacement | <b>Capital Project Description</b> | Replace the existing storage tanks subject to options assessment. |
|-----------------------|-------|------------------------------|--------------------------|------------------------------------|---|

**Project Rationale** The existing storage tanks are at the end of their design life and do not meet seismic requirements. It is proposed to replace the existing tanks with a bolted steel tank.

|                       |       |                              |                      |                                    |  |
|-----------------------|-------|------------------------------|----------------------|------------------------------------|--|
| <b>Project Number</b> | 20-02 | <b>Capital Project Title</b> | Well Decommissioning | <b>Capital Project Description</b> | Numerous wells are not in use and are required to be decommissioned as per MoE requirements. |
|-----------------------|-------|------------------------------|----------------------|------------------------------------|--|

**Project Rationale** Numerous wells are not in use and are required to be decommissioned as per MoE requirements.

Project Number

23-01

Capital Project Title

Well Protection Upgrades

Capital Project Description

Carry out well protection upgrades such as signage, shock chlorination of Wells #8 and #13, assess well proximity to septic fields.

Project Rationale

Funds are required to carry out well protection upgrades such as signage, shock chlorination of Wells #8 and #13, assess well proximity to septic fields.

Project Number

24-01

Capital Project Title

Source Water Surveillance

Capital Project Description

Design and install new well surveillance and water monitoring hardware to record and predict water issues.

Project Rationale

Design and install new well surveillance and water monitoring hardware to record and predict water issues.

Project Number

24-02

Capital Project Title

Storage Tank Options Assessment

Capital Project Description

Assess material options and cost estimate for storage tank replacements.

Project Rationale

Initial budget to revisit previous correspondence regarding storage tank replacements, conduct options assessment on tank replacement options and prepare an updated Class D cost estimate.

## Reserve Schedule

### Reserve Fund: Surfside Water - Operating Reserve Fund Bylaw 4144

The Operating Reserve Fund (ORF) is used to undertake the cyclical maintenance activities, to fund the procurement of equipment and supplies that typically do not occur on an annual basis and also to be used for emergency unplanned repairs. Operating surplus from time to time can be transferred to ORF.

Transfer as much as operating budget will allow.

\* Interest is included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

# **CAPITAL REGIONAL DISTRICT**

## **2024 Budget**

### **Magic Lake Estates Sewer**

#### **EAC Review**

OCTOBER 2023

**Service:**     **3.830 Magic Lake Sewer Utility (Pender)**

**Committee: Electoral Area**

**DEFINITION:**

To provide, operate and maintain sewage collection and disposal facilities for the Magic Lake Estates Sewerage System Specified Area on North Pender Island (Local Service Establishment Bylaw No. 1873 - June 26, 1991).

**PARTICIPATION:**

Specified Area - B(764) SA#8

**MAXIMUM LEVY:**

Greater of \$200,000 or \$7.10 / \$1,000 on actual assessed value of land and improvements. To a maximum of \$3,789,878.

**MAXIMUM CAPITAL DEBT:**

AUTHORIZED:     LA Bylaw No. 4048 (Dec 2015). Fall Borrowing \$1,530,000 for 10 years

**COMMITTEE:**

Magic Lake Estates Water & Sewer Committee established by Bylaw No. 1870 (November 28, 1990).

**FUNDING:**

**User Charge:**             Per single family equivalency unit to connected properties only

**Parcel Tax:**             Only on properties capable of being connected to system.

**Connection Charge:**     Actual Engineering and Construction costs, plus 15% Administration costs. The minimum charge is \$500.

**RESERVE FUND:**

Magic Lake Estates sewage system capital reserve fund (Dec 17, 1986). Bylaw No. 1497.

## Reserve Schedule

### Reserve Fund: 3.830 Magic Lake Sewer System - Operating Reserve Fund - Bylaw 4144

Reserve fund used for: unforeseen operational repairs and maintenance; infrequent maintenance activities such as treatment facility tankage draining/cleaning/inspection etc.

## Reserve Cash Flow

**REPORT TO CORE AREA LIQUID WASTE MANAGEMENT COMMITTEE  
MEETING OF WEDNESDAY, OCTOBER 11, 2023**

---

**SUBJECT**      **2024 Core Area Liquid Waste Management Service Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the draft 2024 Core Area Liquid Waste Management Service (CALWM) budget, highlighting the changes from the 2023 budget and the proposed 2024 budget figures. The report generally follows the information provided in the attached draft budget document (Appendix A).

**BACKGROUND**

The 2024 CALWM budget has been prepared for the Core Area Liquid Waste Management Committee's (the Committee) consideration. The Committee will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole in October. The draft 2024 budget has been prepared considering the CRD Board's 2024 Service and Financial Planning Guidelines, which include identifying opportunities to realign or reallocate resources and seek potential efficiencies between departments and services, reviewing of service levels and adjustments related to regulatory compliance, and undertaking infrastructure improvements to maintain service levels across the service area. The following sections of the report address the 2023 year end surplus and the 2024 operating and capital budgets.

**2023 Year End Financial Projections**

The Committee received a staff report at its June 28, 2023 meeting, proposing a financial plan amendment, which addressed the need for \$3 million (M) additional funding for additional landfill tipping fees for biosolids and for loss of revenue from the Residuals Treatment Facility (RTF) acceptance and processing of third-party liquid waste (sludge). This budget overage was funded from the service's operational reserves.

The 2023 total operating budget, after the June 28 amendment, was \$33.8M. Of this total budget, \$32.7M is operating costs, with \$1.1M contributions to reserves. The estimated year end variance is projected to be a surplus of \$0.2M or 0.5%. The following table lists variances by budget item:

| <b>Budget Item</b>                  | <b>Variance (\$)</b> |
|-------------------------------------|----------------------|
| Supplies - Chemicals & Other        | \$203,460            |
| Electricity & Utilities             | -\$365,962           |
| Other Costs                         | -\$22,163            |
| <b>Total Operating Expenditures</b> | <b>-\$184,665</b>    |
| Total Revenue                       | \$0                  |
| <b>Total Revenue</b>                | <b>\$0</b>           |
| Reserve Fund Transfers              | \$184,665            |

## Operating Budget

### Conveyance and Treatment Operations

The 2024 conveyance and treatment operations budget is \$33.4M which represents a 2.3% increase over the 2023 amended budget, however a 12.8% increase from the original 2023 budget. Costs increases identified within the 2023 financial plan amendment are expected to be ongoing in nature, so while mitigated through reserve in the prior year, now will be funded by requisition.

The most notable operating budget changes are as follows:

- **Supplies - Chemical & Other:** The unit price of process chemicals increased on average by over 20% in 2024. This increase in the price of chemicals was further compounded by an increase in consumption of carbon media to reduce plant odours. This resulted in an overall increase of \$0.9M over the 2023 budget.
- **Integrated Water Services Operations Allocations:** Increase resulting from collective agreement obligations and worker safety needs for the service. This led to a \$0.7M increase over the 2023 budget.
- **RTF Operations and Biotreatment and Disposal:** As defined in the contract with the RTF service provider there was a 6.9% increase in the RTF Operations Allocations. This was offset by an assumption that, in 2024, 50% of the biosolids will be diverted from landfill to an alternate beneficial use, resulting in a net decrease of \$1.1M.
- **Allocations – Overhead and Engineering:** increases as a result of inflation and support for corporate programs and technical support resulted in an increase of \$0.4M.
- **Utilities:** Other operational increases have been offset by a \$0.2M decrease in water and electricity costs.
- **To mitigate requisition impact,** \$0.4M will be transferred from the operating reserve with a plan to replenish the reserve level in subsequent years.

Odour control and process optimization continues to be an operational priority at the McLoughlin Point Wastewater Treatment Plant (MPWWTP). The budget includes a \$0.4M ongoing costs to support four Initiative Business Cases outlined in the Wastewater Community Needs Summary.

The production and beneficial use of biosolids continues to pose a challenge for managing the operating budget for the RTF. Long and short-term management plans to mitigate risk and continued optimization of the processes for this new facility should help us achieve a successful outcome.

### Environmental Services Programs Operations

There are several environmental programs that the CA Wastewater Service participates in as part of the liquid waste management function which are also critical to achieving the CRD's commitments under the Liquid Waste Management Plan (LWMP). These programs are summarized below. The requisition impact in 2024 for these programs are within or under the benchmark increase of 3.5%.

- **Regional Source Control Program** – The program is aimed at reducing contaminants that industries, institutions and households discharge into sanitary sewers. The program will be more important than ever in point-of-discharge contaminant reduction to protect the sewage collection and treatment systems, the quality of the treatment plant sludge and biosolids, the marine receiving environment, and public and worker health and safety.

- **Septage Disposal Program** – The program provides oversight for the contract between the CRD and SPL Wastewater Recovery Ltd. which provides septage receiving and processing services for the CRD.
- **Onsite Sewage System Management Program** – The program manages septic system maintenance through bylaw compliance monitoring and educational materials to reduce the impacts of failing septic systems on human health and the environment.
- **Core Area Liquid Waste Management Plan (LWMP) Administration** – The program manages the LWMP and oversees implementation of the commitments. The program also conducts all reporting and plan amendment preparation for the service.
- **Harbours Studies Program** – The program provides for the CRD to work in partnership with other stakeholders, including communities, local governments and senior governments, to protect and improve the environmental quality of Victoria and Esquimalt harbours.
- **Core Area Stormwater Quality Management Program** – Using an integrated watershed management approach, the program coordinates the management of stormwater quality, including investigations to assess shoreline discharges and contaminant sources, to protect the marine environment.
- **Inflow and Infiltration Enhancement Program** – The program provides for the CRD to engage with the participants to identify and reduce the amount of rain and ground water that enters the sanitary sewer systems. The program budget is funded through the conveyance and treatment budget.
- **Marine Monitoring Program** - The program provides for the marine environment sampling and testing and regulatory reporting related to the effluent discharges from CRD wastewater facilities. The program budget is funded through the conveyance and treatment budget.

## **Capital Budget**

### **Capital Plan**

The plan includes projects that will replace infrastructure at end-of-service life to ensure the system continues to operate reliably without service interruptions or risk to property, public health or the environment. The plan also includes projects that add conveyance capacity 'just in time' in order to convey flows to 2045 and utilize the ultimate design capacity of existing conveyance facilities, such as pump stations, and the MPWWTP.

As planned and approved in the close out report, the operating, debt and capital reserves received funds from the Core Area Wastewater Treatment Project (CAWTP) fund for the purpose of funding outstanding and future capital and operating obligations.

The capital budget for 2024 is \$32.8M and the total 2024-2028 capital budget is \$80.8M (see Appendix B). There are projects planned in each of the major asset categories including pump station upgrades, gravity sewer and manhole upgrades and replacements, pressure pipe upgrades, flow meter installations and replacements, system control and communications upgrades, and outfall retrofits.

### **Reserve Funding**

There are currently four reserve funds established for this service. Reserves serve several specified purposes including stabilizing revenue requirements and funding capital renewal and replacement. The service has the following reserve funds (2023 estimated year-end balances):

- **Operating Maintenance Reserve (\$2.0M):** used to pay for significant Operations and Maintenance (O&M) expenses that do not occur on an annual basis, including the overages related to the biosolids, chemicals, tipping fees in 2023. Based on the CRD Operating Reserve Guidelines the Operating Maintenance Reserve is currently under funded, therefore 2024 operating maintenance reserve fund contributions are set at \$0.7M as a start to approach a reasonable target level of \$3.5M as per the guideline. It is planned that \$0.4M will be utilized in 2024, resulting in a \$0.3M increase to the fund in 2024.
- **Equipment Replacement Reserve (\$6.2M):** used to pay for 'minor' equipment replacement that typically has a service life of less than five years and/or a value of less than \$25,000. In 2024 and 2025 there will not be a contribution to the equipment replacement reserve fund, this will be reinitiated in 2026.
- **CAWTP Debt Retirement Reserve (\$17.8M):** used to accumulate funds sufficient to pay down the treatment program debt issuances, in full, as they hit their 10-year renewal option. The establishment of this fund aligns with the financing strategy approved by the CRD Board in 2019, which was designed to deliver the most cost-effective financing structure, with the lowest overall cost to the participants. The combined annual contribution to the Debt Retirement Reserve and the debt servicing costs for the CAWTP financing totals \$12M. Contribution to the Debt Retirement Reserve will continue to increase as debt on the CAWTP is paid down. This strategy is aimed at achieving full repayment of the CAWTP project debts at their first renewal in 10 years. After repayment, capacity will be used to reach capital reserve targets for the capital long range plan.
- **Capital Replacement Reserve (\$14.6M):** used to pay for 'major' equipment and infrastructure replacement that has a service life of five to 25 years or more. The replacement and funding of other components of the wastewater system that have a service life of up to 75 years, such as gravity trunk sewers and forcemains, large pumps, electrical distribution systems, concrete tanks and superstructures and major building components, will be part of the long-term capital plan and largely funded through a combination of reserves and long-term financing. Due to recent significant cost increases and in an effort to minimize the impact on requisitions, the reserve contribution has been temporarily reduced by \$1.0M, now set at \$2.1M instead of the previous \$3.1M. In 2025, the contribution will be reinstated to \$3.1M, and an additional \$1.0M will be added back in 2028 to offset the reduction in 2024. The reserve will be used to fund \$2.8M of the 2024 capital plan.

### Funding Sources (Revenue)

There is a significant reduction in one-time funding from reserve by \$3.6M in 2024, compared to 2023. The reduced one-time funding will be balanced through a related increase in requisition.

### Requisition

The 2024 requisition is \$53.2M after incorporating the requisition for capital, which includes debt servicing of the new and existing conveyance and treatment system works, and system operations. The 2024 requisition represents an 8.16% increase over the 2023 requisition. This increase is largely due to the delay in receiving revenue from the RTF as well as the additional cost of chemical increases, partial disposal of waste sludge, increased labour cost, and issuance of new long-term debt.

## **ALTERNATIVES**

### *Alternative 1*

The Core Area Liquid Waste Management Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

1. Approve the 2024 Core Area Liquid Waste Management Service operating and capital budgets as presented;
2. Direct staff to balance the 2023 actual revenue and expenses on the transfer to the operating reserve; and
3. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end.

### *Alternative 2*

The Core Area Liquid Waste Management Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

1. Approve the 2024 Core Area Liquid Waste Management Service operating and capital budgets as amended;
2. Direct staff to balance the 2023 actual revenue and expenses on the transfer to the operating reserve; and
3. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end.

## **IMPLICATIONS**

### *Financial Implications*

The operating budget reflects costs by type required to support the wastewater treatment service level. The capital budget includes a five-year infrastructure investment to maintain the current system and required replacement of the aging conveyance lines. Together, with reserve contributions, the five-year plan sustains the service at the level required to ensure community needs are met. If the proposed budget is amended, the implications could vary depending on how the budget is amended and the impact on specific programs and initiatives, on-going operations, or the capital work program. 'One-time' reductions in reserve fund contributions could be considered by the Committee to help mitigate the budget and rate increases, but additional financing would result longer term.

## **CONCLUSION**

This 2024 Core Area Liquid Waste Management Service budget has been prepared for the Core Area Liquid Waste Management Committee's (Committee) consideration. The Committee will make budget recommendations to the Capital Regional District (CRD) Board for final budget approval in March 2024. The 2024 budget reflects the operating costs of the McLoughlin Point Wastewater Treatment Plant (WWTP) and the conveyance system, as well as the existing and new capital costs and reserve fund contributions. The operating budget will continue to be refined as the operation of the WWTP is optimized as the CRD gains experience with the new operation. The CRD has resumed investment in the renewal of the conveyance system infrastructure that existed prior to the Core Area Wastewater Treatment Project, to ensure the system continues to operate reliably and without impacts on public health or the environment. The financial

implications of the 2024 operating and capital budget vary by participant, depending on the operating and capital cost apportionments associated with annual flow and allocated treatment capacity.

### **RECOMMENDATION**

The Core Area Liquid Waste Management Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

1. Approve the 2024 Core Area Liquid Waste Management Service operating and capital budgets as presented;
2. Direct staff to balance the 2023 actual revenue and expenses on the transfer to the operating reserve; and
3. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end.

### **ATTACHMENTS**

Appendix A: Budget Summary  
Appendix B: Five Year Capital Plan  
Appendix C: Long-term Budget Overview

# Core Area Liquid Waste Management Budget Overview

Core Area Liquid Waste Management Committee  
October 11, 2023

# Budget Process Overview

# Current System Overview

## Wastewater Treatment Conveyance and Biosolids Management

McLoughlin Treatment Plant  
with treatment capacity of 108 ML/day

92 km Conveyance System

18 Pumping Stations

# 2024 Budget Considerations

- 2023 Budget – year end budget projections
- Community Needs Summary
- Existing Asset Condition, Infrastructure Growth and Resiliency Needs
- Operating budget adjustments
- Capital funding & debt servicing
- Biosolids disposal alternatives

# 2023 Year End Projections

| Budget Item                  | Variance (\$) from<br>June 2023<br>Amended Budget* |
|------------------------------|--|
| Supplies - Chemicals & Other | \$203,460  |
| Electricity & Utilities      | -\$365,962   |
| Others                       | -\$22,163  |
| Total Revenue                | No variance  |
| Reserve Fund Transfers       | \$184,665  |

\* The Committee received a staff report June 28, 2023 which addressed the need for \$3 million additional funding resulting from additional landfill tipping fees for biosolids and loss of revenue from the Residuals Treatment Facility (RTF) acceptance and processing of third-party liquid waste (sludge). This budget overage was covered with the service's operational reserves.

# 2024 Budget Overview – Conveyance & Treatment Operating Costs

## Overview:

Operations Costs: \$33,422,131 (+2.32%\*)

## Highlights:

- Incorporates cost escalations in chemical and biosolids disposal identified in 2023
- Increases resulting from inflationary pressures and collective agreement obligations retroactive from 2023
- Includes four increased service level initiatives continuing from 2023, no budget variance

\* Variance from 2023 amended budget, however a 12.8% increase from the original 2023 budget.

# 2024 Budget Overview – Environmental Services Programs Operations

Core Area Wastewater Service supports CRD's commitments under the Liquid Waste Management Plan (LWMP) through participation in the following programs:

- Regional Source Control Program
- Septage Disposal Program
- Onsite Sewage System Management Program
- Core Area Liquid Waste Management Plan (LWMP) Administration
- Harbours Studies Program
- Core Area Stormwater Quality Management Program
- Inflow and Infiltration Enhancement Program
- Marine Monitoring Program

# 2024 Budget Overview

## Capital Budget

| Overview              | Core Capital<br>(millions) |
|-----------------------|----------------------------|
| Projects in Progress  | \$6.77                     |
| 2024 Capital Budget   | \$32.82                    |
| 5-Year Capital Budget | \$80.77                    |

# 2024 Budget Overview

## RTF Capital and Reserve Funding

### Overview:

Capital & Reserve: \$13,697,224 (-7.38%)

RTF Capital: \$5,529,745 (0%, contractual obligation)

Transfer to Reserves: \$8,167,479

### Highlights:

- Operating Maintenance Reserve is under funded\* after 2023 draw
- Contributions to Capital Replacement and Equipment Reserves were reduced for 2024 to manage recent cost escalations and resulting requisitions

| Reserve               | 2023 Estimated Year-End Balance | 2024 Contribution | 2024 Draw | Projected 2024 Year End |
|-----------------------|---------------------------------|-------------------|-----------|-------------------------|
| Operating Maintenance | \$1.96M                         | \$0.70M           | \$0.40M   | \$2.28M                 |
| Equipment Replacement | \$6.24M                         | \$0M              | \$0.81M   | \$5.44M                 |
| CAWTP Debt Retirement | \$17.82M                        | \$12.00M          | \$6.66M   | \$23.65M                |
| Capital Replacement   | \$14.64M                        | \$2.12M           | \$2.75M   | \$14.01M                |

\* Based on the CRD Operating Reserve Guidelines target fund level is \$3.5M

# 2024 Budget Overview Revenue

**Non-Requisition Revenue: 1,696,030  
(-69%)**

2023 operating reserve transfer required to fund chemical cost increases, the additional landfill tipping fees for biosolids, loss of revenue from the RTF acceptance and processing of third-party liquid waste (sludge)

**Requisition: \$53,246,262 (8.16%)**

# 2024 Budget Overview

Total Costs: \$55,154,532 (0.34% increase)

Total Non-Requisition Revenue: \$1,696,030 (69% decrease)

Total 2024 Requisition: \$53,246,262 (8.16% increase)

Breakdown of Costs

# 5 Year Budget Projection

## Highlights:

- Average annual increase of 3.68%, range between 3.1% and 6.25%
- 2024 projected costs are higher than 2023 due to increases sustained in chemical costs and biosolids disposal costs
- Look to mitigate future year projection by improving resiliency of biosolids disposal
- Operating Maintenance Reserve is projected to be aligned with guidelines by 2027

# Long Term Budget Overview

## Highlights:

- CAWTP Debt will be repaid in 2031
- In 2030 contributions will be diverted to the Capital Replacement Reserve

# Budget

## Recommendations

1. Review and approve the 2024 Core Area Liquid Waste Management Service operating and capital budgets as presented; and
2. Direct staff to balance the 2023 actual revenue and expenses on the transfer to the operating, equipment, and capital replacement reserves; and
3. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end.

Thank you

Long Term Budget Overview

**REPORT TO ENVIRONMENTAL SERVICES COMMITTEE  
MEETING OF WEDNESDAY, SEPTEMBER 27, 2023**

**SUBJECT**     Environmental Resource Management – 2024 Operating and Capital Budget

**ISSUE SUMMARY**

To provide an overview of the draft 2024 Environmental Resource Management (ERM) budget, highlighting the changes from the 2023 budget.

**BACKGROUND**

The Capital Regional District (CRD) established a local service for solid waste disposal in 1973. The ERM division is responsible for municipal solid waste management, including waste reduction, recycling programs and the operation of Hartland Landfill.

ERM in the capital region is based on the 5R pollution prevention hierarchy of Reduce, Reuse, Recycle, Resource Recovery and Residuals Management, with the goal of extending the life of Hartland Landfill by minimizing waste disposal and maximizing diversion opportunities. The CRD's solid waste mandate, using the 5R pollution hierarchy, is delivered to the community through a provincially mandated and recently approved regional Solid Waste Management Plan (SWMP). The SWMP targets reducing per capita waste generation from the current rate of 409 kg/capita to 250 kg/capita by 2030.

All costs associated with the CRD solid waste disposal and diversion programs are funded through tipping and user fee revenues at Hartland Landfill, service delivery agreements for stewarded materials, sale of energy and sale of recyclables. There is no requisition for this service.

The draft 2024 ERM budget has been prepared for consideration by the Environmental Services Committee (see Appendix A).

Year-end revenue and expenditure projections for 2023 have been established, and estimated variances are summarized, as follows:

| Budget Item                           | Variance (\$)      | Variance (%) |
|---------------------------------------|--------------------|--------------|
| Diversion Services Expenditures       | -\$147,000         |              |
| Landfilling Services Expenditures     | -\$201,000         |              |
| Energy Recovery Services Expenditures | -\$110,000         |              |
| <b>Total Operating Expenditures</b>   | <b>-\$458,000</b>  | <b>-1.6%</b> |
| Revenue: Tipping Fee                  | \$4,400,000        |              |
| Revenue: Other                        | \$870,000          |              |
| <b>Total Revenue</b>                  | <b>\$5,270,000</b> | <b>18.3%</b> |
| Reserve Fund Transfers                | \$5,728,000        |              |

Operating cost variance (-1.6%): staff expect minor negative operating cost variances, split evenly across the waste diversion, landfilling and energy recovery services.

Revenue variance (18.3%): staff expect a significant positive revenue variance due to increased landfill tonnage from sustained heightened economic activity. The rate of revenue increase has started to slow in the latter half of 2023. The 2023 net budget surplus will be transferred to the ERM reserve funds, to assist in funding the substantial 2024-2028 capital plan requirements.

While the draft 2024 ERM budget was prepared, considering the Board's 2024 service planning and financial expectations, the 2024 budget proposes significant operating and capital budget increases that have been deemed necessary to help the community achieve the goals set out in the new SWMP. The following are key components of the proposed 2024 ERM budget:

### Operating Budget

Operating budget expenses have increased by a total \$7.5 million over 2023 budget (+25%), as follows:

- Diversion Services – increase of \$6.6 million over 2023 budget (+40%)
  - Increased material stream diversion expenses (\$2.7 million), as a result of implementation of the new fees proposed by the material stream diversion policy changes recently adopted by the Board
  - Increase Solid Waste Management Plan programing and promotion expenditures (\$700,000) to better ensure effective delivery of SWMP programing
  - Increase curbside recycling costs (\$2.8 million) for a new five-year collection contract (2024-2028), with GFL Environmental replacing the incumbent collector, Emterra Environmental. Increased curbside collection costs are expected to be offset by corresponding increase in Recycle BC's blue box funding starting in 2025.
  - Increase 2024 Electoral Area recycling depot funding by same percentage as curbside increases noted above (\$250,000)
- Landfilling Services – increased by \$1.6 million over 2023 budget (+15%)
  - Increase Contract for Service budget (heavy equipment operating contract) to reflect increased costs associated with waste volumes and operational changes at Hartland Landfill (\$500,000)
  - 2024 funding for Raincoast Foundation's proposed testing of Tod Creek (\$200,000), as directed by the Board and coordinated by the CRD's Environmental Protection staff
  - Increase in Corporate overhead (\$0.9 million)
- Energy Recovery Services – decreased by \$700,000 over 2023 budget (-31%)
  - Net decrease in energy recovery operating costs in 2024, primarily due to a one-time operating expense, BC Hydro power purchase agreement termination payment, in the 2023 operating budget

Operating budget revenues are budgeted to increase by a total of \$8.2 million, as follows:

- Diversion Services (+\$2.0 million) – increased waste diversion revenue resulting from material stream diversion policy changes (diversion incentives) in 2024
- Landfilling Services (+\$5.7 million) – increased landfilling revenue resulting from material stream diversion policy changes (tipping fees) in 2024
- Energy Recovery Services (+\$0.5 million) – net revenue from the Renewable Natural Gas facility, which is anticipated to be commissioned in the fourth quarter of 2024

### Capital Budget

The Hartland Landfill five-year capital plan is made up of 40 projects totalling \$68 million. These projects can be grouped into five categories:

- **Sustaining Capital:** This group includes projects that are required to support ongoing daily operations. There are 14 projects that cover items such as computer and vehicle replacements, aggregate production, gas and leachate piping purchase and installation. It also includes projects required to maintain regular operations such as landfill gas capture, sedimentation pond repairs, scale upgrades, controlled waste and asbestos area development, and the Hartland North master plan. The estimated cost for this group of projects for 2024 is \$2.4 million, with an estimated five-year total cost of \$9.5 million.
- **Progressive Closure of the Landfill:** There are four projects over five years totalling \$12.8 million (\$850,000 for 2024), which include projects such as final closure of external faces, interim closure of various internal faces and aggregate stockpile covers.
- **Cell 4, 5 and 6 Preparation and North End Commercial Access Improvements:** There are 16 projects over five years totalling \$22.45 million (\$12.6 million in 2024), which include design and installation of complete liner systems for Cells 4, 5 and 6, relocating the contractor mobile equipment maintenance shop, the Hartland amenity project, relining of the stormwater sedimentation pond, fire safety improvements and traffic safety improvements.
- **Renewable Natural Gas:** There are three projects in 2024 totalling \$17.4 million to construct a new landfill gas upgrading facility and flare station, such that all gas captured at the landfill is processed and injected into the Fortis BC natural gas distribution system, while ensuring all environmental requirements are met.
- **Solid Waste Management Plan Diversion and Beneficial Use Targets:** In 2024, there are three projects totalling \$5.6 million to construct a new diversion transfer station to accept and process wood, asphalt shingles and carpet such that they are then shipped to various beneficial uses outside the landfill. There are also projects to improve the recycling area, including a new cover-all style building to be used in managing the materials separated for beneficial use.

### Capital Funding

There are two primary elements to the capital program funding, debt servicing and reserve funds. Debt servicing costs (principal and interest payments) are associated with long-term capital infrastructure financing. New financing under the \$36 million loan authorization was approved in 2022 for the purpose of financing the solid waste facility five-year (2023-2027) capital plan.

Reserve funds are established through annual contributions to allow accumulation of funds for future expenditure. There are currently three reserve funds established for this service (2023 estimated year-end balances):

- **Operating Reserve (\$22 million):** This fund is established for mitigating fluctuations in tipping fee revenue and for covering operational expenditures, as required, including debt

servicing. In 2024, the excess operating reserve funds will be used to help fund significant Renewable Natural Gas and Hartland capital projects. The plan is for the reserve balance to be reduced to its \$5 million target balance and then maintained.

- **Equipment Replacement Reserve (\$2.4 million):** used to fund replacement of computer equipment and for PERS (Priority Equipment Replacement) equipment that lasts less than 15 years. The 2024 equipment replacement reserve fund contributions are set at \$200,000.
- **Capital Reserve (\$26 million):** used to fund major equipment and infrastructure replacement that has a service life of 5 to 25 years or more, such as landfill facilities, roads and improvements at the Hartland Landfill site, construction of remote transfer stations, composting facilities, watershed management, closure of Phase 2 and post closure maintenance, and all related ancillary works and equipment necessary for landfill and operations. The 2024 capital reserve fund will be used to fund \$7.2 million of the 2024 capital plan.

In summary, the future capital funding will be a combination of reserves and debt financing.

## **ALTERNATIVES**

### *Alternative 1*

The Environmental Services Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Environmental Resource Management be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

### *Alternative 2*

The Environmental Services Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Environmental Resource Management be approved as presented and form the basis of the Final 2024-2028 Financial Plan.

## **IMPLICATIONS**

### *Financial Implications*

The 2024 Environmental Resource Management operating budget reflects a number of significant adjustments to both expenditures and revenues in response to key drivers, namely: implementation of the Board's new SWMP, new policy direction to incent material stream diversion, transition to a new curbside recycling contractor one year ahead of recalibrated Recycle BC blue box funding, termination of a BC Hydro power purchase agreement and transition to a new renewable natural gas facility for the beneficial use of landfill gas.

The five-year capital plan to support the operating adjustments noted above, in addition to preparing new cells for waste disposal by early 2025, represents a significantly larger program compared to previous years. This higher level of capital activity is anticipated to scale back to a typical year in 2027.

If the proposed budget is amended, the implications will vary depending on how the amendment impacts specific initiatives, ongoing operations, or the capital work program.

### **CONCLUSION**

The draft 2024 Environmental Resource Management budget has been prepared for consideration by the Environmental Services Committee, with a primary focus on implementing the new Solid Waste Management Plan, with a goal of diverting waste and extending the life of Hartland Landfill. While the budget was prepared considering the Board's 2024 service planning and financial expectations, the 2024 budget proposes significant operating and capital budget increases, with no requisition requirement, that have been deemed necessary to help the community achieve the goals set out in the new Solid Waste Management Plan.

### **RECOMMENDATION**

The Environmental Services Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Environmental Resource Management be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

Appendix A: Environmental Resource Management – Operating and Capital Budget

# Environmental Resource Management 2024 Operating and Capital Budget Presentation

Environmental Services Committee  
September 27, 2023

# ERM Service Areas

## Waste Diversion

## Landfilling

## Energy Recovery

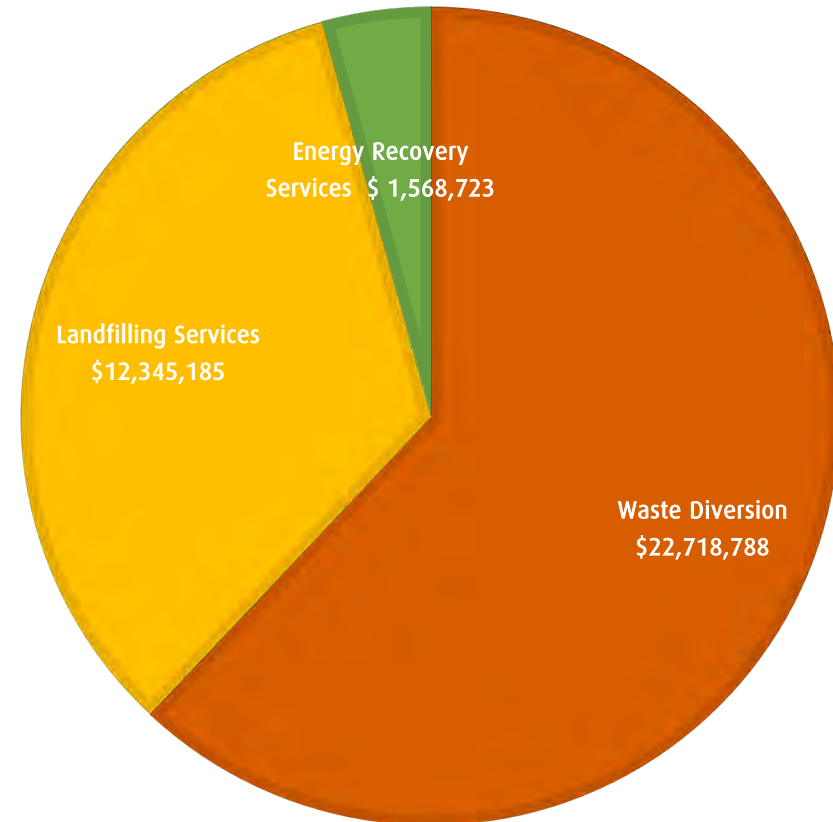

# 2024 Operating Budget Expenses

+\$7.5 million (25%)

- Waste Diversion (+\$6.6 million)
- Landfilling (+\$1.6 million)
- Energy Recovery (-\$0.7 million)

# 2024 Operating Budget Expenses

## Waste Diversion (+\$6.6 million)

- Material Stream Diversion expenses (\$2.7 million)
- Solid Waste Management Plan – increase in programming (\$700,000)
- New Curbside Blue Box 2024 contract (\$2.4 million)
- Electoral Area recycling depot top-up (\$250,000)
- Raincoast Foundation – Tod Creek sampling (\$200,000)

# 2024 Operating Budget Expenses

## Landfilling (+\$1.6 million)

- Heavy equipment contract - volume / op costs (\$500,000)
- Corporate overhead (\$1 million)

## Energy Recovery Services (-\$700,000)

- Removal of one-time BC Hydro termination payment in 2023 budget (-\$700,000)

# 2024 Operating Budget Revenues

+\$8.2 million

- Waste Diversion (+\$2 million)
- Landfilling (+\$5.7 million)
- Energy Recovery (+\$0.5 million)

# 2024 Operating Budget Revenues

## Waste Diversion (+\$2.0 million)

- Revenue from Material Stream Diversion policy changes – diversion incentive rates (\$2.0 million)

## Landfilling (+\$5.7 million)

- Revenue from Material Stream Diversion policy changes – garbage tipping fee increases (\$5.7 million)

## Energy Recovery (+\$500,000)

- Net revenue from new Renewable Natural Gas facility, Q4 commissioning / start-up

# 2024 – Capital Budget

\$38.8million

## Ongoing capital (\$3.25 million)

- Aggregate production, progressive closure, scale upgrades, vehicles...

## Renewable Natural Gas (\$17.4 million)

- Completion of RNG capital project

## Preparing Cells 4, 5, 6 (\$12.6 million)

- Design / install new liner, fire safety improvements, traffic improvements...

## Material Stream Diversion (\$5.6 million)

- On-site diversion transfer station to facilitate material stream diversion policy changes

# Capital Funding

2023-2027: \$68 million

Funding new 5-year capital plan using a combination of reserve funds and new debt

# 2024 Operating & Capital Budget

## 2024 ERM BUDGET SUMMARY

- Operating expenses +\$7.5 million
- Operating revenues +\$8.2 million
- 2024 Capital Budget (\$39 million)
- 2024 Capital Funding with ERM Reserves and Debt
- No requisition required to fund ERM budget
- 3.0 new FTEs (2024)
  - Material Stream Diversion Attendant
  - Material Stream Diversion Coordinator
  - Residential Waste Reduction Coordinator

Summary of % Expense Increase

|   |       |  |
|---|-------|--|
| 2024 Base salary and benefit change               | 0.3%  |  |
| Standard Overhead Allocation                      | 3.3%  |  |
| Balance of increase                               | 29.6% |  |
| % expense increase from 2023:                     | 33.2% |  |
|   |       |  |
| % Requisition increase from 2023 (if applicable): | %     | Requisition funding is (x)% of service revenue |

Overall 2023 Budget Performance  
(expected variance to budget and surplus treatment)

'Overall Solid Waste Tipping Revenue for 2023 is forecasted to be higher than budget by \$4.4 million. Tipping fee revenues higher due to an increased quantity of solid waste being received. Recycling revenue for scrap metal (price fluctuates with the global commodity markets) is also higher than budgeted. Landfill Operations/Diversion Services/Energy Recovery services expenses are forecasted to be lower than budget for 2023 by \$450k. The estimated surplus will be split between the Capital Reserve Fund (\$2.4m) and the Operating Reserve Fund (\$2.4m).

|                |       |                       |                               |                             |                               |
|----------------|-------|-----------------------|-------------------------------|-----------------------------|-------------------------------|
| Project Number | 16-06 | Capital Project Title | Replacing of Small Equipments | Capital Project Description | Replacing of Small Equipments |
|----------------|-------|-----------------------|-------------------------------|-----------------------------|-------------------------------|

Project Rationale Replacement of small equipments that have reached their end of life

|                |       |                       |  |                             |  |
|----------------|-------|-----------------------|--|-----------------------------|--|
| Project Number | 17-01 | Capital Project Title | Gas & Leachate Collection Pipe Extension | Capital Project Description | Gas & Leachate Collection Pipe Extension |
|----------------|-------|-----------------------|--|-----------------------------|--|

Project Rationale To meet BC Ministry of Environment regulations, gas wells and leachate collectors are installed in each lift of refuse and have to be connected to the existing header system to collect methane gas. Well heads, valves, condensation traps, monitoring points, and piping has to be installed to each gas well and leachate collector. The gas is then conveyed to the gas plant, and the leachate is conveyed to the lined storage lagoons and then discharged into the municipal sewer. Cost estimate is derived from historical construction information and includes consulting costs to layout pipe design/headers.

|                |       |                       |                                       |                             |                                       |
|----------------|-------|-----------------------|---------------------------------------|-----------------------------|---------------------------------------|
| Project Number | 17-02 | Capital Project Title | Aggregate Production for Internal Use | Capital Project Description | Aggregate Production for Internal Use |
|----------------|-------|-----------------------|---------------------------------------|-----------------------------|---------------------------------------|

Project Rationale Producing aggregate annually from in-situ rock provides the CRD with a number of benefits including: prolonging the landfill life (creating landfilling airspace), providing aggregate for on-site needs, effective interception of shallow groundwater inflows, cost and space savings by not having to import aggregate, and reduced social and environmental impacts by not having to truck in aggregate. Cost estimate is derived from historical tender data.

|                |       |                       |                                       |                             |                                       |
|----------------|-------|-----------------------|---------------------------------------|-----------------------------|---------------------------------------|
| Project Number | 17-04 | Capital Project Title | Progressive Closure of External Faces | Capital Project Description | Progressive Closure of External Faces |
|----------------|-------|-----------------------|---------------------------------------|-----------------------------|---------------------------------------|

Project Rationale As specified under the BC Ministry of Environments Landfill Criteria for Municipal Solid Waste, completed landfill areas and slopes must be closed with a progressive closure system on an annual basis. The closure system consists of a clay or synthetic cover placed over a gravel drainage layer This progressive closure system stays in place until economies of scale makes it cost effective to proceed with installation of a final closure system.

Service: 1.521 Environmental Resource Management

Project Number 17-07

Capital Project Title Computer Equipment

Capital Project Description Computer Equipment

Project Rationale Replacement of computer equipment due to end of life cycle

Project Number 17-09

Capital Project Title Vehicle Replacements

Capital Project Description Vehicle Replacements

Project Rationale Replacement of vehicle due to end of life cycle

Project Number 17-11

Capital Project Title Food Waste Transfer Station Relocation  
Planning & Construction

Capital Project Description Food Waste Transfer Station Relocation  
Planning

Project Rationale The CRD has made a commitment to Hartland Residents to move the Kitchen Scraps transfer station away from the South End of the Landfill Property to alleviate resident's nuisance concerns (noise, vector, odour etc). The Kitchen Scrap transfer station will need to move to the North End of the property when commercial traffic moves to Willis Point in 2024. This project meets an immediate and future need to relocate the Kitchen Scrap transfer station. Phase 1 of the project will be complete in 2023 (moving the new food transfer facility). Phase 2 includes all improvements related to leachate, power, storm water, lighting, access stairs, vector control, fall protection enhancements etc. needed to support operation of the facility over the next 30+ years. This project covers the planning and construction costs related to relocating the kitchen scrap transfer station.

Service: 1.521 Environmental Resource Management

Project Number 17-12

Capital Project Title Hartland Environmental Performance Model

Capital Project Description Hartland Environmental Performance Model

**Project Rationale** The CRD is interested in developing a site-specific computer model that integrates engineering design with environmental performance for the Hartland Landfill. In 2016 the BC MOE made revisions to the BC Landfill Criteria. Many of Hartland's design and operations are already compliant, however a preliminary review identified additional conformance requirements for Hartland under the status quo. The model will enable the CRD to better demonstrate technical justification and environmental conformance over the lifespan of the landfill.

Project Number 17-14

Capital Project Title Landfill Gas Utilization

Capital Project Description Landfill Gas Utilization

**Project Rationale** The landfill gas is currently utilized as fuel to power a generator system to generate electricity and sold to BC Hydro. The excess landfill gas which is approximately 50% currently generated from the landfill is destructured by burning. ERM and EE have initiated a project to process the landfill gas to a higher quality could be utilized as natural gas. Fortis BC is interested to purchase the processed landfill gas from the CRD. The projected gas revenues from Fortis is significantly higher than the current arrangement with BC Hydro. This project is to carry out the feasibility study, preliminary engineering, and conduct business case and triple-bottom-line analysis, if the project proved to be feasible the detailed design and implementation will be followed.

Project Number 18-01

Capital Project Title Interim Covers

Capital Project Description Interim Covers - West and North Slopes

**Project Rationale** Following Golder's Leachate Management Plan, once an active landfilling cell is completed, but hasn't reached future filling contours, tarping is required to shed rainwater and divert to the freshwater collection system to prevent it from entering the leachate collection system and overwhelming the leachate storage ponds. Cost estimate is derived from historical in-house cost data.

Project Number 18-02

Capital Project Title Paving of Service Roads

Capital Project Description Paving of Service Roads

**Project Rationale** To ensure compliance with BC Ministry of Environment Operating Certificate for the Hartland Landfill, continuous improvement is made to ensure nuisance dust generated at the site is minimized from operations. Repairs and new pavements are added in high traffic areas to minimize dust generation and reduce dependence on costly short term dust mitigation measures (ie. water trucks, application of lignosulfonate etc) and to improve road conditions throughout the lanfill property. Estimate is derived from historical costs.

Service: 1.521 Environmental Resource Management

**Project Number** 18-03 **Capital Project Title** Cell 3 Bottom Lift Gas Wells / Leachate Drain **Capital Project Description** Cell 3 Bottom Lift Gas Wells / Leachate Drain

**Project Rationale** To meet BC Ministry of Environment regulations, gas wells and leachate collectors are installed in each lift of refuse and have to be connected to the existing collection systems to collect methane gas. Well heads, valves, condensation traps, monitoring points, and piping has to be installed to each gas well and leachate collector. The gas is then conveyed to the gas plant, and the leachate is conveyed to the lined storage lagoons and then discharged into the municipal sewer. Estimate is derived from historical costs.

**Project Number** 18-05 **Capital Project Title** Controlled Waste & Asbestos Area Development **Capital Project Description** Controlled Waste & Asbestos Area Development

**Project Rationale** Controlled waste and asbestos areas within the landfill footprint are required to be developed in conjunction with active cells. BC Ministry of Environment regulatory requirements must be met on a continual basis. Asbestos is a high risk material that requires proper planning and special burial to ensure safe disposal.

**Project Number** 22-01 **Capital Project Title** Sedimentation Pond Relining **Capital Project Description** NW Sedimentation Pond Relining & Expansion

**Project Rationale** To prevent leakage and fines from migrating off site into the north freshwater drainage area, the sedimentation pond must be relined. In addition the sedimentation pond must be enlarged to meet MOE requirements for retaining 24 hrs of precipitation from a 100 year storm event. Finally, the sedimentation pond requires inlet valving and piping to permit flows to be diverted to the upper lagoon in the event there is an onsite spill that must be contained and diverted from fresh water courses.

**Project Number** 22-02 **Capital Project Title** Cell 4 Liner Installation **Capital Project Description** Cell 4 Liner Installation

**Project Rationale** A new drainage and liner system will ensure effective removal of leachate from within the new Cell 4 area and prevent any off site migration. The liner will also include an underdrain which will relieve pore pressure and ensure fresh ground water does not contribute to ongoing leachate collection and processing.

**Project Number** 22-03 **Capital Project Title** Leachate Line Decommissioning **Capital Project Description** Leachate Line Decommissioning

**Project Rationale** The new Centrate Return Line built as part of the CORE Area Wastewater project carries all of the leachate from Hartland along with the planned and phased centrate from the Residuals Treatment Facility. This project has been set up to facilitate a planned and phased decommissioning of the old leachate line now that it is no longer required.

|--|---|--|
| Service: 1.521 Environmental Resource Management |   |  |
| Project Number                                   | 22-06   | Capital Project Title Hartland FIRE Safety Improvements                |
| Capital Project Description                      | Installation of new Fire Line   |  |
| Project Rationale                                | Hartland has purchased a new fire pump and related components in order to mitigate risk from a major fire at the landfill. As part of the system a new fire line is required to be installed starting from near the lower lagoon and run all the way to the crest of the landfill. Phase 2 (2023) includes a means to roll/unroll 6" layflat hose, 2" firefighting hose and acts as an anchor point for the main fire line. The system will allow operations to setup the hose system near the working face to allow the fire department the best access to leachate resources to fight fires. Includes design, procurement and installation of the system. |  |
| Project Number                                   | 22-07   | Capital Project Title Recycling Area Upgrades                          |
| Capital Project Description                      | Recycling Area Upgrades   |  |
| Project Rationale                                | The project has been set up to conduct a design review of the existing recycling area at Hartland and investigate changes relating to efficient accessibility due to growing public interest in the depot and to include safety considerations such as protection from the sun during hot weather.  |  |
| Project Number                                   | 22-10   | Capital Project Title Storm Water Sedimentation pond Emergency Repairs |
| Capital Project Description                      | Storm Water Sedimentation pond Emergency Repairs  |  |
| Project Rationale                                | Leachate has been detected getting into the fresh water sedimentation pond. This project has been set up to explore sources of contamination and make remedial works to the pond, incoming pipes and outgoing infrastructure as necessary to ensure containment of any contaminants. This project also includes the installation of any new monitoring wells, including consulting fees to locate , prove/commission and report findings/recommendations.   |  |
| Project Number                                   | 23-02   | Capital Project Title Contractor Workshop Relocation                   |
| Capital Project Description                      | Contractor Workshop Relocation  |  |
| Project Rationale                                | The current contractors workshop is located in the future Cell 5 of the landfill and must be relocated so critical landfill infrastructure can be completed for Cell 4, 5 and 6. This project includes removal of the existing structure and reuse (if economical) in a new location adjacent to future cells so the operations contractor can conduct repairs on large landfill operations equipment (Packer, Bull-Dozer, excavators etc).   |  |
| Project Number                                   | 23-03   | Capital Project Title Cell 4, 5 & 6 gas well layout Plan               |
| Capital Project Description                      | Cell 4, 5 & 6 gas well Plan   |  |
| Project Rationale                                | This project allows for design services to provide a conceptual layout of new gas wells in Cells 4, 5 & 6 and the tie-in to gas wells on the North Slope from Cells 2 and 3 as garbage is landfilled against the North Slope.   |  |
| Project Number                                   | 23-04   | Capital Project Title North End Commercial Access Improvements         |
| Capital Project Description                      | North End Commercial Access Improvements  |  |
| Project Rationale                                | This project includes necessary improvements to ensure the North Entrance and Scales are equipped for fully automated commercial access off Willis Point Road when Cell 4 is ready for filling. Improvements include landscaping, scale house improvements, automated gates, staging lanes, card readers/scanners, RFID systems, scale safety rails, bollards, radio intercoms, sidewalks, signage, etc.  |  |

|  |  |                       |   |

| Project Number                                   | 23-05  | Capital Project Title | Existing Manual and Commercial Scale Upgrades |
| Capital Project Description                      | Existing Manual and Commercial Scale Upgrades  |                       |   |
| Project Rationale                                | The South Entrance Commercial scale approach/exit ramps are in poor condition. This project includes sawcutting and removal of old scale ramps and pouring new concrete with Rebar to eliminate further safety hazards to trucks and employees. The South Entrance Manual Scale deck is in poor condition. It requires replacement and/or major repair. This project accounts for all work that needs to be done after detailed assessment to ensure life of the existing manual and commercial scales can continue reliably for the next 20 years.  |                       |   |
| Project Number                                   | 24-01  | Capital Project Title | Cell 5&6 GRW                                  |
| Capital Project Description                      | Cell 5&6 Gravity Retaining Wall Construction   |                       |   |
| Project Rationale                                | This project will allow for the construction of a new mounded structural earth berm north of cell 1&2 at 5 corners intersection to serve as the new toe of cells 5 & 6. As part of this berm, the project includes installation of a critical sub-grade landfill leachate containment system (grout wall/curtain) and raising the clay containment berm from 130mASl to 135mASL to ensure leachate capture from future landfill cells 4, 5 & 6. The project also includes relocation of any existing infrastructure (LFG, Leachate, Water, electrical etc) that currently resides in the future footprint of the MSE berm. |                       |   |
| Project Number                                   | 24-02  | Capital Project Title | Hartland North Master Plan                    |
| Capital Project Description                      | Hartland North Master Plan   |                       |   |
| Project Rationale                                | With the recent completion of the new Residuals Treatment Facility and associated access and new scales at Hartland North, this design project will ensure that there is adequate future planning and integration with the existing landfill site  |                       |   |
| Project Number                                   | 24-03  | Capital Project Title | Hartland Amenity Project                      |
| Capital Project Description                      | Intersection Upgrade   |                       |   |
| Project Rationale                                | This project considers all road and intersection improvements necessary to move commercial access from Hartland Avenue to Willis Point Rd.   |                       |   |
| Project Number                                   | 24-04  | Capital Project Title | Biosolids Beneficial Reuse /RDF Building      |
| Capital Project Description                      | Biosolids Beneficial Reuse /RDF Building   |                       |   |
| Project Rationale                                | This project will allow for the replacement of the old biosolids storage barn with a new Sprung Structure for mixing and repurposing of dried biosolids and other refuse derived fuel generated at the Hartland site.  |                       |   |
| Project Number                                   | 24-05  | Capital Project Title | Cell 5 Liner Construction                     |
| Capital Project Description                      | Cell 5 Liner Construction  |                       |   |
| Project Rationale                                | A new drainage and liner system will ensure effective removal of leachate from within the new Cell 5 area and prevent any off site migration. The liner will also include an underdrain which will relieve pore pressure and ensure fresh ground water does not contribute to ongoing leachate collection and processing.  |                       |   |

|  |   |  |
|--|---|--|
| Service: 1.521 Environmental Resource Management |   |  |
| Project Number                                   | 24-06   | Capital Project Title Cell 1, 2 & 3 Transition Liner               |
| Capital Project Description                      | Cell 1, 2 & 3 Transition Liner  |  |
| Project Rationale                                | A new drainage and liner system will ensure effective removal of leachate above Cells 1 & 2 from garbage placed ontop of it from cells 4, 5 and 6. This liner provides continuity, separation and acts as a transition between old cells of the landfill and cells 4-6. The liner will also include an underdrain which will relieve pore pressure and ensure leachate from Cell 1, 2 & 3 can properly drain to heal basin or the upper lagoon. |  |
| Project Number                                   | 24-07   | Capital Project Title Relocation of N. Toe Road Sedimentation Pond |
| Capital Project Description                      | Relocation of N. Toe Road Sedimentation Pond  |  |
| Project Rationale                                | The North Toe Road fresh water sedimentation collection pond sits ontop of Cell 1 garbage. The future Gravity Retaining Wall will be constructed ontop of the pond so it must be relocated.   |  |
| Project Number                                   | 24-08   | Capital Project Title North End Fence Replacement                  |
| Capital Project Description                      | North & East Fence Replacement  |  |
| Project Rationale                                | The fence line from the Upper lagoon to the new RTF driveway entrance is madeup of various fencing materials. This project provides proper fencing to ensure a continuous perimeter around Hartland property.   |  |
| Project Number                                   | 24-09   | Capital Project Title Diversion Transfer Station                   |
| Capital Project Description                      | Diversion Transfer Station  |  |
| Project Rationale                                | Starting Jan 1, 2024 the landfill will ban carpet, wood and asphalt shingles. These will be mandatory recycleable materials. A new transfer depot to receive, process and ship these diverted streams to end markets is required. This project covers all equipment and capital improvements required to facilitate this service.   |  |
| Project Number                                   | 24-10   | Capital Project Title RNG Spare Parts Inventorv                    |
| Capital Project Description                      | RNG Spare Parts Inventorv   |  |
| Project Rationale                                | Upon Startup of the new LFG RNG facility, a spare parts inventory is required. Parts will be selected by HRRG and paid for by CRD for the 25 year operating agreement. This project covers the initial capital outlay for spare parts.  |  |
| Project Number                                   | 24-11   | Capital Project Title Traffic Pattern Changes - Site Signaee       |
| Capital Project Description                      | Traffic Pattern Changes - Site Signaee  |  |
| Project Rationale                                | Sitewide signage, delineators, signals, digital entrance signs and barriers required to facilitate new traffic patterns associated with relocation of Commercial traffic from Hartland Ave to Willis Point Rd, opening cell 4, relocation of the kitchen scrap transfer station and a new diversion transfer station.   |  |
| Project Number                                   | 25-01   | Capital Project Title NE & NW Aggregate Stockpile cover            |
| Capital Project Description                      | NE & NW Aggregate Stockpile cover   |  |
| Project Rationale                                | This project allows for the installation of a temporary impermeable membranes to be placed overtop the NE and NW shot-rock storage stock piles to protect the environment from minerals may runoff with precipitation.  |  |

|  |  |   |
|--|--|---|
| Service: 1.521 Environmental Resource Management |  |   |
| Project Number                                   | 25-02  | Capital Project Title North End Wheel Wash                              |
| Capital Project Description                      | North End Wheel Wash   |   |
| Project Rationale                                | This project accounts for a new commercial truck wheel wash system to be installed on the North End to ensure trucks don't track mud onto Willis Point Road.   |   |
| Project Number                                   | 25-03  | Capital Project Title Landfill Gas capture to meet New Federal          |
| Capital Project Description                      | Landfill Gas capture to meet New Federal   |   |
| Project Rationale                                | Environment & Climate Change Canada has released a proposed Landfill Methane Regulation that is expected to come into force in Q1/Q2 of 2024, with the intent of reducing fugitive landfill emissions across the country. The regulation sets thresholds for surface emissions at landfills emitting more than 10,000 tonnes of CO2e per year (Hartland exceeds this). Based on required monitoring events, any surface methane concentrations that exceed proposed levels require a corrective action plan and mitigation within a specified timeframe. Based on current surface emissions data, it is expected that Hartland will need to implement additional controls, improve gas collection, or repair infrastructure to reduce surface methane concentrations to achieve compliance with these proposed limits. |   |
| Project Number                                   | 25-04  | Capital Project Title Hartland Operating Certificate Renewal            |
| Capital Project Description                      | Hartland Operating Certificate Renewal   |   |
| Project Rationale                                | Hartland's Operating Certificate (OC) has not been modified since January 27, 2010. CRD has committed to updating its OC in light of recent MOE discussion and approval of ERM's SWMP. This project covers staff time and consultant/legal fees to assist the CRD in updating the OC with the MOE.   |   |
| Project Number                                   | 26-01  | Capital Project Title Cell 4 & 5 Bottom Lift Gas Wells / Leachate Drain |
| Capital Project Description                      | Cell 4 Bottom Lift Gas Wells / Leachate Drain  |   |
| Project Rationale                                | To meet BC Ministry of Environment regulations, gas wells and leachate collectors are installed in each lift of refuse and have to be connected to the existing collection systems to collect methane gas. Well heads, valves, condensation traps, monitoring points, and piping has to be installed to each combination gas well and leachate collector. The leachate is then conveyed to the lined storage lagoons and then discharged into the municipal sewer. Estimate is derived from historical costs.  |   |

**Capital Reserve Fund ERM - Landfill Closure Portion, Capital Reserve Portion, and Recycling Depots Portion**

**Capital Reserve Fund Schedule**

Bylaw 2164 established a Solid Waste Refuse Disposal Reserve Fund for the ERM Service (was called Solid Waste Service). There are three portions in the Reserve Fund: Landfill Closure, restricted funds to cover the liability of closing Phase 2 - 4 and post-closure maintenance. Capital Reserve is working capital and not restricted.

| Landfill Closure Portion<br>Fund: 1020 Fund Centre: 101363 | Estimate          | Budget            |                   |                  |                  |                  |

**Assumptions/Background:**

Reserve for rate stabilization

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

## REPORT TO GOVERNANCE COMMITTEE MEETING OF WEDNESDAY, OCTOBER 04, 2023

**SUBJECT**      **Legislative and General Government Service - 2024 Operating and Capital Budget**

### **ISSUE SUMMARY**

To provide an overview of the draft 2024 Legislative and General Government Service budgets, including 2023 year-end budget projections.

### **BACKGROUND**

The Capital Regional District (CRD) was created in 1966 as part of the British Columbia Provincial Government's initiative to provide regional decision-making on matters that transcend municipal boundaries, and to enable more effective service delivery through region-wide or shared delivery models. In addition, as the local government for electoral areas, the CRD facilitates and delivers projects and services for residents living in unincorporated areas. The CRD also owns and operates the Capital Region Housing Corporation (CRHC), the second largest non-profit housing provider in the province, and administers the Capital Regional Hospital District (CRHD) which provides capital funding for healthcare infrastructure, such as health facilities and hospital equipment.

The governance structure includes a 24-member Board of Directors which is composed of one or more elected officials from each of municipality and electoral area within CRD boundaries. Each local government and electoral area hold one director position on the Board for every 25,000 residents (or portion thereof). Each director also serves on the CRHD and CRHC Boards.

By way of legislation, costs for legislative and general government activities are included in a Legislative and General Government Service. This service includes sub-budgets for Board Expenditures, the Chief Administrative Officer (CAO) and Executive Services, Corporate Climate Action, Corporate Communications, Corporate Emergency Services, Corporate Services, Financial Services, First Nations Relations, Human Resources (HR), Information Technology (IT), and select General Managers.

The Legislative and General Government Service is primarily funded through requisition and cost recovery from CRD services, the CRHC and the CRHD. Other funding sources include transfers from reserve, grants, and surplus carryforward when available.

This report will provide forecasted 2023 results and an overview of the 2024-2028 Financial Plan for the Legislative and General Government Service budgets.

### **2023 Year End Projected Results**

Details of each budget, including forecasted year-end results can be found in Appendices B through O.

The Legislative and General Government service is forecasting a one-time net favourable variance of \$1.6M for 2023. The surplus is primarily the result of labour market challenges in staffing new, turnover, and vacant positions. Staff have recommended a surplus carryforward of \$0.6 million into 2024 to offset requisition while transferring the balance to fund one-time initiatives identified in the 2024-2028 Financial Plan.

With respect to capital expenditures in 2023, a total of 37 projects were planned with combined budgets of \$4.5 million. Staff are forecasting a favourable variance of \$1.8 million driven primarily by delays in implementation of various projects including upgrades to our enterprise resource management system, implementation of an electronic records management system (EDRMS), the website redesign project, and boardroom improvements. All projects have been rescoped into 2024 where the funds have been budgeted.

### **2024 Operating Budget**

The draft 2024 Legislative and General Government operating budget including year over year changes in expense and revenue is summarized in Appendix A. Total budgeted expenditures for 2024 are \$37.8 million, a 3.5% increase over 2023. Less than one third of operating expenditures are funded through requisition or \$12.2 million, a 6.9% increase over 2023.

Table 1 summarizes the change in expenditures for each sub-budget within the service, providing both the \$ and % over prior year.

**Table 1: 2024 Year over Year Budget Comparison (\$Millions)**

| Budget Description       | 2024 Financial Plan | 2023 Financial Plan | \$ Change      | % Change    |
|--------------------------|---------------------|---------------------|----------------|-------------|
| Revenue                  | 1.578               | 1.602               | (0.024)        | -1.5%       |
| Board Expenditures       | 1.335               | 1.259               | 0.076          | 5.7%        |
| CAO & Executive Services | 1.114               | 0.929               | 0.185          | 16.6%       |
| Corporate Services       | 2.867               | 2.941               | (0.074)        | -2.6%       |
| Human Resources          | 3.749               | 3.178               | 0.571          | 15.2%       |
| Financial Services       | 8.762               | 8.459               | 0.303          | 3.5%        |
| Information Technology   | 12.698              | 12.462              | 0.236          | 1.9%        |
| First Nations            | 1.229               | 1.312               | (0.083)        | -6.8%       |
| Corporate Communications | 1.513               | 1.454               | 0.060          | 3.9%        |
| Other*                   | 2.942               | 2.926               | 0.016          | 0.5%        |
| <b>Total</b>             | <b>\$37.787</b>     | <b>\$36.521</b>     | <b>\$1.266</b> | <b>3.5%</b> |

*\*Other: Includes the functions of Corporate Climate, Real Estate, Health Planning, GM Planning and Protective Services, Corporate Emergency and GM Regional Parks and Environmental Services (ES)*

Impact drivers for each operating budget are detailed in bridge files in appendices B through O.

Below are explanations for sub-budgets with a change in expenditure exceeding guidelines of 3.5% and \$50,000, and/or functions with Initiative Business Case (IBC) cost impacts:

- **Board Expenditures:** Increase due to IBC 12b-4.1: Meeting Management Improvements and annual escalation for director remuneration rates. Staff have identified improvements required to the Fisgard boardroom to update the audio-visual equipment, increase functionality to our meeting management software to include a voting dashboard, and

redesign of the boardroom to allow for expansion and additional seats at the board table. Funds in 2024 will be required for scoping and design work. Implementation of the improvements may take place over multiple years. A proposal on the costs of improvements will be brought forward as part of 2025 service and budget planning.

- **CAO and Executive Services:** 1.0 Full-Time Equivalent (FTE) for IBC 11b-7.1: Manager of Corporate Initiatives and Administration (nine months), step increases and paygrade changes on existing staff. Beginning in Quarter 2, the position will plan and lead the implementation of corporate initiatives that are initiated by the CAO and Executive Leadership Team that do not relate directly to departmental lines of business while also developing and administering a more formal approach to corporate administration.
- **Corporate Services:** 1.0 FTE for 2024 IBC 12a-1.1: Privacy and Information Senior Analyst (nine months), offset by reduction in one-time expenditures for EDRMS. Additional capacity is required to respond to legislative changes to the *Freedom of Information and Protection of Privacy Act* which now mandates Privacy Impact Assessments be conducted for all corporate initiatives that may collect, record or disclose personal information. This position will also support managing the increase in the volume of FOI requests and developing corporate policy to increase proactive disclosure of routine records.
- **Human Resources:** 3.0 FTEs for 2024 IBC 11a-3.1: Create and Implement an Indigenous Employment Strategy, 2024 IBC 11b-1.3: Human Resources Manager and 2024 IBC 11a-1.1: Develop and Implement the Corporate Accessibility Plan (three months); and 11a-2.1 Enhance Understanding and Accountability for Equity Diversity & Inclusion (EDI) Across Decision Making Bodies (funding only).
- **Financial Services:** 1.0 FTE ongoing and 1.0 FTE term to support for various IBCs including capital project cost controllership in Regional Housing. As a support division to the organization the impact of advancing all other IBCs are impacting the ability to continue providing transactional processing, regulatory reporting, and other core support services. Other impacts on the operating budget are driven by salary and benefit increases as a result of the new collective agreement, annual step increases and cost recovery impacts related to facilities.
- **First Nations:** Reduction in one-time expenditures from 2023 for First Nations Relations initiatives for cultural training and advancing the indigenous employment strategy. The 2023 IBC 3a-1.1 Government to Government Relationship Building initiative has been reintroduced as an ongoing budget item under 2024 IBC 15a-1.1 Government to Government Relationship Building to provide continued capacity funding to support relationship building and MOU development to make progress on priority action items identified by First Nations in the region.
- **Corporate Communications:** Addition of the 2024 IBCs 12b-1.1 Build EDI Principles into Public Participation Framework and 12b-1.2 Citizen Experience Survey. Summary of IBCs 12-1.1 This initiative would replace the 2014 framework with a new policy that reflects Board and organizational commitments to EDI principles and lessons learned in recent years. The policy would be supported by a new toolkit that enables staff across the organization to effectively plan and deliver public engagement initiatives that are inclusive, gather feedback from a wider range of residents, address barriers to participation and ultimately support more inclusive representation and decision making. Research/feedback

from residents would be helpful in framing response to community needs and how organization plans communications and engagement activities, nested in those community needs. Further, survey results will provide actionable insights and baselines so that metric-based outcomes can be developed for strategic planning.

## **2024 Capital Budget**

The proposed five-year capital plan for the Legislative and General Government Service totals \$11.2 million with \$2.3M in year 1. Table 2 summarizes the capital plan by budget within the service.

**Table 2: 2024-2028 Capital Expenditure by Function (\$Millions)**

| Budget Description       | Annual Capital Plan (2024) | Total Capital Plan (2024-2028) | % of L&G    |
|--------------------------|----------------------------|--------------------------------|-------------|
| Board Expenditures       | 0.765                      | 0.911                          | 13.75%      |
| CAO/Corporate Services   | 0.015                      | 0.073                          | 0.27%       |
| Human Resources          | 0.007                      | 0.728                          | 0.12%       |
| Financial Services       | 0.507                      | 0.845                          | 9.11%       |
| Information Technology   | 3.977                      | 8.306                          | 71.52%      |
| First Nations            | 0.002                      | 0.012                          | 0.14%       |
| Corporate Communications | 0.278                      | 0.297                          | 5.01%       |
| Other*                   | 0.009                      | 0.045                          | 0.16%       |
| <b>Total</b>             | <b>\$5.560</b>             | <b>\$11.217</b>                | <b>100%</b> |

*\*Other: Includes the functions of Corporate Climate, Real Estate, Health Planning, GM Planning and Protective Services, Corporate Emergency and GM Regional Parks and ES.*

Details for each capital plan can be found in appendices B through O.

Below are explanations for sub-budgets with capital expenditures exceeding \$0.250 million:

**Board Expenditures:** New boardroom table for additional capacity, as well as boardroom technology upgrades and replacements for audio and media, for 2024.

**Financial Services:** Development and integration of the Enterprise Asset Management (EAM) module within the SAP Enterprise Resource Management system is planned to continue through 2024 and into 2025. Guided by the 2019 Board approved Corporate Asset Management Strategy, EAM is being developed to standardize, consolidate, and integrate asset information across functions to streamline reporting, intervention, and capital investment decision-making. With over \$3.0 billion in tangible capital assets, risk management through condition assessments and systematic intervention is a key deliverable in the asset management program.

**Information Technology:** Over the five-year plan, Legislative and General Government functions continue refreshing aging infrastructure to support the organization in high performing service delivery. As part of the five-year Technology Modernization Strategy, the CRD is making investments to upgrade data center infrastructure, corporate software and applications, and migrate to a digital technology culture. These investments are essential to provide critical capacity, ensuring a stable and modern platform to support the delivery across the Region's services. The modernization of this infrastructure will address years of technical debt while

addressing reliability and enhancing security. Cloud readiness and the adoption of cloud hosted services also rely on technological upgrades.

The most significant project in the five-year capital plan is the SAP migration project, which will upgrade the end-of-life SAP ECC platform to S4 HANA. Updating the 20-year-old platform seeks to support real-time data processing and reporting, streamline operations, automate processes and preparedness for cloud hosting services. The upgrade ensures reliable and secure system compliance to industry standards. This includes the deployment of a new financial model enhancing the support of critical operations and services across each department of the CRD.

**Corporate Communications:** The public website redesign project continues in 2024 as a strategic investment and foundational piece for the organization's communication and digital transformation plans. The timing aligns with changes in how local governments deliver information for online audiences and enables the CRD to improve the usability, accessibility and resiliency of the platform as both a transparency and customer service channel. When complete, the CRD will have a website that aligns with our goals related to accessibility, usability, transparent governance and customer service. The website will also move from an on-premise solution to a hosted cloud solution to minimize disruption and maximize availability.

## **ALTERNATIVES**

### *Alternative 1*

The Governance Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendices A through O, the Legislative and General Government Operating and Capital Budgets be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

### *Alternative 2*

The Governance Committee refer the budget back to staff for additional information for the Capital Regional District Board's consideration.

## **IMPLICATIONS**

### *Financial Implications*

In line with the 2024 Service and Financial Planning Guidelines approved by the CRD Board in May, prioritization has focused on mitigating cost impacts where possible while balancing essential services and initiatives. To exercise constraint and cost containment, the core inflationary expense adjustment has been kept to 3.5% for the 2024 when balancing the consolidated Legislative and General Government service. Mitigation of expenditure and inflation pressures were achieved through phased rollout of initiatives, resource optimization and removing nonvalue-added work content.

Staff continue to manage cost pressures on revenue through utilization of reserves and surplus carryforward where possible as well as refinement of cost recovery across services.

*Intergovernmental Implications*

CRD staff will continue to work closely with all Nations whose areas of interests overlap with regional parks and trails in implementing the Regional Parks and Trails Strategic Plan 2022–2032.

The Regional Parks and Trails Strategic Plan 2022–2032 focuses on strengthening government-to-government relationships and understanding between the CRD and First Nations in the region. Through the latter half of 2022, engagement on the Interim Strategic Plan took place with First Nations in the region. The CRD is committed to maintaining an open dialogue with First Nations to confirm that Indigenous cultural values and cultural uses are respected and that the priorities and actions remain relevant and meaningful. Continued work on co-creating MOUs for First Nations in the region through the government to government relationship building initiative will ensure we continue to make progress on the Board Priority of advancing reconciliation with First Nations.

*Alignment with Board and Corporate Priorities*

Community Need Summaries present an overview of the operational and strategic context, services levels, initiatives, and performance data for each Community Need in the CRD 2023-2026 Corporate Plan. They also provide details of the initiatives, associated staffing, timing and service levels required to advance the work in future years.

The Community Need Summaries related to the Legislative and General Government service are Advocacy, People, Open Government, First Nations, and Business Systems and Processes. These Community Need Summaries are being presented under separate reports and document the organization's service planning recommendations for 2024.

**CONCLUSION**

The proposed 2024 Legislative and General Government Service budgets have been prepared for consideration by the Governance Committee. The Committee will make budget recommendations to the CRD Board through the Committee of the Whole. The proposed 2024 budget reflects the inclusion of many CRD Corporate Plan initiatives across a number of Legislative and General functions.

**RECOMMENDATION**

The Governance Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendices A through O, the Legislative and General Government Operating and Capital Budgets be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

# Legislative & General Government > 2024 Operating & Capital Budget

**Presentation to Governance Committee**  
**Wednesday October 4, 2023**

## Community Needs

The Community Need Summaries related to the Legislative and General Government service are;

- Advocacy
- People
- Open Government
- First Nations
- Business Systems and Processes

These Community Need Summaries are being presented under separate reports and document the organization's service planning recommendations for 2024.

As the overarching administrative service for the CRD, all services rely on the support of Legislative & General Government to effectively execute and deliver their mandates. Functions included within this service include;

- Board Expenditures
- CAO & Executive Services
- Corporate Climate Action
- Corporate Communications
- Corporate Emergency Services
- Corporate Services
- Financial Services
- First Nations Relations
- Human Resources
- Information Technology

## 2024 Legislative and General Government Consolidated Operating Budget Summary

The following tables summarize the total 2024 Legislative and General Government sub-budgets detailed in appendices B through O by comparing the change from 2023.

**Table 1: 2024 Budgeted Expenses**

| Budget Component                      | 2024 Budget     | 2023 Budget     | \$ Variance    | % Variance  |
|---------------------------------------|-----------------|-----------------|----------------|-------------|
| Salaries and Wages                    | 25.868          | 24.193          | 1.675          | 6.9%        |
| Consultancy and Contract for Services | 2.428           | 3.210           | (0.782)        | (24.4%)     |
| Software Licenses                     | 2.569           | 2.380           | 0.189          | 7.9%        |
| Other Operating Costs                 | 6.923           | 6.738           | 0.185          | 2.7%        |
| <b>Total (M)</b>                      | <b>\$37.787</b> | <b>\$36.521</b> | <b>\$1.266</b> | <b>3.5%</b> |

**Table 2: 2024 Budgeted Revenue**

| Budget Component              | 2024 Budget     | 2023 Budget     | \$ Variance    | % Variance  |
|-------------------------------|-----------------|-----------------|----------------|-------------|
| Allocations and Other Revenue | 23.276          | 21.066          | 2.210          | 10.5%       |
| Requisition                   | 12.162          | 11.374          | 0.788          | 6.9%        |
| Transfers From Reserve        | 2.349           | 4.081           | (1.732)        | (42.4%)     |
| <b>Total (M)</b>              | <b>\$37.787</b> | <b>\$36.521</b> | <b>\$1.266</b> | <b>3.5%</b> |

### Requisition

The 2024 requisition is \$12.2 million, which is a 6.9% increase over 2023.

The key drivers of the increase in requisition are as follows:

- 2024 IBC 12b-4.1 Meeting Management Improvements for Board
- 2024 IBC 11b-7.1: Manager of Corporate Initiatives and Administration (nine months) for the CAO & Executive Office
- 2024 IBC 12a-1.1: Privacy and Information Senior Analyst (nine months) for Corporate Services
- 2024 IBC 15a-1.2: First Nations Relations Staffing (six months)
- Salary and remuneration adjustments based on collective agreement and bylaw

Change in Budget 2023 to 2024

Service: 1.014 CAO & EXECUTIVE SERVICES

Total Expenditure

Comments

2023 Budget 929,365

Change in Salaries:

|                                |         |  |
|--------------------------------|---------|--|
| Base salary and benefit change | 14,877  | Inclusive of estimated collective agreement changes                              |
| Step increase/paygrade change  | 33,625  |  |
| 1.0 FTE Exempt Manager         | 102,470 | 2024 IBC 11b-7.1: Manager of Corporate Initiatives and Administration (9 months) |
| Reduction in auxiliary wages   |         |  |
| Total Change in Salaries       | 150,972 |  |

Other Changes:

|                          |        |   |
|--------------------------|--------|---|
| Office & Equipment Costs | 25,190 | Office costs associated with new ongoing FTEs |
| Building Occupancy       | 5,957  |   |
| Other Costs              | 2,643  |   |
| Total Other Changes      | 33,790 |   |

2024 Budget 1,114,127

Summary of % Expense Increase

|                               |       |
|-------------------------------|-------|
| 2024 IBC Expense              | 13.7% |
| Other salary adjustments      | 5.2%  |
| Balance of increase           | 0.9%  |
| % expense increase from 2023: | 19.9% |

% Requisition increase from 2023 (if applicable): 20% Requisition funding is 100% of service revenue

Overall 2023 Budget Performance

(expected variance to budget and surplus treatment)

There is an estimated one-time favourable variance of \$60,300 (7.5%) due mainly savings on contracted expenses (\$30,000), and minor savings on salaries and temporary staff vacancies (\$25,000).

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Corporate Services**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.014 Corporate Services

**Committee:** Governance Committee &  
Finance Committee

**DEFINITION:**

Authorized by Letters Patent to provide for administrative expenditures of the Capital Regional District Board.

**SERVICE DESCRIPTION:**

Risk management including insurance claims, loss control and tender call/contract review.  
Corporate administrative support including legal services, legislative services, reception, mail, printing and Freedom of Information requests.  
Support for electoral area volunteer services and fire departments.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations.

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMITTEE:**

Governance Committee and Finance Committee

**FUNDING:**

Requisition and internal recoveries

**Summary of % Expense Increase**

|   |              |
|---|--------------|
| 2024 IBC Expense                            | 3.9%         |
| Reduction in one-time contract for services | -8.5%        |
| Balance of increase                         | 2.1%         |
| % expense increase from 2023:               | <b>-2.5%</b> |

% Requisition increase from 2023 (if applicable):

**7%**

Requisition funding is 75% of service revenue

**Overall 2023 Budget Performance**

(expected variance to budget and surplus treatment)

There is a one time favourable variance of \$132,385 (4.5%) largely to temporary staff vacancies (\$305,900) and deferral of EDRMS contract for services expenses to 2024 (\$100,000); .This is partially offset by reduced transfers from reserve for EDRMS of \$100,000, increased legal advisory consulting of \$100,000 and additional program consulting of \$50,000.

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Real Estate**

#### **COMMITTEE REVIEW**

**Service:** 1.015 Real Estate

**Committee:** Governance Committee & Finance Committee

**DEFINITION:**

Authorized by Letters Patent to provide for administrative expenditures of the Capital Regional District Board.

**SERVICE DESCRIPTION:**

Acquisition, disposal and management of real estate interests on behalf of CRD departments and commissions/committees.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations.

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMITTEE:**

Governance Committee and Finance Committee

**FUNDING:**

Internal recoveries and requisition

1.015 - Real Estate Services

OPERATING COSTS:

Salaries and Wages

Allocations

Legal Expenses

Software Licenses

Other Operating Expenses

**TOTAL OPERATING COSTS**

\*Percentage increase/-decrease over prior year

CAPITAL / RESERVE

Transfer to Equipment Replacement Fund

**TOTAL CAPITAL / RESERVE**

**TOTAL COSTS**

\*Percentage increase/-decrease over prior year Total Costs

Internal Recoveries

Transfers from operating reserve

**NET COSTS**

\*Percentage increase over prior year Net Costs

AUTHORIZED POSITIONS:

Salaried

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Human Resources**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.016 Human Resources

**Committee:** Governance Committee &  
Finance Committee

**DEFINITION:**

Authorized by Letters Patent to provide Human Resources services to the Board of the Capital Regional District.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations.

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMITTEE:**

Governance Committee and Finance Committee

**FUNDING:**

Requisition and internal recoveries

| Total Change in Salaries                       | 480,337 |   |

**Other Changes:**

|                          |          |  |
|--------------------------|----------|--|
| Office & Equipment Costs | 96,000   | Office costs associated with new ongoing FTEs          |
| Contract for Services    | (50,000) | Reduction in one-time funding for 2023 Employee Survey |
| Building Occupancy       | 17,370   |  |
| Other Costs              | 27,751   |  |
| Total Other Changes      | 91,121   |  |

**2024 Budget** **3,748,977**

|   |       |
|---|-------|
| Summary of % Expense Increase               |       |
| 2024 IBC Expense                            | 15.9% |
| Reduction in one-time contract for services | -1.6% |
| Balance of increase                         | 3.6%  |
| % expense increase from 2023:               | 18.0% |

|   |     |   |
|---|-----|---|
| % Requisition increase from 2023 (if applicable): | 19% | Requisition funding is 15% of service revenue |
|---|-----|---|

**Overall 2023 Budget Performance**  
(expected variance to budget and surplus treatment)

*There is an estimated one-time favourable variance of \$235,000 (34.2%) due largely to temporary staff vacancies (\$127,000) as well as reduced training and development spending (\$55,000) compared to plan. Further minor savings from reduced office supply costs and legal services.*

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Finance**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.017 Finance

**Committee:** Governance Committee &  
Finance Committee

**DEFINITION:**

Authorized by Letters Patent to provide financial services to the Board of the Capital Regional District.

**SERVICE DESCRIPTION:**

Financial services and systems including budget preparation, financial accounting and reporting, financial analysis, accounts payable and payments, revenue billing and collection, payroll, financial systems support, banking, investments, long term debt and bylaw preparation.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMITTEE:**

Governance Committee and Finance Committee

**FUNDING:**

Requisition and internal recoveries

**2023 Budget** **8,459,287**

**Change in Salaries:**

|                                  |         |   |
|----------------------------------|---------|---|
| Base salary and benefit change   | 131,863 | Inclusive of estimated collective agreement changes                   |
| Step increase/paygrade change    | 87,660  | Inclusive of annualization and reclassification of 2023 IBC positions |
| 1.0 FTE Financial Analyst        | 75,288  | 2024 IBCs Various Support   |
| 0.5 FTE Financial Analyst (Term) | 68,707  | 2024 IBC Support: 5a-1.1 Capital Project Delivery                     |
| 0.5 FTE Financial Analyst (Term) | 68,707  | 2024 IBC Support: 4a-1.1 Transportation Service                       |
| Other                            | 10,952  | Increase on auxiliary labour, overtime, and standby pay               |

Total Change in Salaries **443,177**

**Other Changes:**

|                                  |           |   |
|----------------------------------|-----------|---|
| Building Occupancy               | 21,155    | Facilities allocation   |
| Office and Equipment Costs       | 47,000    | Office costs associated with office renovation, new on-going, and term FTEs |
| Contract for Services (one-time) | (100,650) | Reduction for 2023 one-time KPMG G/L and reporting tools                    |
|                                  | (110,000) | Reduction for 2023 one-time SAP Funds Management module consulting          |
| Other Costs                      | 2,286     |   |

Total Other Changes **(140,209)**

**2024 Budget** **8,762,255**

**Summary of % Expense Increase**

|   |             |
|---|-------------|
| 2024 Base salary and step increases           | 2.6%        |
| 2023 One-time Contract Costs (Reserve-funded) | -2.5%       |
| 2024 IBC Expense                              | 3.1%        |
| Balance of increase                           | 0.4%        |
| <b>% expense increase from 2023:</b>          | <b>3.6%</b> |

**% Requisition increase from 2023 (if applicable):** **3.1%** *Requisition funding is 38% of service revenue*

**Overall 2023 Budget Performance**  
(expected variance to budget and surplus treatment)

*There is an estimated one-time favourable variance of \$28,623 (0.3%) due mainly to hiring challenges of vacant positions and hiring new staff at lower pay steps; offset by one-time Equipment Replacement Reserve contributions. This surplus will be transferred to the Legislative and General Operating Reserve.*

### Assumptions/Background:

2024 - 1 standard laptop  
2026 - 2 standard laptops  
2027 - 1 standard laptop  
2028 - 1 standard laptop

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Information Technology**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.022 Information Technology

**Committee:** Governance Committee &  
Finance Committee

**DEFINITION:**

Support services to the departments of the Capital Regional District.

**SERVICE DESCRIPTION:**

Corporate information system development and support, telecommunications & phone systems, desktop support, networking, 911 systems, data communications, emergency systems, radio systems design & support, corporate web site, social media, application analysis & development, data management, Geographic Information Systems, web mapping, geospatial services, mapping and property information.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMITTEE:**

Governance Committee and Finance Committee

**FUNDING:**

Requisition and internal recoveries

### Assumptions/Background:

2023 - replacement of 2 standard desktops  
 2026 - replacement of 1 ultra-portable laptop  
 2027 - replacement of 2 standard desktops  
 2028 - replacement of 1 standard desktop

# **CAPITAL REGIONAL DISTRICT**

## **2024 BUDGET**

### **Corporate Emergency**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.025 Corporate Emergency

**Committee:** Planning, Transportation & Protective Services

**DEFINITION:**

Planning and coordination for disasters or emergencies.

**SERVICE DESCRIPTION:**

Coordinate and administer the Corporate Emergency Plan in accordance with the *Emergency Program Act* as a local authority and regional service provider and ensure integration with the three Electoral Area Emergency Plans to provide business continuity and CRD divisional coordination in the case of an emergency.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Bands.

**MAXIMUM LEVY:**

N/A

**COMMITTEE:**

Planning, Transportation & Protective Services

**FUNDING:**

Requisition

**Change in Budget 2023 to 2024**  
**Service: 1.025**

**Total Expenditure**

**Comments**

**2023 Budget**

**406,282**

**Change in Salaries:**

Base salary and benefit change

1,687

Inclusive of estimated collective agreement changes

Total Change in Salaries

1,687

**Other Changes:**

Safe Restart Grant carried forward into 2023

(71,842)

One-time Safe Restart Grant carried into 2023 for EM software and allowance 2020 EOC declined claim

Standard Overhead Allocation

(2,829)

Decrease in 2023 operating costs due to one-time surplus carryover in 2022

Building Occupancy Allocation

1,984

Increase primarily related to HQ building reserve contribution

Software License

2,980

Increase primarily related to new software Public Emergency Alert Service

Other Costs

4,688

Expenses such as travel, insurance, payment to 3rd parties, etc.

Total Other Changes

(65,019)

**2024 Budget**

**342,950**

**Summary of % Expense Change**

2024 Base salary and benefit change

0.4%

2022 surplus carryover to 2023

-17.7%

Balance of change

1.7%

% expense change from 2023:

**-15.6%**

% Requisition change from 2023 (if applicable):

**3.0%**

Requisition funding is 68.8% of service revenue

**Overall 2023 Budget Performance**

(expected variance to budget and surplus treatment)

*There is a an estimated one-time favourable minor variance of \$870 (0.4%) mainly due to lower general repairs and maintenance expenses. This variance will be transferred into the Equipment Replacement Fund, which has an expected year end balance of \$59,309 before this transfer.*

## Reserve Schedule

### Reserve Fund: 1.025 Corporate Emergency - Equipment Replacement Fund

- Capital Regional District Equipment Replacement Fund (ERF) was established in 1991 under Bylaw No. 945. This is a reserve fund pursuant to the provisions of Section 378(c) of the Municipal Act to be known as the "Equipment Replacement Fund"
- The monies in this reserve fund shall be expended only for the purchase of machinery and equipment.
- Monies set aside shall be deposited under separate account in the bank and until required to be used may be invested in the manner provided by Section 364(2) of the Municipal Act.
- User departments of the Capital Regional District vehicles and equipment may be charged for depreciation of their machinery and equipment and the amount of such depreciation shall be transferred to the equipment replacement fund.
- ERF Group: CRPEMERGE.ERF

### **First Nations Relations**

#### **COMMITTEE REVIEW**

OCTOBER 2023

**Service:** 1.027 First Nations Relations

**Committee:** First Nations Relations

**DEFINITION:**

To provide for the management of intergovernmental relations between the CRD and the First Nations.

**SERVICE DESCRIPTION:**

This service was created to provide for 1) the management of intergovernmental relations, primarily First Nations, through a process of consultation, and 2) the coordination of various CRD First Nations initiatives to ensure the alignment of interests and to build positive working relationships between the CRD and First Nations communities within the Region.

**PARTICIPATION:**

All municipalities and electoral areas and the Songhees and Tsawout Nations

**MAXIMUM LEVY:**

N/A

**MAXIMUM CAPITAL DEBT:**

2023 Budget

1,453,689

Change in Salaries:

|                                |         |   |
|--------------------------------|---------|---|
| Auxiliary labour               | 108,000 | 2023 IBC: 15f-1.15 Website Project                                |
| Base salary and benefit change | 23,420  | Inclusive of estimated collective agreement changes               |
| Annualization of 2023 position | 18,241  | Annualization of 2023 1.0 FTE IBC 15f-1.15 Digital Communications |
| Other                          | 260     | Inflationary increase auxiliary labour, overtime and standby pay  |

Total Change in Salaries

149,921

Other Changes:

|                            |           |   |
|----------------------------|-----------|---|
| Contract for Services      | 75,000    | 2024 IBCs 12b-1.1 \$25k and 12b-1.2 \$50k   |
|                            | (181,280) | Reduction of 2023 one-time consultancy costs, partially deferred to 2024 capital budget |
| Human Resources Allocation | 10,980    | Contribution towards 2024 Human Resources & Corporate Safety initiatives                |
| Building Occupancy         | 9,675     |   |
| Other Costs                | (4,639)   | Completion of 2023 one-time items, primarily new position equipment costs               |

Total Other Changes

(90,264)

2024 Budget

1,513,346

Summary of % Expense Increase

|  |      |
|--|------|
| 2024 Base salary and benefit change                | 1.6% |
| 2023 and 2024 IBCs                                 | 0.1% |
| Human Resources and Building Occupancy Allocations | 1.4% |
| Balance of increase                                | 1.0% |
| % expense increase from 2023:                      | 4.1% |

% Requisition increase from 2023 (if applicable):

6%

Requisition funding is (43)% of service revenue

Overall 2023 Budget Performance

(expected variance to budget and surplus treatment)

Example (delete before entering):  
There is an estimated one-time favourable variance of \$88,500 (7%) due mainly to vacant positions. This variance will be moved to the Legislative and General Operating Reserve.

 2027 - 2 standard laptops  
 2028 - 2 standard laptops

**REPORT TO JUAN DE FUCA WATER DISTRIBUTION COMMISSION  
MEETING OF TUESDAY, OCTOBER 3, 2023**

**SUBJECT**     **Juan de Fuca Water Distribution Service 2024 Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the draft 2024 Juan de Fuca Water Distribution Service budget, highlighting the proposed significant changes from the 2023 budget. The report generally follows the sequence of information provided in the attached draft budget document (Appendix A).

**BACKGROUND**

The draft 2024 Juan de Fuca (JDF) Water Distribution Service budget has been prepared for the JDF Water Distribution Commission's (Commission) consideration. The Commission will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole in October. As in previous years, the draft 2024 JDF Water Distribution Service budget has been prepared considering the CRD Board's 2024 service planning and financial expectations, which include identifying opportunities to realign or reallocate resources and seek potential efficiencies between departments and services, reviewing adjustments related to regulatory compliance, and undertaking infrastructure improvements to maintain service levels across the service area, including incremental ongoing operational and maintenance requirements in the expanding service area. The following sets out the key components of the budget.

**2023 Year End Financial Projections**

Year-end revenue and expenditure projections have been established and estimated variances are summarized as follows:

| Budget Item  | Projected<br>Variance (\$) | Projected<br>Variance<br>(%) |
|--|----------------------------|------------------------------|
| Distribution System operating expenditures           | -\$32,407                  | -0.4%                        |
| Bulk water purchase cost                             | \$223,240                  | 3.1%                         |
| Capital expenditures and transfers                   | \$495,081                  | 6.7%                         |
| Debt servicing - principal and interest expenditures | -\$3,680                   | -0.2%                        |
| Revenue  | \$682,234                  | 2.8%                         |

The Equipment Replacement Fund (ERF) expenditure allowance made in the 2023 budget from ERF was \$1,080,000, however is projected to exceed budget by \$206,464 as a result of early replacement of vehicles due to failure and inflationary costs associated with electric vehicles.

**Rate Base**

The rate base for 2024 has increased by \$10,792,473 from 2023. This increase relates to physical plant additions, including distribution pipes, water meters and services, and pump station upgrades (Pages 3 & 4 of the budget document).

### Revenue Requirement

The revenue requirement for 2024 has increased by \$1,308,649 over 2023. This is resulting from an increase in operational expenses of \$292,147, increased depreciation expenses of \$282,606 net of expired depreciation on existing assets, and a net increase in the return on the rate base of \$703,300. The increase in the return on the rate base is a result of the growing asset base (Page 5 of the budget document).

### Operating Budget

The 2024 operating budget reflects an increase in non-discretionary expenses such as negotiated wage/salary increases, corporate support service allocation increases, maintenance expenses due to new infrastructure additions, and other operating expense increases such as electricity costs. The net core 2024 operating budget increase is \$292,147. Operating budget forecasts for 2025 through 2028 have been presented for information.

As reported in recent years the distribution system continues to expand at an accelerated rate due to continued growth in new land development in the service area over the last several years. For context, the following summarizes the additions in 2023 (over 2022) to the asset units in the major categories, all of which require regular maintenance to ensure reliable performance:

|                              |       | 5 Year Increase |
|------------------------------|-------|-----------------|
| Water distribution mains (m) | 3,000 | 4.5%            |
| Service laterals             | 400   | 9.7%            |
| Fire hydrants                | 35    | 13.0%           |
| Line valves                  | 140   | 12.8%           |
| Flush, air and check valves  | 21    | 13.0%           |
| Water meters <50mm           | 350   | 8.9%            |
| Water meters >=50mm          | 50    | 29.1%           |

As noted previously, with at least four major developments underway in the service area, including South Skirt Mountain, Bear Mountain, Royal Bay and Centre Mountain, it is expected that the water system asset base will continue to grow significantly in the near future as initial water servicing infrastructure is installed which will impact operating and maintenance costs. Given the size of the developments and anticipated phasing and build-out timelines, it is expected that there will be an element of 'revenue lag' before revenue generated from retail water sales in these and other developments offsets the initial infrastructure operating and maintenance costs. Staff have been directed to examine this issue and possible rate options to mitigate the budget implications through a Water Rate Methodology and Option Study. Due to this study being delayed, any potential changes to the rate methodology will be presented to the Commission in 2024.

### Capital Budget

There are several capital projects planned for 2024 with a total value of \$20,440,000 including \$8,065,000 in projects that are in progress or are multi-year projects, and \$1,020,000 in Development Cost Charge (DCC) projects. There are also \$2,910,000 in projects cost-shared with the Regional Water Supply Service. See pages 10 to 23 of the budget document for capital plan details.

A large portion of the work in progress and resulting capital expenditure is related to several major projects summarized below:

1. Project 16-05 Comprehensive Pump Station Upgrades - This project is to upgrade aging pump stations within the JDF Water Distribution system. In 2024 the planned upgrades are to Copper Mine Pumpstation #1 and #2 located in East Sooke. The planned carry-forward of \$1,100,000 is a result of delays encountered during the construction phase of the previous pump station project related to supply chain issues. The project is currently being designed in 2023 with tendering being completed in the first quarter of 2024 and construction expected to be completed by the first quarter of 2025.
2. Project 20-03 Asbestos Cement (AC) Pipe Replacement Program - The planned carry-forward of \$3,000,000 is related to the majority of 2023 pipe replacement projects being delayed until 2024 as focus was shifted to Goldstream Avenue Water main upgrade project in 2023. Design for replacements will be completed in 2023 and construction will take place in 2024. Project locations include Sooke Road and Belvista Place (Sooke), Painter Road (Colwood), Milburn Drive (Colwood), Ocean Boulevard (Colwood) and Lagoon Road (Colwood).
3. Project 24-01 Charters Road – This project includes replacement of watermain on Charters Road as part of larger transportation project being undertaken by the District of Sooke
4. Project 24-02 Highway 14 Water Main Relocation – This project includes relocation of CRD watermain in Ministry of Transportation and Infrastructure (MOTI) right of way. Project work is proposed to be bundled within MOTI's overall project.
5. Project 21-01 Sooke Henlyn Supply and Distribution Main – The start of this DCC project is dependent on development work. This work will not be complete in 2023, therefore the \$1,000,000 project has been carried-forward to 2024.

More than 70% of the 2024 capital plan is related to existing water infrastructure asset renewal. A five-year capital plan is presented for information. The total five-year (2024-2028) capital plan budget is currently \$58,874,000.

#### Capital and Debt Expenditures

JDF has multiple sources of funding for capital expenditures, including operating transfer to the water capital fund, equipment replacement fund reserve, DCC reserves and debt. The water capital fund is applied prior to drawing debt financing. For 2024, the operating transfer to the water capital fund is budgeted at \$7,346,169, with up to a maximum of \$4,500,000 debt funding. Additional projected water sales revenue and corresponding capital reserve fund transfer is expected to reduce the borrowing needs in 2024.

A loan authorization in the amount of \$14,800,000 was approved in 2021 to allow continued partial funding of the five-year capital plan. The upcoming debt retirements on existing borrowings are summarized as follows:

| Loan Number       | Retirement Date | Loan Amount  |
|-------------------|-----------------|--------------|
| <b>LA3782-118</b> | April 2027      | \$2,500,000  |
| <b>LA3782-124</b> | April 2028      | \$4,500,000  |
| <b>LA3782-127</b> | April 2029      | \$5,000,000  |
| <b>LA3981-137</b> | April 2031      | \$2,000,000  |
| <b>LA3981-145</b> | April 2033      | \$3,000,000  |
| <b>LA3981-150</b> | April 2035      | \$5,100,000  |
| <b>LA4379-15X</b> | April 2038-2040 | \$14,200,000 |

When assessing key financial health indicators, the service maintains an affordable level of debt over the next five years. The percentage of revenue dedicated to debt costs is forecast to be between 9 and 11%, which is less than an annual benchmark rate of 25%, and debt funding for capital investment in each of the next five years does not exceed 40%. A summary indicator table is provided below:

| Year | % Revenue for Debt | Capital Funded by Debt |
|------|--------------------|------------------------|
| 2024 | 9.43%              | 22.02%                 |
| 2025 | 10.43%             | 27.58%                 |
| 2026 | 10.50%             | 11.13%                 |
| 2027 | 10.07%             | 0.0%                   |
| 2028 | 8.97%              | 0.0%                   |

2024 debt expenditures for existing and new debt servicing are budgeted to be \$2,411,815, an increase of \$548,521 from 2023.

For 2024, the transfer to the vehicle/equipment replacement fund was increased to \$647,507 to reflect the growth in cost of future vehicle replacement. The reserve fund balance is estimated at \$549,196 at year end 2023 (See reserve schedule – Page 26 of the budget document).

The DCC projects will be funded entirely from the DCC reserve fund, which is projected to have a balance of \$10,717,005 at year end 2023 (See reserve schedule – Page 25 of the budget document).

#### Bulk Water Purchase

Based on the proposed 2024 budgeted water demand and Regional Water Supply wholesale water rate, the bulk water purchase budget has been set at \$7,689,300.

#### Water Demand

Total water demand in the service area is generally anticipated to continue to increase year over year, primarily due to growth in the service area. The 2023 year-end demand is projected to be 290,000 cubic metres over budget at 9,500,000 cubic metres.

The recommended 2024 water rate was calculated using a budget demand of 9,500,000 cubic metres (Page 7 of the budget document), which is an increase of 290,000 cubic metres from the volume used in the 2023 budget, but in alignment with the 2023 projected actuals.

#### Proposed 2024 Wholesale Water Rate

The proposed 2024 wholesale water rate is \$0.8094 per cubic metre, a 5.14% increase from the 2023 rate, subject to the Regional Water Supply Commission's approval.

#### Proposed Agricultural Water Rate

The proposed 2024 agricultural water rate was maintained at the 2023 rate of \$0.2105 per cubic metre, subject to the Regional Water Supply Commission's approval. The Regional Water Supply agricultural water rate budget funds the difference between the municipal retail water rate and the agricultural water rate. As directed by the Regional Water Supply Commission, the agricultural water rate is currently under review.

Proposed 2024 Juan de Fuca Water Distribution Service Retail Water Rate

The recommended retail water rate has taken into consideration the revenue required to meet operating and capital expenditures, debt obligations, the bulk water purchase expense, and the budget demand volume established for 2024. The proposed 2024 JDF Water Distribution Service retail water rate is \$2.6927 per cubic metre, a 5.74% increase from the 2023 rate (Page 8 of the budget document).

Retail and Wholesale Water Rate History and Projection

The retail and wholesale water rate history and projection is attached (Appendix C). The rates may be adjusted in the future to reflect actual revenue and expenditure circumstances and water demand volumes.

**ALTERNATIVES**

*Alternative 1*

The Juan de Fuca Water Distribution Commission recommends the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 Operating and Capital Budget and the Five Year Capital Plan;
2. Approve the 2024 Juan de Fuca Water Distribution Service retail water rate of \$2.6927 per cubic metre, adjusted if necessary, by any change in the Regional Water Supply wholesale water rate;
3. Approve the increase of Equipment Replacement Fund expenditure for 2023 to \$1,287,000;
4. Direct staff to balance the 2023 actual operating deficit or surplus on the 2023 capital fund transfer;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the Water Distribution Local Service Conditions, Fees and Charges Bylaw accordingly.

*Alternative 2*

That the Juan de Fuca Water Distribution Commission directs staff to bring back a revised 2024 Operating and Capital Budget for the Commission's consideration.

**IMPLICATIONS**

*Financial Implications*

There are no financial implications of 2023 ERF funding increase, reserve balances are sufficient to fund the increase.

The 2024 operating and capital budget and resulting annual water rate have been prepared to meet the needs of the service. The proposed 2024 water rate generally aligns with the rate previously presented in the five-year rate projections, although the implications of the new approach to servicing First Nations were not previously reflected in the rate projections. The proposed 2024 rate would result in a \$34.19 annual increase in the cost of water for an average household.

## **CONCLUSION**

The draft 2024 Juan de Fuca Water Distribution Service budget has been prepared for the Juan de Fuca Water Distribution Commission's consideration. The Commission will make budget recommendations to the Capital Regional District Board through the Committee of the Whole in October. The draft 2024 Juan de Fuca Water Distribution Service budget has been prepared considering the requirement to maintain regulatory compliance, the on-going need to undertake infrastructure renewal to ensure the system operates reliably, and annual operational adjustments, including incremental maintenance requirements associated with new development infrastructure in the expanding service area.

## **RECOMMENDATION**

The Juan de Fuca Water Distribution Commission recommends the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 Operating and Capital Budget and the Five Year Capital Plan;
2. Approve the 2024 Juan de Fuca Water Distribution Service retail water rate of \$2.6927 per cubic metre, adjusted if necessary, by any change in the Regional Water Supply wholesale water rate;
3. Approve the increase of Equipment Replacement Fund expenditure for 2023 to \$1,287,000;
4. Direct staff to balance the 2023 actual operating deficit or surplus on the 2023 capital fund transfer;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the Water Distribution Local Service Conditions, Fees and Charges Bylaw accordingly.

### **JDF Water Distribution**

#### **COMMISSION REVIEW**

OCTOBER 2023

Service: 2.680 JDF Water Distribution

Commission: Juan De Fuca Water Distribution

**DEFINITION:**

To finance the administration, development, maintenance, and operational expenses, of the Juan de Fuca Water Distribution local service in the Western Communities of the Capital Regional District, as per the Water Distribution Local Service Area Establishment Bylaw No. 2538.

The establishment and operation of a Juan de Fuca water Distribution Commission is done by Bylaw No. 2540.

**SERVICE DESCRIPTION:**

Juan de Fuca Water Distribution Service provides retail water distribution system to participants within the Western Communities. The service administration and operation is provided by the Integrated Water Services Department.

**PARTICIPATION:**

|                             |                       |
|-----------------------------|-----------------------|
| City of Colwood             | District of Metchosin |
| City of Langford            | District of Sooke     |
| Town of View Royal          | District of Highlands |
| Juan de Fuca Electoral Area |                       |

**MAXIMUM LEVY:**

The maximum amount that may be requisitioned is NIL.

**MAXIMUM CAPITAL DEBT:**

|             |   |      |              |
|-------------|---|------|--------------|
| Authorized: | Pre Consolidated MFA Loan Authorizations - Juan de Fuca Water Distribution Facilities |      | \$19,000,000 |
| Borrowed:   |   |      | \$17,500,000 |
| Remaining:  | Expired   |      | \$1,500,000  |
| Authorized: | MFA Bylaw No. 3981 - Juan de Fuca Water Distribution Facilities                       |      | \$14,800,000 |
| Borrowed:   |   |      | \$10,100,000 |
| Remaining:  | Expired   |      | \$4,700,000  |
| Authorized: | MFA Bylaw No. 3164 - Juan de Fuca Water Distribution Facilities Development-DCC       |      | \$10,000,000 |
| Borrowed:   |   |      | \$3,500,000  |
| Remaining:  | Expired   |      | \$6,500,000  |
| Authorized: | MFA Bylaw No. 4379 - Juan de Fuca Water Distribution Facilities                       | 2021 | \$14,800,000 |
| Borrowed:   |   |      | \$6,000,000  |
| Remaining:  | Active  |      | \$8,800,000  |

**FUNDING:**

Costs are recovered from Water Sales, and transfer from DCC reserves to service DCC debt.

| Support services increase                        |                                       | 0.2%              |   |
| Balance of increase                              |                                       | 0.8%              |   |
| % expense increase from 2023:                    |                                       | <b>8.6%</b>       |   |

**Overall 2023 Budget Performance**  
(expected variance to budget and surplus treatment)

*Favourable revenue and water sales variance of \$740,000 (3.15%) due to higher than budgeted water demand largely a result of dry summer weather. The additional revenue will be partially offset by bulk water purchase overages. The net surplus of \$530,000 will be transferred to the Service's Water Capital Fund.*

|                                       |  |                       |   |
|---------------------------------------|--|-----------------------|---|
| Service: 2.680 JDF Water Distribution |  |                       |   |
| Project Number                        | 16-03  | Capital Project Title | Asset Management Plan                                 |
| Capital Project Description           | Combine past studies to plan out future capital expenditures.  |                       |   |
| Project Rationale                     | Several studies have been completed and are in progress to assess the JDF assets and programs and the proposed Strategic Asset Management Plan will consolidate the findings of the previous studies in a comprehensive approach to identify and prioritizes future capital expenditures and programs.   |                       |   |
| Project Number                        | 21-14  | Capital Project Title | Fire Storage Analysis                                 |
| Capital Project Description           | Assess and update the fire flow upgrade program to inform future capital works.  |                       |   |
| Project Rationale                     | In order to meet Fire Underwriters Survey recommendations for fire protection, it is necessary to provide certain volumes of water storage. It is proposed to assess fire storage volume requirements for different parts of the system and determine any required upgrades. Funding is required to retain a consultant to complete the analysis.  |                       |   |
| Project Number                        | 16-05  | Capital Project Title | Comprehensive Pump Station Upgrades (10 year Program) |
| Capital Project Description           | Continue pump station condition assessments, plan and carry out upgrades.  |                       |   |
| Project Rationale                     | A previous capital project was completed by Delcan Corp. in 2012 which assessed each existing pump station and identified building deficiencies. This study concluded that on average approximately \$1.0M per year for the next ten years is needed to upgrade existing pump stations. Design and construction of the Ludlow Pump Station replacement was undertaken in 2020 and 2021. Ludlow has been delayed due to supply chain issues until late in 2022. Funds in 2023 are for design of and to start construction of the Coppermine PS and Bear Mountain PS #1. |                       |   |
| Project Number                        | 18-03  | Capital Project Title | JDF Site Decommissioning Program                      |
| Capital Project Description           | Decommissioning of facilities that are no longer in use based on preliminary work from Annual Provisional  |                       |   |
| Project Rationale                     | Numerous pump station and PRV facilities have been made redundant or have been decommissioned within the JDF system. Sites have been identified as part of the annual provisional project and funds are required to complete decommission of the sites and then demolish them. In 2021 the Treanor pump station demolition was carried out. The Townsview PS and Tank started planning in 2021 and will continue through 2023.   |                       |   |

|                                       |  |                       |  |
|---------------------------------------|--|-----------------------|--|
| Service: 2.680 JDF Water Distribution |  |                       |  |
| Project Number                        | 18-06  | Capital Project Title | Disaster Response Plan for Water Supply and Distribution   |
|                                       |  |                       | Capital Project Description  |
|                                       |  |                       | Determine and supply response equipment for disaster response.   |
| Project Rationale                     | Proposed work includes developing a response plan to disasters to the Juan de Fuca water supply or distribution system. Funds are required to procure equipment and carry out works developed the in 2018 plan in conjunction with the Regional Water Supply disaster response Plan.   |                       |  |
|                                       |  |                       |  |
| Project Number                        | 19-09  | Capital Project Title | Distribution System Seismic Resiliency Improvements  |
|                                       |  |                       | Capital Project Description  |
|                                       |  |                       | Determine and commence improvements to the distribution system to provide seismic resiliency.  |
| Project Rationale                     | Determine and commence improvements to the distribution system to provide resiliency. In 2023, sites will be prioritized with design commencing in 2024 and construction starting in 2024.   |                       |  |
|                                       |  |                       |  |
| Project Number                        | 20-03  | Capital Project Title | AC Pipe Replacement Program  |
|                                       |  |                       | Capital Project Description  |
|                                       |  |                       | Replacement of aging asbestos cement pipe year over year as outlined in the May 2023 staff report. Replacement is expected to be phased until 2055 to replace all AC pipe in the distribution network. |
| Project Rationale                     | As identified most recently in the May 2023 Staff Report, this AC Replacement Program is anticipated to continue until all AC pipe in the distribution system has been replaced. Current target deadline for complete replacement is 2055.   |                       |  |
|                                       |  |                       |  |
| Project Number                        | 20-04  | Capital Project Title | William Head & VGH Meter Replacement   |
|                                       |  |                       | Capital Project Description  |
|                                       |  |                       | Replacement of the meter and chambers at William Head & VGH with the possibility of resilient connections.   |
| Project Rationale                     | Identified through Statement of Works, the William Head and Victoria General Hospital meters require replacement and redundancy to maintain service to the two facilities. In 2021 funds were utilized to complete design of the two new meters that will allow for construction of the meters while maintaining service. VGH Meter Replacement was completed in 2023 by CRD forces and VGH will be completed in 2024. |                       |  |
|                                       |  |                       |  |

|                                       |   |                       |  |
|---------------------------------------|---|-----------------------|--|
| Service: 2.680 JDF Water Distribution |   |                       |  |
| Project Number                        | 21-02   | Capital Project Title | Sooke Rd - 2,200m of 600mm Pipe - VMP to Jacklin |
| Capital Project Description           | Replacement of aged, large diameter water main from Jacklin Rd to VMP   |                       |  |
| Project Rationale                     | According to corrosion assessment, a 2.2 kilometre section of an existing steel pipe along Sooke Road and Allendale Road (between Wishart to Jacklin) was unprotected and in need of replacement. In 2014, the design of both phases of the water main was completed by a consultant and construction of the main from Wishart to VMP was completed by CRD resources. Due to increased material and construction costs, it is proposed to update the condition assessment to determine whether this project is still required or could be deferred. |                       |  |
| Project Number                        | 21-13   | Capital Project Title | SCADA Master Plan Update & Upgrades              |
| Capital Project Description           | Update the SCADA Master Plan in conjunction with the RWS, Saanich Peninsula and Core Area infrastructure.   |                       |  |
| Project Rationale                     | The SCADA and radio system utilized by JDF Water System comprises of components ranging from 2-25 years in age. A planned replacement of assets, to be coordinated with the Regional Water Supply and Saanich Peninsula Water & Wastewater Systems is required to create a more resilient and cohesive communications system  |                       |  |
| Project Number                        | 22-01   | Capital Project Title | East Sooke Interconnect Water Main               |
| Capital Project Description           | Construction approximately 430 m of watermain for system improvements.  |                       |  |
| Project Rationale                     | Funds are required to design and construct approximately 430 m of a new watermain interconnection in East Sooke. Interconnection will provide redundancy and improve flows in the area.   |                       |  |
| Project Number                        | 22-02   | Capital Project Title | Microwave Radio Upgrades                         |
| Capital Project Description           | Installation of high-bandwidth microwave radio infrastructure to accommodate CRD infrastructure   |                       |  |
| Project Rationale                     | Installation of high-bandwidth microwave radio infrastructure to accommodate CRD infrastructure   |                       |  |
| Project Number                        | 24-01   | Capital Project Title | Charters Road Watermain Replacement              |
| Capital Project Description           | Replacement of watermain on Charters Road as part of larger transportation project being undertaken by District of Sooke.   |                       |  |
| Project Rationale                     | Roads project being completed by District of Sooke with Sooke's contractor replacing CRD AC watermain, as agreed to between CRD and Sooke by Memorandum of Understanding.   |                       |  |

|                                       |  |                       |   |
|---------------------------------------|--|-----------------------|---|
| Service: 2.680 JDF Water Distribution |  |                       |   |
| Project Number                        | 24-02  | Capital Project Title | Hwy 14 Watermain Relocation                                     |
| Project Description                   | Relocation of CRD watermain in MOTI right of way. Project work to be bundled within MOTI's project.  |                       |   |
| Project Rationale                     | Relocation of watermain in vicinity Hwy 14 and Idlemore Road. MOTI to manage transportation project with CRD to fund the portion of watermain relocation.  |                       |   |
| Project Number                        | 16-06  | Capital Project Title | Vehicle & equipment replacement (funding from replacement fund) |
| Project Description                   | Vehicle and equipment replacement.   |                       |   |
| Project Rationale                     | This is for the replacement of vehicles and equipment used by CRD Integrated Water Services for the day-to-day operation and maintenance of the Juan De Fuca distribution system. These replacements are funded from the Juan De Fuca Vehicle and Equipment Replacement Fund.  |                       |   |
| Project Number                        | 23-02  | Capital Project Title | Vehicle to support the meter replacement program                |
| Project Description                   | Purchase of a Transit Van equipped with tools and equipment to support the meter replacement program   |                       |   |
| Project Rationale                     | A Transit Van equipped with tools and equipment is required for the on site work to be done during the multi year meter replacement program. It will be more effective to setup a vehicle with the required tools and fittings related to replacing meters rather than having to setup a different vehicle based on the operational needs of the day/week/month. |                       |   |
| Project Number                        | 17-07  | Capital Project Title | Site Decommissioning - General                                  |
| Project Description                   | Planning for decommissioning of unused sites.  |                       |   |
| Project Rationale                     | This is a provisional item to allow engineering and planning reviews of old facilities with a view to possible future site uses.   |                       |   |
| Project Number                        | 17-09  | Capital Project Title | Emergency Main Replacement                                      |
| Project Description                   | Major main replacement under emergencies.  |                       |   |
| Project Rationale                     | This item is to fund the costs of responding to emergency major main breaks and conducting replacements.   |                       |   |
| Project Number                        | 17-12  | Capital Project Title | Large Meters/Meter Vaults Components Replacement                |
| Project Description                   | Replacement or repairs to components in large meters/vaults as required.   |                       |   |
| Project Rationale                     | This is an annual provision for the replacement of obsolete and worn out large (greater than 2" diameter) meters, adding new meters and upgrading meter vaults.  |                       |   |

|                                       |  |                       |   |
|---------------------------------------|--|-----------------------|---|
| Service: 2.680 JDF Water Distribution |  |                       |   |
| Project Number                        | 17-13  | Capital Project Title | Site Security Upgrades                              |
| Project Rationale                     | This is an annual allowance for upgrading and maintaining equipment, security and control systems at distribution facilities such as pump stations, PRV chambers and reservoirs. Items such as access hatches, fencing, etc., will be modified to provide a larger degree of security.   |                       |   |
| Capital Project Description           | Upgrading and replacement of security systems for sites as required.   |                       |   |
| Project Number                        | 17-15  | Capital Project Title | Distribution System Improvements                    |
| Project Rationale                     | Historically, opportunities to complete work arise during the year which were not specifically identified and budgeted. This item typically relates to coordinating work programs (i.e. JDF water main replacements and municipal paving programs) with the municipalities or development and taking advantage of opportunities during the year that were not specifically identified. |                       |   |
| Capital Project Description           | Unplanned distribution system improvements or decommissioning.   |                       |   |
| Project Number                        | 17-16  | Capital Project Title | Hydraulic Model Yearly Update                       |
| Project Rationale                     | This item is required to input the pipes installed that year into the hydraulic computer model, followed by calibration and testing in order to keep the model up to date for design and planning purposes.  |                       |   |
| Capital Project Description           | Annual hydraulic model update.   |                       |   |
| Project Number                        | 21-03  | Capital Project Title | Hydrant & Flush Replacement, Upgrades and Additions |
| Project Rationale                     | This is an annual provision for replacing old and outdated hydrants, flushes and associated works and access, as well as adding new hydrants to the system where requested by the municipalities or fire departments.  |                       |   |
| Capital Project Description           | Upgrade, replacement or installation of flushes and fire hydrants, and fire flow testing.  |                       |   |
| Project Number                        | 21-04  | Capital Project Title | Residential Service & Meter Replacement             |
| Project Rationale                     | This is an annual provision for replacing failed residential services and meters, as well as proactively replacing services and meters in areas with historically large number of breaks.  |                       |   |
| Capital Project Description           | Replacement of residential water meters as highlighted by the 2017 KWL Water Audit report.   |                       |   |
| Project Number                        | 21-05  | Capital Project Title | Pump Station Equipment Replacements                 |
| Project Rationale                     | This is an annual provision for unplanned pump station repairs and equipment replacement.  |                       |   |
| Capital Project Description           | Unplanned pump station repairs and equipment replacement   |                       |   |

|                                       |   |                       |   |
|---------------------------------------|---|-----------------------|---|
| Service: 2.680 JDF Water Distribution |   |                       |   |
| Project Number                        | 21-06   | Capital Project Title | SCADA Equipment Replacement                     |
| Capital Project Description           | Unplanned replacement of SCADA and electrical equipment.  |                       |   |
| Project Rationale                     | This is an annual provision for unplanned SCADA and electrical equipment replacement.   |                       |   |
| Project Number                        | 21-07   | Capital Project Title | Reservoir Equipment Replacement                 |
| Capital Project Description           | Replacement or repairs to components at reservoir sites.  |                       |   |
| Project Rationale                     | This is an annual provisional for unplanned replacement of equipment, such as safety devices and mechanical fittings, at reservoir sites.   |                       |   |
| Project Number                        | 21-09   | Capital Project Title | Valve Replacement                               |
| Capital Project Description           | Unplanned replacement and repair of isolation and line valves, air valves, and pressure control valves.   |                       |   |
| Project Rationale                     | This is an annual provisional for unplanned replacement of valves, including air valves and check valves.   |                       |   |
| Project Number                        | 16-07   | Capital Project Title | Update DCC Bylaw (Comprehensive Update in 2022) |
| Capital Project Description           | Planned update of the DCC Bylaw.  |                       |   |
| Project Rationale                     | This is a provisional item to cover questions that arise and referred to our consultants for advice. Every 5 years a comprehensive update is required and the previous DCC update was completed in 2017, with the next update scheduled to start in 2022.   |                       |   |
| Project Number                        | 21-01   | Capital Project Title | Sooke Henlyn Supply & Distribution Mains        |
| Capital Project Description           | Construction of water mains based upon development predictions from the Helgesen Pump Station westwards.  |                       |   |
| Project Rationale                     | Proposed work includes the continued installation of the supply and distribution water mains connected to the Helgesen pump station which was previously constructed in 2011 as part of the DCC program. The supply and distribution water mains will continue west as development proceeds towards the proposed Henlyn Tank. |                       |   |
| Project Number                        | 25-02   | Capital Project Title | Thrup Road Watermain Installation               |
| Capital Project Description           | Future budget to install new watermain along Thrup Road when District of Sooke completes connector road.  |                       |   |
| Project Rationale                     | Budget allocated for future collaboration works to align with Sooke's Thrup Road connector project. Schedule to be driven by District of Sooke project.   |                       |   |

General Comments:

Development Cost Charges Reserve Funds for Juan de Fuca Water Distribution was adopted in year 2000 for the purpose of providing funds for the capital costs of water facilities in the service areas.

These Reserve funds are received from Member Municipalities as Development Cost Charges (DCC's) to provide for the capital costs attributable to water sytem capacity improvements projects specified in the DCC capital expenditure program. Municipalities collect these DCC charges through building permits that are issued to developers for subdivision development.

Future years DCC's received from member municipalities are difficult to predict, due to unknown development activity in the Municipalities, influenced by market conditions. Estimates based on recent annual collections of DCCs, and the cyclical nature of property development.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

| Interest Income*                            | 5,000          |                |                |                |                |                |
| <b>Ending Balance \$</b>                    | <b>549,196</b> | <b>546,453</b> | <b>432,660</b> | <b>388,326</b> | <b>406,663</b> | <b>399,437</b> |

General Comments:

Reserve Fund is used for the purpose of replacing fleet vehicles including heavy equipment and associated mobile components, as outlined in the capital plan. Proceeds from disposals are estimated at 15% of replacement equipment purchases. Note not all vehicles are sold within the year in which they are replaced.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

Debt Outstanding vs Water Capital Fund Balance

## REPORT TO PENINSULA RECREATION COMMISSION MEETING OF THURSDAY, SEPTEMBER 28, 2023

**SUBJECT**     **Service Planning 2024 – Arts & Recreation Community Need Summary**

### **ISSUE SUMMARY**

To provide strategic context and an overview of services, initiatives and performance data related to the Arts & Recreation Community Need.

### **BACKGROUND**

The Capital Regional District (CRD) Board approved the 2023-2026 Board Priorities on March 8, 2023. Staff then developed the 2023-2026 CRD Corporate Plan, which was approved by the CRD Board on April 12, 2023.

The CRD Corporate Plan presents the work the organization needs to deliver over the four-year term, along with the critical regional, sub-regional and local services, to meet the region's most important needs (i.e., Community Needs) and advance the Board's Vision and Priorities. Board Priorities, Corporate Plan initiatives and core service delivery form the foundation of the five-year financial plan.

The 2024 planning cycle marks the first year of the implementation of the 2023-2026 CRD Corporate Plan. The CRD's annual service plans, known as Community Need Summaries, provide an overview of the operational and strategic context, services levels, initiatives and performance data for each Community Need. They also provide details of the initiatives, associated staffing, timing and service levels required to advance the work in future years.

The Arts & Recreation Community Need Summary is attached as Appendix A. The desired outcome is that residents have access to appropriate and affordable arts and recreation opportunities that enhance quality of life.

The CRD reports on the progress of its initiatives and services on a regular basis. The Board receives updates about the Board Strategic Priorities through the Chief Administrative Officer Quarterly Progress Reports. The Board also receives an overview of progress made on delivering the Corporate Plan twice a year at the strategic check-in and provisional budget meetings, which take place in the spring and fall respectively. The next strategic check-in will take place in spring 2024. During the year, standing committees and commissions also fulfill an oversight and advisory role in relation to the work.

### **ALTERNATIVES**

#### *Alternative 1*

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Community Need Summary – Arts & Recreation, be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

### *Alternative 2*

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Community Need Summary – Arts & Recreation, be approved as amended and form the basis of the Final 2024-2028 Financial Plan.

## **IMPLICATIONS**

### *Governance Implications*

In 2024, staff have prioritized programs and initiatives that:

- Advance 2023-2026 Board Priorities or Corporate Plan initiatives;
- Operationalize capital investments; and/or
- Are necessary to maintain a core service level following a regulatory change or where there is a safety risk to customers, communities or staff.

The Executive Leadership Team (ELT) has reviewed and assessed all initiative business cases and confirmed alignment with the criteria. ELT has determined that the consolidated package of work is appropriate and a proportional response to the CRD Board's and communities' expectations of the organization.

### *Financial Implications*

To exercise constraint and cost containment, the CRD Board directed staff to keep the core inflationary adjustment to 3.5% through the 2024 Service and Financial Planning Guidelines. Staff and management have taken the necessary steps to mitigate the financial impact of proposed initiatives, as well as cost escalation and high inflation rate experienced in 2022 through to 2023.

Financial and staff impacts for initiatives will be summarized and included in the provisional budget, which will be presented at the Committee of the Whole meeting scheduled for October 25, 2023. Starting this year, this will also include a five-year forecast of staffing level changes, which will be reviewed annually.

### *Service Delivery Implications*

Appendix A includes information about existing service delivery, operational considerations and performance. Additional information has been provided below about the proposed changes for 2024/2025.

#### *1. Proposed changes for 2024*

Staff are proposing to advance one new initiative for the Arts & Recreation Community Need that has financial implications for 2024, as shown in Table 1. The key drivers for the initiatives are:

1. Advancing a Board or Corporate Plan Priority; and
2. Adjustments to core service levels to maintain safety.

Table 1. Arts & Recreation Community Need Initiatives (2024)

| Initiative   | Implementation year(s) | Staff impacts (2024) | Incremental cost (2024) | Funding source  |
|--|------------------------|----------------------|-------------------------|-----------------|
| 10c-1.2 Peninsula Recreation – Facility Maintenance Supervisor | 2024-ongoing           | 0.9 New Ongoing      | \$30,000                | Fee-for-service |

The information in Table 1 reflects the initiative business case costs which ELT reviewed as part of their annual assessment of initiatives. The financial impacts reflect full program costs, including cost of staffing.

### **10c-1.2 Peninsula Recreation – Facility Maintenance Supervisor**

Growth in volume and complexity of work associated with the operation of Panorama Recreation has steadily increased over time and is anticipated to continue to grow over the next 10 years.

The Panorama Recreation maintenance team does not currently have a supervisor. The addition of a supervisor role would ensure there is adequate capacity to take on the increasing requirements for the onboarding, supervision, scheduling, training and development of 14 regular staff and 15-20 auxiliary staff. This position would also give the Manager of Facilities & Operations the capacity to execute capital projects, equipment replacement and asset management planning, as well as setting the Division up for expected future growth and expansion.

Initiative 10c-1.2 seeks to create a regular ongoing Maintenance Supervisor position to achieve these outcomes. In addition, the initiative seeks to restructure existing maintenance vacancies to minimize the financial impact of this request and to optimize resourcing.

### **CONCLUSION**

CRD staff are progressing initiatives identified in the 2023-2026 CRD Corporate Plan, including the Board Priorities. The CRD Board and commissions with delegated authorities determine resourcing through the annual review and approval of the provisional financial plan. To support decision-making, staff provide recommendations on funding, timing and service levels through the service and financial planning processes.

### **RECOMMENDATION**

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Community Need Summary – Arts & Recreation, be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan

## 03 Operating Context

### ACHIEVEMENTS IN 2023

1. CRD Arts and Culture hosted the Arts Champions Summit on May 17, 2023 at the Baumann Centre, which gathered over 100 arts leaders and supporters to celebrate sector innovations, spark new collaborations, and collect sector feedback on community needs and opportunities.
2. After an extensive public engagement process, the CRD Arts Commission approved a new strategic plan for the Arts & Culture Support Service with a refreshed Mission and Vision for 2024-27.
3. Panorama Recreation received the BC Recreation and Parks Association's Facility Excellence Award for facilities under \$3 million, for the Jumpstart Multi Sport Court.
4. SEAPARC completed a 20-year capital plan to support asset management.

### FACTORS THAT WILL AFFECT OUR OPERATIONS IN 2024 AND BEYOND

#### Arts

- Sustaining and increasing investment in the arts is strongly tied to local and global economic trends that affect municipalities' ability and desire to provide support.
- Many arts and cultural organizations have also demonstrated tremendous resilience, adaptability, and innovation throughout the pandemic with 84.3% of surveyed Operating and Project Grant recipients developing alternative programming, relying heavily on digital formats such as live-streaming and virtual gatherings.
- Statistics Canada reports that, on a provincial level, arts and culture work is a fast-growing economic sector. From 2010-21, the number of culture jobs in British Columbia increased by 28% and the culture sector GDP per capita increased by 7%, both are the fastest increases in Canada in those respective measures (adjusted for population growth and inflation).

#### Panorama Recreation

- COVID-19 impact on services has diminished. Registered programs have returned to pre-pandemic levels, and drop-in programs are at 91% of pre-pandemic levels as of June 2023.
- A competitive job market throughout the region continues to challenge operations and may impact service delivery.
- The Panorama Strategic Plan 2022-2026 sets the direction for the future of our services by prioritizing several infrastructure investments that will result in increased capacity and require staffing adjustments.
- Planning is underway for the construction of a covered multi-sport box in Central Saanich. This new facility will provide year-round space for lacrosse, pickleball, roller hockey, and recreation programming. Construction is expected to be complete in Winter 2025.
- Design work and cost analysis has begun for enhancements to arena dressing rooms and adjacent support spaces to modernize them, with a focus on equity and functionality.

### Sooke and Electoral Area Parks and Recreation (SEAPARC)

- The SEAPARC aquatic and arena facilities are aging. Financial impacts of new infrastructure to support a growing community and plans for renewal/replacement need to be balanced in the capital plan to ensure service continuity. A long-term asset management plan has been completed to inform financial planning. Climate goal considerations for recreational facilities will also have financial implications on the capital plan.
- A competitive job market throughout the region continues to challenge operations.
- Projected population growth within the District of Sooke and Juan de Fuca (JdF) Electoral Area will increase demand for recreational programs and services.
- SEAPARC will undertake a new strategic plan in 2024 to provide direction for 2025-2035.
- SEAPARC is participating in a regional initiative, under the umbrella of The Village Initiative, to improve access to local programs and opportunities for youth to assist in the prevention of crime and vandalism, while strengthening regional service coordination.

## OPERATIONAL STATISTICS

### Arts

1. In 2022, the CRD Arts and Culture delivered **six granting intakes for five different granting programs**: Operating Grants, Projects Grants (two intakes), IDEA Grants, Equity Grants, and Incubator Grants.
2. In 2022, the six granting intakes received a combined total of **119 applications**, which are reviewed by staff and adjudicated through assessment teams of the Arts Advisory Council.
3. In 2022, a record-high **95 of these applicants received funding** through these grant programs.
4. In terms of outreach capacity, in 2022, the CRD Arts and Culture e-newsletter grew to over **800 subscribers** who receive information about launches of grant programs, information sessions, and other notifications about opportunities in the arts sector in the capital region.
5. Performance, in terms of outcomes, is measured against social and economic indicators as outlined in Section 6.

## 04 Services

*The services listed below rely on the support of several corporate and support divisions to operate effectively on a daily basis. More information about these services is available in the Corporate Services and Government Relations Community Need Summaries.*

### Arts

#### SERVICE BUDGET REFERENCES<sup>1</sup>

- › 1.297 Arts Grants and Development
- › 1.290 Royal Theatre
- › 1.295 McPherson Theatre

#### 1. ARTS & CULTURE SUPPORT SERVICE

##### Description

Supports, champions and develops arts and cultural activities for the benefit of the community through funding programs and outreach activities.

##### What you can expect from us

- ▶ Deliver five granting programs: Operating Grants, Project Grants, IDEA (Innovate, Develop, Experiment, Access) Grants, Equity Grants, and Incubator Grants.
- ▶ Provide support to organizations on not-for-profit structure, governance, and capacity development in general and as it relates to Arts Service programs.
- ▶ Provide support to Arts Commission by maintaining accountable processes for allocation of program budgets.
- ▶ Respond to inquiries on funding (CRD and other sources) within three business days.
- ▶ Collect data about trends and impact of arts and culture for internal use and for dissemination to arts communities.
- ▶ Manage publically available online database of regional public art.
- ▶ Connect and facilitate dialogue within the regional arts community and with CRD through biennial summit, social media presence, e-newsletter, and funding application workshops.

##### Staffing Complement

Arts & Culture Support Service: **2.8 FTE (includes 0.8 FTE Manager and 1 FTE Administrative Support)**

<sup>1</sup> Service budget(s) listed may fund other services

## 2. THE MCPHERSON PLAYHOUSE SERVICE

### Description

Contribution agreement for the municipal support of the theatre.

### What you can expect from us

- Provides capital and operational support for pleasure, recreation and community uses related to the McPherson Playhouse Theatre

### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

---

## 3. THE ROYAL THEATRE SERVICE

### Description

Contribution agreement for the municipal support of the theatre.

### What you can expect from us

- Provides capital and operational support for pleasure, recreation and community uses related to the Royal Theatre.

### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

## Panorama Recreation

### SERVICE BUDGET REFERENCES<sup>2</sup>

- › 1.44X Panorama Recreation Centre

---

### 3. PENINSULA RECREATION

#### Description

Provides recreational programming and maintains recreational facilities in North Saanich. Peninsula Recreation also operates satellite locations, including Greenglade Community Centre, Central Saanich Cultural Centre and North Saanich Middle School. Greenglade Community Centre has become a valuable asset for the delivery of recreation programs and services.

#### What you can expect from us

For Panorama Recreation Centre, administration of the delivery of programs and services for:

- ▶ Two arenas
- ▶ An indoor swimming pool and indoor leisure pool with the tallest, wheelchair-accessible waterslide in the region
- ▶ Four indoor tennis courts, two outdoor tennis courts and squash and racquetball courts
- ▶ Weight room and fitness studio
- ▶ Three small multi-purpose rooms
- ▶ A 13,200 square foot outdoor Jumpstart Multi Sport Court

For Greenglade Community Centre, amenities include:

- ▶ Gymnasium
- ▶ Activity rooms for program use
- ▶ Pottery studio
- ▶ Weight and fitness room, mind and body studio and dance studio
- ▶ Teen lounge and sports fields
- ▶ Licensed childcare
- ▶ Community Garden

For North Saanich Middle School, operating agreement with Saanich School District 63 for the use of facility spaces outside of school hours to deliver programs and services:

- ▶ Gymnasium
- ▶ Multipurpose room
- ▶ Multipurpose dance/fitness studio
- ▶ Foods and textiles room

---

<sup>2</sup> Service budget(s) listed may fund other services

For Central Saanich Cultural Centre, operating agreement with Central Saanich for the use of:

- ▶ Two activity rooms for program use

### Staffing Complement

Panorama Recreation: **36.85 FTE (includes Manager and Administrative Support)**

## SEAPARC

### SERVICE BUDGET REFERENCES<sup>3</sup>

- › 1.40X SEAPARC – Facilities & Recreation

---

## 4. SEAPARC

### Description

Provides recreational programming and maintains recreational facilities with a focus on the citizens of the District of Sooke and the JdF Electoral Area.

### What you can expect from us

Administration of:

- ▶ Ice arena/dry floor
- ▶ Aquatic center
- ▶ Community recreation programs
- ▶ Facility and grounds maintenance
- ▶ Program, multi-purpose and boardroom spaces
- ▶ Slo-pitch field and baseball diamond
- ▶ Bike park
- ▶ Skateboard park
- ▶ Joint Use Agreement with School District 62
- ▶ Community Events
- ▶ Multi-use trail
- ▶ DeMamiel Creek golf course
- ▶ Fitness studio and programs
- ▶ Weight Room
- ▶ Outdoor sport box

### Staffing Complement

SEAPARC: **19.1 FTE (includes Manager and Administrative Support)**

---

<sup>3</sup> Service budget(s) listed may fund other services

## 05 Initiatives

Below are the initiatives listed in the [Capital Regional District 2023-2026 Corporate Plan](#) and the related initiative business cases (IBCs), including financial and staffing impacts, proposed for 2024. The financial impacts reflect full program costs, including cost of staffing.

| Initiative  | Implementation year(s) | Impacts in 2024           |                         |
|---|------------------------|---------------------------|-------------------------|
| 10a-1 Develop and implement a revised Arts & Culture Support Service Strategic Plan   | 2023-2026              | -                         | -                       |
| 10b-1 Scale up regional participation in the CRD Arts & Culture Support Service   | 2026                   | -                         | -                       |
| 10b-2 Scale up regional support for performing art facilities within the region   | 2026                   | -                         | -                       |
| 10c-1 Consider service expansions to address gaps and opportunities, as they emerge   | Ongoing                | -                         | -                       |
| ▶ <b>NEW IBC</b> 10c-1.2 Peninsula Recreation – Facility Maintenance Supervisor   | 2024-ongoing           | \$30K<br>fee-for-service  | 0.9 New Ongoing         |
| 10c-2 Regularly monitor and review services to determine appropriate types of recreational programming and recovery rates to meet Community Needs | Ongoing                |                           |                         |
| ▶ <b>FUTURE IBC</b> 10c-2.1 SEAPARC – Maintain Reception Staffing   | Planned for 2025       | \$ -<br>cost offset       | 0.5 Auxiliary Converted |
| ▶ <b>NEW IBC</b> 10c-2.2 SEAPARC – Manager of Operations  | 2024-ongoing           | \$157K<br>fee-for-service | 1 New Ongoing           |
| 10c-3 Develop and implement a long-term strategic plan for SEAPARC  | 2024                   | \$50K<br>Fee-for-service  | -                       |
| 10c-4 Undertake a review of youth-focused programming at SEAPARC  | 2023-2025              | -                         | -                       |

## 06 Performance

### GOAL 10A: SUPPORT, CHAMPION & DEVELOP THE ARTS

#### Targets & Benchmarks

Through funding programs and other activities, the Arts & Culture Support Service amplifies the contribution that arts organizations make to economic sustainability, community vitality and quality of life across the region and their role in providing a wide range of activities for citizens and visitors.

#### Measuring Progress

| Ref                         | Performance Measure(s)                                 | Type     | 2022 Actual | 2023 Forecast | 2024 Target | Desired trend |
|-----------------------------|--|----------|-------------|---------------|-------------|---------------|
| <b>Social Contributions</b> |  |          |             |               |             |               |
| 1                           | Total number of CRD-funded events <sup>1</sup>         | Quantity | 11,000      | 12,000        | 12,500      | ↗             |
| 2                           | Total attendees at CRD-funded arts events <sup>2</sup> | Quantity | 3,000,000   | 3,300,000     | 3,500,000   | ↗             |

<sup>1-4</sup> Data from 2021 Arts & Culture Progress Report

#### Economic Contributions

|   |  |          |             |             |             |   |
|---|--|----------|-------------|-------------|-------------|---|
| 5 | Total funding invested (via CRD grants) in grant recipients <sup>5</sup> | Quantity | \$2,601,270 | \$2,684,670 | \$2,778,000 | ↗ |
| 6 | Total culture GDP (\$M) generated in CRD <sup>6</sup>                    | Quantity | \$800.0     | \$820.0     | \$840.0     | ↗ |
| 7 | Total culture jobs generated in CRD <sup>7</sup>                         | Quantity | 10,000      | 10,500      | 11,000      | ↗ |

<sup>5</sup> Data from 2021 Arts & Culture Progress Report

<sup>6-7</sup> Data from Statistics Canada based on forecasts from Cultural Satellite Account

#### Discussion

##### Social Contributions

1. The number of events and workshops rose sharply in 2022, due to the restarting of in-person events in 2022 after COVID-19 restrictions were lifted in late 2021.
2. 2022 saw pent-up demand for in-person attendance increasing as soon as event and gathering restrictions were loosened.

3. In 2022, the number of grants distributed was similar to the previous year, which was an all-time high.
4. CRD Arts and Culture conducts promotion of its programs and targeted outreach to eligible organizations, all in an effort to enlarge the pool of grant applicants. Funding more first-time applicants is an effective method of diversifying the variety of arts projects activated and audiences engaged.

### Economic Contributions

5. Total arts grant funding has remained consistent throughout the pandemic and continues to have modest increases in 2023.
6. The most recent GDP data from Statistics Canada is from 2020, which shows the pandemic pullback in activity. With the restart of arts activities in 2021 and 2022, it is expected that GDP will rebound to prior levels at minimum.
7. The most recent jobs data from Statistics Canada is from 2020, which shows the impact of the COVID-19 pullback in economic activity. The long-term trend, however, has been a continued increase in culture jobs.

## GOAL 10B: SUSTAIN & ENHANCE ARTS THROUGHOUT THE REGION

### Targets & Benchmarks

1. To scale up participation in the Arts and Culture Support Service will require new jurisdictions to join this service.
2. To scale up support for performing arts facilities would require more funding, which could be pursued through multiple methods, including through existing services.

### Measuring Progress

| Ref | Performance Measure(s)   | Type     | 2022 Actual | 2023 Forecast | 2024 Target | Desired trend |
|-----|--|----------|-------------|---------------|-------------|---------------|
| 1   | Increase the number of participants in the Arts and Culture Support Service <sup>1</sup> | Quantity | 9           | 9             | 10          | ↗             |
| 2   | Increase the support available for performing arts facilities (\$M)                      | Quantity | \$1.33      | \$1.33        | \$1.38      | ↗             |

<sup>1</sup> Currently there are nine participating jurisdictions in this service.

### Discussion

1. The ability to add participants to this service is dependent on external factors, namely the interest level of willingness of non-participating jurisdictions to join the service through the council consent process.
2. The ability to increase support to the Royal Theatre and McPherson Playhouse is also dependent on external factors, namely that current participants support amending bylaws to remove the current fixed maximum contribution amount.

## **GOAL 10C: AFFORDABLE RECREATION OPPORTUNITIES THAT IMPROVE LIVABILITY – PANORAMA RECREATION**

### Targets & Benchmarks

The metrics reflect attendance and overall success of programs and services, which show that what is offered to the community meets its needs and is affordable.

### Measuring Progress

| Performance Measure(s)  | Service                                    | Type     | 2022 Actual | 2023 Forecast | 2024 Target |
|---|--|----------|-------------|---------------|-------------|
| <b>1 Offer programs that meet community need</b>  | Program success rate <sup>1</sup>          | Quality  | 85%         | 88%           | 85%         |
|   | Program participation rate <sup>2</sup>    | Quantity | 83%         | 86%           | 85%         |
| <b>2 Maximize participation levels in drop-in recreation programs and services <sup>3</sup></b> | Aquatics                                   | Quantity | 121,474     | 170,487       | 194,869     |
|   | Arena during ice season                    | Quantity | 8,577       | 11,931        | 13,392      |
|   | Fitness classes                            | Quantity | 21,039      | 29,574        | 33,147      |
|   | Weights                                    | Quantity | 98,762      | 148,557       | 187,206     |
|   | Sports                                     | Quantity | 2,084       | 6,252         | 8,025       |
|   | Community Recreation                       | Quantity | 4,239       | 4,271         | 4,280       |
|   |  |          |             |               |             |
| <b>3 Increase new program offerings and maximize revenue <sup>4</sup></b>                       | New program offerings <sup>5</sup>         | Quality  | 45          | 30            | 35          |
|   | Registered programs revenue <sup>6</sup>   | Quantity | \$1,833,424 | \$1,988,967   | \$1,910,850 |
|   | Admissions – single admission <sup>7</sup> | Quantity | \$352,050   | \$417,288     | \$346,812   |
|   | Admissions – punch pass <sup>8</sup>       | Quantity | \$724,918   | \$943,318     | \$1,172,045 |

<sup>1</sup> Proportion of registered programs offered to the public that proceed, as minimum registration levels have been met. Calculated by programs that run divided by programs offered. Data from recreation software Activity Registration Summary.

<sup>2</sup> Average participation rate of courses, as a percentage of maximum course capacity reached, on average across all programs. Calculated by number of participants registered divided by the maximum capacity of the program. Data from recreation software Activity Registration Summary.

<sup>3</sup> Total annual visitors to drop-in reservable programs given capacity and staffing limitations; data from recreation software Daily Attendance Report – Date Range.

<sup>4</sup> Data from recreation software General Ledger, Activity Registration report and program coordinators.

<sup>5</sup> New program is defined as a program not offered in the prior year.

<sup>6</sup> Revenue generated by registration in programs.

<sup>7</sup> Revenue generated by single admission purchase.

<sup>8</sup> Revenue generated by punch pass and timed pass purchases.

## Discussion

**Metric 1:** Course participation has been added as an additional benchmark for Metric 1. Course participation reflects how full courses are on average, based on the number of participants registered relative to the total spaces available.

A target participation rate of 85% represents service delivery, which balances diversity of programming, alignment with community need, and financial sustainability.

**Metric 2:** Attendance continues to recover to pre-pandemic levels. June 2023 attendance is at 91% of June 2019, up from 77% in 2022.

**Metric 3:** The Lifesaving Society Swim for Life program was adopted in 2022 to replace the Canadian Red Cross program, which was phased out across Canada in 2022. The implementation of this program in 2022 led to a higher number of new programs than anticipated.

Licensed childcare program revenue is reduced from 2022 and 2023 as a result of increased funding from Child Care Operating Fund (CCOF) for Fee Reduction Initiative which directly reduces the fees paid by the public. The decrease in program revenue is reflected in a comparable increase in grant funding revenue. Projected CCOF funding for 2024 is \$229,270.

## GOAL 10C: AFFORDABLE RECREATION OPPORTUNITIES THAT IMPROVE LIVABILITY – SEAPARC

### Targets & Benchmarks

The metrics reflect attendance and overall success of programs and services, which show that what is offered to the community meets its needs and is affordable.

### Measuring Progress

| Performance Measure(s)   | Service                                    | Type     | 2022 Actual | 2023 Forecast | 2024 Target |
|--|--|----------|-------------|---------------|-------------|
| <b>1 Deliver fitness programs and service that meet community need and recover operation investment <sup>1</sup></b> | Fitness/Weights admissions                 | Quantity | \$22,838    | \$57,000      | -           |
|  | Membership sales                           | Quantity | \$289,258   | \$431,000     | -           |
| <b>2 Manage user funding at approximately 30% <sup>2</sup></b>   | -  | Quality  | 30.6%       | 32%           | 35%         |
| <b>3 Increase Community Recreation program revenue by each year <sup>3</sup></b>                                     | -  | Quantity | \$180,378   | \$216,000     | -           |
| <b>4 Offer programs that meet community need</b>   | Program offering success rate <sup>4</sup> | Quality  | 73%         | 75%           | 78%         |
| <b>5 Maximize participation levels in drop-in recreation programs and services <sup>5</sup></b>                      | Aquatics                                   | Quantity | 74,170      | 78,000        | 82,000      |
|  | Arena                                      | Quantity | 10,401      | 12,000        | 12,250      |
|  | Fitness classes                            | Quantity | 4,449       | 6,500         | 6,800       |
|  | Weights                                    | Quantity | 26,421      | 45,000        | 47,250      |
|  | Golf                                       | Quantity | 18,800      | 22,000        | 22,500      |
|  | Community Recreation                       | Quantity | 1,024       | 1,900         | 2,000       |
|  |  |          |             |               |             |
| <b>6 Increase new program offerings and maximize revenue</b>   | New program offerings <sup>6</sup>         | Quality  | 24          | 17            | 15          |
|  | Registered programs revenue <sup>7</sup>   | Quantity | \$346,524   | \$472,000     | \$522,000   |
|  | Admissions – single admission <sup>8</sup> | Quantity | \$226,600   | \$364,000     | \$400,500   |
|  | Membership revenue - general <sup>9</sup>  | Quantity | \$219,796   | \$350,000     | \$399,250   |
|  | Membership revenue – golf <sup>10</sup>    | Quantity | \$69,462    | \$81,000      | \$85,000    |

<sup>1</sup> Fitness & weight room admission revenue and revenue from all membership sales.

<sup>2</sup> User funding or tax investment (without debt).

<sup>3</sup> Total registered programs revenue (gross revenue) generated by registration in community recreation programs; data from recreation software General Ledger

<sup>4</sup> Proportion of registered programs offered to the public that proceed, as minimum registration levels have been met. Calculated by programs that run divided by programs offered. Data from recreation software Activity Registration Summary.

<sup>5</sup> Total annual visits to drop-in programs by program area. Data from Membership Pass Scan report, Drop-in Sales report and Activity Registration Summary report.

<sup>6</sup> Data from recreation software General Ledger, Activity Registration report and program coordinators. New program is defined as a program not offered in the prior year.

<sup>7</sup> Total revenue generated by registration in programs. Data from General Ledger.

<sup>8</sup> Revenue generated by single admission purchase, including golf. Data from General Ledger.

<sup>9</sup> Revenue recognized from SEAPARC membership pass sales (excludes golf). Data from General Ledger.

<sup>10</sup> Revenue recognized from golf membership pass sales. Data from General Ledger.

## Discussion

**Metric 1:** The weight room and fitness classes have returned to drop-in operations post-COVID and fitness class offerings have increased. This has resulted in a trend of increased admissions and membership pass sales. Membership sales increase may also be supported by population growth. These metrics will be discontinued in 2024 and replaced with Metrics 5 & 6.

**Metric 2:** The projected increase in membership sales will contribute to an increase in proportion of user funding as there is generally only a small increase in expense associated with drop-in services.

**Metric 3:** A return of the licensed preschool program in 2022 and continuing through 2023 is the main factor in the increase in community recreation revenue.

**Metric 4:** The goal is to be responsive to community needs by offering desired programs, contributing to a high success rate. Each season program coordinators evaluate the success of programs and discontinue or adjust those that have a pattern of being cancelled and try out new programs based on feedback>

**Metric 5 & 6:** This metric reflects current trends with increased admission, membership and registered program revenue, as well as increased fees as approved in the fees & charges bylaw. The trend is particularly strong with the weight room and fitness, with quickly increasing demand for these services.

## 07 Business Model

## REPORT TO PENINSULA RECREATION COMMISSION MEETING OF THURSDAY, SEPTEMBER 28, 2023

---

**SUBJECT**     **Budget Review and Approval Process 2024 – Panorama Recreation**

### **ISSUE SUMMARY**

This report presents Panorama Recreation's 2024-2028 budget for review and provisional approval.

### **BACKGROUND**

Annually, the Capital Regional District (CRD) must develop a financial plan representing the operating and capital expenditure plans for the next five years. The financial plan is developed in alignment and is consistent with the legislative authority of the various CRD services which, upon approval, provides the expenditure authority for the operations of the CRD. Final budget approval is required no later than March 31 of each year.

A preliminary budget (the provisional financial plan) is developed well before the legislated deadline of March 31 to allow service participants and local rate payers to be able to make final recommendations on proposed service levels, revenue requirements and adjustments to fees and charges prior to consideration of final approval by the CRD Board.

Under Board direction, the Peninsula Recreation Commission is responsible for reviewing the budget and recommending it for approval to the Board. All service planning documents will be presented directly to the Board alongside the 2024 Provisional Budget on October 25, 2023 (under separate cover). Ultimately, the Board is responsible for the approval of all of the service budgets.

### **2024 Planning Process**

The 2024 planning process marks the first year of the five-year service planning cycle. The five-year planning cycle is designed to ensure alignment and implementation of Board strategic objectives during the election term. Following the completion of the corporate plan, staff commenced annual service planning. The service planning process identified resource implications to implement the corporate plan initiative (including Board Priorities), as well as proposed adjustments to service levels and other departmental initiatives. The service planning process gathered information necessary to assemble a provisional budget for the Peninsula Recreation Commission and Board review. The statutory five-year financial plan shows the projected revenues and expenditures and the planned contribution of operating revenue required to fund proposed capital projects, together with planned borrowing and anticipated grants.

### **2024 Financial Plan Approach**

The service planning process is a means of aligning operational service requirements and recommendations with Board strategic priorities and the corporate plan. Service plans drive the financial planning process and provide necessary information to evaluate overall organizational requirements, new initiatives, proposed service levels and implications for the budget and financial plan.

On May 10, 2023, the Board approved the 2024 Service and Financial Planning Guidelines. The guidelines supported financial management strategies related to revenue, reserves and debt management. The guidelines also directed staff to prepare the draft financial plan review based on the timeline presented.

### **2024 Financial Plan Overview**

The Financial Plan includes operating, capital and reserve funds. The operating budget identifies the revenues and expenditures of each service. Budgeted revenues are primarily derived from sale of services, fees and charges, requisition and grants. Expenditures are determined through the application of a variety of assumptions and agreements, some of which the Board considers directly, and others that are recommended locally by participants or local service commissions.

Panorama Recreation's budget reflects the recovery from the impact of COVID-19 as the facility returns to normalized operation. As well, other external pressures influence the budget, many of which are uncontrollable. Cost drivers such as inflation forecasts and interest rate changes have a direct and sometimes significant impact on the overall budget. Items such as wages and benefits, supplies, utilities including electricity and natural gas, vehicles and equipment are subject to inflationary changes that influence the cost of service delivery. Financial risks were mitigated by cost containment efforts by staff.

Overall, every effort has been made to mitigate financial risk while still meeting the commission's mission of making available a wide range of recreation services and maximizing participation.

### **ALTERNATIVES**

#### *Alternative 1*

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Panorama Recreation, be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

#### *Alternative 2*

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Panorama Recreation, be approved as amended and form the basis of the Final 2024-2028 Financial Plan.

### **IMPLICATIONS**

#### *Financial Implications*

#### **Operating Budget**

The 2024 presentation includes a requisition increase of \$138,775 or 2.6% over the 2023 budget. The budget includes the financial impact of the recovery to pre-pandemic levels. Through the 2023-2024 Fees & Charges most fees including admissions, passes and facility rental fees were increased between 2.5% and 5%. Revenues generated from the increased fees will achieve a return to a 50% user pay ratio. While total operating costs, including transfers to reserves and debt charges, increase by 5.3%, requisition funding is being held at 2.6%, below the board approved financial planning guidelines of 3.5%. To balance the operating plan, revenue from user fees and rentals are expected to increase by 8.2% in 2024, reflecting user fee increases coupled with increased attendance and registration. This revenue growth is expected to continue at a more moderate rate in 2024.

## **Capital Budget**

The 2023 capital budget includes the financial impact of the energy recovery and sportbox projects commencing in 2024. The capital program continues at an acceptable level with increased transfers to capital reserve with debt retirement.

The Operating & Capital Budget 2024-2028 – Panorama Recreation is attached as Appendix A for preliminary approval.

## **CONCLUSION**

The service and financial planning process is integral to providing ongoing service delivery. Panorama Recreation's service plan and budget are part of the overall planning cycle for the CRD. The attached Operating & Capital Budget 2024-2028 - Panorama Recreation is ready for review by the commission and approval by the CRD Board.

## **RECOMMENDATION**

The Peninsula Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget 2024-2028 – Panorama Recreation, be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

#### **Peninsula Recreation Commission Review**

SEPTEMBER 2023

**Service:** 1.44X Panorama Recreation

**Commission:** Peninsula Recreation

#### DEFINITION:

To operate an ice arena, swimming pool and recreation and community use service for the Municipalities of Sidney, North Saanich and Central Saanich combined as Saanich Peninsula Recreation Service (Bylaw No. 3008 - October 9, 2002).

#### SERVICE DESCRIPTION:

This is a service for the provision of community recreation opportunities for Central Saanich, North Saanich, and Sidney through the operation, maintenance, and programming of: Panorama Recreation Centre (2 hockey arenas, 2 pools, 6 tennis courts, 2 squash courts, fitness rooms, weight room, multi-purpose rooms), Greenglade Community Centre in Sidney, Central Saanich Community and Cultural Centre and North Saanich Middle School.

#### PARTICIPATION:

50% by population and 50% on hospital assessments. North Saanich and Sidney.  
Central Saanich added as a participant in 1996, Bylaw No. 2363.

#### MAXIMUM LEVY:

The greater of \$11,220,000 or \$1.134 / \$1,000 on net taxable value of land and improvements.

#### CAPITAL DEBT:

|  |              |
|--|--------------|
| Authorized: Bylaw No. 3388 - Construction of Second Pool     | \$ 8,998,000 |
| Borrowed:  | \$ 8,998,000 |
| Remaining:   | -            |
| Authorized: Bylaw No. 4116 - Replacement of Arena Floor      | \$ 1,080,000 |
| Borrowed:  | \$ 1,080,000 |
| Remaining:   | -            |
| Authorized: Bylaw No. 4546 - Centennial Park Multi-Sport Box | \$ 2,900,000 |
| Borrowed:  | -            |
| Remaining:   | \$ 2,900,000 |
| Authorized: Bylaw No. 4547 - Panorama Heat Recovery System   | \$ 2,453,000 |
| Borrowed:  | -            |
| Remaining:   | \$ 2,453,000 |

#### COMMISSION:

Peninsula Recreation Commission  
Established by Bylaw # 2397 (May 1996), amended by Bylaw # 2480 (1997), Bylaw # 2759 (2000) and Bylaw # 3142 (2004).  
Originally established in 1976 (Bylaw # 314).

Service: **1.44x** **Panorama Recreation**

**Project Number** 17-04

**Capital Project Title** Dessicant dehumidifier for Ice Plant

**Capital Project Description** Replace Dessicant dehumidifier/socks for Ice Plant due to aging

**Project Rationale** Unit presently serves two arenas for dehumidification. New system to be designed for independent operations and control, allowing for adjustment of each arena. JS Refrigeration has submitted their report and estimated costs with the recommendation that we proceed with the purchase of two A20 Munters unit. Units comes from the US, so currency exchange has been considered in the budget. Budget includes contingency, hazmat, placement of units at ground level and engineering support. \*\*\*2018 Update\*\*\* Project to be tied to energy recovery project to utilize rejected heat from refrigeration plant instead of Natural Gas \*\*\* 2019 Update\*\*\* awaiting energy recovery project approval. Current unit condition does not pose a high potential of failure in the 2019-2020 ice season \*\*\*2020 Update\*\*\* heat recovery project approved combining funding for this project. Approval contingent on securing a minimum of \$700k in grant funding \*\*\*2021 Update\*\*\* waiting on decision on ICIP grant \*\*\*2022 Update\*\*\* ICIP grant unsuccessful currently exploring electric dehumidification options \*\*\*\*2024 update\*\*\*\*\* project design has began in 2023. Completion expected in 2024

**Project Number** 17-08

**Capital Project Title** Arena concourse (lobby) roof

**Capital Project Description** renew arena concourse (lobby) roof due to leakage

**Project Rationale** \*\*\*2020 Update\*\*\* Roof is at end of life. Project on hold due until energy recovery project is complete as dehumification equipment will be relocated from this roof. \*\*\*2021 Update\*\*\* waiting on heat recovery project. \*\*\*2022 Update\*\*\* roof will be replaced once dehumidifier replacement is complete

**Project Number** 18-02

**Capital Project Title** Install Plant Maintenance SAP Program

**Capital Project Description** Plant Maintenance SAP Program for PRC maintenance projects

**Project Rationale** SAP Plant Maintenance (PM) project focused on maintaining the already purchased, built and/or installed assets. Support departments' enhanced asset management activities to manage lifecycles and to plan and schedule maintenance activities as well as monitor job costs.\*\*\*2018 Update\*\*\* update through David Hennigan. I.T. does not have the resources to initiate this project at this time. Will readdress as staffing availability and I.T. priorities change \*\*\* 2019 Update\*\*\* No change \*\*\*2020 Update\*\*\* No change \*\*\*2021 Update\*\*\* no change \*\*\*2024 Update\*\*\* preliminary project work began in 2023. expected to come online in 2024

| <b>Project Number</b> 18-03               | <b>Capital Project Title</b> DDC Replacement (direct digital controls)                  | <b>Capital Project Description</b> Installation of new software controls, additional wiring and upgrading of present DDC controllers and hardware. | <b>Project Rationale</b> Installation of new software controls, additional wiring and upgrading of present DDC controllers and hardware. The present DDC system were installed in 1977. The software and hardware is nearing the end of its life cycle and requires upgrades to the software and controllers in order to fully automate the facilities. Integration will tie into the new Perfect Mind software which will ensure the two systems communicate, offering seamless bookings, control the HVAC, lighting and automated building controls. Houle Electric has provided a quote for this work. This will extend the automation controls for an additional 15 years. Budget includes contingency, hazmat, other unknown costs. ***2018 update*** project to initiate after energy recovery study and/or project construction. There are likely recommendations from the study to help guide the needs of the DDC system upgrade ***2019 Update*** waiting energy recover project approval. This project should directly follow energy recovery in 2021, If energy recovery project does not move forward project should happen in 2020 ***2020 Update*** heat recovery project approved combining funding for this project. Approval contingent on securing a minimum of \$700k in grant funding ***2021 Update*** waiting on decision on ICIP grant ***2024 Update*** to begin after energy recovery  |

**REPORT TO PENINSULA RECREATION COMMISSION  
MEETING OF THURSDAY, SEPTEMBER 28, 2023**

---

**SUBJECT**     **Panorama Recreation Services - 2023-2024 Fees and Charges Update**

**ISSUE SUMMARY**

To provide the Peninsula Recreation Commission with an update on the implementation of the new membership rates, which were adopted in the 2023-2024 Fees and Charges Bylaw for Panorama Recreation Services.

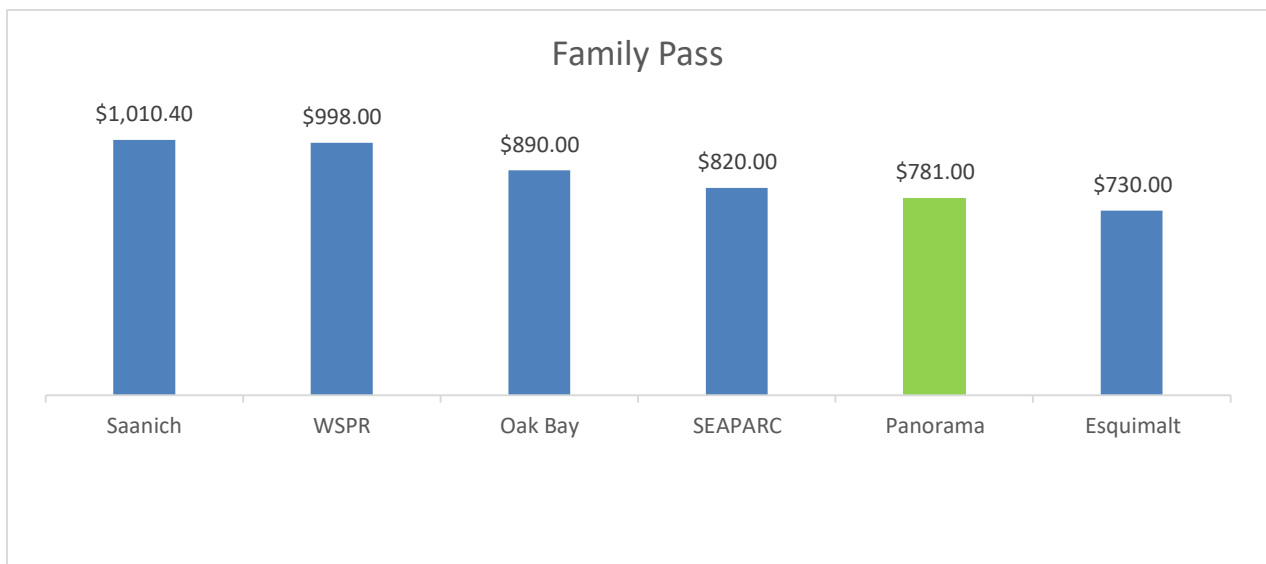

**BACKGROUND**

At its March 28, 2023 meeting, the Peninsula Recreation Commission recommended to the Capital Regional District Board that the proposed fees and charges be approved for inclusion in the 2023-2024 Fees and Charges Bylaw for Panorama Recreation Services. The Capital Regional District Board approved the 2023-2024 Fees and Charges at its July 12, 2023 meeting. The approved fees and charges included changes to memberships as follows:

- *Implementation of new continuous pass.* The proposed continuous pass will provide increased flexibility for pass holders and reduce the administration associated with pass cancellation and hold requests.
- *Implementation of new family pass to replace the Active Pass Plus.* The proposed family pass will align the family pass fee structure with the current family single admission rate, which is based on the price of two adult admissions.

During the implementation of the new passes on September 1, 2023, staff received feedback from the community about how the changes impact single-adult households with multiple children. The now discontinued Active Pass Plus cost \$420 per year and included admission for the adult pass holder and all (unlimited) dependent children living in their household. Under the new membership structure, single-adult households may purchase an Adult Annual Pass for \$390.50 and may purchase an Annual Youth Pass for \$85 per youth per year. The newly introduced Family Pass costs \$781 per year and is most suitable for two-adult households with one to three children.

The approved youth fees remain the most affordable in the region, and the newly introduced family pass is the second most affordable in the region. There is no option comparable to the former Active Pass Plus offered at any other public recreation centre in the region.

## **IMPLICATIONS**

### *Social Implications*

The approved changes to admission and pass rates were implemented to ensure fees remain comparable across Greater Victoria. The approved increase to admissions accounts for increased operating costs associated with inflation, while striving to keep recreation accessible to our community members and encourage them in a healthy lifestyle. There is no equivalent to the Active Pass Plus at any other recreation centre in the region.

*Financial Implications*

The approved increases will generate sufficient revenue to achieve a return to the desired funding ratio of 50% user pay for the 2024 budget year and are in alignment with user fees across Greater Victoria.

**CONCLUSION**

The user fees collected by Panorama Recreation are used to reduce the tax requisition and for the delivery of recreation services. Recreation fees and charges continue to be reasonable and affordable for most residents and visitors to this area. The approved increases are in alignment with user fees across Greater Victoria.

**RECOMMENDATION**

There is no recommendation. This report is for information only.

## REPORT TO PENINSULA RECREATION COMMISSION MEETING OF THURSDAY, SEPTEMBER 28, 2023

**SUBJECT**     **Special Events 2023**

### **ISSUE SUMMARY**

To provide information on the 2023 Panorama Recreation special events.

### **BACKGROUND**

Panorama Recreation had a busy and successful season providing and participating in a variety of special events to encourage active living and community connectedness. This year staff were able to plan, participate in and/or deliver a variety of events to date including:

- Play in the Park
- Bird Feeder Challenge
- Family Movie Night
- Community Water Battle (Cancelled due to water restrictions and wildfires on Vancouver Island)

In addition, Panorama Recreation participated in a variety of community events throughout the Saanich Peninsula including Sidney Days, school fairs, Sidney Employment Expo, Camosun College Sport & Exercise Career Fair, Pink Shirt Day, Taking it to the Streets, BC Aviation Museum Open House, Brentwood Bay Festival, Salish Sea Lantern Festival, Ready Set Learn Event, Pauquachin Wellness Event and the Pauquachin Open House.

Plans for fall events include Active Aging Week, OneDay, Slider's Birthday Stroll, Halloween themed events for Kindergym and Everyone Welcome Skating, Gingerbread House Challenge and Winter Wonderland.

### **Play in the Park**

Staff delivered the Play in the Park program throughout the Saanich Peninsula community once again this past summer. It was the ninth year. This free opportunity to play in local parks was facilitated by Panorama Recreation staff from 5:30 to 8 pm on Tuesdays, Wednesdays and Thursdays, from July 4 to August 31, 2023. The program ran three evenings a week in the locations listed below.

|           | July                                    | August |
|-----------|---|--------|
| Tuesday   | KELSET Elementary School, North Saanich |        |
| Wednesday | Tulista Park, Sidney                    |        |
| Thursday  | Centennial Park, Central Saanich        |        |

The goal of Play in the Park is to improve the health and wellbeing of the community through increased physical activity (particularly in youth) and an enhanced sense of community and social connectedness.

This year, Play in the Park was led by one leader and four (vs three the previous year) assistant leaders. The extra staff member was to assist with the physical demand of the set up and take down

of the inflatable obstacle course. Four of the five staff were already staff within another Panorama department, one staff was a new hire. The Play in the Park staff supervised the giant inflatable obstacle course and small bouncy castle, offered opportunities for interactive and intergenerational play, group games and more. Approximately 2,600 people participated in Play in the Park this year. An increase of 200 compared to 2022. The free Yoga in the Park series was offered again this year on Wednesdays from 6 to 7 pm at Tulista Park. 420 people participated in the free yoga this year. Other features included adventure playground activities and an open-air library provided by Sidney/North Saanich Vancouver Island Regional Library., an increase of 200 from 2022.

The Play in the Park launch party that took place on Thursday, July 4 at Centennial Park in Central Saanich was successful with approximately 200 people in attendance throughout the evening. Other features included adventure playground activities and an open-air library provided by Sidney/North Saanich Vancouver Island Regional Library.

The community has shown great appreciation for the Play in the Park program. Many participants submitted feedback forms thanking Panorama Recreation for continuing to offer this free program in their communities.

## **IMPLICATIONS**

### *Social Implications*

Panorama Recreation strives to provide a safe, happy, healthy and friendly community. By offering and participating in local community events, we are able to connect with our local community and potential customers face to face. Special events facilitate community members coming together to meet, interact and build a stronger community across all ages.

These community events also assist us with increasing our public image and brand recognition as well as fostering customer relations and community partnerships.

### *Environmental Implications*

The benefit of unstructured play and social interactions for all ages is well known. As events and programs like Play in the Park are offered in outdoor settings and local parks, we hope that community members will enhance their awareness of and continue to value local outdoor spaces.

### *Economic Implications*

Although many of the special events do not directly generate revenue, Panorama Recreation's participation in these events provides valuable benefit in connecting and supporting overall community health and wellbeing with the community. This also leads to potentially increased participation and revenue in the future.

**CONCLUSION**

Special events and programs such as Play in the Park continue to be well attended and valued by Saanich Peninsula residents. They enhance social connectedness in the community and provide opportunities for play and fun activities.

**RECOMMENDATION**

There is no recommendation. This report is for information only.

**REPORT TO PENINSULA RECREATION COMMISSION  
MEETING OF THURSDAY, SEPTEMBER 28, 2023**

---

**SUBJECT**     **Summer Camp Programs 2023**

**ISSUE SUMMARY**

To provide information on summer camp programs offered by Panorama Recreation in July and August 2023.

**BACKGROUND**

Panorama Recreation offers a variety of summer camp programming in July and August, which takes place at Panorama Recreation Centre, Greenglade Community Centre, Centennial Park, and elsewhere on the Saanich Peninsula.

Summer camps feature a range of themes and activities to appeal to diverse participants from 3 to 15 years of age. Several longstanding camps run weekly throughout the summer and are facilitated by Panorama Recreation staff. In addition, several special themed camps are offered for some or all weeks of the summer. These camps are primarily delivered by contracted service providers.

Summer camp participants take part in a diverse range of activities including arts, crafts, indoor and outdoor structured and unstructured play, and field trips to locations throughout Greater Victoria. In addition, camps enjoy the use of several indoor and outdoor facilities at Panorama Recreation including the swimming pool and tennis courts. New this year was the addition of multi-sport camp, which was offered for 7 weeks on the Jumpstart Multi Sport Court. This camp focused on the development of physical literacy and introduced children to a variety of sports.

Several departments are involved in the planning and delivery of summer camps, including Community Recreation, Aquatics, Arena and Racquet Sports. In total, 26 Panorama Recreation staff, including five inclusion leaders, and staff from 10 different service providers facilitated the delivery of summer camp programs in 2023.

In 2023 Panorama Recreation camps saw a total of 1913 registrants, which is 166 fewer than in 2022, and 258 more than 2019. In 2023 camps were on average 85% full, compared to 88% full in 2022 and 76% full in 2019. Although there were slightly fewer registrants and programs offered in 2023 over 2022, summer camps attendance and fill rates are out-performing pre-pandemic levels.

|             | <b>Camps Offered</b> | <b>Total Registrants</b> | <b>% Full</b> |
|-------------|----------------------|--------------------------|---------------|
| <b>2019</b> | 154                  | 1655                     | 76%           |
| <b>2022</b> | 145                  | 2079                     | 88%           |
| <b>2023</b> | 136                  | 1913                     | 85%           |

## **IMPLICATIONS**

### *Social Implications*

Having accessible, affordable and quality summer camp programming helps children, families and the local economy thrive. Summer camps provide children with opportunities for social interaction, physical activity, and structured and unstructured play, connecting them with indoor and outdoor recreation facilities in the community. Summer camps also support families to sustain employment during the summer months by providing much needed childcare, in turn allowing local businesses to attract and retain a stable work force.

### *Service Delivery Implications*

Staff recruitment challenges had some impact on service delivery of summer camps in 2023. There was a slight reduction in the overall number of camps offered when compared with 2022, and some camps were in high demand with waitlist of 10 or more.

## **CONCLUSION**

Summer camp programs are well attended and valued by the community, helping to address the community need for childcare on the Saanich Peninsula.

## **RECOMMENDATION**

There is no recommendation. This report is for information only.

**REPORT TO REGIONAL PARKS COMMITTEE  
MEETING OF WEDNESDAY, SEPTEMBER 27, 2023**

---

**SUBJECT      Regional Parks Service – 2024 Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the draft 2024 Regional Parks service budget, including 2023 year-end budget projections and budget highlights.

**BACKGROUND**

The Capital Regional District (CRD) has provided a service for the provision and maintenance of regional parks and regional trails since incorporation in 1966. In 2022, there were 33 regional parks and 4 regional trails in the system, comprising over 13,200 hectares of parkland, 100 kms of regional trails and over 400 kms of trails within the regional parks. Visitation to regional parks and regional trails has increased by 54% since 2012. In 2022, regional trails received over 3.3 million visits and regional parks received over 4.8 million visits.

Funding for the service is primarily through property tax requisition. In 2023, tax requisition funded \$15.9 million towards the total annual operating budget of \$17.5 million. The CRD Board has endorsed the appropriateness of the property tax requisition as the primary revenue source for operating costs and continues to seek ways to relieve affordability pressure for taxpayers.

Non-tax revenue provides a small portion of the funding stream for regional parks and trails. Non-tax revenue is generated through the fees and permit provisions. Other sources of non-tax revenue may include donations, facility rentals or lease agreements, bylaw infraction fines and external grant funding. In 2022, non-tax revenue comprised approximately 3% of the annual budget for regional parks and trails. Additionally, grant funding and partnerships enhances the overall budget but is dependent on available opportunities and successful applications.

The draft 2024 Regional Parks and Trails service budget has been prepared for consideration by the Regional Parks Committee. The Committee will make budget recommendations to the CRD Board through the Committee of the Whole on October 25, 2023. The draft 2024 budget reflects the operating costs of regional parks and trails. The budget summary is attached as Appendix A.

The operating budget will continue to be refined over the next few years:

- Regional Parks and Trails Strategic Plan 2022-2032 implementation costs will continue to be identified.
- First Nations reconciliation practices and resourcing will be refined.
- Asset management planning will provide more accurate information on asset condition and replacement values of all built infrastructure, as well as 20-year financial forecasting.
- Regional trestle renewal and trails widening and lighting cost estimates will be improved.

### **2023 Year End Financial Projections**

There is an estimated one-time net favourable variance of \$100,000 for Regional Parks 2023 operating budget. This variance will be utilized as a transfer to capital reserve at year end when the final amount is known. The net variance is primarily a result of:

- reduced salary costs due to challenges filling vacant and new positions.
- additional fee revenue as a result of the bylaw amendment passed in April 2023 to increase camping and permit fees.
- the above, offset by increased operating costs for vehicle fuel and maintenance and other one-time additional consulting and contract for services costs.

Details can be found in Appendix A under the 2023 Estimated Actual column.

With regard to 2023 capital expenditures as outlined in the CRD Board-approved 2023-2027 Capital Plan, a total of 19 projects were planned for 2023, with a total budget of \$16.1 million. Funding for the 2023 capital projects has been provided through a combination of reserve, grant, equipment replacement and existing capital funds. Projects have focused on addressing the replacement needs of aging critical infrastructure, such as repairs to the Selkirk Trestle and replacement of the Bilston Creek bridges, and addressing increased service delivery requirements, including amenities for new park staff positions and expanding park land base. Major capital projects have included the construction of the Mayne Island Regional Trail and the construction of the Elk Lake oxygenation system.

### **2024 Operating Budget**

2024 Regional Parks expenditures are \$19.1 million, which is an 8.93% increase over 2023. Expenditures are broken down by operations, debt servicing and capital/reserve funding costs.

#### **Operations**

Regional Parks' 2024 operations budget is \$14.7 million, which is an 8.32% increase over the 2023 budget. The overall increase is split between core, ongoing and one-time expenditures.

The 2024 core operating budget for Regional Parks is \$14.1 million, which is a 3.43% increase over 2023, which falls within the benchmark increase of 3.50%. This reflects non-discretionary increases such as negotiated staff wages/salaries and corporate support services, as well as inflationary increases to maintain a consistent level of service year over year. Other budget realignment and adjustments have been made to better reflect historical trends and evolving services.

Ongoing items make up 4.89% of the overall 8.32% year-over-year increase in operating costs.

Details of the \$0.7 million ongoing expenditures are as follows:

#### **Ongoing:**

- \$35,000 – IBC 4b-1.1 – Trail Closure Policy Implementation
- \$25,000 – IBC 7c-3.1 – Elk/Beaver Lake Water Quality Monitoring
- \$225,000 – IBC 7e-3.1 – Asset Management Engineered Structure Inspections
- \$300,000 – IBC 7f-101 – First Nations Strategic Priorities Initiatives
- \$35,000 – New fleet fuel/maintenance costs
- \$43,625 – Corporate Services allocation

### Debt Servicing

Current debt servicing costs relate to borrowing under *Loan Authorization Bylaw No. 4142* for funding to complete the E&N Rail Trail – Humpback Connector. The authorized \$6.1 million in borrowing was issued under four separate loan issues, which are all set to expire between April 2031 and April 2033. Annual interest and principal payments under this bylaw are \$0.6 million. The total 2024 budgeted debt servicing costs include the above-mentioned interest and principal payments, as well as an additional \$0.2 million of new debt servicing costs associated with land acquisition and the trail widening and lighting project.

### Capital/Reserve Transfers

Direct capital funding in 2024 is \$0.3 million, which is a 75.68% increase over 2023. This increase relates to the annual infrastructure maintenance program.

The total transfers to reserves consist of transfers to the Operating Reserve fund, Equipment Replacement fund (ERF) and Capital Reserve fund. The 2024 transfers to reserve budget is \$3.31 million, which is a 2.77% increase over 2023. This increase includes an ongoing supplementary increase in transfers to the ERF of \$0.065 million to cover replacement costs of new fleet purchases.

Details can be found in Appendix A – Operating Budget

**Table 1: 2024 Year over Year Budget Comparison**

| Expenditure Type      | 2024 Financial Plan  | 2023 Financial Plan  | Change              | % Change     |
|-----------------------|----------------------|----------------------|---------------------|--------------|
| Operations            | 14,711,478           | 13,581,962           | 1,129,516           | 8.32%        |
| Debt Servicing        | 800,637              | 570,257              | 230,380             | 40.40%       |
| Capital Funding       | 270,000              | 153,686              | 116,314             | 75.68%       |
| Transfers to Reserves | 3,311,231            | 3,222,103            | 89,128              | 2.77%        |
| <b>Total</b>          | <b>\$ 19,093,346</b> | <b>\$ 17,528,008</b> | <b>\$ 1,565,338</b> | <b>8.93%</b> |

### **2024 Capital Budget**

#### Capital Plan

The estimated replacement value for all built infrastructure in regional parks and regional trails over the current lifespan is estimated at \$120,750,000 (2022 valuations). Regional trails infrastructure costs make up over 40% of the asset replacement value (approximately \$48 million). These estimates were based on an estimated condition assessment and valuation of existing built assets. Inflation, cost and availability of materials will continue to influence the estimated replacement value of built infrastructure.

The capital budget for 2024 is \$9.5 million, which includes a preliminary amount of \$0.2 million, carried forward from 2023. The majority (\$8.3 million) of the capital program expenditures are for potential land acquisitions and new or renewed engineered structures.

Capital projects planned for 2024 focus on meeting dam safety regulatory requirements and addressing the replacement needs of aging infrastructure, such as repairs to the Galloping Goose

Regional Trail's Ayum Creek bridge and the Sitting Lady Falls footbridge at Witty's Lagoon Regional Park. Addressing increased service delivery requirements, through regional trail surfacing renewals and the East Sooke Aylard Farm parking lot expansion project, are represented, as are funds to accelerate the Regional Trestles Renewal, Trails Widening and Lighting project.

### Capital Funding

There are two primary elements to the capital program funding. These are reserve funds established through annual operating contributions and debt servicing costs associated with long-term capital infrastructure and land acquisition financing. The 2024 capital program planned funding is \$5.9 million in new debt, \$3.4 million in reserve funds (ERF and Capital Reserve) and \$0.2 million of capital funds on hand, carried forward from 2023.

Appendix B provides a detailed breakdown of the capital expenditures and source of funds.

### Reserve Funding

There are currently five reserve funds established by bylaw for this service. Reserves serve a multitude of purposes, including stabilizing revenue requirements and funding capital renewal and replacement.

The five reserve funds are:

1. Legacy Reserve – *Bylaw No. 4103*
2. Operating Reserve – *Bylaw No. 4145*
3. Equipment Replacement Reserve – *Bylaw No. 945*
4. Capital Reserve – *Bylaw No. 2313* (includes Land Acquisition Levy and Infrastructure)
5. Land Acquisition Reserve – *Bylaw No. 1831*

The Legacy Reserve fund was established by *Bylaw No. 4103* for money received for specific purposes through bequests, charitable donations or otherwise given.

The Operating Reserve fund was established by *Bylaw No. 4145* to enable CRD services to set aside operating funds to cover cyclical expenditures, unforeseen operating expenses, special one-time operating projects, as well as to mitigate fluctuations in revenue. Currently, transfers to the Operating Reserve fund are being used for cyclical expenditures such as visitor surveys and mountain bike trail assessments.

The Equipment Replacement Reserve fund was established by *Bylaw No. 945* to enable CRD services to set aside operating funds to cover the replacement costs of vehicles, machinery and equipment. The 2024 ERF contributions are set at \$0.4 million. This is the anticipated level of annual funding required to assure operational needs are met by replacing critical vehicles and equipment as scheduled.

The Capital Reserve fund was established by *Bylaw No. 2313* for the purpose of setting aside funds to cover expenditures required for new capital infrastructure and for the renewal or replacement of existing infrastructure. The 2024 Capital Reserve contributions are set at \$2.9 million and the planned 2024 capital expenditures funded by this reserve total \$2.6 million. The annual transfers currently do not meet the funding requirements needed to maintain and replace the aging infrastructure held by Regional Parks as identified within the CRD Capital reserve Guidelines and Asset Infrastructure Report. The Capital Reserve fund balance includes \$1.5

million of restricted funds relating to the Land Acquisition Levy.

The Land Acquisition Reserve fund was established by *Bylaw No. 1831* for the purpose of acquiring land for regional parks purpose. In 2022, the CRD Board adopted a new debt model for funding land acquisitions. As a result, there are no set contributions for 2024 and the reserve fund balance has been used in its entirety to fund a portion of the 2023 land acquisition expenditures.

Details of reserve fund balances and planned expenditures can be found in Appendix C.

### **2024 Budget Context**

The following tables summarize the total 2024 Regional Parks expenditures and revenues. The totals are also summarized in Appendix A, along with the 2023 year-end estimated actuals and the 2025-2028 future projections.

**Table 2: 2024 Budgeted Expenses**

| Budget Component                     | 2024 Budget          | % of Total  |
|--------------------------------------|----------------------|-------------|
| Salaries and Wages                   | 9,550,047            | 50.02%      |
| Internal Allocations                 | 1,599,065            | 8.37%       |
| Insurance Cost                       | 68,810               | 0.36%       |
| Consultant and Contract for Services | 1,186,578            | 6.21%       |
| Vehicles and Equipment               | 557,150              | 2.92%       |
| Parks Maintenance and Repairs        | 371,558              | 1.95%       |
| Utilities & Disposal Costs           | 202,698              | 1.06%       |
| Operating Supplies                   | 483,749              | 2.53%       |
| Legal/Licences/Surveys Cost          | 57,650               | 0.30%       |
| Telecommunications&Training          | 173,659              | 0.91%       |
| Operating Cost - Other               | 460,514              | 2.41%       |
| Capital/Reserve Transfers            | 3,581,231            | 18.76%      |
| Debt Servicing                       | 800,637              | 4.19%       |
| <b>Total</b>                         | <b>\$ 19,093,346</b> | <b>100%</b> |

**Table 3: 2024 Budgeted Revenue**

| Budget Component               | 2024 Budget          | % of Total  |
|--------------------------------|----------------------|-------------|
| Internal Recoveries            | 76,018               | 0.40%       |
| Parking Fees                   | 210,000              | 1.10%       |
| Camping Fees                   | 205,000              | 1.07%       |
| Permits/Interpretive Programs  | 50,000               | 0.26%       |
| Rental Fees                    | 33,000               | 0.17%       |
| Mt McDonald Tower License Fees | 161,011              | 0.84%       |
| Interest/Other Fees            | 68,080               | 0.36%       |
| PILT/GILT                      | 756,393              | 3.96%       |
| Municipal Requisition          | 17,533,844           | 91.83%      |
| <b>Total</b>                   | <b>\$ 19,093,346</b> | <b>100%</b> |

### Requisition

The 2024 requisition is \$17.5 million, which is a 9.91% increase over 2023.

The key drivers of the increase are as follows:

- Core operating costs inflationary increase (3.43%)
- Increased reserve/capital funding (0.47%)
- Ongoing and one-time new initiatives (6.01%)
- IBC 4b-1.1 – Trail Closure Policy Implementation
- IBC 7c-3.1 – Elk/Beaver Lake Water Quality Monitoring
- IBC 7e-3.1 – Asset Management Engineered Structure Inspections
- IBC 7f-1.1 – First Nations Strategic Priority Initiatives
- New fleet operating/replacement costs
- New debt servicing costs – land acquisition and trail widening

### **ALTERNATIVES**

#### *Alternative 1*

The Regional Parks Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Regional Parks Service be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

#### *Alternative 2*

The Regional Parks Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Regional Parks Service be approved as amended and form the basis of the Final 2024-2028 Financial Plan.

### **IMPLICATIONS**

#### *Financial Implications*

The CRD continues to look for ways to fund its services in a manner that relieves affordability pressure for the taxpayer. The CRD continues to progressively pursue grants and partnership opportunities. Regional Parks is also presenting a non-tax revenue generating proposal at the September 27, 2023 Regional Parks Committee meeting.

At the June 23, 2021 Regional Parks Committee meeting, staff were directed to report back to the committee as part of the service planning process, with a recommended financing option for future investments in land and major capital works that incorporate finance guidelines. The 2024 Regional Parks budget identifies a plan of debt financing of \$50 million to accelerate the Regional Trestles Renewal, Trails Widening and Lighting project over a six-year project schedule.

The project has been included in the five-year capital plan and the debt servicing costs have been included in the five-year operating budget. The 2024 debt servicing effect is estimated at \$20,000, being interest only on the first-year expenditures on planning and design of \$900,000 borrowed incrementally throughout the year.

### *Intergovernmental Implications*

CRD staff will continue to work closely with all Nations whose areas of interest overlap with regional parks and trails in implementing the Regional Parks and Trails Strategic Plan 2022-2032. The Regional Parks and Trails Strategic Plan 2022–2032 focuses on strengthening government-to-government relationships and understanding between the CRD and First Nations in the region. Through the latter half of 2022, engagement on the Interim Strategic Plan took place with First Nations in the region. The CRD is committed to maintaining an open dialogue with First Nations to confirm that Indigenous cultural values and cultural uses are respected and that the priorities and actions remain relevant and meaningful.

### *Alignment with Board & Corporate Priorities*

The 2023-2026 CRD Corporate Plan highlights the initiatives the CRD needs to deliver over the Board's four-year term to address the region's most important needs. The Corporate Plan identifies a number of initiatives under various priorities that fall under the Regional Parks and Trails mandate. In addition to these initiatives, other Board-approved plans such as the Regional Parks and Trails Strategic Plan 2022-2023 provide additional direction for the Operating and Capital budget.

### **CONCLUSION**

The draft 2024 Regional Parks and Trails Service budget has been prepared for consideration by the Regional Parks Committee. The Committee will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole. The draft 2024 budget reflects the acceleration of the Regional Trails Widening and Lighting Project and associated critical asset replacement project with the project funds being secured by way of debt. The budget will continue to be refined over the next two to three years as staff continue to develop partnerships, pursue grant opportunities and explore options to generate non-tax revenue to reduce loan and debt servicing amounts.

### **RECOMMENDATION**

The Regional Parks Committee recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, Operating & Capital Budget – Regional Parks Service be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

#### **REGIONAL PARKS COMMITTEE REVIEW**

Service: 1.280 Regional Parks

Committee: Regional Parks & Transportation

**DEFINITION:**

To establish an extended service of Regional Parks for all of the Regional District for the purpose of operating Regional Parks.  
Bylaw No. 1749 (November 1989); Amended Bylaw No. 2419 (October 1996).

Land Acquisition Fund: 2000 to 2009 Requisition increase equates to \$10 per average household each year.  
2010 increased requisition equates to \$12 per average household.  
2011-2014 increased requisition further \$2 per average household in each year.  
2015-2019 requisition equates to \$20 per average household in each year.  
2020 requisition equates to \$20 per average household in each year.  
2021-2025 increased requisition further \$1 per average household in each year

**SERVICE DESCRIPTION:**

This is a service to administer and coordinate the provision of regional parks and trails systems for residents and visitors to the Capital Region. Services include planning and developing strategies for growth and protection of parks and trails, project management of capital facilities, environmental interpretation, conservation, education, security and parks operations of all regional parks and trails. The land acquisition fund acquires regionally significant natural areas to achieve the vision for future regional parks and trails systems. Land acquisition contributes to environmental, social and economic regional sustainability.

**PARTICIPATION:**

All member municipalities and electoral areas participate.

**MAXIMUM LEVY:**

Based on converted hospital assessed values for land and improvements.

**CAPITAL BORROWING:**

|  |                      |
|--|----------------------|
| Authorized: Bylaw.4142 - Construction of E&N Trail Phase 3&4 | \$ 6,100,000         |
| Borrowed:  | \$ (6,100,000)       |
| Remaining  | <u>\$ -</u>          |
| Authorized: Bylaw.4506 - Acquiring Land for Regional Parks   | \$ 25,000,000        |
| Borrowed:  | \$ -                 |
| Remaining  | <u>\$ 25,000,000</u> |

REGIONAL PARKS - 2024 BUDGET

| REGIONAL PARKS SUMMARY |   |
|------------------------|---|
| MISSION:               | Operate and manage a connected system of regional parks for public enjoyment; Foster stewardship of biodiversity by learning from and working with science and long-term land stewards and by connecting people to nature; Operate and manage a regional trail network for active transportation and recreation; Foster reconciliation by collaborating with First Nations in the operation and management of regional parks and regional trails through the establishment of traditional use agreements; Be fiscally responsible and accountable in decision-making. |

| FINANCIAL SUMMARY:                                   | 2023  |              | 2024                |              |           |          | 2025         |              |              |              |

## REGIONAL PARKS - 2024 BUDGET

| PROGRAM:                     |             | HEADQUARTERS MAINTENANCE AND EQUIPMENT  |             |           |          |             |             |             |             |             |
|------------------------------|-------------|---|-------------|-----------|----------|-------------|-------------|-------------|-------------|-------------|
| DESCRIPTION:                 |             | This program is made up of three functions: (1) headquarters maintenance, (2) vehicles and equipment (3) equipment maintenance & operations. Headquarters maintenance includes janitorial services and the maintenance of the structural components of the buildings and ancillary equipment. Vehicles and Equipment is the purchase, repair and preventative maintenance of small equipment, fleet vehicles and heavy construction equipment. Equipment maintenance & operations is the day to day project and park maintenance tasks assigned to equipment operators. |             |           |          |             |             |             |             |             |

REGIONAL PARKS - 2024 BUDGET

|              |   |
|--------------|---|
| PROGRAM:     | PARKS OPERATIONS NORTH, WEST, CENTRAL, SOUTH & ADMINISTRATION   |
| DESCRIPTION: | The CRD operates and maintains regional parks utilizing best park management practices with a focus on protecting the natural environment, culture heritage and providing outdoor recreation opportunities. The regional park system is divided into geographic areas in order to efficiently deploy operational resources. The North Service Area manages parks and trails from the souther terminus of the Lockside Regional Trail north, up the Saanich Peninsula and over to the Gulf Islands. The Central Service Area manages parks in the Highlands, the Westshore and Metchosin. The West Service Area manages all parks buffering the Greater Victoria Watershed, and West to Jordan River. South manages from the downtown core to East Sooke, including the E&N and Galoping Goose trails. |

Overall 2023 Budget Performance  
(expected variance to budget and surplus treatment)

There is an estimated one-time favourable variance of \$101,352 (0.6%) due mainly to hiring challenges of vacant positions. This variance will be moved to Capital Reserve.

Regional Parks

**Project Number** 18-02

**Capital Project Title** Implement Kiosk Strategy

**Capital Project Description** Implement kiosk strategy for the purpose of replacing ageing information kiosks.

**Project Rationale** This is a continuing project to replace ageing information kiosk structures in Regional Parks, project is anticipated to continue through to 2024.

**Project Number** 19-05

**Capital Project Title** Repair GGRT Bridges (5)

**Capital Project Description** Repairs/replacement Veitch Creek, Bilsten (2), Charters and Interurban.

**Project Rationale** Repairs/replacement Veitch Creek, Bilsten (2), Charters and Interurban bridges on the Galloping Goose Trail.

**Project Number** 20-09

**Capital Project Title** Design & Expand East Sooke Aylard Farm Parking

**Capital Project Description** Develop & construct an engineered long term expansion solution to meet on-going parking demands.

**Project Rationale** Develop and construct an engineered long term solution to meet on-going parking demands in busy park, in place of in-the-field temporary dirt lot parking location.

**Project Number** 22-02

**Capital Project Title** Design & Construct Elk/Beaver Lake Dam Upgrades (Dams 1, 2 & 3)

**Capital Project Description** Conduct geotechnical & hydrotechnical safety assessment for Elk/Beaver Lake dams and design & implement improvements at south dam on Beaver Lake.

**Project Rationale** Improvements included re-enforcement of the downstream face, tie-in to the existing spillway control and vegitaion management are required for the main dam at the southern outlet of Beaver Lake. Design in 2024/2025 and construction in 2027.

**Assumptions/Background:**

- A Regional Park Land Acquisition Requisition was established in 2000 for a ten year period (2000-2009) at a rate of \$10 per average residential household assessment. In 2010, the requisition was extended for another ten years(2010-2019) at a rate of \$12 per average residential household assessment starting in 2010 and increasing by \$2 per year to a maximum of \$20 in 2015 and then remaining at this rate until 2019. Program renewed for an additional 10 year 2020-2029 at \$20 per average residential household assessment. Beginning in 2021 the rate is to increase by \$1 per year until 2025.

**Assumptions/Background:**

- A Regional Park Land Acquisition Requisition was established in 2000 for a ten year period (2000-2009) at a rate of \$10 per average residential household assessment. In 2010, the requisition was extended for another ten years(2010-2019) at a rate of \$12 per average residential household assessment starting in 2010 and increasing by \$2 per year to a maximum of \$20 in 2015 and then remaining at this rate until 2019. Program renewed for an additional 10 year 2020-2029 at \$20 per average residential household assessment. Beginning in 2021 the rate is to increase by \$1 per year until 2025.

**REPORT TO REGIONAL WATER SUPPLY COMMISSION  
MEETING OF WEDNESDAY, OCTOBER 18, 2023**

---

**SUBJECT     Regional Water Service 2024 Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the draft 2024 Regional Water Supply Service budget, highlighting the 2023 budget variance and the proposed 2024 budget figures. The report generally follows the information provided in the attached draft budget document (Appendix A).

**BACKGROUND**

The draft 2024 Regional Water Supply Service budget has been prepared for the Regional Water Supply Commission's (Commission) consideration. The Commission will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole in October. The budget recommendations are also necessary to establish the wholesale water rate and approve the rate by year end through adopting a rate bylaw. As in previous years, the draft 2024 Regional Water Supply Service budget has been prepared considering the CRD Board's 2024 service planning and financial expectations, which include identifying opportunities to realign or reallocate resources and seek potential efficiencies between departments and services, reviewing service levels and adjustments related to regulatory compliance, and undertaking infrastructure improvements and upgrades to maintain service levels within the Region. The following sets out the key components of the budget.

**2023 Year End Financial Projections**

Year-end revenue and expenditure projections have been established and estimated variances, including the proposed capital fund transfer, are summarized as follows:

| Budget Item  | Variance (\$) | Variance (%) |
|--|---------------|--------------|
| Supply System operating expenditures                 | \$581,600     | 3.46%        |
| Agricultural water rate funding                      | \$150,000     | 9%           |
| Capital fund transfers                               | \$1,434,000   | 12%          |
| Debt servicing - principal and interest expenditures | -\$168,224    | -2.19%       |
| Revenue  | \$1,915,463   | 4.8%         |

The higher than budgeted operating expenditures were primarily due to labour costs associated with collective agreement settlement and inflationary cost increases of chemical supplies. The additional revenue is a result of higher water demand than budgeted due to outdoor demand during the summer and is partially offset by increased Agriculture water rate funding related to the higher demand. It is proposed to transfer the net surplus to the capital fund and reduce the borrowing requirement in 2024.

## **2024 Budget**

### **Rate Base**

The rate base for 2024 has decreased by \$3,353,700 from 2023. This net decrease relates to physical plant additions, including the final capitalization of the Lubbe Dam safety improvements and Goldstream Gate Upgrade, offset by current year depreciation and the change in prior year estimates of additions and disposals. The changes in physical plant and work in progress are listed on page 3 of the budget document (Appendix A) and are used to project the 2023 year-end total physical plant value and determine the 2024 rate base.

### **Revenue Requirement**

As summarized on page 4 of Appendix A, the revenue requirement for 2024 increased by \$3,829,876. This is resulting from an increase in operational expenses of \$1,772,800 (explained further below), a decrease in depreciation expenses of \$930,730 and an increase in the return on the rate base of \$2,987,800.

### **Operating Budget**

The 2024 operating budget reflects an inflationary increase in non-discretionary expenses such as negotiated wage/salary increases, corporate support service allocation increases, and other operating expense adjustments, chemical and electricity costs, and vehicle costs. The net core 2024 operating budget increase is \$1,193,329. As detailed in the 2024 Community Needs Summary there are four approved Initiative Business Cases with four associated positions incorporated within the 2024 budget. The following new positions have been added to support growth in Capital Plan activity and increasing regulatory pressures related to the Dam Safety Program: Contracts Coordinator, Purchaser with auxiliary support, Utility Operator, and Manager Dam Safety. Further details of the rationale for these additions and service level improvements are included in the 2024 Community Needs Summary. The new positions result in ongoing additional budget request of \$430,600 and a one-time expenditure of \$69,200.

There are several environmental programs that are critical for the successful operation of the Regional Water Supply, these programs are summarized below.

- **Water Quality Operations Program** – As the core component of the Water Quality portfolio, the Program designs and executes the water quality monitoring and reporting for the source water as well as the treated water in the transmission system and across the CRD-owned and municipal distribution systems. The program also provides technical and scientific support to operations, planning and engineering in the Greater Victoria Drinking Water System.
- **Cross Connection Control Program** – Also part of the overall Water Quality portfolio, this Program reduces the risk of drinking water contamination by identifying potential cross connections and enforcing national and provincial plumbing code requirements.
- **Laboratory Services Program** – Provides a wide range of laboratory services for the CRD drinking water and wastewater operations. Lab services for drinking water operations are integral to the Regional Water Supply.
- **Demand Management Program** – Researches and tracks the various water uses in the Greater Victoria Drinking Water System in order to design and execute targeted initiatives

and campaigns aimed at influencing residential, industrial, institutional or agricultural water demand.

Operating budget forecasts for 2025 to 2028 are presented for information but are projections which will need to be refined in future years.

As it is anticipated that the Regional Water Supply Service will become the service provider for some First Nations in 2023, the budget has been prepared to reflect 'conveyance fee' payments, in the amount of \$900,000 for 2024, that will fund operating expenses for those water systems required to convey water from the Regional Water Supply system to First Nations Reserve boundaries across Greater Victoria. The conveyance fee payments are subject to the completion of water service agreements with the participating Nations and operating agreements with the 'conveyors' that could include the Juan de Fuca Water Distribution Service, the Saanich Peninsula Water Service, the District of Central Saanich and the District of North Saanich.

### Capital Budget

There are a number of capital projects planned for 2024 with a total value of \$56,210,000, including \$32,523,000 in carry forward projects, most of which are in-stream, multi-year projects such as the dam safety upgrades, instrumentation integration and upgrades, the Transmission Mains No. 3 and No. 4 segment replacement project, the Goldstream Water Treatment Plant ultraviolet system replacement project, and the Watershed Field Office building project. There is also \$2,378,000 in projects cost-shared with the Juan de Fuca Water Distribution Service (pages 10 to 45 of the budget document). The new projects in 2024, aside from the carry forward projects, include a dock for Sooke Lake Reservoir, seismic and flood vulnerability study of Mains 10 and 11, Agricultural Water Rate review, Sooke River Road Water Treatment Plant Uninterruptible Power Supply replacement, Head Tank valve replacement, reservoir log boom upgrade program, laboratory equipment replacements and laboratory renovations.

A five-year capital plan is presented for consideration. The value of the five-year (2024 to 2028) capital plan is currently \$220,372,250, plus \$4,756,000 in projects cost-shared with the Juan de Fuca Water Distribution Service. The CRD is continuing with Phase 2 of the Regional Water Development Cost Charge (DCC) Program with the goal of implementation in 2025. The need for such a program was identified in the CRD 2023-2026 Corporate Plan and the 2022 RWS Master Plan and will be used to fund growth-related regional water supply system improvements. In the 5-year capital plan approximately \$40,000,000 dollars in growth related projects could be funded in part from the proposed DCC program.

### Capital and Debt Expenditures

The 2024 capital expenditures will be partially funded through a transfer to the water capital fund budgeted at \$17,450,000, with the balance funded from existing cash reserves and borrowed funds. See pages 10 and 11 of the budget document (Appendix A) for the funding source summary. The 2024 debt expenditures for existing debt servicing are budgeted to be \$2,896,242. Debt servicing expenditures will decrease by \$4,794,743 over 2023 due to reduced principal and interest payments on debt issues maturing in 2023. Additional projected water sales revenue and corresponding capital reserve fund transfer will reduce the borrowing needs in 2024. There is an existing loan authorization of \$46,000,000 (approved 2021) of which \$42,000,000 will be used to

fund the five-year capital plan. A new loan authorization will be required in 2026. The upcoming debt retirements on existing borrowings are summarized as follows:

| Loan Number       | Retirement Date    | Loan Amount  |
|-------------------|--------------------|--------------|
| <b>LA3419-105</b> | June 2024          | \$9,000,000  |
| <b>LA3419-106</b> | October 2024       | \$1,000,000  |
| <b>LA3661-112</b> | October 2025       | \$6,500,000  |
| <b>LA3661-116</b> | April 2026         | \$1,500,000  |
| <b>LA3661-118</b> | April 2027         | \$4,500,000  |
| <b>LA3661-124</b> | April 2028         | \$1,700,000  |
| <b>LA3902-131</b> | April 2030         | \$3,000,000  |
| <b>LA3902-137</b> | April 2031         | \$1,500,000  |
| <b>LA3902-145</b> | April 2033         | \$5,000,000  |
| <b>LA4382-159</b> | June 2038          | \$4,000,000  |
| <b>LA4382-15X</b> | April 2039 to 2040 | \$24,000,000 |

When assessing key financial health indicators, the service maintains an affordable level of debt over the next five years. While the debt funding for capital investment over the next five years does exceed the 40% benchmark for years 2025 and 2026, the percentage of revenue dedicated to debt costs is forecast to be between 7% and 14%, which is less than an annual benchmark rate of 25%. A summary indicator table is provided below:

| Year        | % Revenue for Debt | Capital Funded by Debt |
|-------------|--------------------|------------------------|
| <b>2024</b> | 7.0%               | 12.7%                  |
| <b>2025</b> | 7.6%               | 44.7%                  |
| <b>2026</b> | 10.0%              | 55.8%                  |
| <b>2027</b> | 13.2%              | 39.5%                  |
| <b>2028</b> | 13.5%              | 14.3%                  |

The Regional Water Supply five-year capital plan and 2022 Master Plan reflects a capital program developed to meet today's service requirements and growth needs while also ensuring the future resilience of the utility for generations to come. Through development of the DCC program and long term asset management plan completions, the future debt needs will be refined. Capital and debt funding decisions are made in alignment with the life span of the assets to address inter-generational equity, balancing the cost of infrastructure between past, current and future users. The current long-term debt obligations are summarized on the attached graphs (Appendix B).

A \$479,755 transfer to the vehicle/equipment replacement fund is planned in 2024. The reserve fund balance is estimated at \$ 2,326,323 at year-end 2023 (See reserve schedule – Page 45 of the budget document, Appendix A).

### Agricultural Water Rate Funding

The total budget for the agricultural water rate funding has been increased by \$50,000 to \$1,800,000. The 2024 agricultural water rate has been maintained at the 2023 rate of \$0.2105 per cubic metre. The Regional Water Supply agricultural water rate budget funds the difference between the municipal retail water rate and the CRD agricultural water rate. While the bulk water rate has increased annually, the agricultural rates has been held at \$0.2105 per cubic metre since the rates was assessed in 2010. As directed by the Commission, Phase 1 of an agricultural water rate review and options study was conducted in undertaken in 2022/2023. A further study, Phase 2, is planned for 2024, which will consider options for the rates structure that best reflect the agricultural value. It is anticipated that any changes to the rate or rate methodology resulting from the study would take effect in 2025.

A summary of the agricultural water volumes and agricultural water rate payments for 2011 to 2022 is attached as Appendix C.

### Water Demand

Total water demand across the Region has generally continued to increase year over year, recently due to the continued rate of development and growth. In 2023, the dry hot summer further increased demand beyond development and growth pressures. These factors are expected to result in actual demand exceeding budget demand in 2023; the 2023 year-end demand is projected to be 2,500,000 cubic metres over budget of 49,500,000 cubic metres.

The recommended 2024 water rate has been calculated using a budget demand of 51,000,000 cubic metres (Page 7 of the budget document, Appendix A), which is 1,500,000 cubic metres more than the volume used in the 2023 budget.

### Proposed 2024 Wholesale Water Rate

The recommended wholesale water rate takes into consideration the revenue required to meet operating and capital expenditures, including debt obligations and the budget demand volume established for 2024. The proposed 2024 wholesale rate is \$0.8094 per cubic metre, a 5.14% increase over the 2023 rate. The increase in annual bulk water cost for the average household using 235 cubic metres per year would be \$9.31 (Page 8 of the budget document, Appendix A).

### Wholesale Water Rate History and Projection

The wholesale water rate history and projection is attached as Appendix D. The rates may be adjusted in the future to reflect actual revenue and expenditure circumstances and water demand volumes.

## **ALTERNATIVES**

The Regional Water Supply Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 Operating and Capital Budget and the Five Year Capital Plan;
2. Approve the 2024 wholesale water rate of \$0.8094 per cubic metre;

3. Approve the 2024 agricultural water rate of \$0.2105 per cubic metre;
4. Direct staff to balance the 2023 actual revenue and expense on the transfer to the water capital fund;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the Water Rates Bylaw accordingly.

#### *Alternative 2*

The Regional Water Supply Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 Operating and Capital Budget and the Five Year Capital Plan as amended;
2. Approve the 2024 wholesale water rate as amended (amended rate);
3. Approve the 2024 agricultural water rate of \$0.2105 per cubic metre;
4. Direct staff to balance the 2023 actual revenue and expense on the transfer to the water capital fund;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the Water Rates Bylaw accordingly.

#### **IMPLICATIONS**

If the proposed budget is amended, the implications could vary depending on how the budget is amended and the impact on specific initiatives (i.e., new initiatives), on-going operations, or the capital work program. 'One-time' reductions in reserve fund contributions could be considered by the Commission to help mitigate the budget and rate increases, but additional capital financing could result in the longer term. Although staff have not recommended amending the agricultural water rate for 2024, the rate and rate methodology is under review this year and the Commission will consider the rate review recommendations in 2025.

Any changes in the recommended wholesale water rate would have to be incorporated in the Juan de Fuca Water Distribution Service and Saanich Peninsula Water Service budgets and rates.

#### **CONCLUSION**

The draft 2024 Regional Water Supply Service budget has been prepared for the Regional Water Supply Commission's consideration. The budget was prepared considering the Commission and CRD Board's 2024 service planning and financial expectations. A proposed increase in operating and capital funding combined with an adjusted revenue budget, is resulting in a recommended wholesale water rate of \$0.8094 per cubic metre, a 5.14% increase over the 2023 rate.

#### **RECOMMENDATIONS**

The Regional Water Supply Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 Operating and Capital Budget and the Five Year Capital Plan;
2. Approve the 2024 wholesale water rate of \$0.8094 per cubic metre;

3. Approve the 2024 agricultural water rate of \$0.2105 per cubic metre;
4. Direct staff to balance the 2023 actual revenue and expense on the transfer to the water capital fund;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the Water Rates Bylaw accordingly.

25 RWS Operations  
Staff

Manage 15 Dams

20,611 ha of Protected Watershed

# 2023 Year End Projections

| Budget Item  | Variance (\$) | Variance (%) |
|--|---------------|--------------|
| Supply System operating expenditures                 | \$581,600     | 3.46%        |
| Agricultural water rate funding                      | \$150,000     | 8.57%        |
| Capital fund transfers                               | \$1,434,000   | 11.65%       |
| Debt servicing - principal and interest expenditures | -\$168,224    | -2.19%       |
| Revenue  | \$1,915,463   | 4.80%        |

# 2024 Budget Overview

## Breakdown of Expenditures

Total 2024 Budget: \$42,114,204 (5.51% increase)

# 2024 Rate Base & Revenue Requirement

## 2024 Rate Base: \$3,353,701 decrease

|  |               |
|--|---------------|
| 2023 new assets capitalized (projected)        | \$12,336,888  |
| 2023 depreciation & asset value adjustments    | -\$15,687,588 |
| Resulting 2023 change in physical plant        | -\$3,350,700  |
| 2023 construction work in progress (projected) | \$11,685,562  |

## 2024 Revenue Requirement: \$3,829,876 Increase

|                                   |             |
|-----------------------------------|-------------|
| 2023 - 2024 O&M expense (change)  | \$1,772,806 |
| 2023 - 2024 depreciation (change) | -\$930,730  |
| Return on rate base (change)      | \$2,987,800 |

# 2024 Budget Overview Operating Expenditures

## Overview:

Core Operations: \$18,480,167 (10.08%)

## Highlights:

- Incorporates cost escalations in chemical identified in 2023
- Increases resulting from inflationary pressures and collective agreement obligations retroactive from 2023
- Includes four increased service level initiatives

# 2024 Budget Overview

## Water Community Need Initiatives

### Overview:

- Community Need Summary includes four Initiative Business Cases
- The new positions result in ongoing additional budget request of \$430,600 and a one-time expenditure of \$69,200.

| Initiative Reference | Program Area                      | Business Driver - Rational   | Staff impacts (2024)    | Funding source                |
|----------------------|-----------------------------------|--|-------------------------|-------------------------------|
| 2a-2.1               | Contracts Coordinator             | Increased capacity to support water and wastewater capital programs  | 1 Auxiliary Converted   | Fee-for-service               |
| 2a-2.2               | Purchaser                         | Increased capacity to support water and wastewater capital programs  | 1 New Ongoing           | Fee-for-service & Requisition |
| 2a-8.1               | Water Quality Sampling Technician | Additional capacity to meet growing drinking water monitoring requirements   | Increase to daily hours | Fee-for-service & Requisition |
| 2b-1.1               | Dam Safety Program                | Creation of a dedicated Dam Safety Team responsible for managing the 23 water supply dams (15 RWS) to ensure compliance with the Dam Safety Regulation and Water Sustainability Act. | 2 New Ongoing           | Fee-for-service               |

# 2024 Budget Overview Capital Plan

# 2024 Budget Overview Water Rate Funding

## First Nations Regional Water Service

2024 Conveyance Fee Budget

\$900,000 (+3.4%)

## Agricultural Water Rate

2024 Agricultural  
Water Rate

\$0.2105 / m<sup>3</sup> (0%)

2024 Agricultural  
Water Rate Budget

\$1,800,000 (+2.86%)

Historic Wholesale Rate vs. Agriculture Water Rate

# 2024 Budget Overview

## Wholesale Rate History & Projection

### Overview:

2023 Projected Actual Demand:  
52,000,000 cubic metres

2024 Projected Water Demand:  
51,000,000 cubic metres  
(+ 1,500,000 cubic metres)

2023 Wholesale Rate: \$0.7698

2024 Wholesale Rate: \$0.8094 (+5.14%)

2024 rate is below rate indicated for 2024 in 2023 budget (\$0.8228)

Regional Water Supply Annual Demand

Regional Water Supply Service (Greater Victoria)  
Wholesale Water Rate Historicals & Projections

# 2024 Budget Overview

## Water Demand and Rates

## 2024 Total Revenue Budget: \$42,114,204

- 2024 Budget Water Demand:  
51,000,000 cubic metres (+1,500,000 cubic metres)
- 2024 Regional Water Supply Wholesale Rate:  
\$0.8094 / cubic metre (+5.14%)
- 2024 Agricultural Rate:  
\$0.2105 / cubic metre (0%)
- Annual cost increase to average  
residential consumption:  
\$9.31

# Budget Overview

## Multi-Year Projection

### Overview:

2023 RWS budget: \$39,915,804

2024 RWS budget: \$42,114,204 (+5.51%)

2024-2028 Average Water Rate Increase: 8%

### Drivers:

Growing Capital Program linked to development, Master Plan and aging infrastructure

## Budget Recommendations

1. Approve the 2024 Operating & Capital Budget & Five Year Capital Plan;
2. Approve the 2024 wholesale water rate of \$0.8094 per cubic metre;
3. Approve the 2024 agricultural water rate of \$0.2105 per cubic metre;
4. Direct staff to balance the 2023 actual revenue and expense on the transfer to the water capital fund;
5. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
6. Direct staff to amend the water rates bylaw accordingly.

## **2024 BUDGET**

### **Regional Water Supply**

#### **COMMISSION REVIEW**

OCTOBER 2023

Service: 2.670

Regional Water Supply

Commission: Regional Water Supply

**DEFINITION:**

To finance, install, operate and maintain a water supply local service in the Capital Regional District, as per the Water Supply Local Service Establishment Bylaw No. 2537.

The establishment and operation of a Regional Water Supply Commission is done by Bylaw No. 2539.

**SERVICE DESCRIPTION:**

Regional Water Supply is responsible for the water supply, treatment and transmission system for the Greater Victoria region, providing wholesale water to municipalities that operate municipal distribution systems. The service administration and operation is provided by the Integrated Water Services Department.

**PARTICIPATION:**

City of Victoria  
District of Oak Bay  
District of Saanich  
Township of Esquimalt  
District of Central Saanich

Town of Sidney  
District of North Saanich  
Town of View Royal  
City of Colwood  
City of Langford

District of Metchosin  
District of Sooke  
Juan de Fuca Electoral Area  
District of Highlands

**MAXIMUM LEVY:**

No stated limit in establishment bylaw and no ability to requisition.

**MAXIMUM CAPITAL DEBT:**

|             |   |      |                     |
|-------------|---|------|---------------------|
| Authorized: | Pre Consolidated MFA Loan Authorizations - Regional Water Supply Water Works Facilities |      | \$137,700,000       |
| Borrowed:   |   |      | \$91,400,000        |
| Remaining:  | Expired   |      | <u>\$46,300,000</u> |
| Authorized: | LA Bylaw No. 3451 - Regional Water Supply Land Acquisition                              |      | \$60,000,000        |
| Borrowed:   |   |      | \$60,000,000        |

**Overall 2023 Budget Performance**  
(expected variance to budget and surplus treatment)

*Favourable water sales variance of \$1.9m (5%) due to higher than budgeted water demand largely a result of dry summer weather. This additional revenue is partially offset by Agricultural Subsidy exceeding budget by \$150k, and operational costs exceeding budget in the following areas: wages and benefits (\$200k) and chemical supplies (\$160k). The net surplus of \$1.4m will be transferred to the service's Water Capital Fund.*

| 25-05  | New                      | Heli Fire Tank   | A large water tank for helicopter bucketing to be deployed in Goldstream WSA.   | \$ 20,000            | E           | WU             | \$ -                | \$ -                 | \$ 20,000           | \$ -              | \$ -              | \$ -              | \$ 20,000            |
| 22-13  | New                      | Replace Storage Sheds with Containers  | Covered sand storage between sea containers that have been procured.  | \$ 50,000            | S           | WU             | \$ -                | \$ 30,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$ 30,000            |
| 24-06  | Study                    | Post Wildfire Assessment Program   | Acquiring access to existing software programs to model sediment and debris flows from burned areas.  | \$ 55,000            | L           | WU             | \$ -                | \$ 55,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$ 55,000            |
| 24-07  | Replacement              | Field Operations Centre - IT Infrastructure Upgrades                                   | The firewall, switches and telephony system are end of life and require replacement. The equipment will be transferred to the new building.   | \$ 40,000            | E           | WU             | \$ -                | \$ 40,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$ 40,000            |
| <b>Watershed Protection Sub-Total</b>            |                          |  |   | <b>\$ 27,807,000</b> |             |                | <b>\$ 4,500,000</b> | <b>\$ 11,346,000</b> | <b>\$ 4,962,000</b> | <b>\$ 797,000</b> | <b>\$ 440,000</b> | <b>\$ 100,000</b> | <b>\$ 17,585,000</b> |
| <b>INFRASTRUCTURE ENGINEERING AND OPERATIONS</b> |                          |  |   |                      |             |                |                     |                      |                     |                   |                   |                   |                      |
| <b>Planning</b>                                  |                          |  |   |                      |             |                |                     |                      |                     |                   |                   |                   |                      |
| 16-10  | New                      | Post Disaster Emergency Water Supply   | Identify and procure emergency systems for post disaster preparedness.  | \$ 2,250,000         | S           | WU             | \$ 150,000          | \$ 350,000           | \$ 200,000          | \$ 200,000        | \$ 200,000        | \$ 200,000        | \$ 1,150,000         |
| 17-13  | New                      | Asset Management Plan  | Development of a plan to inform future areas of study and highlight critical infrastructure improvements.   | \$ 400,000           | S           | WU             | \$ 200,000          | \$ 200,000           | \$ -                | \$ -              | \$ -              | \$ -              | \$ 200,000           |
| 19-15  | New                      | Hydraulic Capacity Assessment and Transient Pressure Analysis                          | Determine the existing level-of-service for the RWSA transmission system and conduct a transient pressure analysis  | \$ 250,000           | S           | WU             | \$ 100,000          | \$ 100,000           | \$ -                | \$ -              | \$ -              | \$ -              | \$ 100,000           |
| 20-08  | Study                    | Regional Water DCC Program   | Design of a Regional DCC Program  | \$ 450,000           | S           | WU             | \$ 250,000          | \$ 250,000           | \$ -                | \$ -              | \$ -              | \$ -              | \$ 250,000           |
| 20-10  | Study                    | Condition & Vulnerability Assessment   | Conduct a condition assessment of critical supply infrastructure and assess its possibility of risk.  | \$ 200,000           | S           | WU             | \$ 175,000          | \$ 175,000           | \$ -                | \$ -              | \$ -              | \$ -              | \$ 175,000           |
| 22-05  | Study                    | Level of Service Agreement   | From R19-15 & R20-11, develop level-of-service agreements for participating municipalities to address hydraulic capacity of infrastructure.   | \$ 150,000           | S           | WU             | \$ 140,000          | \$ 10,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$ 140,000           |
| 22-14  | Study                    | Sooke River Intake Feasibility   | A feasibility study for an intake from Sooke River to replace the Main No. 15 salmon fishery contribution, for a variety of reasons.  | \$ 50,000            | S           | WU             | \$ 40,000           | \$ 40,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$ 40,000            |
| 23-12  | Study                    | Project Delivery Strategy  | Develop a strategy to deliver the identified projects from the 2022 RWS Master Plan.  | \$ 200,000           | S           | WU             | \$ 100,000          | \$ 100,000           | \$ -                | \$ -              | \$ -              | \$ -              | \$ 100,000           |
| 23-13  | Study                    | Filtration Plant Planning & Design   | Conduct a siting, conceptual design and detailed design for a filtration plant  | \$ 16,300,000        | S           | WU             | \$ 253,125          | \$ -                 | \$ 400,000          | \$ 500,000        | \$ 5,400,000      | \$ 10,000,000     | \$ 16,300,000        |
| 23-14  | Study                    | Council Creek Crossing Hydrology Review  | Conduct a hydrology review of the Council Creek crossing of water mains to ensure pipe resilience during high rainfall events.  | \$100,000            | S           | WU             | \$ -                | \$100,000            | \$ -                | \$ -              | \$ -              | \$ -              | \$100,000            |
| 23-24  | New                      | East-West Connector (Filtration Plant to District of Sooke)                            | Planning and Conceptual Design of the East- West Supply Main from the proposed filtration plant to the District of Sooke (identified in the 2022 Master Plan)                               | \$ 400,000           | S           | WU             | \$ -                | \$ -                 | \$ -                | \$ -              | \$ 200,000        | \$ 200,000        | \$ 400,000           |
| 23-25  | New                      | Deep Northern Intake and Sooke Lake Pump Station                                       | Planning and Design of the Deep Northern Intake and Sooke Lake Pump Station (identified in the 2022 Master Plan)  | \$ 12,200,000        | S           | WU             | \$ 506,250          | \$ -                 | \$ 600,000          | \$ 3,600,000      | \$ 4,000,000      | \$ 4,000,000      | \$ 12,200,000        |
| 23-26  | New                      | Transmission Main - Sooke Lake Pump Station to Head Tank                               | Planning and Design of the Transmission Main from the Sooke Lake Pump Station to Head Tank (identified in the 2022 Master Plan)   | \$ 3,400,000         | S           | WU             | \$ 168,750          | \$ -                 | \$ 200,000          | \$ 1,000,000      | \$ 1,200,000      | \$ 1,000,000      | \$ 3,400,000         |

# APPENDIX A

Service #: 2.670  
Service Name: Regional Water Supply

| Project Number                                      | Capital Expenditure Type | Capital Project Title   | Capital Project Description   | Total Project Budget | Asset Class | Funding Source | Carryforward  | 2024          | 2025          | 2026          | 2027          | 2028          | 5 - Year Total |
|---|--------------------------|---|---|----------------------|-------------|----------------|---------------|---------------|---------------|---------------|---------------|---------------|----------------|
| 23-27   | New                      | Gravity Main - Sooke Lake to Head Tank  | Planning and Design of a Gravity Transmission Main (redundancy) from Sooke Lake to Head Tank (identified in the 2022 Master Plan)   | \$ 1,400,000         | \$          | WU             | \$ 84,375     | \$ -          | \$ 300,000    | \$ 400,000    | \$ 700,000    | \$ -          | \$ 1,400,000   |
| 23-28   | New                      | Goldstream Reservoir Connector  | Planning and Design of the Goldstream Reservoir Connector transmission main   | \$ 4,600,000         | \$          | WU             | \$ 84,375     | \$ -          | \$ 400,000    | \$ 2,000,000  | \$ 2,200,000  | \$ -          | \$ 4,600,000   |
| 24-08   | Study                    | Seismic and Flood Vulnerability Assessment of Supply Main 10 and 11 Spillway Crossing | Engineering Seismic Assessment of the spanned crossing of of Supply Main No 10 and 11 over the Sooke Lake Spillway channel  | \$ 150,000           | \$          | WU             | \$ -          | \$ 150,000    | \$ -          | \$ -          | \$ -          | \$ -          | \$ 150,000     |
| 24-09   | Study                    | Agricultural Water Rate Review  | Phase 2   | \$ 100,000           | \$          | WU             | \$ -          | \$ 100,000    | \$ -          | \$ -          | \$ -          | \$ -          | \$ 100,000     |
| 18-07   | New                      | Replacement of UV System  | Replacement of the UV system at the Goldstream Water Treatment Plant  | \$ 11,500,000        | E           | WU             | \$ 6,600,000  | \$ 9,370,000  | \$ -          | \$ -          | \$ -          | \$ -          | \$ 9,370,000   |
| 18-08   | Replacement              | Bulk Supply Meter Replacement Program   | Planned replacement of aging bulk meter replacement based upon a condition assessment and water audit.  | \$ 2,050,000         | E           | WU             | \$ 950,000    | \$ 950,000    | \$ 200,000    | \$ 200,000    | \$ 150,000    | \$ -          | \$ 1,500,000   |
| 18-15   | Renewal                  | Corrosion Protection Program  | Study deficiencies in the current material protection and implement recommendations.  | \$ 1,150,000         | \$          | WU             | \$ 300,000    | \$ 300,000    | \$ 150,000    | \$ 150,000    | \$ -          | \$ -          | \$ 600,000     |
| 18-18   | Replacement              | Main No.3 Segment Replacement   | Replacement of segments of Main No. 3 based upon previous studies.  | \$ 15,600,000        | \$          | WU             | \$ 500,000    | \$ 1,600,000  | \$ 10,000,000 | \$ 3,600,000  | \$ -          | \$ -          | \$ 15,200,000  |
| 19-05   | Renewal                  | Repairs - Kapoor Shutdown   | Repair items such as defects in the Kapoor tunnel, replacement of critical valves, intake exterior inspection and actuator  | \$ 700,000           | \$          | WU             | \$ 105,000    | \$ 205,000    | \$ 100,000    | \$ -          | \$ -          | \$ -          | \$ 305,000     |
| 19-23   | New                      | Critical Spare Equipment Storage & Pipe Yard  | Plan, design and construct a critical equipment storage building.   | \$ 1,200,000         | \$          | WU             | \$ 250,000    | \$ 250,000    | \$ 950,000    | \$ -          | \$ -          | \$ -          | \$ 1,200,000   |
| 20-16   | Replacement              | Cecelia Meter Replacement   | Replacement of the Cecelia billing meter as well as its enclosure.  | \$ 1,000,000         | \$          | WU             | \$ 450,000    | \$ 450,000    | \$ -          | \$ -          | \$ -          | \$ -          | \$ 450,000     |
| 20-17   | Replacement              | Decommission & Conceptual Design of the Smith Hill Site                               | Plan for decommission the conceptual design for the replacement of the Smith Hill reservoir site.   | \$ 1,300,000         | \$          | WU             | \$ 253,125    | \$ 300,000    | \$ -          | \$ 1,000,000  | \$ -          | \$ -          | \$ 1,300,000   |
| 21-06   | Replacement              | Sooke Lake Dam Spillway Hoist and Stop Log Replacement                                | Replacement of the sluice gate spillway hoist and stop logs at Sooke Lake Dam.  | \$ 775,000           | E           | WU             | \$ 470,000    | \$ 470,000    | \$ 250,000    | \$ -          | \$ -          | \$ -          | \$ 720,000     |
| 21-09   | New                      | Goldstream Water Chlorination Gas System Removal                                      | Plan and construct provisions for removal of chlorination system  | \$ 200,000           | \$          | WU             | \$ 170,000    | \$ 170,000    | \$ -          | \$ -          | \$ -          | \$ -          | \$ 170,000     |
| 21-10   | Replacement              | SCADA Masterplan and System Upgrades  | Update the SCADA Master Plan in conjunction with the Juan de Fuca Water Distribution, Saanich Peninsula Water and Wastewater, and Core Area Wastewater Services.  | \$ 2,150,000         | E           | WU             | \$ 750,000    | \$ 300,000    | \$ 725,000    | \$ 600,000    | \$ 300,000    | \$ -          | \$ 1,925,000   |
| 21-11   | Replacement              | RWS Supply Main No. 4 Upgrade   | Upgrade vulnerable sections of the RWS Supply Main No. 4 and Main No. 1 to a resilient system to better able to withstand a seismic event. Vulnerable sections are Concrete Cylinder pipe material which is susceptible to failure during a seismic event. This is part of project partnered with the Saanich Peninsula Water system. | \$ 33,900,000        | \$          | WU             | \$ 3,000,000  | \$ 3,000,000  | \$ 600,000    | \$ 20,000,000 | \$ 10,000,000 | \$ -          | \$ 33,600,000  |

| <b>Service:</b> 2.670 Regional Water Supply   |  |                              |  |                                    |
| <b>Project Number</b>   | 17-01  | <b>Capital Project Title</b> | Historic Goldstream Powerhouse Building                                  | <b>Capital Project Description</b> |
| Repairs of historic Goldstream Powerhouse building and work toward making the site accessible to the public                     |  |                              |  |                                    |
| <b>Project Rationale</b>  | Located near the Goldstream Treatment Plant and the Sooke Hills Wilderness Trail (Trans Canada Trail), is an 1897 brick hydroelectric powerplant that served Victoria (notably the streetcars) for approx. 60 years. The Powerhouse has its own Wikipedia entry: <a href="http://en.wikipedia.org/wiki/Lubbe_Powerhouse">http://en.wikipedia.org/wiki/Lubbe_Powerhouse</a> and has captured public interest as a unique structure in BC history. An engineering condition assessment including engineered drawings, site plan and approximate cost of repairs was conducted in 2017. A major repair in the masonry on the north side of the building was completed in 2018. Further masonry and major crack repair was completed on the south side in 2019 (\$10,000). A successful grant application (\$76,000) was used in 2022 to replace the roof membrane/envelope. The approved 2023 funds are to implement basic public interpretation signage and in 2025 to plan and seek grant funding or sponsors for security gates and fencing working toward a goal to make the site available to the public from the nearby Sooke Hills Wilderness Trail. |                              |  |                                    |
| <b>Project Number</b>   | 18-10  | <b>Capital Project Title</b> | Species-at-Risk Wildlife Habitat   | <b>Capital Project Description</b> |
| Assessments (office and field) and planning for managing wildlife habitat, in particular species-at-risk habitat, in the GVWSA. |  |                              |  |                                    |
| <b>Project Rationale</b>  | An assessment (office and field) and conservation planning for management of wildlife habitat, in particular species-at-risk habitat, in the GVWSA. Funds in 2018 (\$35,000) will be used for compilation of existing knowledge of species, distribution, habitat, research. Funds in 2019 and 2020 (\$50,000 each) will be used to field verify species, critical habitat and movement corridors. Funds added in 2021 (\$25,000) are to develop GVWSA specific conservation plans based on office and field investigations. Funds added in 2023 are in anticipation of future habitat mapping and planning required to address BC Species-at-Risk requirements.   |                              |  |                                    |
| <b>Project Number</b>   | 19-30  | <b>Capital Project Title</b> | Leech WSA Lakes/Tributaries Assessment                                   | <b>Capital Project Description</b> |
| An assessment of the physical, chemical and biological parameters of the lakes in the Leech WSA                                 |  |                              |  |                                    |
| <b>Project Rationale</b>  | To assess restoration of the Leech Water Supply Area and prepare for use of Leech River water to supplement Sooke Lake Reservoir, baseline monitoring of the hydrological, physical, chemical and biological parameters of the main Leech WSA source waterbodies will be conducted. The work will be undertaken in conjunction with the Water Quality division. (Action from the 2017 Strategic Plan for Regional Water Supply).   |                              |  |                                    |
| <b>Project Number</b>   | 20-05  | <b>Capital Project Title</b> | Leech WSA Terrestrial Ecosystem Mapping & Wetland Classification/Mapping | <b>Capital Project Description</b> |
| Classification and mapping of terrestrial ecosystems and wetlands and integration with Sooke and Goldstream data.               |  |                              |  |                                    |
| <b>Project Rationale</b>  | The existing Leech WSA terrestrial ecosystem mapping received from the previous landowner is not consistent with that of Sooke and Goldstream WSAs. The project is to renew the ecosystem mapping to a standard that matches Sooke and Goldstream for consistent data and analysis. The project will also conduct detailed wetland mapping in the Leech WSA to a standard that matches Sooke and Goldstream for consistent data and analysis. The projects have been combined (ecosystem mapping (20-05) and wetland mapping (20-06) and moved forward from 2020 to 2021. The project has been further moved forward from 2021 to 2022. The project has been further moved forward from 2022 to 2023. It is advantageous to wait for advances in technology and partners (BC) which may improve the product and/or reduce costs.   |                              |  |                                    |

|                   |  |                            |  |                             |  |
|-------------------|--|----------------------------|--|-----------------------------|--|
| Service:          |  | 2.670Regional Water Supply |  |                             |  |
| Project Number    | 20-06  | Capital Project Title      | Addressing mining in Leech WSA (impacts, agreements)                                   | Capital Project Description | Funding to support work to reduce the impact of mining claims in the Leech WSA                           |
| Project Rationale | Assessment and/or studies and/or funds to buy and cancel mining claims to mitigate impacts from mining activities and with the goal of reducing mining claims in the Leech Water Supply Area. 2024: A minor increase in funding is required to continue buying and cancelling mining claims.   |                            |  |                             |  |
| Project Number    | 20-27  | Capital Project Title      | GVWSA Forest Resilience - wildfire/forest modelling and forest management field trials | Capital Project Description | Modelling forest and wildfire risk under climate change scenarios & forest/fuel management field trials. |
| Project Rationale | Projects to: a). model impact of climate change on forests, forest fuel types, and associated wildfire behavior and probability and potential effects of management options; and b). trial forest and fuel management treatments that reduce wildfire risk and reduce inter tree moisture stress, such as prescribed fire and thinning. Increased funding is required in 2024 to conduct trial thinning treatments. Other income to the project is anticipated from disposal (sale) of thinned logs that are merchantable. |                            |  |                             |  |
| Project Number    | 20-28  | Capital Project Title      | GVWSA Forest Resilience - Assessments of forest health and resilience                  | Capital Project Description | Field assessments to better understand current forest health and resilience.                             |
| Project Rationale | Field assessments to better understand current forest health and resilience including: increasing pine mortality, increase in bark beetle killed trees, existing advance regeneration in the understory, sedimentation sources from roads. The project funding for 2021 and 2022 is moved forward by one year to 2022 and 2023. Planned additional funding is being moved forward in the plan. 2025: Additional funds are required for forest health treatments.   |                            |  |                             |  |
| Project Number    | 21-20  | Capital Project Title      | West Leech Road  | Capital Project Description | Plan followed by construction of a road to access the western portion of the Leech WSA.                  |
| Project Rationale | A large portion of the western Leech WSA currently has overgrown unassessed roads. Brushing, upgrade, re-surfacing and some new road construction is required to provide access to this area for wildfire response, security patrols and forest management. Funds to implement plans have been added for 2022-2024. 2024: The funds previously requested for 2024 have been moved forward to 2025. No change in overall budget.  |                            |  |                             |  |

|                   |   |                            |  |                             |   |
|-------------------|---|----------------------------|--|-----------------------------|---|
| Service:          |   | 2.670Regional Water Supply |  |                             |   |
| Project Number    | 23-02   | Capital Project Title      | GVWSA LiDAR Mapping                            | Capital Project Description | Detailed contour mapping of ground, vegetation and tree cover (3D scanning)   |
| Project Rationale | LiDAR (which stands for Light Detection and Ranging) uses light in the form of a pulsed laser to measure ranges (distances). LiDAR will be acquired when orthophotography or other data is collected from the air. LiDAR provides 3D information about the forest stand structure which can be used by GIS (Geographic Information Systems). LiDAR data will be used to quantify forest structure, canopy biomass, and the size and configuration of forest openings to improve understanding of forest fuel loadings and watershed disturbance processes. Initial scoping has refined a required budget of \$250,000 rather than the previously planned \$120,000. The results will be used to plan forest fuel treatments across the GVWSA. 2024: An additional \$50,000 is required to complete fieldwork required to validate the LiDAR analyses.                             |                            |  |                             |   |
| Project Number    | 22-04   | Capital Project Title      | GVWSA Orthophotography                         | Capital Project Description | Annual contribution to capture of regional digital orthophotography for baseline mapping and monitoring.  |
| Project Rationale | Every two years CRD coordinates with municipalities and other levels of government to update aerial photography of the combined areas of interest in the region and develop an overall digital mosaic image. The images of the Greater Victoria Water Supply Area are used to monitor forest disturbances and adjacent land use activities and update spatial databases. To date these funds have come from Operating budgets, making it difficult to undertake other projects in the years when the photography is being flown. The funding plan has been adjusted to provide funds every second year when it is needed rather than annually.  |                            |  |                             |   |
| Project Number    | 22-09   | Capital Project Title      | GVWSA Powerlines Wildfire Risk Mitigation Plan | Capital Project Description | A detailed assessment, options and plan to reduce the risk of wildfire start from tree fall onto CRD powerlines in the GVWSA.   |
| Project Rationale | A powerline that supplies Sooke Dam, the Head Tank, and associated infrastructure runs along the forested slopes on the east side of Sooke Lake Reservoir. Power interruption from tree fall is an ongoing concern. Tree fall on the powerline during the summer months could start a wildfire. While the forest along the line is actively managed to reduce tree fall hazard, concerns about fire starts has prompted a call to investigate the option of clearing a much wider area along the line. Funds will be used to carry out an assessment of the feasibility and impacts of this option. 2024: Funds to take treatment action in 2024 (\$20,000) and 2025 (\$40,00) are requested.   |                            |  |                             |   |
| Project Number    | 22-10   | Capital Project Title      | GVWSA/RWS Educational Videos                   | Capital Project Description | Development of educational videos to address Regional Water Supply issues of interest to the public such as: wildfire risk and mitigation; climate change; water supply master plan update. |
| Project Rationale | The Watershed Protection division provides educational tours of the GVWSA and Regional Water Supply infrastructure. During the COVID pandemic, operating funds dedicated to tours were instead used to develop educational videos to replace or supplement tours. Going forward, there is a desire to provide further educational material on specific topics of current public interest such as: climate change and regional water supply; GVWSA wildfire management; and the Master Plan update for regional water supply. The funding request is for development of one video per year for 2022 and 2023. Given development of a corporate wide media strategy in 2022, approved funding has been moved forward to ensure additional videos are designed to fit with the strategy and new video branding templates. 2024: Funds for 2024 (\$30,000) are moved forward to 2025. |                            |  |                             |   |

|                   |   |                            |  |                             |   |

| Service:          |   | 2.670Regional Water Supply |  |                             |   |
|                   |   |                            |  |                             |   |
| Project Number    | 23-05   | Capital Project Title      | Spill Management Plan and Implementation | Capital Project Description | Review, assessment and re-development of a spill management plan for the GVWSA along with potential procurement of additional equipment or supplies.                                      |
| Project Rationale | The existing spill preparedness plan to protect water quality and other resources in the GVWSA is more than 15 years old. An external review, assessment and re-development of a more comprehensive spill management plan for the GVWSA that considers improved materials, technology and strategies is required. Funding may allow for procurement of recommended spill supplies, or a separate funding request may follow in a subsequent year. 2024: A request for proposal solicitation in late 2022 did not garner any bids. A revised RFP is planned with additional funding request (\$20,000).  |                            |  |                             |   |
|                   |   |                            |  |                             |   |
| Project Number    | 24-03   | Capital Project Title      | Biosecurity Risk Assessment & Procedures | Capital Project Description | Assess GVWSA biosecurity risks and develop mitigating protocols/procedures  |
| Project Rationale | There has already been work done to identify and assess possible sources of biosecurity risk to the GVWSA in the forms of entry of pathogens, invasive plant and animal species, contaminated soils and materials. The project is intended to document the biosecurity assessment and prepare and work with staff to implement practical procedures to mitigate the highest risks. 2024: The project has been moved forward to 2025. No change in budget.   |                            |  |                             |   |
|                   |   |                            |  |                             |   |
| Project Number    | 09-01   | Capital Project Title      | Leech River Watershed Restoration        | Capital Project Description | A 17 year project to restore the Leech WSA lands for water supply.  |
| Project Rationale | A 17 year project to 2025 to restore the Leech WSA lands for water supply. An update of projects completed and planned was provided in June 2019 (RWSC Report #19-13). Funding allocated by end of 2025 will be \$5,517,000; however total capital expenditure in the Leech WSA is higher when separate projects to install major bridges and inventory and assess forests is considered.   |                            |  |                             |   |
|                   |   |                            |  |                             |   |
| Project Number    | 16-06   | Capital Project Title      | Goldstream IWS Field Office              | Capital Project Description | Renewal of Water Quality field office/lab and equipment storage and Watershed Protection office, yard, training space and equipment storage, replacing longstanding temporary facilities. |
| Project Rationale | Watershed Protection staff (27 FTE and 8 seasonal auxiliaries) are currently located in 2 trailers and a house at the Goldstream Gate entrance to the water supply area, and in office space at the Integrated Water Services office in View Royal. The trailers were considered temporary office space since their implementation over 15 years ago. The trailers are old, prone to leaks and a concern for mold. Water Quality field staff are located in another temporary facility, since their field office was on the gravel pit property that was sold to Langford. In addition, there are insufficient facilities for training, equipment storage, emergency management and public education. The separation of staff between various Goldstream facilities and the View Royal location causes inefficiencies and organizational difficulties. The IWS office is also above capacity and moving Watershed Protection staff out will extend the existing office space. 2024: A design build procurement process has been selected to deliver the project with a rough total project cost of \$12 million. Funding of \$ 5 million to the project is guaranteed through the completion of sale of the IWS gravel pit to Langford. |                            |  |                             |   |

|  |   |                       |   |                             |
|--|---|-----------------------|---|-----------------------------|
| Service: 2.670 Regional Water Supply   |   |                       |   |                             |
| Project Number   | 17-02   | Capital Project Title | Leech River HydroMet System                       | Capital Project Description |
| Installation of a network of hydrometeorological stations to collect water quantity and quality information for the Leech WSA.   |   |                       |   |                             |
| Project Rationale  | A 17 year \$ 5.756 M capital plan is being carried out to restore the Leech Water Supply Area (Project #09-01) to prepare for future water needs. Historically only one hydrological measuring station was capturing flow and turbidity measurements 3.8 km downstream of the future water intake on the Leech River. In order to understand and predict the effect of precipitation, storm events and various restoration management measures on Leech River water quality and quantity, a network of hydrological measuring stations is needed further upstream in the Leech River watershed. This capital project first funded a design study of the most effective and efficient monitoring system that could be implemented (\$10,000) prior to funding implementation beginning in 2018. 2024: Additional funding of \$45,000 is requested to upgrade and enhance the system. |                       |   |                             |
| Project Number   | 18-05   | Capital Project Title | GVWSA Forest Fuel Management/FireSmart Activities | Capital Project Description |
| Implementation of forest fuel management and FireSmart actions in strategic locations for wildfire risk management in the GVWSA.   |   |                       |   |                             |
| Project Rationale  | Wildfire is the greatest threat to water quality in the GVWSA. In 2014 - 2018 CRD staff completed two new fuel reduction corridor projects. Funding to tender contract projects is required in order to complete priority fuel management projects over and above existing staff effort which will be focused on maintenance of existing fuel managed sites. A requested increase from \$75,000 to \$100,000 annually reflects costs experienced in the first year of tendering fuel management work. The need for fuel management to address priority areas will be ongoing and funding is required annually for the 5 year period.  |                       |   |                             |
| Project Number   | 19-02   | Capital Project Title | Whiskey Creek Bridge Replacement (Sooke WSA)      | Capital Project Description |
| Replacement of the existing undersized bridge with a longer and higher concrete structure.   |   |                       |   |                             |
| Project Rationale  | Whiskey Creek bridge is located on the Leechtown Main Road, one of the main access routes to Sooke Lake Dam and other critical IWS infrastructure. Whiskey Creek requires a larger bridge as it has been overtopped by storm events in the past and this poses water quality, environmental and safety risks. 2024: Project construction is moved forward from 2024 to 2025. No change in funding request.  |                       |   |                             |
| Project Number   | 19-19   | Capital Project Title | Hydromet Upgrades Sooke and Goldstream            | Capital Project Description |
| Install additional hydrology monitoring sites on Sooke Lake Reservoir inflow streams and increase instrumentation on meteorological stations in Sooke and Goldstream watersheds. |   |                       |   |                             |
| Project Rationale  | Only the main tributary inflows into Sooke Lake Reservoir are monitored. To better understand the hydrology of the Sooke watershed, additional hydrology monitoring sites are required. The existing meteorological stations in Sooke and Goldstream watersheds have only basic instrumentation and would benefit from additional sensors and upgrades to improve the quality of the meteorological data. 2024: \$170,000 additional funding is requested to continue to upgrade and enhance the system.  |                       |   |                             |

|                          |   |                              |   |                                    |  |
|--------------------------|---|------------------------------|---|------------------------------------|--|
| <b>Service:</b>          |   | 2.670 Regional Water Supply  |   |                                    |  |
| <b>Project Number</b>    | 20-01   | <b>Capital Project Title</b> | Kapoor Main Mile 1 Bridge and Asphalt Upgrade   | <b>Capital Project Description</b> | Replacement of the existing undersized culvert with a large bridge as well as subsequent 500 m road asphalt replacement.       |
| <b>Project Rationale</b> | The existing culvert at Mile 1 on Kapoor Main (which is the primary access road to Sooke Lake Reservoir and Dam) is undersized, has evidence of buried organics in the fill material and has oversteepened, unstable banks. The culvert will be removed and a bridge installed to improve water carrying capacity at peak flows, fish passage and bank stability. The asphalt section uphill of the bridge will also be repaired or replaced as a component of the project. 2024: Consulting engineer design work indicates a total construction cost of \$868,000 for the bridge. A cost driver is the significant amount of fill to remove. The 2024 budget has been increased to reflect the engineered cost estimate and to move the asphalt budget forward to 2025.  |                              |   |                                    |  |
| <b>Project Number</b>    | 20-29   | <b>Capital Project Title</b> | GVWSA Gravel Crushing                           | <b>Capital Project Description</b> | Production of gravel at existing quarries in Sooke and Goldstream WSAs.  |
| <b>Project Rationale</b> | Production of 19 mm road surfacing gravel from GVWSA quarries are required every few years to maintain roads. Gravel production needs are anticipated in 2023 and 2026. The need for additional gravel crushing in 2023 has been pushed forward by one year to 2024.  |                              |   |                                    |  |
| <b>Project Number</b>    | 21-26   | <b>Capital Project Title</b> | Road Deactivation/Rehabilitation in the GVWSA   | <b>Capital Project Description</b> | Deactivate or rehabilitate unneeded roads in the Sooke and Goldstream WSAs.  |
| <b>Project Rationale</b> | A review was undertaken to identify roads in the Sooke and Goldstream WSAs that could be rehabilitated and removed from the road network without undue impact to operations, wildfire response and security. Funding is required over the 5 year period to make progress on the roads identified to be deactivated/rehabilitated. 2024: The budget for 2024 has been decreased to reflect the carryforward from 2023. The total project budget has been reduced by \$160,000.   |                              |   |                                    |  |
| <b>Project Number</b>    | 21-27   | <b>Capital Project Title</b> | Autogate Installations on Primary Access Routes | <b>Capital Project Description</b> | Install autogates on the main access routes where the Sooke Hills Wilderness Trail and E&N rail line cross to improve security |
| <b>Project Rationale</b> | Continued residential growth and corresponding increasing recreational pressure bring the public close to critical works (Goldstream Treatment Plant, and Ammonia Injection building). Recreational use of the Sooke Hills Wilderness Trail and Park also generate trespass into the GVWSA, and Drinking Water Protection Zone. Autogates improve security by 24 hour recorded keycard access operation and are located to increase security. Two autogates have been installed (2022 and 2023). 2024: The third and fourth autogate are being deferred by an additional year to 2025 to allow for additional design and provincial, Fortis Gas and Island Corridor Foundation approvals before the work can be tendered. \$50,000 is maintained in 2024 to add cameras to the newly installed autogates. No budget change. |                              |   |                                    |  |

|                 |       |                       |
|-----------------|-------|-----------------------|
| <b>Service:</b> | 2.670 | Regional Water Supply |
|-----------------|-------|-----------------------|

|                          |   |                              |  |                                    |  |
|--------------------------|---|------------------------------|--|------------------------------------|--|
| <b>Project Number</b>    | 22-02   | <b>Capital Project Title</b> | Muckpile Bridge Supply and Install (Deception) | <b>Capital Project Description</b> | Replacement of undersized culverts with bridge which will allow for fish and western toad migration. |
| <b>Project Rationale</b> | Replacement of undersized culverts with a concrete deck L100 bridge which will also improve fish passage and western toad migration. Addition of funding for design work ahead of construction. 2024: Construction has been moved ahead by one year to 2025, no change in budget. |                              |  |                                    |  |

|                          |  |                              |                                   |                                    |                               |
|--------------------------|--|------------------------------|-----------------------------------|------------------------------------|-------------------------------|
| <b>Project Number</b>    | 23-04  | <b>Capital Project Title</b> | 175/Sooke Main Bridge Replacement | <b>Capital Project Description</b> | Undersized bridge replacement |
| <b>Project Rationale</b> | The current structure (3 concrete culverts side-by-side with a concrete deck) does not allow adequate room to pass potential storm debris. The most recent engineering inspection stated this recycled structure is in fair shape, with spalling of the concrete. The structure is planned to be replaced with a free span concrete bridge. 2024: The project is moved forward by one year, no change in budget. |                              |                                   |                                    |                               |

|                          |   |                              |  |                                    |   |
|--------------------------|---|------------------------------|--|------------------------------------|---|
| <b>Project Number</b>    | 22-11   | <b>Capital Project Title</b> | Additional Boom Anchors for Sooke Lake Reservoir debris boom | <b>Capital Project Description</b> | The log boom protecting the Sooke Lake Reservoir Intake Tower from floating woody debris is inadequately anchored and requiring two additional anchors. |
| <b>Project Rationale</b> | The debris boom on Sooke Lake Reservoir with the existing anchors has the capacity to strike the Intake Tower if the boom breaks. It is recommended to add two additional anchors to ensure that if the boom breaks it will not damage the Intake Tower. An increased project budget (additional \$20,000) is required to design and install the anchors. |                              |  |                                    |   |

|                          |   |                              |  |                                    |  |
|--------------------------|---|------------------------------|--|------------------------------------|--|
| <b>Project Number</b>    | 23-10   | <b>Capital Project Title</b> | Work platform for Sooke Lake Reservoir | <b>Capital Project Description</b> | A towable work platform for conducting stationary on-water work activities such as boom and intake tower maintenance and spill response. |
| <b>Project Rationale</b> | This request is for a non-powered towable dock or barge that can be moved to various project sites as required. It allows workers to easily access work on the water from a stable platform, and can allow small equipment (pumps or generators) to be operated on appropriate spill containment, and to be left in place for extended periods of time. |                              |  |                                    |  |

|                   |   |                            |  |                             |  |
|-------------------|---|----------------------------|--|-----------------------------|--|
| Service:          |   | 2.670Regional Water Supply |  |                             |  |
| Project Number    | 23-11   | Capital Project Title      | Purchase and Deployment of Second Wildfire Camera for Leech WSA, and Analytic software | Capital Project Description | A secondary wildfire camera to monitor for heat and smoke signatures in the Leech WSA during fire season.                        |
| Project Rationale | Rapid detection is key to taking action when fires are still small and controllable. An infrared camera network, supported by software to identify potential ignitions, can be monitored by staff and an after hours service to rapidly provide an alert to new fire starts. This allows response staff to arrive before the fire has a chance to dig in and start to spread quickly. There is an existing camera at Mount Healy that "sees" large portions of the Sooke WSA. The Leech WSA is the most remote and least visible area (to the public and staff) and there is a strong benefit to early detection. The camera may need to be supported with a tower and communications upgrades. Funding in 2023 is earmarked for analytic software for both wildfire cameras and funding in 2024 is earmarked for purchase and deployment of the additional Leech camera. |                            |  |                             |  |
| Project Number    | 23-23   | Capital Project Title      | Brushcutting head for Excavator  | Capital Project Description | The existing brushcutting head from the excavator used in roadside maintenance has reached end of life and requires replacement. |
| Project Rationale | The existing brush cutting head for the excavator is past end of life and requires replacement. The old head will be disposed of and offset the cost of the new head.   |                            |  |                             |  |
| Project Number    | 24-05   | Capital Project Title      | Dock for Sooke Lake Reservoir  | Capital Project Description | Sooke Lake Reservoir requires a dock for safe deployment of boats, gear and crew.  |
| Project Rationale | Water Quality and Watershed Protection staff are required to go out on Sooke Lake Reservoir routinely, as well as in emergency situations. Sooke Lake Reservoir does not have a dock, beyond lockblocks that extend into the lake. It is unsafe and difficult to load and unload onto boats using the existing lockblocks. Funding of \$10,000 in 2024 to design and plan a dock; with up to \$90,000 to construct the dock in 2025 is requested.   |                            |  |                             |  |
| Project Number    | 25-05   | Capital Project Title      | Heli Fire Tank   | Capital Project Description | A large water tank for helicopter bucketing to be deployed in Goldstream WSA.  |
| Project Rationale | In order to avoid potential contamination of GVWSA reserservoirs from helicopter bucketing operations during wildfire suppression, a "Heli Fire" water tank is planned to be purchased and installed seasonally in the GVWSA. These tanks are of a size and volume that allow helicopters to fill their buckets out of them.  |                            |  |                             |  |
| Project Number    | 22-13   | Capital Project Title      | Replace Storage Sheds with Containers  | Capital Project Description | Covered sand storage between sea containers that have been procured.   |
| Project Rationale | The existing storage facility (sheds) in the Pipeyard used for Infrastructure Operations and Watershed Protection equipment and supplies is enclosed but not sealed from the elements or rodents, and is at end of life. Due to health and safety concerns, the sheds are to be replaced with basic seacan storage containers that can be sealed and readily moved as needs change. 2024: additional funds (\$20,000) are requested for a cover between sea cans to store sand, for sanding the road and area around the Goldstream Water Treatment Plant and the Field Operations Centre.  |                            |  |                             |  |

|   |                       |   |                             |   |
|---|-----------------------|---|-----------------------------|---|
| <b>Service:</b> 2.670 Regional Water Supply   |                       |   |                             |   |
| <b>Project Number</b> 24-06   | Capital Project Title | Post Wildfire Assessment Program                              | Capital Project Description | Acquiring access to existing software programs to model sediment and debris flows from burned areas.  |
| <b>Project Rationale</b> The amount and location of sediment and debris that would be generated from a large wildfire in the Sooke WSA has been modelled. New software is available that makes the existing modelling and results for the GVWSA more accessible, and compares results with post-wildfire events in the Pacific Northwest to help calibrate the results and make them more relevant to the GVWSA.  |                       |   |                             |   |
| <b>Project Number</b> 24-07   | Capital Project Title | Field Operations Centre - IT Infrastructure Upgrades          | Capital Project Description | The firewall, switches and telephony system are end of life and require replacement. The equipment will be transferred to the new building. |
| <b>Project Rationale</b> The firewall, switches and telephony system at the Field Operations Centre are at end of life and require replacement. The replaced equipment can be transferred to a new building when ready.   |                       |   |                             |   |
| <b>Project Number</b> 16-10   | Capital Project Title | Post Disaster Emergency Water Supply                          | Capital Project Description | Identify and procure emergency systems for post disaster preparedness.  |
| <b>Project Rationale</b> In the event of a disaster, it is proposed to have in place the ability to source, treat (if required) and distribute drinking water during the initial and sustained response and recovery phases to the public. This item will see the study of the issue in 2016 and 2017 with the anticipated purchase of one or more emergency distribution systems in 2017. Initial investigation has highlighted areas, such as having hardened hydrants/standpipes that the CRD should be investing in. Additional funds are required to continue implementing these additional works and equipment. |                       |   |                             |   |
| <b>Project Number</b> 17-13   | Capital Project Title | Asset Management Plan   | Capital Project Description | Development of a plan to inform future areas of study and highlight critical infrastructure improvements.                                   |
| <b>Project Rationale</b> This plan will bring various components together from items 14-01, 16-07, 16-08, 16-09, 16-10 and 16-11 and form a strategic plan that will identify future study and construction requirements with capital replacement budgets and schedules.  |                       |   |                             |   |
| <b>Project Number</b> 19-15   | Capital Project Title | Hydraulic Capacity Assessment and Transient Pressure Analysis | Capital Project Description | Determine the existing level-of-service for the RWSC transmission system and conduct a transient pressure analysis                          |
| <b>Project Rationale</b> The RWSC transmission is complex with all the connection points to it. Funding is required to determine the available pressures and flows throughout the transmission system and whether it is susceptible to transient pressure waves.  |                       |   |                             |   |

|                   |  |                            |                                      |                             |   |
|-------------------|--|----------------------------|--------------------------------------|-----------------------------|---|
| Service:          |  | 2.670Regional Water Supply |                                      |                             |   |
| Project Number    | 20-08  | Capital Project Title      | Regional Water DCC Program           | Capital Project Description | Design of a Regional DCC Program  |
| Project Rationale | The municipalities are developing and growing and may result in upgrades to maintain the level of service due to development. Funds are required to design a Regional Water Development Cost Charge program.   |                            |                                      |                             |   |
| Project Number    | 20-10  | Capital Project Title      | Condition & Vulnerability Assessment | Capital Project Description | Conduct a condition assessment of critical supply infrastructure and assess its possibility of risk.  |
| Project Rationale | The RWSC is a large system with infrastructure of various ages and condition. Funding is required to conduct a condition assessment of critical infrastructure, such as Humpback PRV, and assess their risk of failure and provide a high level timeline for replacement/renewal.  |                            |                                      |                             |   |
| Project Number    | 21-05  | Capital Project Title      | Level of Service Agreement           | Capital Project Description | From #19-15 & #20-11, develop level-of-service agreements for participating municipalities to address hydraulic capacity of infrastructure. |
| Project Rationale | The RWSC supplies water directly and indirectly to 12 municipalities. Based upon Capital Projects #19-15 and #20-11, level-of-service agreements for participating municipalities will be developed to address hydraulic capacity of infrastructure.   |                            |                                      |                             |   |
| Project Number    | 22-14  | Capital Project Title      | Sooke River Intake Feasibility       | Capital Project Description | A feasibility study for an intake from Sooke River to replace the Main No. 15 salmon fishery contribution, for a variety of reasons.        |
| Project Rationale | The feasibility to construct an intake from Sooke River to replace the Main No. 15 salmon fishery contribution.  |                            |                                      |                             |   |
| Project Number    | 23-12  | Capital Project Title      | Project Delivery Strategy            | Capital Project Description | Develop a strategy to deliver the identified projects from the 2022 RWS Master Plan.  |
| Project Rationale | Develop a strategy to deliver the identified projects from the 2022 RWS Master Plan. With over \$2 billion in planned spending over the next 30 years, including individual projects up to \$1 billion, a strategy is required on how to deliver the projects including project delivery models, assessment of consulting resources, contracting resources and internal staff resources. |                            |                                      |                             |   |

|  |   |                       |   |                             |
|--|---|-----------------------|---|-----------------------------|
| Service: 2.670 Regional Water Supply   |   |                       |   |                             |
| Project Number   | 23-13   | Capital Project Title | Filtration Plant Planning & Design                          | Capital Project Description |
| Conduct a siting, conceptual design and detailed design for a filtration plant   |   |                       |   |                             |
| Project Rationale  | Identified in the 2022 Master Plan, planning, design and future construction of a Filtration Plant is required. Initial steps will include confirming site requirements, overview of integration with other system components, review of current and future technologies and preliminary engineering studies such as geotechnical once a site is confirmed. |                       |   |                             |
| Project Number   | 23-14   | Capital Project Title | Council Creek Crossing Hydrology Review                     | Capital Project Description |
| Conduct a hydrology review of the Council Creek crossing of water mains to ensure pipe resilience during high rainfall events.                               |   |                       |   |                             |
| Project Rationale  | Council Creek runs through currently undersized culverts that need hydraulic assessment as well as hydrological confirmation of what flows they are expected to carry. If these culverts failed in an extreme storm event then supply mains may be affected negatively.   |                       |   |                             |
| Project Number   | 23-24   | Capital Project Title | East-West Connector (Filtration Plant to District of Sooke) | Capital Project Description |
| Planning and Conceptual Design of the East-West Supply Main from the proposed filtration plant to the District of Sooke (identified in the 2022 Master Plan) |   |                       |   |                             |
| Project Rationale  | Identified in the 2022 Master Plan, planning and conceptual design of an East- West Supply Main from the proposed filtration plant to the District of Sooke to maintain level of service and to account for growth.   |                       |   |                             |
| Project Number   | 23-25   | Capital Project Title | Deep Northern Intake and Sooke Lake Pump Station            | Capital Project Description |
| Planning and Design of the Deep Northern Intake and Sooke Lake Pump Station (identified in the 2022 Master Plan)   |   |                       |   |                             |
| Project Rationale  | Identified in the 2022 Master Plan, planning and design of the Deep Northern Intake and Sooke Lake Pump Station is required to provide water supply and transmission capability from currently inaccessible parts of Sooke Lake into the water supply and treatment systems.  |                       |   |                             |
| Project Number   | 23-26   | Capital Project Title | Transmission Main - Sooke Lake Pump Station to Head Tank    | Capital Project Description |
| Planning and Design of the Transmission Main from the Sooke Lake Pump Station to Head Tank (identified in the 2022 Master Plan)                              |   |                       |   |                             |
| Project Rationale  | Identified in the 2022 Master Plan, planning and design of a pumped transmission main from the future Sooke Lake Pump Station to the existing Head Tank.  |                       |   |                             |

|                          |  |                              |   |                                    |   |
|--------------------------|--|------------------------------|---|------------------------------------|---|
| <b>Service:</b> 2.670    |  | Regional Water Supply        |   |                                    |   |
| <b>Project Number</b>    | 23-27  | <b>Capital Project Title</b> | Gravity Main - Sooke Lake to Head Tank  | <b>Capital Project Description</b> | Planning and Design of a Gravity Transmission Main (redundancy) from Sooke Lake to Head Tank (identified in the 2022 Master Plan) |
| <b>Project Rationale</b> | Identified in the 2022 Master Plan, planning and design of a gravity transmission main from Sooke Lake to the Head Tank to provide redundant water supply to the system.   |                              |   |                                    |   |
| <b>Project Number</b>    | 23-28  | <b>Capital Project Title</b> | Goldstream Reservoir Connector  | <b>Capital Project Description</b> | Planning and Design of the Goldstream Reservoir Connector transmission main   |
| <b>Project Rationale</b> | Identified in the 2022 Master Plan, planning and design of a transmission main to connect the Goldstream Reservoir to the Sooke system to ensure transmission safety and reliability when using the Goldstream system to supplement flows to the Sooke system.   |                              |   |                                    |   |
| <b>Project Number</b>    | 24-08  | <b>Capital Project Title</b> | Seismic and Flood Vulnerability Assessment of Supply Main 10 and 11 Spillway Crossing | <b>Capital Project Description</b> | Engineering Seismic Assessment of the spanned crossing of of Supply Main No 10 and 11 over the Sooke Lake Spillway channel        |
| <b>Project Rationale</b> |  |                              |   |                                    |   |
| <b>Project Number</b>    | 24-09  | <b>Capital Project Title</b> | Aggricultural Water Rate Review   | <b>Capital Project Description</b> | Phase 2   |
| <b>Project Rationale</b> | Identified in the 2022 Master Plan, planning and design of a transmission main to connect the Goldstream Reservoir to the Sooke system to ensure transmission safety and reliability when using the Goldstream system to supplement flows to the Sooke system.   |                              |   |                                    |   |
| <b>Project Number</b>    | 18-07  | <b>Capital Project Title</b> | Replacement of UV System  | <b>Capital Project Description</b> | Replacement of the UV system at the Goldstream Water Treatment Plant  |
| <b>Project Rationale</b> | The UV trains and associated electrical equipment at Goldstream Water Treatment Plant require upgrade and replacement.   |                              |   |                                    |   |
| <b>Project Number</b>    | 18-08  | <b>Capital Project Title</b> | Bulk Supply Meter Replacement Program   | <b>Capital Project Description</b> | Planned replacement of aging bulk meter replacement based upon a condition assessment and water audit.                            |
| <b>Project Rationale</b> | This item is to replace, upgrade and install new bulk water meters and related equipment that measure flow and volumes of water delivered to the wholesale customers. Many of the meter stations are in need of upgrading. Funding is required to replace the flow meter and appurtenances. Funding is required for Blue Ridge, Alderly, Holland and Maplewood replacements. Somerset Valve Chamber replacement will also be completed under this project which is also tied to backflow prevention. |                              |   |                                    |   |

|                   |   |                            |   |                             |   |
|-------------------|---|----------------------------|---|-----------------------------|---|
| Service:          |   | 2.670Regional Water Supply |   |                             |   |
| Project Number    | 18-15   | Capital Project Title      | Corrosion Protection Program                            | Capital Project Description | Study deficiencies in the current material protection and implement recommendations.  |
| Project Rationale | This item is to assess, design and implement cathodic protection for the various infrastructure, including steel pipes, that are susceptible to corrosion. The supply system has various implementations of cathodic protection ranging from interior/exterior coatings for pipe and passive anodes to impressed current systems with variable results and condition. Funding is required to retain a specialist to conduct a high level assessment of existing infrastructure with recommendations for additional investigation or areas that require immediate attention. |                            |   |                             |   |
| Project Number    | 18-18   | Capital Project Title      | Main No.3 Segment Replacement                           | Capital Project Description | Replacement of segments of Main No. 3 based upon previous studies.  |
| Project Rationale | The existing Main No. 3 is approximately 70 years old. Some section of the 22 km main are steel pipe in known potentially corrosive soils. It is proposed to eventually replace a segment of Main #3 on Wale Road, Island Hwy. and Adams Place in Colwood and View Royal. Conceptual design and options analysis will start in 2023 with detailed design and construction commencing in 2024 to 2027. Funding is required to retain a consultant to undertake design and to construct a replacement to Main No. 3.  |                            |   |                             |   |
| Project Number    | 19-05   | Capital Project Title      | Repairs - Kapoor Shutdown                               | Capital Project Description | Repair items such as defects in the Kapoor tunnel, replacement of critical valves, intake exterior inspection and actuator replacement while the Kapoor tunnel is shutdown. |
| Project Rationale | During the 2016 Kapoor Tunnel inspection numerous deficiencies were noted. Some of the repairs were made and inspected in 2017. Funds are required to complete remaining identified repairs as well as conduct other works, such as head tank valve maintenance, dive inspection of the Intake Tower, hydraulic actuator line replacement, that can only be conducted when the Kapoor Tunnel is offline.  |                            |   |                             |   |
| Project Number    | 19-23   | Capital Project Title      | Critical Spare Equipment Storage & Pipe Yard            | Capital Project Description | Plan, design and construct a critical equipment storage building.   |
| Project Rationale | Additional and accessible storage is required at the pipe yard for critical spare equipment such as repair bands and clamps. Funds are required to plan, design and construct an equipment storage building accessible by loading vehicles.   |                            |   |                             |   |
| Project Number    | 20-16   | Capital Project Title      | Cecelia Meter Replacement                               | Capital Project Description | Replacement of the Cecelia billing meter as well as its enclosure.  |
| Project Rationale | The St Giles and Cecelia meters are aging and in hard to maintain locations. Funding is required to construct new meter sites and decommission and demolition the old sites.  |                            |   |                             |   |
| Project Number    | 20-17   | Capital Project Title      | Decommission & Conceptual Design of the Smith Hill Site | Capital Project Description | Plan for decommission the conceptual design for the replacement of the Smith Hill reservoir site.   |
| Project Rationale | The Smith Hill reservoir has not been in operation for many years. Funds are required to plan for decommission the site in 2020 and then carry out decommissioning in 2023.   |                            |   |                             |   |

## APPENDIX A

|                   |   |                            |  |                             |   |
|-------------------|---|----------------------------|--|-----------------------------|---|
| Service:          |   | 2.670Regional Water Supply |  |                             |   |
| Project Number    | 21-06   | Capital Project Title      | Sooke Lake Dam Spillway Hoist and Stop Log Replacement | Capital Project Description | Replacement of the sluice gate spillway hoist and stop logs at Sooke Lake Dam.  |
| Project Rationale | The Sooke Lake Dam Spillway Hoist is  |                            |  |                             |   |
| Project Number    | 21-09   | Capital Project Title      | Goldstream Water Chlorination Gas System Removal       | Capital Project Description | Plan and construct provisions for removal of chlorination system  |
| Project Rationale | The Goldstream Water Treatment Plant has undergone numerous upgrades and updates, both large and small since its initial construction. There are numerous vestigial mechanical and electrical assets that require planned removal. Funds are required to plan and remove unused assets that affect maintenance of the system.   |                            |  |                             |   |
| Project Number    | 21-10   | Capital Project Title      | SCADA Masterplan and System Upgrades                   | Capital Project Description | Update the SCADA Master Plan in conjunction with the Juan de Fuca Water Distribution, Saanich Peninsula Water and Wastewater, and Core Area Wastewater Services.  |
| Project Rationale | The SCADA and radio system utilized by the RWS comprises of components ranging from 2-25 years in age. A planned replacement of assets, to be coordinated with the Juan de Fuca Water Distribution and Saanich Peninsula Water & Wastewater Systems is required to create a more resilient and cohesive communications system   |                            |  |                             |   |
| Project Number    | 21-11   | Capital Project Title      | RWS Supply Main No. 4 Upgrade                          | Capital Project Description | Upgrade vulnerable sections of the RWS Supply Main No. 4 and Main No. 1 to a resilient system to better able to withstand a seismic event. Vulnerable sections are Concrete Cylinder pipe material which is susceptible to failure during a seismic event. This is part of project partnered with the Saanich Peninsula Water system. |
| Project Rationale | Sections of RWS Supply Main No. 4 have been identified as being vulnerable due to age and material type during a seismic event and require replacement. To support replacement of the Goldstream section of Main No. 4, improvements to RWS Supply Main No. 1 are required, such as replacement of approximately 40 m of transmission Main #1 at Watkiss Way and upgrade of the Watkiss PRV, upgrade of the Millstream PRV, modifications to the Humpback PRV and construction of five new pressure control stations. This project is part of a project partnered with the Saanich Peninsula Water System to increase the resilience of the water system by replacing vulnerable sections of transmission mains.The budget breakdown of the works: Goldstream section of Main #4 \$21,975,000; Watkiss Way section of Main #1 \$950,000; Watkiss PRV \$1,250,000; Millstream PRV \$1,350,000; Humpback PRV improvements \$825,000; Five new PRVs \$9,050,000. |                            |  |                             |   |
| Project Number    | 22-15   | Capital Project Title      | Microwave Radio Upgrades                               | Capital Project Description | To provide a high bandwidth communications backbone to the RWS system, a microwave communications system will be installed.   |
| Project Rationale | To provide a high bandwidth communications backbone to the RWS system, a microwave communications system will be installed. Supports current and future fire detection cameras.   |                            |  |                             |   |

|                                      |  |                       |  |                             |   |

| Project Number                       | 22-16  | Capital Project Title | Goldstream WTP Drainage Improvements     | Capital Project Description | Construct drainage improvements for the Goldstream Water Treatment Plant and assess   |
| Project Rationale                    | The Goldstream Water Treatment Plant is located near the Goldstream waterway, drainage improvements are required so that the Goldstream waterway is not impacted if there were to be a chlorine or ammonia spill.  |                       |  |                             |   |
| Project Number                       | 22-17  | Capital Project Title | Goldstream WTP Safety Improvements       | Capital Project Description | Construct employee and public safety improvements such as a trail notification system if there was an ammonia spill.  |
| Project Rationale                    | The Goldstream Water Treatment Plant is located near a public trail, safety improvements such as a notification system are required. Funds will be for design and construction.  |                       |  |                             |   |
| Project Number                       | 23-16  | Capital Project Title | Humpback Channel Assessment and Upgrades | Capital Project Description | Hydraulically assess the Humpback Overflow channel and conduct a condition assessment of the culverts at the Gatehouse.   |
| Project Rationale                    | Hydraulically assess the Humpback Overflow channel and conduct a condition assessment of the culverts at the Gatehouse.  |                       |  |                             |   |
| Project Number                       | 23-17  | Capital Project Title | Main No. 4 - Mt Newton to Highway 17     | Capital Project Description | Replacement of a approximately 1.9km of the Main No. 4 concrete pipe from Mt Newton and Central Saanich Road south to where it crosses Highway 17. A Strategic Priorities Fund grant has been applied to fund a portion of the works. |
| Project Rationale                    | Replacement of a approximately 1.9km of the Main No. 4 concrete pipe from Mt Newton and Central Saanich Road south to where it crosses Highway 17. A Strategic Priorities Fund grant has been applied to fund a portion of the works. Replacement of this pipe is required to improve the seismic resilience of the supply main. |                       |  |                             |   |
| Project Number                       | 25-03  | Capital Project Title | Transmission Main Upgrade Program        | Capital Project Description | Identify, conceptually design, detail design and construct transmission main upgrades.  |
| Project Rationale                    | Transmission mains that are nearing end of life due to long service require condition assessments and then design and construction of replacement mains where needed. This will be the start of an ongoing replacement program as transmission mains near end of life.   |                       |  |                             |   |
| Project Number                       | 23-29  | Capital Project Title | Mt. Tolmie Control Valve Replacement     | Capital Project Description | Supply and installation of the Mt. Tolmie Reservoir Control Valve   |
| Project Rationale                    | The Mt. Tolmie Reservoir Control Valve chamber improvements  |                       |  |                             |   |

|                          |  |                              |   |                                    |  |

| <b>Service:</b> 2.670    |  | Regional Water Supply        |   |                                    |  |
| <b>Project Number</b>    | 24-10  | <b>Capital Project Title</b> | Sooke River Road WTP UPS Replacement                | <b>Capital Project Description</b> | UPS at Sooke River Road WTP is 21 years old and in need of replacement.  |
| <b>Project Rationale</b> | Sooke River Road WTP UPS has been identified in need of prioritized replacement prior to failure.  |                              |   |                                    |  |
| <b>Project Number</b>    | 24-11  | <b>Capital Project Title</b> | IT Core Infrastructure Replacement                  | <b>Capital Project Description</b> | Replacement of Core IT infrastructure such as servers, network switches, UPS, etc for equipment end of life. Includes IT equipment located at tower sites within the RWS system. |
| <b>Project Rationale</b> | Replacement of Core IT infrastructure such as servers, network switches, UPS, etc for equipment end of life. Includes IT equipment located at tower sites within the RWS system.   |                              |   |                                    |  |
| <b>Project Number</b>    | 24-12  | <b>Capital Project Title</b> | Head Tank Valve Replacement                         | <b>Capital Project Description</b> | Supply and installation of Head Tank valves and actuators.   |
| <b>Project Rationale</b> | Supply and installation of Head Tank valves and actuators.   |                              |   |                                    |  |
| <b>Project Number</b>    | 16-16  | <b>Capital Project Title</b> | Implications from Goldstream Dam Safety Review      | <b>Capital Project Description</b> | Conduct dam improvements at the Goldstream dams that resulted for the Dam Safety Review and routine inspections (refer to the Dam Safety Database).                              |
| <b>Project Rationale</b> | The Goldstream Dams Dam Safety Review was initiated in 2015 and delivered in 2016 and the review provided recommendations for dam safety improvements for the 11 dams in the Goldstream Watershed. The dam deficiencies and related projects are identified in the Dam Safety Database.  |                              |   |                                    |  |
| <b>Project Number</b>    | 16-17  | <b>Capital Project Title</b> | #N/A  | <b>Capital Project Description</b> | #N/A   |
| <b>Project Rationale</b> | Butchart Dam #5 was observed to have a sinkhole on the downstream slope. The earthfill dam was founded on limestone in the about 1905 and seepage issues have occurred since that time. A geotechnical investigation was conducted in 2016, and remediation has been recommended by geotechnical consultant. It is proposed to complete detailed design of remediation in 2018 and construction of repairs in 2019. Phase 1 of the revised program is complete and the dam is now in the monitoring stage. |                              |   |                                    |  |
| <b>Project Number</b>    | 17-25  | <b>Capital Project Title</b> | Implications from 2016 Sooke Lake Dam Safety Review | <b>Capital Project Description</b> | Conduct dam improvements at the Sookel Lake Dam that resulted from the 2016 Dam Safety Review and routine inspections (refer to the Dam Safety Database)                         |
| <b>Project Rationale</b> | The 2016 Dam Safety Review Audit was completed and provided a list of recommended improvements. Upcoming capital work to be completed is identified in the dam safety database.  |                              |   |                                    |  |

|                          |  |                              |  |  |

| <b>Service:</b> 2.670    |  | Regional Water Supply        |  |  |
| <b>Project Number</b>    | 18-19  | <b>Capital Project Title</b> | Sooke Lake Dam - Instrumentation System Improvements | <b>Capital Project Description</b><br>Complete dam performance instrumentation system/surveillance improvements for the Sooke Lake Dam.  |
| <b>Project Rationale</b> | The 2016 Dam Safety Review identified and recommended various dam safety surveillance instrumentation improvements including piezometers, weirs, seismometers, etc. An Instrumentation system plan was completed and includes a prioritized list of improvement projects.                  |                              |  |  |
| <b>Project Number</b>    | 18-20  | <b>Capital Project Title</b> | Sooke Lake Dam - Breach Risk Reduction Measures      | <b>Capital Project Description</b><br>Implement measures to reduce Sooke Lake Dam breach implications in the unlikely event of dam failure (refer to the NHC Consulting study).                    |
| <b>Project Rationale</b> | A Dam Breach Assessment and Inundation Zone Mapping project was completed in 2017 by an engineering consultant and risk mitigation measures included structural and non-structural measures to lower risk should a dam breach occur. The measures are captured in the Dam Safety Database. |                              |  |  |
| <b>Project Number</b>    | 19-07  | <b>Capital Project Title</b> | Integrate Dam Performance and Hydromet to SCADA      | <b>Capital Project Description</b><br>Integrate the dam safety instrumentation/surveillance (i.e. piezometers and weirs) and HydroMet stations to report to WIO through the existing SCADA system. |
| <b>Project Rationale</b> | Based on capital project 18-19, dam performance piezometers and weirs and Hydromet/Dam Safety Instrumentation stations will be integrated through the SCADA system.  |                              |  |  |
| <b>Project Number</b>    | 19-09  | <b>Capital Project Title</b> | Cabin Pond Dams Decommissioning (PES)                | <b>Capital Project Description</b><br>The Cabin Pond Dams (x2) have been retired from drinking water service, plan to decommission.  |
| <b>Project Rationale</b> | The two Cabin Pond Dams have been retired from drinking water service with no other interested owners. Funds are required to plan and implement decommissioning of the dams.   |                              |  |  |
| <b>Project Number</b>    | 19-12  | <b>Capital Project Title</b> | Goldstream Dams Instrumentation Improvements         | <b>Capital Project Description</b><br>Conduct dam safety instrumentation/surveillance improvements (refer to report from Thurber Engineering).   |
| <b>Project Rationale</b> | Thurber completed a study on the Goldstream Dam instrumentation and found numerous deficiencies with respect to dam safety. Funds are required to design and implement improvements to the Goldstream Dam instrumentation.   |                              |  |  |

|                          |   |                              |  |   |
|--------------------------|---|------------------------------|--|---|
| <b>Service:</b> 2.670    |   | Regional Water Supply        |  |   |
| <b>Project Number</b>    | 19-13   | <b>Capital Project Title</b> | Dam Safety Instrumentation                             | <b>Capital Project Description</b><br>The existing dam safety instrumentation/surveillance equipment is getting older and will need to be replaced/rehabilitated (does not include pending SCADA effort). |
| <b>Project Rationale</b> | Aging Hydromet/Dam Safety Instrumentation stations maintained by Infrastructure Engineering require replacement so that ongoing monitoring within the watersheds can be maintained. Funds are required for upgrades and replacement of existing Hydromet Stations.  |                              |  |   |
| <b>Project Number</b>    | 20-19   | <b>Capital Project Title</b> | Goldstream System High Level Outlet Valve Replacements | <b>Capital Project Description</b><br>The Goldstream and Butchart high level outlet valves have been identified as requiring replacement.   |
| <b>Project Rationale</b> | Through dam safety inspections and routine operations, the Goldstream and Butchart high level outlet valves have been identified as requiring replacement. Funds are required to design and replace the valves.   |                              |  |   |
| <b>Project Number</b>    | 21-03   | <b>Capital Project Title</b> | Deception Dam - Dam Safety Review 2021 & Improvements  | <b>Capital Project Description</b><br>Conduct a Dam Safety Review and improvements for the Deception Dam.   |
| <b>Project Rationale</b> | Deception Dam has a consequence classification of "very high" and a dam safety review is required to be completed every ten years under the current B.C. Dam Safety Regulation. The last dam safety review was completed in 2011. The dam safety review is anticipated to be an "audit-style" assessment of the physical condition of the dam, operations, maintenance, surveillance, identification of dam safety deficiencies and recommendations for dam safety improvements. Project includes budget for subsequent year to complete recommended dam safety improvements. |                              |  |   |
| <b>Project Number</b>    | 21-04   | <b>Capital Project Title</b> | Saddle Dam - Dam Safety Review 2021 & Improvements     | <b>Capital Project Description</b><br>Conduct a Dam Safety Review and improvements for the Saddle Dam.  |
| <b>Project Rationale</b> | Saddle Dam has a consequence classification of "very high" and a dam safety review is required to be completed every ten years under the current B.C. Dam Safety Regulation. The last dam safety review was completed in 2011. The dam safety review is anticipated to be an "audit-style" assessment of the physical condition of the dam, operations, maintenance, surveillance, identification of dam safety deficiencies and recommendations for dam safety improvements. Project includes budget for subsequent year to complete recommended dam safety improvements.    |                              |  |   |
| <b>Project Number</b>    | 21-21   | <b>Capital Project Title</b> | Goldstream Dams - 4 Low Level Gate Improvements        | <b>Capital Project Description</b><br>Logistics planning in 2022, installation in 2023  |
| <b>Project Rationale</b> | Several of the water control gates related to the Goldstream dams are in need of repair and possibly replacement.   |                              |  |   |
| <b>Project Number</b>    | 22-08   | <b>Capital Project Title</b> | Deception Dam Surveillance Improvements                | <b>Capital Project Description</b><br>Replace and supplement the Dam Safety Instrumentation at Deception Dam.   |
| <b>Project Rationale</b> | The latest engineering data review identified deficiencies with the existing piezometers and seepage weir. It is proposed to prepare a system improvement plan and thereafter complete repairs, improvmetn and install supplementary dam performance instrumentation.   |                              |  |   |

|   |   |                              |  |   |
|---|---|------------------------------|--|---|

| <b>Project Number</b>                       | 23-07   | <b>Capital Project Title</b> | Sooke Lake Dam Spillway and Gates Retrofit         | <b>Capital Project Description</b><br>Detailed design for seismic retrofits for the existing structures initially focusing on the spillway and gates structures. Construction to be budgetted subsequently. |
| <b>Project Rationale</b>                    | The siesmic assessment completed in 2017 included recommendations for siesmic retrofits for Sooke Lake Dam including siesmic anchoring of the spillway, gate structure and the intake tower bridge.   |                              |  |   |
| <b>Project Number</b>                       | 23-08   | <b>Capital Project Title</b> | Regional Watershed Dams – Flood Forecasting System | <b>Capital Project Description</b><br>Update the existing flood forecasting system (WD4Cast) to a modern version including Standard Operating Procedures and training for staff.                            |
| <b>Project Rationale</b>                    | The 2016 Dam Safety Review included a recommendation to improve the flood forecasting system, which is becoming more important with Climate Change. This item will update the existing flood forecasting system from WD4Cast to a modern version including Standard Operating Procedures and training for staff.  |                              |  |   |
| <b>Project Number</b>                       | 23-09   | <b>Capital Project Title</b> | Sooke Lake Dam - Dam Safety Review 2023            | <b>Capital Project Description</b><br>Conduct a Dam Safety Review to meet regulatory requirement.   |
| <b>Project Rationale</b>                    | Sooke Lake Dam has a consequence classification of "extreme" and a dam safety review is required to be completed every seven years under the current B.C. Dam Safety Regulation. The last dam safety review was completed in 2016. The dam safety review is anticipated to be an "audit-style" assessment of the physical condition of the dam, operations, maintenance, surveillance, identification of dam safety deficiencies and recommendations for dam safety improvements. Project includes budget for subsequent years to complete recommended dam safety improvements. |                              |  |   |
| <b>Project Number</b>                       | 23-18   | <b>Capital Project Title</b> | Sooke Lake Dam Spillway Channel Improvements       | <b>Capital Project Description</b><br>Construct bank protection for the Sooke Spillway Channel and clear the seepage weir blockage.   |
| <b>Project Rationale</b>                    | The Sooke Lake Dam spillway channel requires upgrading to prevent erosion when the sluice gates are fully open. Concurrently, the seepage weir blockage will be removed.  |                              |  |   |
| <b>Project Number</b>                       | 23-19   | <b>Capital Project Title</b> | Charters Dam - Implications from Dam Safety Review | <b>Capital Project Description</b><br>Carry out recommendations from the 2022 Dam Safety Review for Charters Dam  |
| <b>Project Rationale</b>                    | The Dam Safety Review for Charters Dam was completed in 2022. Funding is required to carry out recommendations from the review.   |                              |  |   |

|                   |  |                            |   |                             |   |

| Project Number    | 25-01  | Capital Project Title      | Goldstream Dam - Dam Safety Review 2025 & Addressing Implications | Capital Project Description | Conduct a Dam Safety Review to meet regulatory requirement.                                       |
| Project Rationale | The Goldstream Watershed Dams have a consequence classification of "low" to "high" and a dam safety review is required to be completed every ten years under the current B.C. Dam Safety Regulation. The last dam safety review was completed in 2015. The dam safety review is anticipated to be and "audit-style" assessment of the physical condition of the dam, operations, maintenance, surveillance, identification of dam safety deficiencies and recommendations for dam safety improvements. Project includes budget for subsequent years to complete recommended dam safety improvements. |                            |   |                             |   |
| Project Number    | 25-02  | Capital Project Title      | Probable Maximum Flood and Inflow Design Flood Updates            | Capital Project Description | Update the previous edition from 2015 (recommended 10 year review cycle).                         |
| Project Rationale | The various Dam Safety Reviews and Canadian Dam Safety Guideline recommend updating the reservoir inflow design flood and freeboard analysis every ten years.  |                            |   |                             |   |
| Project Number    | 25-06  | Capital Project Title      | Goldstream Dam Spillway Replacement                               | Capital Project Description | Replacement of Goldstream Dam Spillway due to deteriorated condition.                             |
| Project Rationale | Goldstream Dam Spillway replacement.   |                            |   |                             |   |
| Project Number    | 24-13  | Capital Project Title      | Reservoir Log Boom Upgrade Program                                | Capital Project Description | Review, analysis and upgrades to log booms, prioritizing Sooke Lake Reservoir.                    |
| Project Rationale | Sooke Lake Reservoir currently contains two log booms. The upstream saddle dam log boom is flaking plastics and has been identified for replacement. Hydrotechnical assessment of the log boom requirements on this reservoir and upgrades to follow this assessment.  |                            |   |                             |   |
| Project Number    | 20-04  | Capital Project Title      | Sooke Lake HyDy Model Development                                 | Capital Project Description | Critical data collection, model building+calibration, model utilization for 3 different scenarios |
| Project Rationale | This project consists of the following different phases: 2020/2021 Procurement/Rental of monitoring equipment to fill critical data gaps; 2022 Consulting contract to build the hydrodynamic lake model and calibrate it against existing data; 2022 Consulting contract to run the model for a North Basin intake scenario; 2023 Consulting Contract to run the model for investigating impacts of a diversion of Leech River water into Sooke Lake; 2024 Consulting Contract for investigating impacts of wind induced seiches in Sooke Lake.  |                            |   |                             |   |

|                          |  |                              |   |   |
|--------------------------|--|------------------------------|---|---|
| <b>Service:</b> 2.670    |  | Regional Water Supply        |   |   |
| <b>Project Number</b>    | 22-06  | <b>Capital Project Title</b> | Sooke Lake Food Web Study   | <b>Capital Project Description</b><br>Assess the aquatic food web structure and create an inventory of fish and invertebrate species and distribution in Sooke Lake Reservoir - to be used as indicators of stream health |
| <b>Project Rationale</b> | CRD has been using predominantly algal data as an indicator for stream health and condition assessment in the source waters. To gain a better understanding of the source water conditions and how they may change over time it is necessary to expand this indicator system for other trophic levels in the food web. Sooke Lake Reservoir is of particular interest as the primary and critical water source for the GVDWS and therefore a aquatic food web study will be commissioned on this lake. |                              |   |   |
| <b>Project Number</b>    | 23-06  | <b>Capital Project Title</b> | GVDWS Nitrification Study   | <b>Capital Project Description</b><br>Investigate nitrification occurrence and potential impacts on drinking water quality  |
| <b>Project Rationale</b> | With the operation of the upgraded Goldstream disinfection process (liquid NH3 and hypo) the volatility of the residual products and potential for nitrification in the distribution systems needs to be studied to assess any potential impacts to the drinking water quality.  |                              |   |   |
| <b>Project Number</b>    | 24-02  | <b>Capital Project Title</b> | Boat Motor Replacement with Electric Outboards (Sooke and Goldstream Boats) | <b>Capital Project Description</b><br>50hp and 15hp motor replacement due to age and water quality concerns, large electric outboards are already available from Torqeedo for instance                                    |
| <b>Project Rationale</b> | When the existing boat motors are due for replacement they shall be replaced with electric outboard motors to reduce emmissions and to provide clean propulsion of CRD boats on the drinking water source lakes. This will reduce the risk of fuels spills and eliminate combustion exhausts entering the water.   |                              |   |   |
| <b>Project Number</b>    | 24-04  | <b>Capital Project Title</b> | Sooke Lake Drawdown Study   | <b>Capital Project Description</b><br>Investigate drawdown effects on Sooke Lake water quality and ecosystem impacts with max drawdown and determine a safe max drawdown level for SOL.                                   |
| <b>Project Rationale</b> | Investigate drawdown effects on Sooke Lake water quality and ecosystem impacts with max drawdown and determine a safe max drawdown level for SOL.  |                              |   |   |
| <b>Project Number</b>    | 25-04  | <b>Capital Project Title</b> | 4 x multi-parameter field analyzers (SL1000)                                | <b>Capital Project Description</b><br>Replace 4 multi-parameter (total/free/mono/ammonia) field analyzers   |
| <b>Project Rationale</b> | Replace 4 multi-parameter (total/free/mono/ammonia) field analyzers  |                              |   |   |

|                   |  |                            |   |                             |   |

| Project Number    | 26-01  | Capital Project Title      | 2 x Floating Water Quality Sensor Platforms | Capital Project Description | To support and confirm water quality data in SOL for Deep Norther Intake, install 2 floating sensor platforms |
| Project Rationale | To support and confirm water quality data in SOL for Deep Norther Intake, install 2 floating sensor platforms  |                            |   |                             |   |
| Project Number    | 27-01  | Capital Project Title      | Drinking Water Safety Plan Update           | Capital Project Description | Review and update existing DWSP spreadsheet and risk registry. Consider planned system expansions/upgrades.   |
| Project Rationale | Review and update existing DWSP spreadsheet and risk registry. Consider planned system expansions/upgrades.  |                            |   |                             |   |
| Project Number    | 24-14  | Capital Project Title      | Laboratory Equipment Replacements           | Capital Project Description | Replacement of critical laboratory equipment.   |
| Project Rationale | Replacement of critical laboratory equipment.  |                            |   |                             |   |
| Project Number    | 24-15  | Capital Project Title      | Laboratory Renovations                      | Capital Project Description | Renovation for main lab cabinetry, floor, aquatic ecology lab and prep room.                                  |
| Project Rationale | Renovation for main lab cabinetry, floor, aquatic ecology lab and prep room.   |                            |   |                             |   |
| Project Number    | 24-16  | Capital Project Title      | WQ Field Office IT Upgrades                 | Capital Project Description | The firewall, switches and telephony system are end of life and require replacement.                          |
| Project Rationale | The firewall, switches and telephony system are end of life and require replacement.   |                            |   |                             |   |
| Project Number    | 17-27  | Capital Project Title      | Watershed Bridge and Culvert Replacement    | Capital Project Description | Replacement of small culverts and bridges throughout the GVWSA.   |
| Project Rationale | This provides annual funding for the replacement of culverts and bridges that have reached end of life and/or are undersized given present knowledge of potential peak water flows and anticipated climate change effects. With the completion of peak flow modelling of all major structures in the Sooke and Goldstream WSAs in 2017, additional funds are required beginning in 2018 to upgrade identified structures to current standards. Costs of upgrades have increased significantly in the last 5 years. |                            |   |                             |   |

|                                      |   |                       |   |                             |  |
|--------------------------------------|---|-----------------------|---|-----------------------------|--|
| Service: 2.670 Regional Water Supply |   |                       |   |                             |  |
| Project Number                       | 17-28   | Capital Project Title | Watershed Security Infrastructure Upgrade and Replacement | Capital Project Description | New, upgrade and replacement of security infrastructure in the GVWSA.                  |
| Project Rationale                    | The outer boundary of the Leech, Sooke and Goldstream Water Supply Areas is approximately 119 kilometers in length. Main access roads are gated and there are 11 kilometers of existing security fencing. A constant effort is needed to maintain a Closed Watershed Policy. Through monitoring, high incident areas are identified, security plans are developed, and security infrastructure (fencing, gates and signage) is installed or upgraded where required. The uplift in provisional funding requested in 2017 has been reduced given full integration of the Weeks Lake area within the GVWSA, completion of fencing and gates related to the Sooke Hills Wilderness Trail and with separate capital projects for autogates. |                       |   |                             |  |
| Project Number                       | 17-29   | Capital Project Title | Water Supply Area Equipment Replacement                   | Capital Project Description | Hydrometeorological, fireweather and wildfire suppression equipment replacement.       |
| Project Rationale                    | This provides annual funding for the replacement or upgrading of equipment for wildfire suppression and spill response, fire weather stations, hydro-meteorological monitoring and water quality sampling and monitoring equipment. Given an expansion of the hydrology and meteorology network of stations and sensors, an additional \$50,000 per year is added in 2020 and going forward. In 2021 and going forward, funding is reduced by \$20,000 as water quality equipment will be funded under a separate line item (21-17). A revised level of funding is requested beginning in 2023 that reflects forecasted needs.  |                       |   |                             |  |
| Project Number                       | 17-30   | Capital Project Title | Transmission Main Repairs                                 | Capital Project Description | Emergency repairs to the transmission mains.   |
| Project Rationale                    | Each year a visual inspection of this critical supply tunnel is carried out by CRD staff. This capital item allows for minor repairs that are discovered during these inspections. This also allows for annual funding for repair of emergency breaks on large diameter supply mains.   |                       |   |                             |  |
| Project Number                       | 17-31   | Capital Project Title | Transmission System Components Replacement                | Capital Project Description | Replacement and repair of transmission components.                                     |
| Project Rationale                    | This is an annual allowance for the capital costs for the replacement and repair of supply system components that fail under normal operation and maintenance during the year.  |                       |   |                             |  |
| Project Number                       | 17-33   | Capital Project Title | Disinfection Equipment Parts Replacement                  | Capital Project Description | Replacement of incidental equipment and parts associated with the disinfection system. |
| Project Rationale                    | The annual work includes the replacement of the plastic gas feed piping that has become very brittle, installing air valves on the ammonia solution lines, installing and replacing shut off valves on the booster pumps supply piping, installing indicator stems on UV cooling water valves, relocating the UV cooling water feed pipes, improving the landscaping around the UV building to reduce dust and other minor upgrades.  |                       |   |                             |  |
| Project Number                       | 17-34   | Capital Project Title | Supply System Computer Model Update                       | Capital Project Description | Annual update of the regional hydraulic model.   |
| Project Rationale                    | This item is to allow for staff and consultant time each year to keep the hydraulic computer model current.   |                       |   |                             |  |

|                          |   |                       |                                       |                             |  |
|--------------------------|---|-----------------------|---------------------------------------|-----------------------------|--|
| <b>Service:</b> 2.670    |   | Regional Water Supply |                                       |                             |  |
| <b>Project Number</b>    | 19-16   | Capital Project Title | Dam Improvements                      | Capital Project Description | Items not covered by Dam Safety Reviews, but brought up in Dam Safety Inspections and Dam Safety Reviews and address item in the dam safety database/risk registry |
| <b>Project Rationale</b> | Dam Safety Inspections are carried out throughout the year and result in minor improvements at each dam annually. These improvements are minor in nature and are typically not covered in the Dam Safety Review. Funds are required to carry out the dam safety improvements resulting from Dam Safety Inspections. |                       |                                       |                             |  |
| <b>Project Number</b>    | 19-22   | Capital Project Title | SCADA Repairs & Equipment Replacement | Capital Project Description | Items not covered by the SCADA Replacement and SCADA Master Plan, but integral in maintaining the SCADA System and revenue meter system.                           |
| <b>Project Rationale</b> | This item is to allow for unplanned SCADA repairs and equipment replacement not covered by the capital projects SCADA Replacement.  |                       |                                       |                             |  |
| <b>Project Number</b>    | 21-15   | Capital Project Title | Corrosion Protection                  | Capital Project Description | Replace corrosion protection assets, such as coatings, for the transmission system when identified.  |
| <b>Project Rationale</b> | There are numerous assets with varying levels of corrosion protection throughout the RWS system. Funds are required to ensure that corrosion protection assets are replaced or rehabilitated when identified.   |                       |                                       |                             |  |
| <b>Project Number</b>    | 21-16   | Capital Project Title | Valve Chamber Upgrades                | Capital Project Description | Replace failing valves and appurtenances along the RWS supply system.  |
| <b>Project Rationale</b> | The RWS system has numerous isolation and air valves along the transmission system, usually in underground chambers. Funds are required for replacement of valves and chamber upgrades as they are identified.  |                       |                                       |                             |  |
| <b>Project Number</b>    | 21-17   | Capital Project Title | Water Quality Equipment Replacement   | Capital Project Description | Replacement of water quality equipment for the   |
| <b>Project Rationale</b> | This provides annual funding for the replacement or upgrading of equipment for the water quality lab, sampling, and operations. Of this provisional budget, \$20,000 was previously included in item 17-29 (Water Supply Area annual provisional budget)  |                       |                                       |                             |  |
| <b>Project Number</b>    | 21-18   | Capital Project Title | LIMS support                          | Capital Project Description | Support for LIMS database  |
| <b>Project Rationale</b> | Provides for support for the laboratory information management system   |                       |                                       |                             |  |

|                          |   |                              |   |   |
|--------------------------|---|------------------------------|---|---|
| <b>Service:</b> 2.670    |   | Regional Water Supply        |   |   |
| <b>Project Number</b>    | 23-20   | <b>Capital Project Title</b> | Land Exchange/Acquisition                                       | <b>Capital Project Description</b><br>Land surveys, appraisals to support decisions regarding land exchange to increase catchment area, buffer water supply areas and other possible land exchange and acquisition within the RWS system. |
| <b>Project Rationale</b> | There are opportunities to increase the catchment and critical buffer areas of Sooke, Goldstream and the Leech WSA by purchase or land exchange with surrounding land owners. From time to time, the RWS System requires acquisition of lands for infrastructure purposes. Funds will be used when needed to undertake appraisals, legal surveys, and legal fees for work to develop agreements to purchase or exchange lands for the Regional Water Supply Area or System. |                              |   |   |
| <b>Project Number</b>    | 17-35   | <b>Capital Project Title</b> | Vehicle & Equipment Replacement (Funding from Replacement Fund) | <b>Capital Project Description</b><br>This is for replacement of vehicles and equipment used by CRD Water Services for the day-to-day operation and maintenance of the supply system.   |
| <b>Project Rationale</b> | This is for replacement of vehicles and equipment used by CRD Water Services for the day-to-day operation and maintenance of the supply system. The Equipment Replacement Fund is used to fund the expenditure. The requests have been adjusted to align with the pricing for electric vehicles.  |                              |   |   |
| <b>Project Number</b>    | 20-22   | <b>Capital Project Title</b> | Vehicle for the Dam Safety Program                              | <b>Capital Project Description</b><br>New Transit Van   |
| <b>Project Rationale</b> | An additional pick up is required for the dam safety program. The request has been adjusted to align with the pricing for an electric Transit Van.  |                              |   |   |
| <b>Project Number</b>    | 20-23   | <b>Capital Project Title</b> | Vehicle for the CSE Support Program                             | <b>Capital Project Description</b><br>New Transit Van   |
| <b>Project Rationale</b> | A new Transit van is required to support the Confined Space Entry Support program. The request has been adjusted to align with the pricing for an electric Transit Van.   |                              |   |   |
| <b>Project Number</b>    | 21-30   | <b>Capital Project Title</b> | Vehicle for Warehouse Operations                                | <b>Capital Project Description</b><br>New pick up   |
| <b>Project Rationale</b> | For use of the warehouse worker to source supplies and materials in support of the remote sites. This warehouse worker will maintain wastewater stores and will travel and transport as required items between stores locations. A pickup truck will be required. The request has been aligned with the pricing for an electric Pick Up.  |                              |   |   |
| <b>Project Number</b>    | 22-18   | <b>Capital Project Title</b> | Electric Vehicle Charging Stations                              | <b>Capital Project Description</b><br>7 Dual charging stations at 479 Island Hwy and 1 Dual charging station at the Watershed Protection FOC  |
| <b>Project Rationale</b> | EV Charging Stations Are required at 479 Island Hwy and the Watershed Protection FOC in order to charge the EV's being purchased during 2021, 2022 and future budget periods. The installation costs per charger is reduced when more than one is installed at a time. There are grants available that will cover approx. 50% of all costs.   |                              |   |   |

|                                      |   |                       |  |                             |   |
|--------------------------------------|---|-----------------------|--|-----------------------------|---|
| Service: 2.670 Regional Water Supply |   |                       |  |                             |   |
| Project Number                       | 23-21   | Capital Project Title | EV Charging Stations Electrical Infrastructure | Capital Project Description | Electrical System upgrades at 479 Island Hwy to power up 44 charging stations |
| Project Rationale                    | In support of the CRD's Climate Action Strategy to reduce the corporate GHG emissions. The CRD Fleet of vehicles is one of the larger contributors to the generation of GHG's. Integrated Water Services identified 44 of the approx. 100 vehicles that operate out of the 479 Island location for replacement with Electrical Vehicles by 2030. I preparation for providing the proper charging network at 479 an Electric Vehicle Fleet Conversion Study was completed in 2021.The results of the study was to upgrade the electrical infrastructure to accommodate the power needs of 44 charging points. It is proposed that phase 1 is started in 2023 to upgrade the electrical distribution system and provide 17 charging points. The larger portion of the costs will be to upgrade the electrical system. Phase 2 to allow for a further 27 charging points can be planned to accommodate the balance of EV vehicles pending their purchasing and delivery. |                       |  |                             |   |
| Project Number                       | 23-22   | Capital Project Title | Fuel Truck                                     | Capital Project Description | Fuel tender truck   |
| Project Rationale                    | At present the fueling of stationary emergency generators and equipment is done using a tidy tank. This requires several trips to the gas station. During the period when fuel was difficult to source it became apparent that Corporate Fleet needs to find a solution to the possibility that during an emergency fuel is available. The fuel truck will also be used during a watershed emergency to fuel equipment and vehicles.  |                       |  |                             |   |
| Project Number                       | 23-30   | Capital Project Title | Fleet Shop Hoist                               | Capital Project Description | Heavy Capacity Hoist for fleet maintenance                                    |
| Project Rationale                    | The new larger and heavier vehicles are proving to be a challenge for the two hoists presently used in the Fleet worksho at 479 Island Hwy. Currently our hoists are rated for 18,000 lbs. It is proposed to replace one of the hoists with a 24,000 lbs hoist in the centre bay.   |                       |  |                             |   |
| Project Number                       | 23-31   | Capital Project Title | Purchase of land                               | Capital Project Description | Purchasing of land near 479 for future office space                           |
| Project Rationale                    | Purchasing of land near 479 for future office space   |                       |  |                             |   |
| Project Number                       | 24-17   | Capital Project Title | Pool Vehicles                                  | Capital Project Description | 2 new EV Pickups  |
| Project Rationale                    | 2 new EV Pickups  |                       |  |                             |   |
| Project Number                       | 24-18   | Capital Project Title | Vehicle for Watershed Hydrology Program        | Capital Project Description | New pickup truck for watershed hydrology program                              |
| Project Rationale                    | New pickup truck required for watershed hydrology program.  |                       |  |                             |   |

| <b>Project Number</b> | 17-04 | <b>Capital Project Title</b> | Computer Upgrades | <b>Capital Project Description</b> | Annual upgrade and replacement program for computers, copiers, printers, network equipment as required. |
|-----------------------|-------|------------------------------|-------------------|------------------------------------|---|

**Project Rationale** This is an annual upgrading and replacement program of computers, photocopiers, network, monitoring and associated equipment, as required. This item has been increased from \$160,000 to \$170,000 annually to reflect actual costs.

Capital Budget  
 Network Switch Maintenance \$10,000  
 Additional Wireless Access Points and Maintenance \$15,000  
 Photocopier Replacement \$20,000  
 Additional Data Storage \$15,000  
 Replacement Computers \$75,000  
 Equipment Maintenance (contingency) \$23,000  
 Replace Access Control System - Gates/ Video Cameras \$12,000  
 Total Capital \$170,000

|                       |       |                              |   |                                    |  |

General Comments:

Reserve Fund is used for the purpose of replacing fleet vehicles including heavy equipment and associated mobile components, as outlined in the capital plan. Proceeds from disposals are estimated at 15% of replacement equipment purchases. Note not all vehicles are sold within the year in which they are replaced.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

\* Western Communities do not charge a fixed charge

\*\* North Saanich charges the fixed charge on property taxes

\*\*\* AR - Agriculture/Residential customers receive a rebate on consumption over 455 cubic meters annual as the meter feeds both premise and land.  
AG - Agriculture customers receive a rebate on the entire consumption annually as the meter is dedicated only for land.

# Regional Water Supply Services (Greater Victoria) Wholesale Water Rate Projections

**REPORT TO SAANICH PENINSULA WATER COMMISSION  
MEETING OF THURSDAY, OCTOBER 19, 2023**

---

**SUBJECT     Saanich Peninsula Water Service - 2024 Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the 2024 Saanich Peninsula Water Service operating and capital budget, highlighting the changes from the 2023 budget and the proposed 2024 budget figures. The report generally follows the sequence of information provided in the attached draft budget document (Appendix A).

**BACKGROUND**

The draft 2024 Saanich Peninsula Water Service budget has been prepared for the Saanich Peninsula Water Commission's (Commission) consideration. The Commission will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole in October. As in previous years, the draft 2024 budget has been prepared considering the CRD Board's 2024 service planning and financial expectations, which include identifying opportunities to realign or reallocate resources and seek potential efficiencies between departments and services, reviewing of service levels and adjustments related to regulatory compliance, and undertaking infrastructure improvements to maintain service levels across the service area. The following sets out the key components of the budget.

**2023 Year End Financial Projections**

The actual 2023 operating expense is projected to be \$1,700 under budget at year end. The actual bulk water purchase expense is estimated to be \$204,000 over budget at \$5,080,680, which corresponds with water sales revenue that is projected to be \$303,000 over budget. To balance the budget at year end, the proposed transfer to the capital reserve fund has been increased by \$100,565 to \$900,565.

**Operating Budget**

An increase in the 2024 operating expense in the amount of \$79,400 is planned and results primarily from non-discretionary expense adjustments such as wage/salary increases, corporate support service allocations, insurance costs, and other operating expense increases such as electricity costs. This represents a 4.72% increase from 2023.

The bulk water purchase expense, based on the proposed 2024 Regional Water Supply wholesale water rate and the 2024 Saanich Peninsula Water budget demand volume, has been set at \$5,180,160, an increase of \$303,000 over 2023.

**Capital Budget**

The planned transfer to the capital reserve fund in 2024 is \$800,000, this is consistent with the 2023 contribution. At year-end 2023, the capital reserve fund balance is estimated to be \$3,228,620 which is available to fund major capital projects. A new loan authorization in the amount of \$12,900,000 was approved in 2021 to allow continued partial funding of the five-year capital plan. The debt servicing costs associated with this loan will begin in 2024.

The planned transfer to the equipment replacement fund in 2024 is \$50,000. At year-end 2023, the equipment replacement fund balance is estimated to be \$1,700,620, which is available to fund minor capital and operational equipment replacements including vehicles.

There are a number of capital projects planned for 2024 with a total value of \$11,155,000 including \$4,005,000 in projects that are in progress or multi-year projects, including the Saanich Peninsula Water System Upgrades and Expansion project which includes the Bear Hill Reservoir interconnect project along East Saanich Road, the Hamsterly Pump Station Backup Generator installation project, and the Keating fly-over water main replacement project (funding agreement). The value of the five-year (2024-2028) capital plan is currently \$21,509,000 including an on-going budget allowance for post-disaster water supply equipment and infrastructure improvements.

The Development Cost Charge (DCC) program represents \$659,579 of the five-year (2024-2028) capital plan, and reflects the projects included in the DCC program update. At year-end 2023, the DCC reserve fund balance is estimated to be \$2,035,605.

### Water Demand

Total water demand across the Saanich Peninsula Water Service area has generally continued to increase year over year recently due to the continued rate of development and growth. This trend, combined with a dry summer season, is expected to result in actual demand exceeding budget demand in 2023: the 2023 year-end demand is projected to be 265,000 cubic metres over budget at 6,600,000 cubic metres.

The recommended 2024 water rate has been calculated using a budget demand of 6,400,000 cubic metres (Page 3 of the budget document, Appendix A), which is 65,000 cubic metres more than the volume used in the 2023 budget.

### 2024 Water Rates

The 2024 CRD Regional Water Supply wholesale water rate of \$0.8094 per cubic metre, a 5.14% increase over the 2023 rate, is being recommended to the Regional Water Supply Commission. The 2024 agricultural rate of \$0.2105 per cubic metre will also be recommended. The Regional Water Supply agricultural water rate budget funds the difference between the municipal retail water rate and the CRD agricultural water rate. An agricultural water rate review and options study is being undertaken in 2022/2023 under the Regional Water Supply Service. The consultation phase of the study will involve the key stakeholders on the Saanich Peninsula including the Commission. It is anticipated that any changes to the rate or rate methodology resulting from the study would take effect in 2025. A summary of the agricultural water volumes and agricultural water rate payments for 2011 to 2022 is attached as Appendix C.

The recommended Saanich Peninsula Bulk Water Rate is \$1.1978 per cubic metre, a 4.71% increase over the 2023 rate. The increase in annual bulk water cost for the average household using 235 cubic metres per year would be \$12.67.

The Agricultural Research Station Rate has been set at \$1.2330 per cubic metre.

The Saanich Peninsula Water rate and Regional Water Supply rate history and projection is attached as Appendix B. The rates may be adjusted in the future to reflect actual revenue and expenditure circumstances and water demand volumes.

## **ALTERNATIVES**

### *Alternative 1*

The Saanich Peninsula Water Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 operating and capital budget;
2. Approve the 2024 Saanich Peninsula bulk water rate of \$1.1978 per cubic metre, and the Agricultural Research Station water rate of \$1.2330 per cubic metre, adjusted if necessary by any changes in the CRD Regional Water Supply wholesale water rate;
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund;
4. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
5. Direct staff to amend the Bulk Water Rates Bylaw accordingly.

### *Alternative 2*

The Saanich Peninsula Water Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 operating and capital budget as amended;
2. Approve the 2024 Saanich Peninsula bulk water rate, and the Agricultural Research Station water rate as amended, adjusted if necessary by any changes in the CRD Regional Water Supply wholesale water rate;
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund;
4. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and,
5. Direct staff to amend the Bulk Water Rates Bylaw accordingly.

## **IMPLICATIONS**

If the proposed budget is amended, the implications could vary depending on how the budget is amended and the impact on specific programs, on-going operations, or the capital work program. 'One-time' reductions in reserve fund contributions could be considered by the Commission to help mitigate the budget and rate increases, but additional capital financing could result in the longer term.

## **CONCLUSION**

The draft 2024 Saanich Peninsula Water Service budget has been prepared for the Saanich Peninsula Water Commission's consideration. The budget has been prepared considering the Commission and CRD Board's 2024 service planning and financial expectations. A proposed increase in operating and capital funding that includes an increase in the wholesale water costs from the Regional Water Supply Service, combined with an adjusted revenue budget, is resulting in a recommended bulk water rate of \$1.1978 per cubic metre, a 4.71% increase over the 2023 rate.

### **RECOMMENDATION**

The Saanich Peninsula Water Commission recommends that the Committee of the Whole recommend that the Capital Regional District Board:

1. Approve the 2024 operating and capital budget;
2. Approve the 2024 Saanich Peninsula bulk water rate of \$1.1978 per cubic metre, and the Agricultural Research Station water rate of \$1.2330 per cubic metre, adjusted if necessary by any changes in the CRD Regional Water Supply wholesale water rate;
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund;
4. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and,
5. Direct staff to amend the Bulk Water Rates Bylaw accordingly.

#### **COMMISSION REVIEW**

OCTOBER 2023

Service: 2.610

Saanich Peninsula Water Supply

Committee: Saanich Peninsula Water

**DEFINITION:**

To purchase water and to acquire, design, construct, reconstruct, purchase, maintain and operate facilities and to acquire property easements, licences and authorities for the supply of water to Central Saanich, North Saanich, and Sidney, for distribution by the municipalities. Letters Patent, December 22, 1976; revised Sept. 27, 1984. Amended SLP April 27, 1978 and March 19, 1986.

**SERVICE DESCRIPTION:**

This service provides for the purchase of bulk water for supply to Central Saanich, North Saanich, and Sidney, for distribution within their municipalities. Included in the program is the responsibility to provide design, construction, operation and maintenance, licenses, and water quality monitoring to the service area.

**PARTICIPATION:**

Central Saanich / North Saanich / Sidney

**MAXIMUM LEVY:****MAXIMUM CAPITAL DEBT:**

As established by Inspector of Municipalities.

**COMMISSION:**

Saanich Peninsula Water Commission established by Letters Patent to advise the Board with respect to this function.

**FUNDING:**

Costs are recovered through the sale of bulk water.

**CAPITAL DEBT:**

|                          |  |                              |   |                                    |   |
|--------------------------|--|------------------------------|---|------------------------------------|---|
| <b>Project Number</b>    | 18-04  | <b>Capital Project Title</b> | Post Disaster Emergency Water Supply          | <b>Capital Project Description</b> | Identify and procure emergency systems for post disaster preparedness   |
| <b>Project Rationale</b> | In the event of a disaster, it is proposed to have in place the ability to source, treat (if required) and distribute drinking water during the initial and sustained response and recovery phases to the public. This item will see the study of the issue in 2017 and 2018 with the anticipated purchase of one or more emergency distribution systems in 2018 and beyond. Initial investigation has highlighted areas, such as having hardened hydrants/standpipes that the CRD should be investing in. Additional funds are required to start implementing these additional works. |                              |   |                                    |   |
| <b>Project Number</b>    | 20-02  | <b>Capital Project Title</b> | Hamsterly Pump Station Backup Power Generator | <b>Capital Project Description</b> | Addition of a backup power generator at the Hamsterly Pump Station  |
| <b>Project Rationale</b> | From the 2018 DCC Update, KWL identified that the addition of backup power at the Hamsterly Pump Station is required. Funds are required to design and construct backup power for the Hamsterly Pump Station.  |                              |   |                                    |   |
| <b>Project Number</b>    | 21-01  | <b>Capital Project Title</b> | Level of Service Agreement                    | <b>Capital Project Description</b> | Determine and develop appropriate level of service agreements with the participating municipalities for water supply. |
| <b>Project Rationale</b> | The SPW Service has numerous transfer points with the participating municipalities. Funding is required to determine the pressure and flow at transfer points with the participating municipalities for water supply.  |                              |   |                                    |   |

|  |   |   |  |
|--|---|---|--|
| <b>Service:</b> <b>2.610</b> <b>Saanich Peninsula Water Supply</b> |   |   |  |
| <b>Project Number</b> 21-04  | <b>Capital Project Title</b> SCADA Upgrades                   | <b>Capital Project Description</b> SCADA upgrades and planning in conjunction with the Juan de Fuca Water Distribution, Saanich Peninsula Water and Wastewater, and Core Area Wastewater Services.  | <b>Project Rationale</b> The existing SCADA system is nearing end of life for equipment. The SCADA system provides vital operational monitoring and control information for the Saanich Peninsula Water System. Additionally, the Juan de Fuca Water Distribution, Saanich Peninsula Wastewater, Regional Water System, and Core Area Wastewater services require similar upgrades and integration. This project will be carried out with the other services so that an fully integrated system can be implemented.  |
| <b>Project Number</b> 21-05  | <b>Capital Project Title</b> SPW System Upgrade and Expansion | <b>Capital Project Description</b> Upgrade vulnerable sections of the SPW system to a resilient system better able to withstand a seismic event, and extend sections of the system to have dual feed redundancy. Vulnerable sections are cement | <b>Project Rationale</b> This project is for design and replacement of cement pipe sections that are susceptible to failure during a seismic event. Funds are required for detailed design and construction of the Bear Hill section of transmission main from Mt Newton to the Dean Park Lower tank along East Saanich Road including a new PRV, detailed design of the transmission main from McTavish Tank to Mills Road. The budget breakdown of the works: Bear Hill Section design and construction of new transmission main and PRV station \$14,200,000; conceptual and detailed design of the transmission main from Mctavish Reservoir to Mills Road \$500,000. Budget also includes preliminary design for replacement of permastrand and AC pipe between Dean Park Feeder Main between Dean Park Lower and Dean Park Middle Tanks. |
| <b>Project Number</b> 22-01  | <b>Capital Project Title</b> Water Strategic Plan Update      | <b>Capital Project Description</b> Update the strategic plan to inform future works and identify hydraulic deficiencies.  | <b>Project Rationale</b> A water distribution system changes with development demand. A periodic update of the strategic plan to identify hydraulic deficiencies and inform future works is periodically required to ensure the level of service.  |
| <b>Project Number</b> 22-02  | <b>Capital Project Title</b> Microwave Radio Upgrades         | <b>Capital Project Description</b> To provide a high bandwidth communications backbone to the SPW/SPWW systems, a microwave communications system will be installed.  | <b>Project Rationale</b> Multiple facilities throughout the CRD RWS system require additional bandwidth to allow for proper monitoring and control. This project will enable the initial design and preliminary installation of a high bandwidth microwave backbone that will be able to be leveraged by multiple CRD operational groups. The installation of this backbone will be coordinated with the other IWS service areas.  |

| <b>Project Number</b> 22-03                          | <b>Capital Project Title</b> Keating Cross Road Water Main           | <b>Capital Project Description</b> MoTI driven project, MoTI has expectation of CRD contributing (TBD), approximately 500m of 500mm DI, agreement not in place yet                           | <b>Project Rationale</b> MoTI driven project, MoTI has expectation of CRD contributing (TBD), approximately 500m of 500mm DI  |
| <b>Project Number</b> 23-01                          | <b>Capital Project Title</b> DCC Program Update                      | <b>Capital Project Description</b> 5-year update of the DCC program.   | <b>Project Rationale</b> Review of the DCC program and identify any projects that may require a full DCC update.  |
| <b>Project Number</b> 23-04                          | <b>Capital Project Title</b> RTU & PLC Upgrade and Replacement       | <b>Capital Project Description</b> Upgrade RTU programming within the SPWS service, upgrade the PLC at the Deep Cove pump station, and upgrade the telecommunications from the Hamsterly PS. | <b>Project Rationale</b> Equipment and programming upgrades are required system wide but specifically at the Deep Cove and Hamsterly pump stations to deal with equipment and technology nearing end of life.   |
| <b>Project Number</b> 25-01                          | <b>Capital Project Title</b> Hamsterly Pump Station Capacity Upgrade | <b>Capital Project Description</b> Increase the capacity of the Hamsterly Pump Station to address increased water demand. This is the service's contribution to the DCC project.             | <b>Project Rationale</b> In the 2018 KWL DCC Update report, the Hamsterly Pump Station was identified to require addition of a third pump to meet increased water demand. This is for the Saanich Peninsula Water service's contribution to the DCC project. Funds are required for the design and construction of the additional pump. |

**2.610 Saanich Peninsula Water**  
**Summary Schedule**  
**2024 - 2028 Financial Plan**

**Asset Profile**

**Saanich Peninsula Water**

One of the 16 CRD drinking water systems across the region, Saanich Peninsula Water Supply obtains treated drinking water from the Regional Water Supply System and is responsible for the bulk trunk water supply systems for Central Saanich, Sidney & North Saanich. Assets include land, 46 kilometres of water supply mains, nine balancing reservoirs, nine pumping stations, two pressure reducing stations, nine supply meters and two rechlorination stations.

General Comments:

Saanich Peninsula Water Development Cost Charges (DCC's) was adopted in 2005 for the purpose of providing funds to assist with the capital costs of providing, constructing, altering or expanding the Districts water & wastewater systems that services the Member Municipalities.

The above cash flow only reflects DCC Reserve information for Water System only (Wastewater's information will be provided in the Wastewater budgets). These Reserve funds are received from member municipalities as Development Cost Charges (DCC's) to provide for the capital costs of water capacity system improvements within the service areas.

In December 2018 the bylaw was ammended to remove Development Cost Charges on new projects to recognize that the fund's balance exceeded the total of current development projects.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

General Comments: The fund is used to replace water system infrastructure throughout the system as failing components are identified and not funded through operating budgets.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

General Comments:

Saanich Peninsula Water Capital Reserve Fund was adopted in 1985 for the purpose of capital payments including planning, engineering and legal costs for providing, latering or expanding water system infrastructure related to the Saanich Peninsula Water Supply System.

The fund is used for the purpose of funding the Service Capital infrastructure related directly or indirectly to water facilities, (excluding DCC) capital expenditures.

\* Interest should be included in determining the estimated ending balance for the current year. Interest in planning years nets against inflation which is not included.

\* Western Communities do not charge a fixed charge

\*\* North Saanich charges the fixed charge on property taxes

\*\*\* AR - Agriculture/Residential customers receive a rebate on consumption over 455 cubic meters annual as the meter feeds both premise and land.  
AG - Agriculture customers receive a rebate on the entire consumption annually as the meter is dedicated only for land.

**REPORT TO SAANICH PENINSULA WASTEWATER COMMISSION  
MEETING OF THURSDAY, OCTOBER 19, 2023**

---

**SUBJECT**     **Saanich Peninsula Wastewater Service 2024 Operating and Capital Budget**

**ISSUE SUMMARY**

To provide an overview of the 2024 Saanich Peninsula Wastewater Service operating and capital budget, highlighting the variances from the 2023 budget and the proposed 2024 budget figures. The report generally follows the sequence of information provided in the attached draft budget document (Appendix A).

**BACKGROUND**

The draft 2024 Saanich Peninsula Wastewater Service budget has been prepared for the Saanich Peninsula Wastewater Commission's (the Commission) consideration. The Commission will make budget recommendations to the Capital Regional District (CRD) Board through the Committee of the Whole in October. As in previous years, the draft 2024 budget has been prepared considering the CRD Board's 2024 service planning and financial expectations, which include identifying opportunities to realign or reallocate resources and seek potential efficiencies between departments and services, reviewing of service levels and adjustments related to regulatory compliance, and undertaking infrastructure improvements to maintain service levels across the service area. The following sets out the key components of the budget.

**2023 Year-end Financial Projections**

The estimated 2023 operating costs are projected to be \$3,723,725, which is a savings of \$520,000. Of this savings, \$433,070 is due to the operational challenges with the final commissioning of the Core Area Residual Treatment Facility and its ability to receive dewatered wastewater residuals from other facilities. An additional \$80,000 of the surplus is attributed to lower labour costs, partially offset by an increase in interest expenses of \$27,500. Furthermore, revenue from the Panorama Recreation Center exceeded the budget by \$33,000. The net effect of these revenue and expenditure variances amounts to \$520,000, which will be allocated equally to the two funds: the operating reserve fund and the equipment replacement fund, with each receiving \$260,000.

**2024 Operating Budget**

The 2024 combined operations and reserve budget is \$4,993,159, which represents a 5.17% increase over the 2023 budget.

The operating budget includes a \$203,192 reduction from the 2023 budget. This reduction primarily due to a temporary savings of \$400,000 in operating expenses resulted from the lack of readiness to receive waste sludge disposal at the Residual Treatment Facility. To ensure there are sufficient funds available for future infrastructure replacement needs, this savings was offset by a one-time contribution of \$400,000 to the Equipment Replacement Fund.

Within the operating budget, there is a one-time allocation of \$180,000 for cyclical maintenance expenses, covering tasks such as odour control system media replacement, collection system flushing, and Closed-Circuit Television inspection that would be considered over and above

routine maintenance. These cyclical maintenance expenses are funded through a transfer from the Operating Reserve Fund.

The remaining variances are attributed to non-discretionary expense adjustments, including wage and salary increases, departmental support service allocations, and adjustments to other operating expenses such as Provincial discharge fees, equipment repairs, electricity costs, and chemical costs.

The 2024 Saanich Peninsula Liquid Waste Management Plan (LWMP) program budgets have also been prepared, and include the LWMP budget, the Saanich Peninsula Stormwater Quality Management Program budget, the Saanich Peninsula Stormwater Source Control budget, and the Peninsula Harbour Environmental Action budget. The budgets are reflecting less than a 3.5% requisition increase. The marine monitoring program costs are included in the overall conveyance and treatment operating budget.

#### 2024 Capital Budget

The planned capital expenditures for 2024 is \$2,520,000, this includes \$75,000 Development Cost Charges (DCC) related work, and \$1,525,000 in work that was initiated in 2023 or prior. Most of the carry forward projects are instream or part of the multi-year projects.

The 2024 capital program consists of projects related to replacement of equipment that is at the end of the service life and projects required to address operational issues. In 2024 some notable projects include: odour control upgrades at the wastewater treatment plant, replacement of pumps at Keating pump station and electrical and controls upgrades at the Sidney pump station.

Existing reserves will be used to fund the 2024 capital program with \$1,570,000 drawn from the Capital Reserve and \$950,000 from the Equipment Replacement Funds.

The value of the five-year (2024 to 2028) capital plan is \$12,320,000. With the current capital reserve and equipment replacement fund balances, planned contributions, transfers, and expenditures, there is insufficient funding available for the five-year capital plan. Although there are projected funds remaining in the capital reserve after the application of the five-year plan, there is a limited balance available for unplanned expenditures. The budget assumes capital financing will be required beginning in 2025. Based on Capital Reserve Guidelines, debt will be required. The loan authorization approval process is planned for 2024, to authorize \$10 million to fund the 2025 to 2029 capital plan in part. There is currently no debt authorized for the Saanich Peninsula Wastewater Service.

#### Reserve Funding

There are currently three reserve funds established for this service. Reserves serve several specified purposes including stabilizing revenue requirements and funding capital renewal and replacement. The service has the following reserve funds:

**Operating Reserve:** This reserve is available to fund significant maintenance tasks that do not occur annually, such as odour control system carbon replacement, outfall inspections, and District Energy System (DES) heat exchanger cleaning. The planned transfer to the operating reserve fund in 2024 is \$74,880. At year-end 2023, the operating reserve fund balance is estimated to be \$823,376, inclusive of a \$260,000 estimated surplus transfer.

**Capital Reserve:** There are two portions in the Reserve Fund: Development Cost Charges (DCC) is deposited in the DCC portion and expenditures are restricted to fund growth. Surplus funds from the Operating budget are deposited to the Capital Reserve portion and expenditures provide for capital works. In 2024, the planned transfer to the capital reserve fund is \$380,273. At year-end 2023 the capital reserve fund balance is estimated to be \$519,615. It is anticipated that will be a \$170,000 addition to the DCC program in 2024. At year-end in 2023 the DCC reserve fund balance is estimated to be \$167,339.

**Equipment Replacement Reserve:** This reserve is available to fund minor capital and operating machinery and equipment replacements. The planned transfer to the equipment replacement fund in 2024 is \$530,274. At year-end 2023, the equipment replacement fund balance is estimated to be \$1,445,408.

#### Internal Recovery – Other

Partially offsetting the operating expenses are internal recoveries of \$154,483. This includes revenue received from the DES. The DES revenue is allocated based on each participants' percentage of total wastewater input, the DES is budgeted to generate \$78,800 in revenue in 2024 from the sale of energy to the Panorama Recreation Centre. The estimated revenue is determined by annual energy rate adjustments based on prior year natural gas market rates and projected energy consumption. The rate used to determine the 2024 revenue is based on the 2023 natural gas rate and anticipated demand. 2024 cost sharing percentages for the DES, based on prior year flows, will be finalized in October, and are not expected to change significantly from the 2023 cost sharing figures. The remaining internal recoveries relate to Saanich Peninsula Wastewater Laboratory and Facilities activities provided to other services.

#### Requisition

Seven participants in the area distributed the requisition based on the percentage allocation of actual flow data from the previous year, from October 1, 2022 to September 30, 2023. The cost-sharing percentages for 2024 will be determined in October and are not anticipated to undergo significant changes compared to the figures for 2023. The 2024 requisition is \$4,650,904 after incorporating the requisition for capital, existing conveyance and treatment system works, and system operations. The 2024 requisition represents an 5.39% increase over the 2023 requisition.

### **ALTERNATIVES**

#### *Alternative 1*

The Saanich Peninsula Wastewater Commission recommends that the Committee of the Whole recommends that the Capital Regional District Board:

1. Approve the 2024 Saanich Peninsula trunk sewers, treatment and disposal operating and capital budget and the 2024 Saanich Peninsula Liquid Waste Management Plan (LWMP) program budgets including the LWMP administration budget, the Saanich Peninsula Stormwater Quality Management Program budget and the Saanich Peninsula Stormwater Source Control budget, and the Harbours Environmental Action Service (Peninsula) budget;
2. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund.

*Alternative 2*

The Saanich Peninsula Wastewater Commission recommends that the Committee of the Whole recommends that the Capital Regional District Board:

1. Approve as amended, the 2024 Saanich Peninsula trunk sewers, treatment and disposal operating and capital budget and the 2024 Saanich Peninsula Liquid Waste Management Plan (LWMP) program budgets including the LWMP administration budget, the Saanich Peninsula Stormwater Quality Management Program budget and the Saanich Peninsula Stormwater Source Control budget, and the Harbours Environmental Action Service (Peninsula) budget;
2. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund.

**IMPLICATIONS**

If the proposed budget is amended, the implications could vary depending on how the budget is amended and the impact on specific programs, on-going operations, or the capital work program. 'One-time' reductions in reserve fund contributions could be considered by the Commission to help mitigate the budget and rate increases, but additional capital financing could result in the longer term.

**CONCLUSION**

This 2024 Saanich Peninsula Wastewater Service budget has been prepared for the Saanich Peninsula Wastewater Commission's consideration. The Commission will make budget recommendations to the Capital Regional District Board for final budget approval in March 2024. The 2024 budget reflects the operating costs of the Saanich Peninsula Wastewater Treatment Plant and the conveyance system, as well as the environmental program and capital costs. The financial implications of the 2024 operating and capital budget vary by participant, depending on the operating and capital cost apportionments associated with annual flow and allocated treatment capacity.

**RECOMMENDATION**

The Saanich Peninsula Wastewater Commission recommends that the Committee of the Whole recommends that the Capital Regional District Board:

1. Approve the 2024 Saanich Peninsula trunk sewers, treatment and disposal operating and capital budget and the 2024 Saanich Peninsula Liquid Waste Management Plan (LWMP) program budgets including the LWMP administration budget, the Saanich Peninsula Stormwater Quality Management Program budget and the Saanich Peninsula Stormwater Source Control budget, and the Harbours Environmental Action Service (Peninsula) budget;
2. Direct staff to update carry forward balances in the 2024 Capital Budget for changes after year end; and
3. Direct staff to balance the 2023 actual revenue and expense on the transfer to capital reserve fund.

### **Saanich Peninsula Wastewater**

#### **COMMISSION REVIEW**

OCTOBER 2023

Service: 3.718 Saanich Peninsula Wastewater

Committee: Environmental Services

**DEFINITION:**

Provision of sewage treatment and disposal through treatment plant facilities and outfall for member participants.

**SERVICE DESCRIPTION:**

This program is for the provision of wastewater collection and treatment to the Saanich Peninsula municipalities of Central Saanich, North Saanich, and Sidney. Although the largest component of the program budget is for the operation and maintenance of the systems, many other key programs are funded through and support these budgets including engineering (capital projects), odour control, and marine monitoring and protection.

**PARTICIPATION:**

Operating costs to be recovered by requisition to all participating members based on measured flow from previous year.

**MAXIMUM LEVY:**

Establishment Bylaw No. 2388/2439 - Greater of \$5,663,000 or \$1.56 / \$1,000 of actual assessed value of land and improvements.

**MAXIMUM CAPITAL DEBT:**

See Debt Budget 3.775 - debt fully retired in 2016

**SPWWS SEWER SYSTEM:**

| <u>Location</u> | <u>Allocation for 2023</u> |
|-----------------|----------------------------|
| Airport         | 1.76%                      |
| Sidney          | 39.24%                     |
| Pauquachin      | 1.09%                      |
| Central Saanich | 41.75%                     |
| North Saanich   | 15.58%                     |
| Tseycum         | 0.45%                      |
| IOS             | 0.13%                      |
| Total           | 100.00%                    |

**FUNDING:**

Requisition

**RESERVE FUND:**

Saanich Peninsula Wastewater Commission approved that operating surpluses be transferred to capital reserve fund, starting with 2009 budget (approved Nov 6, 2008).

|                       |           |
|-----------------------|-----------|
| Labour Allocation     | 84,610    |
| Reserve Contributions | 449,724   |
| Waste Sludge          | (400,000) |
| BC Permit             | 27,340    |
| Chemical              | 23,610    |
| Other                 | 60,361    |
| Total Other Changes   | 245,644   |

IWS labour charge out rate lift

A one-time increase contribution to ERF and a minor contribution increment to the ORF

One-time saving due to delay from the OMS receiving facility

Fee to discharge increased by the province

Over 20% increase on chemical expense

Increase in utilities, cyclical maintenance costs, etc.

**2024 Budget****4,993,159**

|   |       |
|---|-------|
| Transfer Reserve                                  | 9.47% |
| % expense increase from 2023:                     | 5.17% |
| % Requisition increase from 2023 (if applicable): | 5.39% |

Requisition funding is 96.1% of service revenue

**Overall 2023 Budget Performance**

(expected variance to budget and surplus treatment)

*There is a one time favourable variance of \$520k due mainly to tipping solids at Hartland instead of the Residual Treatment Facility. This amount will be split into two funds: the Operating Reserve Fund and Equipment Replacement Fund, with each fund receiving \$260k.*

| Project Number    | 20-02   | Capital Project Title | Oxidation Ditch Optimization | Capital Project Description | The WWTP was getting low dissolved oxygen during low flow, high load periods. Equipment is being optimized and reviewed for potential automation improvements. |
| Project Rationale | The current aerators were underperforming and needed to be assessed to improve performance. Preliminary studies have led to optimization with the existing equipment which may negate the need for full replacement in the near future. A consultant is finalizing a design report and recommendations. |                       |                              |                             |  |

|                   |  |                       |                                    |                             |   |
|-------------------|--|-----------------------|------------------------------------|-----------------------------|---|
| Project Number    | 23-03  | Capital Project Title | Odour Control Upgrade Construction | Capital Project Description | Odour control upgrades are required in numerous rooms and spaces at the treatment plant in order to meet health and safety requirements and prevent ongoing corrosion in some concrete tanks. |
| Project Rationale | Construction improvements to be implemented based on recommendations made in the KWL report. Odour control upgrades are required in numerous rooms and spaces at the treatment plant in order to meet health and safety requirements and prevent ongoing corrosion in some concrete tanks. |                       |                                    |                             |   |

|                   |  |                       |                                      |                             |   |
|-------------------|--|-----------------------|--------------------------------------|-----------------------------|---|
| Project Number    | 26-01  | Capital Project Title | Replace Covers on Primary Clarifiers | Capital Project Description | Replace covers over clarifiers to more easily removable geomembrane cover system. |
| Project Rationale | The existing aluminum checker plate covers on the clarifiers are difficult to remove. A more easily removeable geomembrane cover system will allow for better operation and maintenance of the clarifiers and prolong carbon life in the odour control system. |                       |                                      |                             |   |

| Project Number                              | 23-04  | Capital Project Title | Replace SCADA Servers and Ethernet Upgrades        |
| Capital Project Description                 | Existing servers are EOL and need to be replaced to meet current CRD specifications and standards  |                       |  |
| Project Rationale                           | Existing servers are End of life and need to be replaced prior to failure and to meet current CRD specifications and standards   |                       |  |
| Project Number                              | 24-01  | Capital Project Title | Sludge Tanks and Process Sump Cleaning and Repairs |
| Capital Project Description                 | Detailed Structural assessment of the primary clarifier No. 2 and sludge tanks to determine whether repairs are required. Cleaning, repair and apply protective coating on concrete surfaces inside of the sludge tanks and process sump is required to prevent ongoing corrosion and extensive structural damage. |                       |  |
| Project Rationale                           | Primary Clarifier No. 1 and the oxidation tanks have had detailed structural assessments, funds are required to conduct a detailed assessment of primary clarifier No. 2 and the sludge tanks to determine whether concrete repairs are required similar to the oxidation tanks and primary clarifier No. 1.       |                       |  |
| Project Number                              | 27-01  | Capital Project Title | SPWWTP Road Upgrades                               |
| Capital Project Description                 | Construct drainage and pavement replacement on the SPWWTP access road.   |                       |  |
| Project Rationale                           | The access road to the SPWWTP will be 27 years old and is showing localized pavement failure. Additionally, the road drainage system requires some rehabilitation to maintain its function. Funds are required to design the drainage improvements and pavement repairs, and carry out the improvements.           |                       |  |

|-------------------|--|-----------------------|-----------------------------|-----------------------------|--|
| Project Number    | 24-03  | Capital Project Title | SCADA Equipment Replacement | Capital Project Description | Project to review and address the maturation of SCADA hardware throughout the service areas. |
| Project Rationale | Project to review and address the maturation of SCADA hardware throughout the service areas. |                       |                             |                             |  |

|   |   |                       |                        |                             |   |
|---|---|-----------------------|------------------------|-----------------------------|---|
| Service: 3.718 Saanich Peninsula Wastewater |   |                       |                        |                             |   |
| Project Number                              | 24-04   | Capital Project Title | SPWWTP PLC Replacement | Capital Project Description | PLC and CPUs at SPWWTP are at the end of life and must be replaced. The Schneider product currently used at the SPWWTP was discontinued in 2018 and will no longer be supported as of 2026. |
| Project Rationale                           | PLC and CPUs at SPWWTP are at the end of life and must be replaced. The Schneider product currently used at the SPWWTP was discontinued in 2018 and all support will be terminated in 2026. |                       |                        |                             |   |

|                   |  |                       |                                       |                             |   |
|-------------------|--|-----------------------|---------------------------------------|-----------------------------|---|
| Project Number    | 21-02  | Capital Project Title | Sidney Pump Station Wet Well Upgrades | Capital Project Description | The existing inlet gate to the wet well and the forcemain knife gate valves are seized and need to be replaced, and the catwalk in the wet well needs to be cleaned and painted to protect it from corrosion. |
| Project Rationale | The existing inlet gate to the wet well and the forcemain knife gate valves are seized. Engineering and Operations are working together to determine whether maintenance improvements can extend the longevity or whether complete replacements will be required. Inlet isolation gates are required to function in order to conduct maintenance at the pump station wet well. |                       |                                       |                             |   |

|                   |  |                       |   |                             |   |
|-------------------|--|-----------------------|---|-----------------------------|---|
| Project Number    | 24-05  | Capital Project Title | Keating Pump Station - Pump Replacement | Capital Project Description | The existing pumps are nearing end of life and are becoming more difficult to maintain. |
| Project Rationale | Replacement of Keating PS pumps that are at end of life and beginning to result in maintenance issues. |                       |   |                             |   |

|   |  |                       |  |                             |
|---|--|-----------------------|--|-----------------------------|
| Service: 3.718 Saanich Peninsula Wastewater |  |                       |  |                             |
| Project Number                              | 19-06  | Capital Project Title | Odour Control Upgrades                     | Capital Project Description |
| Project Rationale                           | Continuing on from the 2018 KWL Odour Control Program study, HDR has been retained to complete the detailed design of the odour control upgrades at SPWWTP.  |                       |  |                             |
| Project Rationale                           | In 2017 KWL was retained to conduct an audit of the odour control systems in the Core Area and Saanich Peninsula Wastewater systems. KWL made recommendations on remediation works include: SPWWTP odour control management study and Sidney and Keating PS ventilation study (2019); SPWWTP Odour Control Improvements Design ; SPWWTP Odour Control Improvements Construction .                        |                       |  |                             |
| Project Number                              | 21-04  | Capital Project Title | Voice Radio Replacement                    | Capital Project Description |
| Project Rationale                           | Replacement of the voice radios, in coordination with the RWS, SPW, JDF, and Core Area services.   |                       |  |                             |
| Project Rationale                           | End of life replacement of the voice radios, in coordination with the RWS, SPW, JDF, and Core Area services.   |                       |  |                             |
| Project Number                              | 18-10  | Capital Project Title | Equipment Replacement - Annual Provisional | Capital Project Description |
| Project Rationale                           | Funds are required for emergency replacement of equipment that is unplanned and outside maintenance contingencies.   |                       |  |                             |
| Project Rationale                           | Funds are required for emergency replacement of equipment that is unplanned and outside maintenance contingencies.   |                       |  |                             |
| Project Number                              | 22-02  | Capital Project Title | Microwave Radio Upgrades                   | Capital Project Description |
| Project Rationale                           | To provide a high bandwidth communications backbone to the SPW/SPWW systems, a microwave communications system will be installed.  |                       |  |                             |
| Project Rationale                           | Multiple facilities throughout the CRD RWS system require additional bandwidth to allow for proper monitoring and control. This project will enable the initial design and preliminary installation of a high bandwidth microwave backbone that will be able to be leveraged by multiple CRD operational groups. The installation of this backbone will be coordinated with the other IWS service areas. |                       |  |                             |

|   |   |                       |                               |                             |   |
|---|---|-----------------------|-------------------------------|-----------------------------|---|
| Service: 3.718 Saanich Peninsula Wastewater |   |                       |                               |                             |   |
| Project Number                              | 23-02   | Capital Project Title | Electrical & Control Upgrades | Capital Project Description | Replacement of the Sidney PS PLC and RTUs before failure, and updating programming of facilities to supported hardware and operating systems. WWTP Capacitor replacement is planned for 2024. |
| Project Rationale                           | The Sidney PS PLC and RTU have been discontinued by the manufacturer, leaving no support if they fail. Additionally, the Sidney PS, Keating PS and SPWWTP have control systems on outdated control software no longer supported by current hardware and operating systems. Funds are required to replace the Sidney PS PLC and RTU and update the programming of the control software to a supported hardware and operating system. |                       |                               |                             |   |

|                   |  |                       |                                    |                             |   |
|-------------------|--|-----------------------|------------------------------------|-----------------------------|---|
| Project Number    | 24-06  | Capital Project Title | IT Core Infrastructure Replacement | Capital Project Description | Replacement of Core IT infrastructure such as servers, network switches, UPS, etc for equipment end of life |
| Project Rationale | Project for IT Core Infrastructure Replacement associated with SPWWS. Program to be managed by IT. |                       |                                    |                             |   |

|                   |   |                       |                      |                             |   |
|-------------------|---|-----------------------|----------------------|-----------------------------|---|
| Project Number    | 20-03   | Capital Project Title | Trunk Sewer Relining | Capital Project Description | Based upon CCTV inspection, high priority relining of about 1,300m of 500mm dia asbestos cement sewer will start in 2022. Another 1600m may need to be relined within the next 5 years. |
| Project Rationale | The trunk sewer mains were inspected in 2018-2019 resulting in approximately 1,300 m of 500 mm diameter asbestos cement sewer pipe requiring relining to maintain integrity. Funds are required to retain a contractor to conduct the pipe relining starting at the most northern section of the Sidney Trunk main. This project will be substantially complete in 2023 with only minor close out works expected to continue into 2024. |                       |                      |                             |   |

|   |   |                       |                                 |
|---|---|-----------------------|---------------------------------|
| Service: 3.718 Saanich Peninsula Wastewater |   |                       |                                 |
| Project Number                              | 20-04   | Capital Project Title | Manhole Repairs and Replacement |
| Capital Project Description                 | Based upon inspections, high priority repairs and relining will start on some MH's in Central Saanich and Sidney. Repairs/relining will be scheduled in the next 5 years.   |                       |                                 |
| Project Rationale                           | During the trunk sewer main inspections in 2018-2019, the manholes were inspected as well. A number of manholes were identified with major defects requiring repairs or relining, mostly in Central Saanich and Sidney. Funds are required to retain a contractor to carry out manhole repairs. |                       |                                 |
| Project Number                              | 27-02   | Capital Project Title | Trunk Sewer Relining - Ph2      |
| Capital Project Description                 | Based upon CCTV inspection, about another 1600m of 500mm dia asbestos cement sewer should be lined in 2029.   |                       |                                 |
| Project Rationale                           | The trunk sewer mains were inspected in 2018-2019 resulting in approximately 800 m of 500 mm diameter asbestos cement sewer pipe requiring relining to maintain integrity. Funds are required to retain a contractor to conduct the pipe relining starting where Phase 1 left.                  |                       |                                 |
| Project Number                              | 27-03   | Capital Project Title | Flushing and CCTV Inspection    |
| Capital Project Description                 | SPWW sewers should be cleaned and inspected on a 5-basis. The next 5-year inspection is planned for 2027.   |                       |                                 |
| Project Rationale                           | Flushing and CCTV inspection program for pipe condition of SPWW sewers.   |                       |                                 |
| Project Number                              | 23-01   | Capital Project Title | DCC Program - 5-year Update     |
| Capital Project Description                 | 5-year update of the DCC program.   |                       |                                 |
| Project Rationale                           | This item is for a planned review and update of the DCC Program.  |                       |                                 |

Summary Schedule  
2024 - 2028 Financial Plan

| Asset Profile  |
|--|
| <b>Saanich Peninsula Wastewater Assets</b>   |
| Construction of the Saanich Peninsula Wastewater Treatment Plant (SPWWTP) was completed in January 2000 to provide wastewater service for Central Saanich, North Saanich and Sidney, as well as the local First Nations, Victoria Airport Authority, and the Institute of Ocean Sciences Centre. Annually, the SPWWTP produces on average 3,600 tonnes of sludge which is currently hauled being treated at the Residuals Treatment Facility at Hartland. The SPWWTP heat recovery system was commissioned in February 2011 and has supplied treatment plant effluent waste heat to the Panorama Recreation Center for heating its swimming pools since then. Assets in the Saanich Peninsula Wastewater System include land, the SPWWTP and a secondary treatment plant, three pumping stations, thermal recovery and other buildings, 14 kilometres of collections and conveyance (gravity & pressure) mains, and a marine outfalls. |

See attached reserve schedules for projected annual cash flows.

## Capital Reserve Fund Schedule - SPWWTP

## Capital Reserve Fund SPWWTP - DCC Portion and Capital Reserve Portion

Bylaw 2760 established a Reserve Fund for the Saanich Peninsula Wastewater System. There are two portions in the Reserve Fund: Development Cost Charges is deposited in the DCC portion and expenditures are restricted. Surplus funds from the Operating budget are deposited to the Capital Reserve portion and expenditures provide for capital works.

## DCC Portion

Fund: 1012

Fund Center: 101356

|   | Estimated      | Budget         |                |                |                |                |

The ERF funds the replacement or repair of equipment with a service life of 15 years or less. In the past the ERF has also been referred to as a Priority Equipment Replacement Strategy (PERS). There are three individual ERF funds; Wastewater Treatment Plant (E00561), Trunk Sewers (E00562) and Saanich Peninsula Laboratory Equipment (E00586)

\* Interest in planning years nets against inflation which is not included.

Profile

Saanich Peninsula Wastewater

Starting in 2003, maintenance reserve accounts were established for operating and maintenance activities that typically do not occur annually. These maintenance activities are large expense and to and to avoid large swings in the operating budget, funds are set aside annually to undertake this maintenance. The maintenance activities are the replacement and disposal of the odour control carbon at the treatment plant approximately every 2 years, replacement and disposal of the odour control carbon at Keating Pump Station every 5 years, the regulatory inspection of the Bazan Bay marine outfall every 5 years and the cleaning and rebuild of the District Energy Sharing System heat exchanger every 5-8 years.

## **2024 BUDGET**

### **Saanich Peninsula - Stormwater Quality Management**

#### **COMMISSION REVIEW**

OCTOBER 2023

**Service:** 1.537 Saanich Peninsula - Stormwater Quality Management

**Commission:** Saanich Peninsula Waste Water

**DEFINITION:**

Establishment Bylaw No. 3642 (2009), as amended by Bylaw No. 4141 (2017), to identify pollution in stormwater run-off from land in the service area.

**SERVICE DESCRIPTION:**

The service provides a stormwater quality program in the Saanich Peninsula to coordinate and provide information for management of stormwater quality and surface water resources. The program identifies levels of contaminants in stormwater discharges and prioritizes the level of public health and environmental concern posed by the discharges and then works to reduce/eliminate the contaminants.

**PARTICIPATION:**

Districts of Central Saanich, North Saanich and Town of Sidney.

**MAXIMUM LEVY:**

Greater of \$106,017 or \$0.0103/\$1,000 of actual assessments.

**MAXIMUM CAPITAL DEBT:**

Nil

**COMMITTEE:**

Saanich Peninsula Wastewater Commission

**FUNDING:**

The apportionment of annual operating costs among the participating areas shall be on the basis of one -sixth in proportion to the population of the participating areas, one-sixth in proportion to the land area of the participating areas, one-sixth in proportion to the length of shoreline in each of the participating areas, and one-half in proportion to the number of high and medium priority discharges of stormwater to the environment in the prior year within the boundaries of each of the participating areas, as determined by the Capital Regional District Board.

**USER CHARGE:**

N/A

**Service: 1.537 Saanich Peninsula - Stormwater Quality Management**

**Commission: Saanich Peninsula Waste Water**

## **2024 BUDGET**

### **Saanich Peninsula - Source Control Stormwater**

#### **COMMISSION REVIEW**

OCTOBER 2023

**Service:** 1.538 Saanich Peninsula - Source Control Stormwater

**Commission:** Saanich Peninsula Waste Water

**DEFINITION:**

To regulate, prohibit and impose requirements in respect of discharges to the municipal stormwater system and water courses  
Bylaw No. 3906 (adopted August, 2013), amended by Bylaw No. 4140 (2016).

**SERVICE DESCRIPTION:**

The service provides a regulatory stormwater source control program in the Saanich Peninsula to manage stormwater quality in the municipal drainage systems.

**PARTICIPATION:**

Districts of Central Saanich, North Saanich and Town of Sidney.

**MAXIMUM LEVY:**

Maximum Levy: Greater of \$51,715 or \$0.005/\$1,000 of actual assessments.

**MAXIMUM CAPITAL DEBT:**

Nil

**COMMITTEE:**

Saanich Peninsula Wastewater

**FUNDING:**

The annual costs for the service, net of grants and other revenues, shall be apportioned on the basis of:

- a) The population of the participating areas; and
- b) The population estimate as determined annually by the Regional Planning Services department of the Capital Regional District.

**USER CHARGE:**

N/A

**1.538 San Pen - Source Control Stormwater**  
**Operating Reserve Summary**  
**2024 - 2028 Financial Plan**

**Profile**

**San Pen - Source Control Stormwater**

Established by Bylaw No. 4147 to enable CRD services to set aside operating funds to cover cyclical expenditures (such as legal challenges and investigations), unforeseen operating expenses, special one-time operating projects, as well as to mitigate fluctuations in revenue.

**Operating Reserve Schedule**

| Operating Reserve Schedule (Fund: 1500 / FC: 105521) | Estimate      | Budget        |               |               |               |               |

## **2024 BUDGET**

### **L.W.M.P. (Peninsula)**

#### **COMMISSION REVIEW**

OCTOBER 2023

**Service:** 3.720 L.W.M.P. (Peninsula)

**Saanich Peninsula Wastewater Commission**

**DEFINITION:**

Implementation of the Liquid Waste Management Plan for the Saanich Peninsula. Bylaw No. 2388 (1996), amended by Bylaw No. 2439 (1996) and Bylaw No. 3073 (2003)

**SERVICE DESCRIPTION:**

To manage the Saanich Peninsula Liquid Waste Management Plan (SPLWMP) and implement the commitments approved under the plan as required:

- planning, reporting, amendment preparation, implementation of commitments, biosolids management program, resource recovery development and inflow/infiltration enhancement program

**MAXIMUM LEVY:**

Greater of \$5,663,000 or \$1.56 / \$1,000 of actual assessments

**MAXIMUM CAPITAL DEBT:**

Nil

**COMMITTEE:**

Saanich Peninsula Wastewater Commission

**FUNDING:**

Requisition

**RESERVE FUND:**

Bylaw No. 4144 Operating Reserve Fund

**Service: 3.720 L.W.M.P. (Peninsula)**

**Saanich Peninsula Wastewater Commission**

|                                 | <u><b>Operating</b></u>      |
|---------------------------------|------------------------------|
| Central Saanich                 | 43.23%                       |
| North Saanich (*see note below) | 16.14%                       |
| Sidney                          | 40.63%                       |
| <b>Total</b>                    | <u><u><b>100.00%</b></u></u> |

Note:

\* North Saanich taxes all of North Saanich, including the Airport, as LWMP benefits all of North Saanich, and not just the sewer area. (March 18, 2002)

### **Harbours Environmental Actions Service - Peninsula**

#### **COMMISSION REVIEW**

OCTOBER 2023

**Service:**    **3.756 Harbours Environmental Actions Service - Peninsula**

**Committee:** **Saanich Peninsula Wastewater Commission**

**DEFINITION:**

Harbours Environmental Action Service for Saanich Peninsula support environmental stewardship on the Peninsula in response to increasing stressors on the marine environment. Establishment Bylaw No. 4391, March 10th, 2021

**SERVICE DESCRIPTION:**

The service coordinates and implement harbours, waterbodies, and watercourses environmental protection and improvement initiatives on and surrounding the Saanich Peninsula, namely Sidney, North Saanich, and Central Saanich

**PARTICIPATION:**

|                             | 2023           |
|-----------------------------|----------------|
| Sidney                      | 28.61%         |
| District of North Saanich   | 28.84%         |
| District of Central Saanich | 42.54%         |
| <b>TOTAL</b>                | <b>100.00%</b> |

**MAXIMUM LEVY:**

Greater of \$75,000 or \$0.0049 per \$1,000 of actual assessments

**MAXIMUM CAPITAL DEBT:**

## REPORT TO THE SOOKE & ELECTORAL AREA PARKS AND RECREATION COMMISSION MEETING OF TUESDAY, OCTOBER 03, 2023

**SUBJECT**      **2024 Budget Review and Approval Process – Sooke & Electoral Area Parks and Recreation Commission**

### **ISSUE SUMMARY**

This report presents the 2024-2028 Sooke & Electoral Area Parks and Recreation Commission (SEAPARC) budget for review and provisional approval.

### **BACKGROUND**

Annually, the Capital Regional District (CRD) must develop a financial plan representing the operating and capital expenditure plans for the next five years. The financial plan is developed in alignment and is consistent with the legislative authority of the various CRD services which, upon approval, provides the expenditure authority for the operations of the CRD. Final budget approval is required no later than March 31 of each year.

A preliminary budget (the provisional financial plan) is developed well before the legislated deadline of March 31 to allow service participants and local rate payers to be able to make final recommendations on proposed service levels, revenue requirements and adjustments to fees and charges prior to consideration of final approval by the CRD Board.

Under Board direction, SEAPARC is responsible for reviewing the service plan and the budget and recommending them for approval to the Board. Ultimately, the Board is responsible for the approval of all the service budgets.

### **2024 Financial Plan Approach**

The 2024 planning cycle marks the first year of implementation of the Board-approved 2023-2026 CRD Corporate Plan. Board Priorities, Corporate Plan initiatives and core service delivery form the foundation of the 2024-2028 5-Year Financial Plan. In response to a high degree of economic uncertainty, prioritization will focus on balancing cost pressures with ensuring essential core service delivery.

The budget process includes service planning to align operational service requirements and recommendations with Board strategic priorities and the Corporate Plan. Service plans drive the financial planning process and provide necessary information to evaluate overall organizational requirements, new initiatives, proposed service levels and implications for the budget and financial plan.

On May 3, 2023, the Board approved the 2024 Service and Financial Planning Guidelines. The guidelines supported financial management strategies related to revenue, reserves, and debt management.

## **2024 Financial Plan Overview**

The Financial Plan includes operating, capital, and reserve funds. The operating budget identifies the regular annual costs to operate the services. Budgeted revenues are primarily derived from sale of services, fees and charges, requisition and grants. Expenditures are determined through the application of a variety of assumptions and agreements, some of which the Board considers directly, and others that are recommended locally by participants or local service commissions. The capital expenditure plan shows the anticipated expenditures for capital projects and equipment replacement for the next five years. This plan has been informed by the SEAPARC 20-year capital plan. Over the next five years, despite increases to contributions, the capital reserve fund is maintained at an average of \$562,000. In order to proceed with a regular preventative maintenance plan, support an aging facility and still be prepared for unexpected facility projects, the target for this fund is \$1,000,000 to \$1,500,000.

The 2024 budget considers changes in service delivery, particularly increased attendance at SEAPARC Leisure Complex in direct relation to the weight room and fitness expansion project and an increase of program offerings. Cost drivers such as inflation forecasts and interest rate changes have a direct and sometimes significant impact on the overall budget and have also been considered. Items such as wages and benefits, supplies, utilities including electricity and fuel, vehicles and equipment are subject to inflationary changes that influence the cost of service delivery. Increased expense costs have largely been mitigated by projected increases in membership sales and program revenue.

The 2024 ongoing supplemental budget represents the incremental growth as we return to regular operations post-COVID and experience growth in the community. There is additional revenue generated from membership sales, drop-in admissions, new program offerings and an expanded ice rental season, which requires additional expenses for additional maintenance, reception, and program delivery staff. This also includes a new Manager of Operations position to provide project management, a comprehensive preventative maintenance schedule, workplace safety oversight, and staff recruitment and training.

Overall, every effort has been made to mitigate financial risk while still meeting the Commission's mission of making available a wide range of recreation services and maximizing participation.

## **ALTERNATIVES**

### *Alternative 1*

The Sooke & Electoral Area Parks and Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, 2024-2028 SEAPARC Budget be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

### *Alternative 2*

The Sooke & Electoral Area Parks and Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, 2024-2028 SEAPARC Budget be approved as amended and form the basis of the Final 2024-2028 Financial Plan.

## **IMPLICATIONS**

### *Financial Implications*

#### **Operating Budget**

The 2024 presentation includes a requisition increase of \$89,537 or 2.79% over the 2023 budget. While total operating costs, including transfers to reserves, increase by 14.8%, requisition funding is being held at 2.8%, below the board approved financial planning guidelines of 3.5%. To balance the operating plan, revenue from user fees and rentals are expected to increase by 42.9%, largely driven by performance in 2023. Forecasted 2023 revenue for the golf course, fitness gym and pool are nearly double the approved plan. This revenue growth is expected to continue at a more moderate rate in 2024.

#### **Capital Budget**

The 2024 capital budget is informed by the 20-year capital plan to ensure preventative maintenance, renewal and replacement is completed to ensure ongoing service to the community. The capital reserve fund is currently underfunded.

The attached 2024-2028 SEAPARC Budget in Appendix A, which includes operating and capital budgets, is provided for preliminary approval.

## **CONCLUSION**

The service and financial planning process is integral to providing ongoing service delivery. SEAPARC's service plan and budget are part of the overall planning cycle for the CRD. The attached service plan and 2024-2028 SEAPARC budget are provided for review by the Commission for approval by the CRD Board.

## **RECOMMENDATION**

The Sooke & Electoral Area Parks and Recreation Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That Appendix A, 2024-2028 SEAPARC Budget be approved as presented and form the basis of the Provisional 2024-2028 Financial Plan.

**Sooke and Electoral Area Parks and  
Recreation Commission Review**

October 2023

**Service:** 1.40X SEAPARC - Arena and Pool Facilities and Recreation

**Commission:** Sooke Electoral Area Parks & Rec

**DEFINITION:**

The service provides recreation programs and facilities under the authority of Bylaw No. 4029. This Bylaw No. 4029 was established in order to combine two Sooke and Electoral Area recreation services formerly operating under Bylaw No.152 and No.2598 respectively. Bylaw No.4029 merges the maximum requisitions from the former bylaw No.152 and No.2598 into one.

**Bylaw history for reference purposes:**

Bylaw No. 4029 (July 13, 2016; replaces Bylaw No. 152 and Bylaw No. 2598) Amended by Bylaw No. 4362 (2020)

Bylaw No. 152 (November 28, 1973); Amended Bylaw No. 195 (1975), Bylaw No. 338 (1977), Bylaw No. 412 (1977), Bylaw No. 1073 (1982), Bylaw No. 1558 (1987) and Bylaw No. 3344 (2006).

Bylaw No. 2598 (June, 1998); Amended by Bylaw No. 3345 (2006).

**SERVICE DESCRIPTION:**

A service established to provide recreational community programs, to construct, equip, operate and maintain recreation facilities including but not necessarily limited to the ice arena, the swimming pool, the golf course and multi-purpose/community use rooms, and to authorize acquisition of recreation-related real property.

**PARTICIPATION:**

The District of Sooke and the Electoral Area of Juan de Fuca (portions) are the participating area for this service. Cost apportionment is 100% by population.

**MAXIMUM LEVY:**

The greater of \$5,158,000 or \$1.60/\$1000 on the net taxable value of land and improvements.

**COMMISSION:**

Sooke and Electoral Area Parks and Recreation Commission

Established by bylaw to oversee this function. (Bylaw No. 2788 - April 2000, Amended by Bylaw No. 3242 - 2004, Bylaw No. 3416 - 2007 & Bylaw 4049 - 2015).

**CAPITAL DEBT:**

Bylaw No. 4052 - \$750,000 (for DeMamiel Golf Course Acquisition, \$660,000 issued).

Service: 1.40X SEAPARC - Arena and Pool Facilities and Recreation

Commission: Sooke Electoral Area Parks & Rec

Service: 1.40X SEAPARC

Total Expenditure

Comments

2023 Budget 4,571,130

Change in Salaries:

|                                |         |  |
|--------------------------------|---------|--|
| Base salary and benefit change | 62,806  | Inclusive of estimated collective agreement changes                |
| Step increase/paygrade change  | 5,166   |  |
| 1.0 FTE Manager                | 148,181 | IBC - 10c-2.2 Manager of Operations                                |
| Auxiliary                      | 290,353 | Additional auxiliary hours to accommodate increased service levels |
|                                |         |  |
| Total Change in Salaries       | 506,506 |  |

Other Changes:

|                              |         |  |
|------------------------------|---------|--|
| Standard Overhead Allocation | 10,629  | Increase in 2023 operating costs   |
| Human Resources Allocation   | 21,807  | Contribution towards 2024 Human Resources & Corporate Safety initiatives |
| Utilities                    | 23,348  |  |
| Reserve Transfers            | 20,000  |  |
| Other Costs                  | 90,346  |  |
|                              |         |  |
| Total Other Changes          | 166,130 |  |

2024 Budget 5,243,766

|                                     |       |
|-------------------------------------|-------|
| Summary of % Expense Increase       |       |
| 2024 Base salary and benefit change | 1.4%  |
| Service Level increase              | 6.4%  |
| New FTE                             | 3.2%  |
| Balance of increase                 | 3.7%  |
| % expense increase from 2023:       | 14.7% |

|   |      |   |
|---|------|---|
| % Requisition increase from 2023 (if applicable): | 2.8% | Requisition funding is 63% of service revenue |
|---|------|---|

Overall 2023 Budget Performance  
(expected variance to budget and surplus treatment)

There is an estimated one-time favourable variance of \$386,276 (8.4%) due mainly to increased operational revenue. This variance will be moved to Operating Reserve (\$50,000), Equipment Replacement Reserve (\$200,000) and Capital Reserve (\$ 86,276).

Service:

1.40X

SEAPARC

**Project Number** 20-09

**Capital Project Title** Domestic Hot Water Replacement

**Capital Project Description** Replacement of hot water storage tanks and update system

**Project Rationale** Service life is ended for DHW storage tanks for the arena as well as for the pool/gym. This project will replace the tanks and centralize the hot water boilers/storage in the upper mechanical room and include heat recovery.

**Project Number** 22-02

**Capital Project Title** Pool Roof Replacement

**Capital Project Description** Pool Roof Replacement

**Project Rationale** Building envelope evaluation was conducted and replacement of various sections of roofing was identified to be replaced on a multi year plan based on condition and estimated remaining life. Continuing project to ensure integrity of building envelope. Replacement of areas 4 & 4A in 2023, along with creation of 5 year workplan for pool and lobby roof.

**Project Number** 22-04

**Capital Project Title** Pool Lectronator System

**Capital Project Description** Replacement of lectronator cells

**Project Rationale** Annual replacement of lectronator cells.

**Project Number** 22-07

**Capital Project Title** Golf Course Irrigation Upgrade

**Capital Project Description** Renewal irrigation renewal

**Project Rationale** Ongoing repairs and upgrades to golf course irrigation system ensure continuity of service.

**REPORT TO ARTS COMMISSION  
MEETING OF WEDNESDAY, SEPTEMBER 27, 2023**

**SUBJECT     2024 Budget for Arts and Culture Support Service**

**ISSUE SUMMARY**

The 2024 service plan and budget for the Arts and Culture Support Service has been prepared by staff and is ready for review by the Arts Commission in preparation for presentation to the CRD Committee of the Whole and subsequent adoption by the Board.

**BACKGROUND**

On May 10, 2023, the CRD Board approved the 2024 Service Financial Planning Guidelines, which proposed to limit increases in core operations kept to 3.5% in the planning process.

In the budget recommendation for 2024, the requisition increase for the Arts and Culture Service for participating areas is \$99,962 or 3.5%, which is within the planning guideline limits (Appendix A). The total budgeted costs are \$3,208,277, an increase of \$76,240 or 2.4% over 2023. Key budget components include:

- Grants budget of \$2,738,363, an increase of \$53,693, or 2%; and
- Administrative costs of \$468,914, an increase of \$21,547, or 4.8%.
- The increase is primarily related to the new collective agreement with unionized staff pay increases, standard overhead allocation, building occupancy, human resources adjustments, and projected contract increases.

The Community Need summary sets out the service parameters for the Arts and Culture Support Service for 2024 (Appendix B). This summary includes performance targets for social and economic contributions for all the arts and recreation services. The information relevant to this service and budget is in the sections referred to, or titled as, "Arts and Culture Support Service".

The budget recommendation from the Arts Commission will be reviewed by the CRD Committee of the Whole on October 25th, 2023 as part of the provisional budget review process.

**ALTERNATIVES**

*Alternative 1*

The Arts Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That the 2024 Arts & Culture Service Support Budget be approved as presented.

*Alternative 2*

The Arts Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That the 2024 Arts & Culture Service Support Budget be approved as amended.

## **IMPLICATIONS**

### *Financial Implications*

On May 25, 2022, the Arts Commission approved the utilization of the Operating Reserve funds to support expenses related to the EDI Implementation Framework, including a doubling of the budget for Equity Grants and additional funds to support reducing barriers to access in the application and adjudication processes. As presented in this financial plan, the Operating Reserve would be drawn down by \$49,500 in 2024 to support these expenses and meet financial planning constraints.

The balance of the Operating Reserve is estimated to be \$258,472 by the end of 2024 including interest. Currently, \$40,000 of EDI initiatives are funded on a pilot basis from the Operating Reserve on an annual basis. Due to limited Operating Reserve funds, these initiatives will need to be evaluated and, depending on the results of that evaluation, incorporated into the core budget in a future year.

### *Service Delivery Implications*

The core budget will enable the Arts and Culture Support Service to continue delivering five key granting programs in 2024: Operating Grants; Project, Series and Extending Programming Grants; IDEA (Innovate, Develop, Experiment, Access) Grants; Equity Grants; and Incubator Grants. In 2023, the Arts and Culture Support Service will continue to develop and champion regional arts through convening events and workshops that champion the value of the arts and connect the region's arts communities to funding, while continuing to expand the reach of the service's robust social media channels and e-newsletter dedicated to CRD Arts.

## **CONCLUSION**

The Arts & Culture Support Service Budget for 2024 notes changes and additions in alignment with direction provided by the Commission and accommodates increases related to contract increases and internal allocations within the CRD approved Financial Planning Guidelines.

## **RECOMMENDATION**

The Arts Commission recommends the Committee of the Whole recommend to the Capital Regional District Board:

That the 2024 Arts & Culture Service Support Budget be approved as presented.

### **Arts Grants and Development**

#### **Arts Commission Review**

**Service:** 1.297 Arts Grants and Development

**Committee:** Finance

**DEFINITION:**

To establish a service for the provision of assistance in relation to the arts and culture for the purpose of benefiting the community or an aspect of the community. Bylaw No. 2884, July 3, 2001.

**SERVICE DESCRIPTION:**

CRD municipalities invest in the arts for the economic impact and employment they provide, for their contribution to the quality of life, for the provincial and national visibility arts organizations provide to the region, and for providing a wide range of educational, participatory and audience opportunities for citizens and visitors. This service provides grants for NFP arts sector organizations within the CRD. An arms length committee, the CRD Arts Advisory Council, adjudicates grant applications based on parameters and total budget limits set by the CRD Arts Committee. Operating grants provide annual, ongoing assistance to larger arts organizations that meet established criteria for artistic, organizational and financial accountability. Project grants support three types of smaller organizations: those that work on a Project-to-Project basis, new and emerging arts organizations, those undertaking special, one-time initiatives or development projects. IDEA grants encourage the development of arts programming capacity within non-arts mandated not-for-profit organizations.

**PARTICIPATION:**

Municipalities of Victoria, Saanich, Oak Bay, Esquimalt, and View Royal (Group 1 participating area) and Highlands, Metchosin, Southern Gulf Islands and Sooke (Group 2 participating area).

**MAXIMUM LEVY:**

Greater of \$1,980,000 or \$0.102 / \$1,000 for hospital assessed values of Group 1 participating area.

**MAXIMUM CAPITAL DEBT:**

N/A

**COMMISSION:**

### 03 Operating Context

#### ACHIEVEMENTS IN 2023

1. CRD Arts and Culture hosted the Arts Champions Summit on May 17, 2023 at the Baumann Centre, which gathered over 100 arts leaders and supporters to celebrate sector innovations, spark new collaborations, and collect sector feedback on community needs and opportunities.
2. After an extensive public engagement process, the CRD Arts Commission approved a new strategic plan for the Arts & Culture Support Service with a refreshed Mission and Vision for 2024-27.
3. Panorama Recreation received the BC Recreation and Parks Association's Facility Excellence Award for facilities under \$3 million, for the Jumpstart Multi Sport Court.
4. SEAPARC completed a 20-year capital plan to support asset management.

#### FACTORS THAT WILL AFFECT OUR OPERATIONS IN 2024 AND BEYOND

##### Arts

- Sustaining and increasing investment in the arts is strongly tied to local and global economic trends that affect municipalities' ability and desire to provide support.
- Many arts and cultural organizations have also demonstrated tremendous resilience, adaptability, and innovation throughout the pandemic with 84.3% of surveyed Operating and Project Grant recipients developing alternative programming, relying heavily on digital formats such as live-streaming and virtual gatherings.
- Statistics Canada reports that, on a provincial level, arts and culture work is a fast-growing economic sector. From 2010-21, the number of culture jobs in British Columbia increased by 28% and the culture sector GDP per capita increased by 7%, both are the fastest increases in Canada in those respective measures (adjusted for population growth and inflation).

##### Panorama Recreation

- COVID-19 impact on services has diminished. Registered programs have returned to pre-pandemic levels, and drop-in programs are at 91% of pre-pandemic levels as of June 2023.
- A competitive job market throughout the region continues to challenge operations and may impact service delivery.
- The Panorama Strategic Plan 2022-2026 sets the direction for the future of our services by prioritizing several infrastructure investments that will result in increased capacity and require staffing adjustments.
- Planning is underway for the construction of a covered multi-sport box in Central Saanich. This new facility will provide year-round space for lacrosse, pickleball, roller hockey, and recreation programming. Construction is expected to be complete in Winter 2025.
- Management and operations planning has begun for Panorama Recreation to assume the operation of recreation facilities for partnering areas. This may include tennis courts, pickleball courts, sports fields and programming spaces for North Saanich, Central Saanich and Sidney.
- Design work and cost analysis has begun for enhancements to arena dressing rooms and adjacent support spaces to modernize them, with a focus on equity and functionality.

### Sooke and Electoral Area Parks and Recreation (SEAPARC)

- The SEAPARC aquatic and arena facilities are aging. Financial impacts of new infrastructure to support a growing community and plans for renewal/replacement need to be balanced in the capital plan to ensure service continuity. A long-term asset management plan has been completed to inform financial planning. Climate goal considerations for recreational facilities will also have financial implications on the capital plan.
- A competitive job market throughout the region continues to challenge operations.
- Projected population growth within the District of Sooke and Juan de Fuca (JdF) Electoral Area will increase demand for recreational programs and services.
- SEAPARC will undertake a new strategic plan in 2024 to provide direction for 2025-2035.
- SEAPARC is participating in a regional initiative, under the umbrella of The Village Initiative, to improve access to local programs and opportunities for youth to assist in the prevention of crime and vandalism, while strengthening regional service coordination.

### OPERATIONAL STATISTICS

#### Arts

1. In 2022, the CRD Arts and Culture delivered **six granting intakes for five different granting programs**: Operating Grants, Projects Grants (two intakes), IDEA Grants, Equity Grants, and Incubator Grants.
2. In 2022, the six granting intakes received a combined total of **119 applications**, which are reviewed by staff and adjudicated through assessment teams of the Arts Advisory Council.
3. In 2022, a record-high **95 of these applicants received funding** through these grant programs.
4. In terms of outreach capacity, in 2022, the CRD Arts and Culture e-newsletter grew to over **800 subscribers** who receive information about launches of grant programs, information sessions, and other notifications about opportunities in the arts sector in the capital region.
5. Performance, in terms of outcomes, is measured against social and economic indicators as outlined in Section 6.

## 04 Services

*The services listed below rely on the support of several corporate and support divisions to operate effectively on a daily basis. More information about these services is available in the Corporate Services and Government Relations Community Need Summaries.*

### Arts

#### SERVICE BUDGET REFERENCES<sup>1</sup>

- › 1.290 Royal Theatre
- › 1.295 McPherson Theatre

#### 1. ARTS & CULTURE SUPPORT SERVICE

##### Description

Supports, champions and develops arts and cultural activities for the benefit of the community through funding programs and outreach activities.

##### What you can expect from us

- ▶ Deliver five granting programs: Operating Grants, Project Grants, IDEA (Innovate, Develop, Experiment, Access) Grants, Equity Grants, and Incubator Grants.
- ▶ Provide support to organizations on not-for-profit structure, governance, and capacity development in general and as it relates to Arts Service programs.
- ▶ Provide support to Arts Commission by maintaining accountable processes for allocation of program budgets.
- ▶ Respond to inquiries on funding (CRD and other sources) within three business days.
- ▶ Collect data about trends and impact of arts and culture for internal use and for dissemination to arts communities.
- ▶ Manage publically available online database of regional public art.
- ▶ Connect and facilitate dialogue within the regional arts community and with CRD through biennial summit, social media presence, e-newsletter, and funding application workshops.

##### Staffing Complement

Arts & Culture Support Service: **2.8 FTE (includes 0.8 FTE Manager and 1 FTE Administrative Support)**

<sup>1</sup> Service budget(s) listed may fund other services

### 2. THE MCPHERSON PLAYHOUSE SERVICE

#### Description

Contribution agreement for the municipal support of the theatre.

#### What you can expect from us

- ▶ Provides capital and operational support for pleasure, recreation and community uses related to the McPherson Playhouse Theatre

#### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

---

### 3. THE ROYAL THEATRE SERVICE

#### Description

Contribution agreement for the municipal support of the theatre.

#### What you can expect from us

- ▶ Provides capital and operational support for pleasure, recreation and community uses related to the Royal Theatre.

#### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

### Panorama Recreation

#### SERVICE BUDGET REFERENCES<sup>2</sup>

- › 1.44X Panorama Recreation Centre

---

### 3. PENINSULA RECREATION

#### Description

Provides recreational programming and maintains recreational facilities in North Saanich. Peninsula Recreation also operates satellite locations, including Greenglade Community Centre, Central Saanich Cultural Centre and North Saanich Middle School. Greenglade Community Centre has become a valuable asset for the delivery of recreation programs and services.

#### What you can expect from us

For Panorama Recreation Centre, administration of the delivery of programs and services for:

- ▶ Two arenas
- ▶ An indoor swimming pool and indoor leisure pool with the tallest, wheelchair-accessible waterslide in the region
- ▶ Four indoor tennis courts, two outdoor tennis courts and squash and racquetball courts
- ▶ Weight room and fitness studio
- ▶ Three small multi-purpose rooms
- ▶ A 13,200 square foot outdoor Jumpstart Multi Sport Court

For Greenglade Community Centre, amenities include:

- ▶ Gymnasium
- ▶ Activity rooms for program use
- ▶ Pottery studio
- ▶ Weight and fitness room, mind and body studio and dance studio
- ▶ Teen lounge and sports fields
- ▶ Licensed childcare
- ▶ Community Garden

For North Saanich Middle School, operating agreement with Saanich School District 63 for the use of facility spaces outside of school hours to deliver programs and services:

- ▶ Gymnasium
- ▶ Multipurpose room
- ▶ Multipurpose dance/fitness studio
- ▶ Foods and textiles room

---

<sup>2</sup> Service budget(s) listed may fund other services

For Central Saanich Cultural Centre, operating agreement with Central Saanich for the use of:

- ▶ Two activity rooms for program use

### Staffing Complement

Panorama Recreation: **36.85 FTE (includes Manager and Administrative Support)**

## SEAPARC

### SERVICE BUDGET REFERENCES<sup>3</sup>

- › 1.40X SEAPARC – Facilities & Recreation

### 4. SEAPARC

#### Description

Provides recreational programming and maintains recreational facilities with a focus on the citizens of the District of Sooke and the JdF Electoral Area.

#### What you can expect from us

Administration of:

- ▶ Ice arena/dry floor
- ▶ Aquatic center
- ▶ Community recreation programs
- ▶ Facility and grounds maintenance
- ▶ Program, multi-purpose and boardroom spaces
- ▶ Slo-pitch field and baseball diamond
- ▶ Bike park
- ▶ Skateboard park
- ▶ Joint Use Agreement with School District 62
- ▶ Community Events
- ▶ Multi-use trail
- ▶ DeMamiel Creek golf course
- ▶ Fitness studio and programs
- ▶ Weight Room
- ▶ Outdoor sport box

### Staffing Complement

SEAPARC: **19.1 FTE (includes Manager and Administrative Support)**

---

<sup>3</sup> Service budget(s) listed may fund other services

## 05 Initiatives

Below are the initiatives listed in the [Capital Regional District 2023-2026 Corporate Plan](#) and the related initiative business cases (IBCs), including financial and staffing impacts, proposed for 2024. The financial impacts reflect full program costs, including cost of staffing.

| Initiative  | Implementation year(s) | Impacts in 2024           |                            |
|---|------------------------|---------------------------|----------------------------|
| 10a-1 Develop and implement a revised Arts & Culture Support Service Strategic Plan   | 2023-2026              | -                         | -                          |
| 10b-1 Scale up regional participation in the CRD Arts & Culture Support Service   | 2026                   | -                         | -                          |
| 10b-2 Scale up regional support for performing art facilities within the region   | 2026                   | -                         | -                          |
| 10c-1 Consider service expansions to address gaps and opportunities, as they emerge   | Ongoing                | -                         | -                          |

## 06 Performance

### GOAL 10A: SUPPORT, CHAMPION & DEVELOP THE ARTS

#### Targets & Benchmarks

Through funding programs and other activities, the Arts & Culture Support Service amplifies the contribution that arts organizations make to economic sustainability, community vitality and quality of life across the region and their role in providing a wide range of activities for citizens and visitors.

#### Measuring Progress

| Ref                         | Performance Measure(s)                                 | Type     | 2022 Actual | 2023 Forecast | 2024 Target | Desired trend |
|-----------------------------|--|----------|-------------|---------------|-------------|---------------|
| <b>Social Contributions</b> |  |          |             |               |             |               |
| 1                           | Total number of CRD-funded events <sup>1</sup>         | Quantity | 11,000      | 12,000        | 12,500      | ↗             |

<sup>5</sup> Data from 2021 Arts & Culture Progress Report

<sup>6-7</sup> Data from Statistics Canada based on forecasts from Cultural Satellite Account

#### Discussion

##### Social Contributions

1. The number of events and workshops rose sharply in 2022, due to the restarting of in-person events in 2022 after COVID-19 restrictions were lifted in late 2021.
2. 2022 saw pent-up demand for in-person attendance increasing as soon as event and gathering restrictions were loosened.

3. In 2022, the number of grants distributed was similar to the previous year, which was an all-time high.
4. CRD Arts and Culture conducts promotion of its programs and targeted outreach to eligible organizations, all in an effort to enlarge the pool of grant applicants. Funding more first-time applicants is an effective method of diversifying the variety of arts projects activated and audiences engaged.

### Economic Contributions

5. Total arts grant funding has remained consistent throughout the pandemic and continues to have modest increases in 2023.
6. The most recent GDP data from Statistics Canada is from 2020, which shows the pandemic pullback in activity. With the restart of arts activities in 2021 and 2022, it is expected that GDP will rebound to prior levels at minimum.
7. The most recent jobs data from Statistics Canada is from 2020, which shows the impact of the COVID-19 pullback in economic activity. The long-term trend, however, has been a continued increase in culture jobs.

## GOAL 10B: SUSTAIN & ENHANCE ARTS THROUGHOUT THE REGION

### Targets & Benchmarks

1. To scale up participation in the Arts and Culture Support Service will require new jurisdictions to join this service.
2. To scale up support for performing arts facilities would require more funding, which could be pursued through multiple methods, including through existing services.

### Measuring Progress

| Ref | Performance Measure(s)   | Type     | 2022 Actual | 2023 Forecast | 2024 Target | Desired trend |
|-----|--|----------|-------------|---------------|-------------|---------------|
| 1   | Increase the number of participants in the Arts and Culture Support Service <sup>1</sup> | Quantity | 9           | 9             | 10          | ↗             |
| 2   | Increase the support available for performing arts facilities (\$M)                      | Quantity | \$1.33      | \$1.33        | \$1.38      | ↗             |

<sup>1</sup> Currently there are nine participating jurisdictions in this service.

### Discussion

1. The ability to add participants to this service is dependent on external factors, namely the interest level of willingness of non-participating jurisdictions to join the service through the council consent process.
2. The ability to increase support to the Royal Theatre and McPherson Playhouse is also dependent on external factors, namely that current participants support amending bylaws to remove the current fixed maximum contribution amount.

## **GOAL 10C: AFFORDABLE RECREATION OPPORTUNITIES THAT IMPROVE LIVABILITY – PANORAMA RECREATION**

### Targets & Benchmarks

The metrics reflect attendance and overall success of programs and services, which show that what is offered to the community meets its needs and is affordable.

### Measuring Progress

| Performance Measure(s)  | Service                                    | Type     | 2022 Actual | 2023 Forecast | 2024 Target |

|   | Weights                                    | Quantity | 98,762      | 148,557       | 187,206     |
|   | Sports                                     | Quantity | 2,084       | 6,252         | 8,025       |
|   | Community Recreation                       | Quantity | 4,239       | 4,271         | 4,280       |
| <b>3 Increase new program offerings and maximize revenue <sup>4</sup></b>                       | New program offerings <sup>5</sup>         | Quality  | 45          | 30            | 35          |
|   | Registered programs revenue <sup>6</sup>   | Quantity | \$1,833,424 | \$1,988,967   | \$1,910,850 |
|   | Admissions – single admission <sup>7</sup> | Quantity | \$352,050   | \$417,288     | \$346,812   |
|   | Admissions – punch pass <sup>8</sup>       | Quantity | \$724,918   | \$943,318     | \$1,172,045 |

<sup>1</sup> Proportion of registered programs offered to the public that proceed, as minimum registration levels have been met. Calculated by programs that run divided by programs offered. Data from recreation software Activity Registration Summary.

<sup>2</sup> Average participation rate of courses, as a percentage of maximum course capacity reached, on average across all programs. Calculated by number of participants registered divided by the maximum capacity of the program. Data from recreation software Activity Registration Summary.

<sup>3</sup> Total annual visitors to drop-in reservable programs given capacity and staffing limitations; data from recreation software Daily Attendance Report – Date Range.

<sup>4</sup> Data from recreation software General Ledger, Activity Registration report and program coordinators.

<sup>5</sup> New program is defined as a program not offered in the prior year.

<sup>6</sup> Revenue generated by registration in programs.

<sup>7</sup> Revenue generated by single admission purchase.

<sup>8</sup> Revenue generated by punch pass and timed pass purchases.

### Discussion

**Metric 1:** Course participation has been added as an additional benchmark for Metric 1. Course participation reflects how full courses are on average, based on the number of participants registered relative to the total spaces available.

A target participation rate of 85% represents service delivery, which balances diversity of programming, alignment with community need, and financial sustainability.

**Metric 2:** Attendance continues to recover to pre-pandemic levels. June 2023 attendance is at 91% of June 2019, up from 77% in 2022.

**Metric 3:** The Lifesaving Society Swim for Life program was adopted in 2022 to replace the Canadian Red Cross program, which was phased out across Canada in 2022. The implementation of this program in 2022 led to a higher number of new programs than anticipated.

Licensed childcare program revenue is reduced from 2022 and 2023 as a result of increased funding from Child Care Operating Fund (CCOF) for Fee Reduction Initiative which directly reduces the fees paid by the public. The decrease in program revenue is reflected in a comparable increase in grant funding revenue. Projected CCOF funding for 2024 is \$229,270.

## GOAL 10C: AFFORDABLE RECREATION OPPORTUNITIES THAT IMPROVE LIVABILITY – SEAPARC

### Targets & Benchmarks

The metrics reflect attendance and overall success of programs and services, which show that what is offered to the community meets its needs and is affordable.

### Measuring Progress

| Performance Measure(s)   | Service                                    | Type     | 2022 Actual | 2023 Forecast | 2024 Target |
|--|--|----------|-------------|---------------|-------------|
| <b>1 Deliver fitness programs and service that meet community need and recover operation investment <sup>1</sup></b> | Fitness/Weights admissions                 | Quantity | \$22,838    | \$57,000      | -           |
|  | Membership sales                           | Quantity | \$289,258   | \$431,000     | -           |

|  | Weights                                    | Quantity | 26,421      | 45,000        | 47,250      |
|  | Golf                                       | Quantity | 18,800      | 22,000        | 22,500      |
|  | Community Recreation                       | Quantity | 1,024       | 1,900         | 2,000       |
|  |  |          |             |               |             |
| <b>6 Increase new program offerings and maximize revenue</b>   | New program offerings <sup>6</sup>         | Quality  | 24          | 17            | 15          |
|  | Registered programs revenue <sup>7</sup>   | Quantity | \$346,524   | \$472,000     | \$522,000   |
|  | Admissions – single admission <sup>8</sup> | Quantity | \$226,600   | \$364,000     | \$400,500   |
|  | Membership revenue - general <sup>9</sup>  | Quantity | \$219,796   | \$350,000     | \$399,250   |
|  | Membership revenue – golf <sup>10</sup>    | Quantity | \$69,462    | \$81,000      | \$85,000    |

<sup>1</sup> Fitness & weight room admission revenue and revenue from all membership sales.

<sup>2</sup> User funding or tax investment (without debt).

<sup>3</sup> Total registered programs revenue (gross revenue) generated by registration in community recreation programs; data from recreation software General Ledger

<sup>4</sup> Proportion of registered programs offered to the public that proceed, as minimum registration levels have been met. Calculated by programs that run divided by programs offered. Data from recreation software Activity Registration Summary.

<sup>5</sup> Total annual visits to drop-in programs by program area. Data from Membership Pass Scan report, Drop-in Sales report and Activity Registration Summary report.

<sup>6</sup> Data from recreation software General Ledger, Activity Registration report and program coordinators. New program is defined as a program not offered in the prior year.

<sup>7</sup> Total revenue generated by registration in programs. Data from General Ledger.

<sup>8</sup> Revenue generated by single admission purchase, including golf. Data from General Ledger.

<sup>9</sup> Revenue recognized from SEAPARC membership pass sales (excludes golf). Data from General Ledger.

<sup>10</sup> Revenue recognized from golf membership pass sales. Data from General Ledger.

### Discussion

**Metric 1:** The weight room and fitness classes have returned to drop-in operations post-COVID and fitness class offerings have increased. This has resulted in a trend of increased admissions and membership pass sales. Membership sales increase may also be supported by population growth. These metrics will be discontinued in 2024 and replaced with Metrics 5 & 6.

**Metric 2:** The projected increase in membership sales will contribute to an increase in proportion of user funding as there is generally only a small increase in expense associated with drop-in services.

**Metric 3:** A return of the licensed preschool program in 2022 and continuing through 2023 is the main factor in the increase in community recreation revenue.

**Metric 4:** The goal is to be responsive to community needs by offering desired programs, contributing to a high success rate. Each season program coordinators evaluate the success of programs and discontinue or adjust those that have a pattern of being cancelled and try out new programs based on feedback>

**Metric 5 & 6:** This metric reflects current trends with increased admission, membership and registered program revenue, as well as increased fees as approved in the fees & charges bylaw. The trend is particularly strong with the weight room and fitness, with quickly increasing demand for these services.

## REPORT TO THE ROYAL & MCPHERSON THEATRES SERVICES ADVISORY COMMITTEE MEETING OF WEDNESDAY, OCTOBER 04, 2023

---

**SUBJECT**     **2024 Budget for the Royal Theatre Service and the McPherson Playhouse Service**

### **ISSUE SUMMARY**

The Royal and McPherson Theatres Services Advisory Committee (RMTSAC) oversees the operating and capital contributions provided to the Royal and McPherson Theatres Society for the Royal Theatre through service Bylaw No. 2587 and the McPherson Playhouse through service Bylaw No. 2685.

### **BACKGROUND**

The bylaws governing the theatre services specify a contribution of up to \$580,000 for the Royal Theatre (supported by the participating jurisdictions Oak Bay, Saanich, and Victoria) and \$750,000 for the McPherson Playhouse (supported by the participating jurisdiction of Victoria). Historically the contribution to both theatres has been approved at the maximum amount.

The Capital Regional District (CRD) provides these contributions, along with management agreements, to the Royal and McPherson Theatres Society (RMTS), a non-profit organization of theatre management professionals established for the purpose of operating and leading building improvements for the Royal Theatre and McPherson Playhouse. Each year RMTS is required to provide audited financial statements to the CRD as part of their reporting requirements (Appendix A).

These recommendations are based on the current bylaws for these subregional services. Currently amending Bylaw No. 4560 for the Royal Theatre Service and amending Bylaw No. 4561 for the McPherson Playhouse Service have been distributed for council consent. The timeline for receiving the results of this process is unknown at this time, as it is dependent on when participating jurisdictions consider the matter at their respective councils and then notify the CRD of the results of their deliberations.

The RMTSAC reports to the Finance Committee, which does not meet before the consideration of the provisional budget on October 25. Input from RMTSAC on budget levels will flow through the Finance Committee to be considered as part for the final budget package.

### **IMPLICATIONS**

#### *Financial Implications*

In addition to operational expenses, RMTS has also planned approximately \$1.2 million in building improvement capital expenses in 2024 for necessary repairs and upgrades. These improvements include building envelope repairs at the Royal Theatre and upgrades to the audio and lighting systems at the McPherson Playhouse (see Appendix B and C for full list of capital projects). RMTS collects a building improvement fee as part of its ticket sales and those proceeds also assist in funding capital projects.

Increasing support for these facilities is noted as a goal in the Community Needs Summary for CRD Arts and Recreation (Appendix D, page 11).

### *Service Delivery Implications*

Notably, RMTS supported the presentation of the largest-ever production at the Royal Theatre in May 2023, the musical *Come From Away*, which sold out many shows and contributed to 39,568 total attendees in a single month (across both theatres), a record-high. This achievement demonstrates agile leadership and pent-up audience demand for high-quality presentations.

In 2024, high inflation continues to degrade the purchasing power of the fixed contribution amounts to the Royal Theatre and McPherson Playhouse. RMTS has indicated that it may need to program more commercial shows, which generate higher rental fees and shared revenue than community non-profit shows, to remain financially sustainable.

### **CONCLUSION**

Annual funding of the Royal Theatre through Bylaw No. 2587 and for the McPherson Playhouse through Bylaw No. 2685 are part of the budget approval process. The Royal and McPherson Theatres Society has provided audited financial statements, and Five-Year capital plans for the Royal Theatre and McPherson Playhouse to provide more context and rationale for the CRD contribution levels.

### **RECOMMENDATION**

The Royal and McPherson Theatres Services Advisory Committee recommends the Finance Committee recommend to the Capital Regional District Board:

1. That the maximum allowable contribution amount of \$580,000 be approved for the Royal Theatre Service; and
2. That the maximum allowable contribution amount of \$750,000 be approved for the McPherson Playhouse Service.

## INDEPENDENT AUDITOR'S REPORT

*To the Members of The Royal and McPherson Theatres Society*

### Report on the Audit of Financial Statements

#### ***Opinion***

We have audited the financial statements of The Royal and McPherson Theatres Society (the Society), which comprise:

- the statement of financial position as at December 31, 2022
- the statement of operations and changes in fund balances for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements, present fairly, in all material respects, the financial position of the Society as at December 31, 2022, and its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### ***Basis for Opinion***

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditor's Responsibilities for the Audit of the Financial Statements***" section of our Auditor's report.

We are independent of the Society in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Society's financial reporting process.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Society's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Society to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit

### **Report on Other Legal and Regulatory Requirements**

As required by the Societies Act (British Columbia), we report that, in our opinion, the accounting policies applied in preparing and presenting the financial statements in accordance with Canadian public sector accounting standards have been applied on a basis consistent with that of the preceding year.

A handwritten signature in black ink that reads 'KPMG LLP'. The signature is written in a cursive, stylized font and is underlined with a single horizontal stroke.

# THE ROYAL AND MCPHERSON THEATRES SOCIETY

## Notes to Financial Statements

Year ended December 31, 2022

---

The Royal and McPherson Theatres Society (the “Society”) operates and manages the McPherson Playhouse on behalf of the City of Victoria (the “owner”) and Royal Theatre on behalf of the Capital Regional District (the “owner”). The Society was incorporated under the Society Act of British Columbia on March 3, 1977 and transitioned into the new Societies Act (British Columbia) on June 28, 2017. The Society is a registered charity under the Income Tax Act and accordingly is exempt from income taxes, provided certain requirements of the Income Tax Act are met.

### 1. Significant accounting policies:

#### (a) Basis of presentation:

The financial statements have been prepared by management in accordance with Canadian Public Sector Accounting Standards including the standards for government not-for-profit organizations. The following is a summary of the significant accounting policies used in the preparation of the financial statements.

#### (b) Fund accounting:

Revenue and expenses related to operating the McPherson Playhouse are reported in the McPherson Playhouse Operating Fund. Revenue and expenses related to operating the Royal Theatre are reported in the Royal Theatre Operating Fund. The Capital Asset Fund reports the revenue and expenses on capital assets owned by the Society.

The McPherson Playhouse Capital Fund and the Royal Theatre Capital Fund report revenue and expenses related to capital expenses at the McPherson Playhouse and the Royal Theatre respectively. Building and other capital costs are not recorded as assets because the Society is the manager and not the owner of these venues. Fundraising amounts and capital expenses, relating to these facilities, are recorded as revenue and expenses in these funds.

The McPherson Playhouse Operating Reserve Fund and the Royal Theatre Operating Reserve Fund report assets held for the purpose of supporting day-to-day operations and managing risk associated with unforeseen shortfalls or disruption.

Donations are reported in the appropriate fund designated by the donor.

#### (c) Cash and cash equivalents:

Cash and cash equivalents include highly liquid investments with terms to maturity of three months or less at the date of purchase.

# THE ROYAL AND MCPHERSON THEATRES SOCIETY

## Notes to Financial Statements

Year ended December 31, 2022

---

### 1. Significant accounting policies (continued):

#### (d) Capital assets:

Purchased capital assets owned by the Society are recorded in the capital fund at cost. Contributed assets are recorded in the capital fund at estimated fair value at the date of the contribution. Amortization is provided on a straight-line basis over the assets' estimated useful lives. Pianos are amortized over 25 years, box office ticketing enterprise system and website over 10 years, furniture and equipment over 5 years and office leasehold improvements over 10 years. Building and leasehold improvements, including stage and front of house equipment, are shown as expenses within the appropriate capital fund and not capitalized, as the benefit of the asset accrues to the owner.

#### (e) Revenue recognition:

The Society follows the deferral method of accounting for contributions. Restricted contributions are deferred and recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue of the appropriate fund when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Revenue from production recoveries, box office, and theatre rentals are recognized once the event has occurred.

Restricted investment income is recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. Unrestricted investment income is recognized in the appropriate operating fund when earned.

#### (f) Allocations:

Certain operations of the operating funds are conducted jointly. Revenue and expenses, which are not directly attributable to either operating fund, are allocated equally between the funds.

#### (g) Contributed services:

The Society receives certain benefits from volunteers. Due to the difficulty in determining their fair value, contributed services are not recognized in the financial statements.

#### (h) Financial instruments:

Financial instruments are recorded at fair value on initial recognition and are subsequently recorded at cost or amortized cost unless management has elected to carry the instruments at fair value. Management has not elected to record any financial instruments at fair value.

# THE ROYAL AND MCPHERSON THEATRES SOCIETY

## Notes to Financial Statements

Year ended December 31, 2022

### 1. Significant accounting policies (continued)

#### (i) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Items requiring the use of estimates include amortization of capital assets, valuation of gift certificate liabilities and the collectability of accounts receivable. Actual results could differ from these estimates.

### 2. Investments:

Investments consist of bankers' acceptances and term deposits bearing interest at rates varying between 0.80% and 4.50% and maturity dates varying between 90 days and up to three years. It is the Society's intention to hold these assets on a long-term basis.

### 3. Capital assets:

| 2022   |              |                          |                |

# THE ROYAL AND MCPHERSON THEATRES SOCIETY

## Notes to Financial Statements

Year ended December 31, 2022

### 5. Internally restricted fund balances:

The Society levies a user fee for all patrons attending performances at each theatre. The Board has internally restricted these resources to be expended subject to certain restrictions. These funds are transferred from the operating funds to the corresponding capital fund. In 2022, the Society transferred user fees totaling \$54,854 (2021 - \$8,930) to the McPherson Playhouse Capital Fund and \$176,416 (2021 - \$35,872) to the Royal Theatre Capital Fund respectively.

In 2019, the Society formally established the McPherson Playhouse Operating Reserve Fund and the Royal Theatre Operating Reserve Fund. The purpose of these Funds is to hold sufficient reserves to help ensure the operational stability and resilience of the Society. The Board has internally restricted these funds to be expended subject to certain restrictions. In 2019, the Society transferred \$505,202 from the McPherson Playhouse Operating Fund and \$1,131,211 from the Royal Theatre Operating Fund to establish the Reserve Fund balances. In 2022, the Society transferred \$85,464 (2021 - \$117,010) from the McPherson Playhouse Reserve Fund to the McPherson Playhouse Operating Fund and \$301,719 from the Royal Theatre Operating Fund to the Royal Theatre Reserve Fund (2021 - \$385,975 from the Royal Theatre Reserve Fund to the Royal Theatre Operating Fund.)

### 6. Net change in non-cash working capital:

|  | 2022                | 2021                |
|--|---------------------|---------------------|
| Accounts receivable decrease (increase)                      | \$ 116,712          | \$ (40,216)         |
| Due from Capital Regional District decrease (increase)       | (2,215)             | (24,861)            |
| Inventory decrease (increase)                                | (3,413)             | (8,505)             |
| Prepaid expenses decrease (increase)                         | (23,011)            | (39,734)            |
| Accounts payable and accrued liabilities increase (decrease) | (42,398)            | 173,124             |
| Deferred revenue increase (decrease)                         | (16,035)            | (21,265)            |
| Deferred ticket sales increase (decrease)                    | 2,239,014           | 1,636,677           |
|  | <u>\$ 2,268,654</u> | <u>\$ 1,675,220</u> |

### 7. Financial risks and concentration of credit risk:

It is management's opinion that the Society is not exposed to significant interest, currency or credit risks.

Liquidity risk is the risk that the Society will not be able to meet its financial obligations as they become due. The Society uses budgets to monitor actual and forecasted cash flows to ensure operations are within resources available and sufficient cash is generated to sustain operations. Liquidity risk is mitigated in part by maintaining adequate working capital and sufficient fund balances. It is management's opinion that the exposure to liquidity risk has reduced from 2021.

# THE ROYAL AND MCPHERSON THEATRES SOCIETY

## Notes to Financial Statements

Year ended December 31, 2022

---

### 8. Pension plan:

The Society and its employees contribute to the Municipal Pension Plan (the Plan), a jointly trustee pension plan. The board of trustees, representing plan members and employers, is responsible for administering the Plan, including investment of the assets and administration of benefits. The Plan is a multi-employer defined pension plan. Basic pension benefits provided are based on a formula. As at December 31, 2021, the Plan has about 227,000 active members and approximately 118,000 retired members. Active members include approximately 30 contributors from the Society.

Every three years, an actuarial valuation is performed to assess the financial position of the plan and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plan. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plan. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent actuarial valuation as at December 31, 2021 indicated a \$3,761 million funding surplus for basic pension benefits on a going concern basis. The next valuation will be as at December 31, 2024 with the results available in 2025.

Employers participating in the Plan record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the Plan records accrued liabilities and accrued assets for the Plan in aggregate resulting in no consistent and reliable basis for allocating the obligation, assets and cost to the individual employers participating in the Plan.

The Society paid \$141,216 (2021 - \$106,739) for employer contributions to the Plan in fiscal 2022.

### 9. Remuneration paid to Directors, Employees and Contractors:

Under the British Columbia Societies Act, the Society is required to disclose in the annual financial statements all remuneration paid to directors and the annual remuneration paid to employees and contractors receiving greater than \$75,000.

For the fiscal year ending December 31, 2022, the Society paid total remuneration of nil (2021 - nil) to directors. The Society paid \$931,659 to 10 employees (2021 - \$379,326 to four employees) for services, each of whom received total annual remuneration of \$75,000 or greater. No contractors were paid a total annual remuneration of \$75,000 or greater in either 2022 or 2021.

Year ended December 31, 2022

### 10. Commitments:

The Society is committed to an operating lease agreement for office premises from April 2019 to March 2024, with an option to renew for a further term of five years. Future minimum lease payments until renewal are as follows:

|      |           |
|------|-----------|
| 2023 | \$ 48,166 |
| 2024 | 12,119    |

### 11. Government COVID-19 subsidies

The Society received the following subsidies which have been included in revenue of the McPherson Playhouse and Royal Theatre Operating funds:

|   | 2022       | 2021       |
|---|------------|------------|
| Canada Emergency Wage Subsidy (CEWS)                            | \$ -       | \$ 381,911 |
| Canada Emergency Rent Subsidy (CERS)                            | -          | 43,129     |
| Tourism and Hospitality Recovery Program (THRP)<br>Wage Subsidy | 234,612    | 76,184     |
| Tourism and Hospitality Recovery Program (THRP)<br>Rent Subsidy | 13,682     | 4,824      |
|   | \$ 248,294 | \$ 506,048 |

## **2024 BUDGET**

### **Royal Theatre**

#### **Royal and McPherson Theatres Services Advisory Committee Review**

October 2023

**Service:** 1.290 Royal Theatre

**Committee:** Finance

**DEFINITION:**

The function of purchasing, maintaining, equipping, operating and selling the Royal Theatre in Victoria to the Capital Regional District. The function is for the purpose of pleasure, recreation and community use and includes all facilities and concessions associated with the Royal Theatre and a parking lot. Local Services Establishment Bylaw No. 2587, March 25, 1998.

**SERVICE DESCRIPTION:**

This is a service to provide funding for the support of the Royal Theatre in the City of Victoria as a community centre of art and education. Ownership was transferred to the CRD in 1998. The service operates under an agreement with the Royal and McPherson Theatres Society Board who manage the theatre in return for financial support.

**PARTICIPATION:**

City of Victoria, District of Saanich, and District of Oak Bay, apportioned 50% on converted value of land and improvements and 50% on the basis of population (see bylaw for details).

**MAXIMUM LEVY:**

|                               |           |
|-------------------------------|-----------|
| Capital Expenditures          | \$480,000 |
| Annual Operating Expenditures | \$100,000 |

Note: Grants in Lieu of Taxes paid to the Regional District will be held to the credit of the participant.

**MAXIMUM CAPITAL DEBT:**

NIL

**COMMISSION:**

Royal and McPherson Theatre Society reporting to a sub-committee of the Finance Committee.

**FUNDING:**

### **McPherson Theatre**

#### **Royal and McPherson Theatres Services Advisory Committee Review**

**Service:** 1.295 McPherson Theatre

**Committee:** Finance

**DEFINITION:**

A local service established for the purpose of purchasing, maintaining, equipping and operating the McPherson Playhouse in Victoria, British Columbia. Local Services Establishment Bylaw No. 2685, March 10, 1999.

**SERVICE DESCRIPTION:**

This is a service to provide funding for the support of the McPherson Theatre in the City of Victoria. The building is owned by the City of Victoria. The service operates under an agreement with the Royal and McPherson Theatres Society Board who manage the theatre in return for financial support. This building operation was transferred to the CRD for ease of administration with the Royal & McPherson Theatres Society and to recognize the benefits of one organization operating the two theatres (one ticket system, ability to move acts between if financially beneficial, etc.)

**PARTICIPATION:**

The City of Victoria is the only participant.

**MAXIMUM LEVY:**

The maximum amount that may be requisitioned under section 816(1) of the Municipal Act (Section 803 of the Local Government Act) for the annual cost of the local service will be:

- (a) for capital expenditures including but not limited to, the renovation, reconstruction or rebuilding of a performing arts theatre, machinery and equipment, reserve fund transfer and annual debt servicing payments. The maximum amount will be \$400,000.
- (b) for annual operating expenditures which may also include expenditures of a nature referred to in (a) above, the maximum amount will be \$350,000.

**MAXIMUM CAPITAL DEBT:**

None

**COMMISSION:**

Royal and McPherson Theatre Society reporting to a sub-committee of the Finance Committee.

**FUNDING:**

Service:

1.295

McPherson Theatre

**Project Number** 21-13

**Capital Project Title** Repair Building Envelope and Restore Façade

**Capital Project Description** Repair building envelope and restore façade

**Project Rationale** Flagged as immediate priority in McPherson Playhouse – Building Envelope Assessment Report prepared for the CRD Dec. 8, 2020 by Stantec Architecture Ltd. Repairing building envelope will ensure the 1913 structure will remain stable and will reduce energy consumption. Restoring the 1913 façade will include point work on the bricks, gutter replacement and refinishing the fiberglass stonework around the historic wooden doors.

**Project Number** 22-06

**Capital Project Title** Recoating of Fibreglass Façade

**Capital Project Description** Recoating of fibreglass façade

**Project Rationale** Flagged as immediate priority in McPherson Playhouse – Building Envelope Assessment Report prepared for the CRD Dec. 8, 2020 by Stantec Architecture Ltd. Recoating the fibreglass façade will reduce shredding and breaking down.

**Project Number** 22-07

**Capital Project Title** Repair Stand-alone canopies

**Capital Project Description** Repair stand-alone canopies

**Project Rationale** As indicated in the 2022 McPherson Playhouse Detailed Seismic Assessment by Stantec Consulting Ltd., develop plan to remove concrete roof slabs and replace with a lightweight steel structure which will reduce seismic weight of the canopies by 80%.

**Project Number** 24-01

**Capital Project Title** Emergency Repairs

**Capital Project Description** For Unforeseen Emergency Repairs

**Project Rationale** Capital funds to accommodate any emergency repairs to the building.

Service:

1.295

McPherson Theatre

**Project Number** 24-02

**Capital Project Title** Replace Architectural Detail Lighting

**Capital Project Description** Replace tungsten and quartz architectural lights with LED technology

**Project Rationale** Replace tungsten and quartz architectural lights with LED fixtures for reduced heat load, reduced electrical consumption and brighter, higher quality of light for patron comfort and safety in the audience chamber

**Project Number** 24-03

**Capital Project Title** Install Loading Bay Safety Lighting

**Capital Project Description** Install new loading bay safety lighting

**Project Rationale** Install new safety lighting for loading and unloading to the McPherson stage. The City of Victoria bike lane install has altered the location that the majority of the stage crew work when loading trucks and there is no safety lighting in this area.

**Project Number** 24-04

**Capital Project Title** Wireless Microphone Expansion Project

**Capital Project Description** Expand wireless microphone inventory

**Project Rationale** Expanding the inventory of wireless microphones to meet the service level requirements of clients.

**Project Number** 24-05

**Capital Project Title** Remove Concrete Canopies

**Capital Project Description** Remove concrete canopies

**Project Rationale** As indicated in the 2022 McPherson Playhouse Detailed Seismic Assessment by Stantec Consulting Ltd., the current concrete canopies are deficient under current seismic loads and will become a safety risk. In preparation of replacing with a lightweight steel structure, the concrete roof slabs must be removed.

Service: 1.295 McPherson Theatre

Project Number 25-01

Capital Project Title Replace APs and UPS

Capital Project Description Replace wireless access points and back up batteries

Project Rationale Replace APs and UPS to update the network infrastructure as required by CRD Information Technology replacement plan.

Project Number 26-01

Capital Project Title Replace Switches

Capital Project Description Replace network switches

Project Rationale Replace switches in the network infrastructure as required by CRD Information Technology replacement plan.

Project Number 28-01

Capital Project Title Replace SRST

Capital Project Description Replace Cisco phone communications system

Project Rationale Replace Cisco phone communications as required by CRD Information Technology replacement plan.

### 03 Operating Context

#### ACHIEVEMENTS IN 2023

1. CRD Arts and Culture hosted the Arts Champions Summit on May 17, 2023 at the Baumann Centre, which gathered over 100 arts leaders and supporters to celebrate sector innovations, spark new collaborations, and collect sector feedback on community needs and opportunities.
2. After an extensive public engagement process, the CRD Arts Commission approved a new strategic plan for the Arts & Culture Support Service with a refreshed Mission and Vision for 2024-27.
3. Panorama Recreation received the BC Recreation and Parks Association's Facility Excellence Award for facilities under \$3 million, for the Jumpstart Multi Sport Court.
4. SEAPARC completed a 20-year capital plan to support asset management.

#### FACTORS THAT WILL AFFECT OUR OPERATIONS IN 2024 AND BEYOND

##### Arts

- Sustaining and increasing investment in the arts is strongly tied to local and global economic trends that affect municipalities' ability and desire to provide support.
- Many arts and cultural organizations have also demonstrated tremendous resilience, adaptability, and innovation throughout the pandemic with 84.3% of surveyed Operating and Project Grant recipients developing alternative programming, relying heavily on digital formats such as live-streaming and virtual gatherings.
- Statistics Canada reports that, on a provincial level, arts and culture work is a fast-growing economic sector. From 2010-21, the number of culture jobs in British Columbia increased by 28% and the culture sector GDP per capita increased by 7%, both are the fastest increases in Canada in those respective measures (adjusted for population growth and inflation).

##### Panorama Recreation

- COVID-19 impact on services has diminished. Registered programs have returned to pre-pandemic levels, and drop-in programs are at 91% of pre-pandemic levels as of June 2023.
- A competitive job market throughout the region continues to challenge operations and may impact service delivery.
- The Panorama Strategic Plan 2022-2026 sets the direction for the future of our services by prioritizing several infrastructure investments that will result in increased capacity and require staffing adjustments.
- Planning is underway for the construction of a covered multi-sport box in Central Saanich. This new facility will provide year-round space for lacrosse, pickleball, roller hockey, and recreation programming. Construction is expected to be complete in Winter 2025.
- Management and operations planning has begun for Panorama Recreation to assume the operation of recreation facilities for partnering areas. This may include tennis courts, pickleball courts, sports fields and programming spaces for North Saanich, Central Saanich and Sidney.
- Design work and cost analysis has begun for enhancements to arena dressing rooms and adjacent support spaces to modernize them, with a focus on equity and functionality.

### Sooke and Electoral Area Parks and Recreation (SEAPARC)

- The SEAPARC aquatic and arena facilities are aging. Financial impacts of new infrastructure to support a growing community and plans for renewal/replacement need to be balanced in the capital plan to ensure service continuity. A long-term asset management plan has been completed to inform financial planning. Climate goal considerations for recreational facilities will also have financial implications on the capital plan.
- A competitive job market throughout the region continues to challenge operations.
- Projected population growth within the District of Sooke and Juan de Fuca (JdF) Electoral Area will increase demand for recreational programs and services.
- SEAPARC will undertake a new strategic plan in 2024 to provide direction for 2025-2035.
- SEAPARC is participating in a regional initiative, under the umbrella of The Village Initiative, to improve access to local programs and opportunities for youth to assist in the prevention of crime and vandalism, while strengthening regional service coordination.

### OPERATIONAL STATISTICS

#### Arts

1. In 2022, the CRD Arts and Culture delivered **six granting intakes for five different granting programs**: Operating Grants, Projects Grants (two intakes), IDEA Grants, Equity Grants, and Incubator Grants.
2. In 2022, the six granting intakes received a combined total of **119 applications**, which are reviewed by staff and adjudicated through assessment teams of the Arts Advisory Council.
3. In 2022, a record-high **95 of these applicants received funding** through these grant programs.
4. In terms of outreach capacity, in 2022, the CRD Arts and Culture e-newsletter grew to over **800 subscribers** who receive information about launches of grant programs, information sessions, and other notifications about opportunities in the arts sector in the capital region.
5. Performance, in terms of outcomes, is measured against social and economic indicators as outlined in Section 6.

### 04 Services

*The services listed below rely on the support of several corporate and support divisions to operate effectively on a daily basis. More information about these services is available in the Corporate Services and Government Relations Community Need Summaries.*

#### 1. ARTS & CULTURE SUPPORT SERVICE

##### Description

Supports, champions and develops arts and cultural activities for the benefit of the community through funding programs and outreach activities.

##### What you can expect from us

- ▶ Deliver five granting programs: Operating Grants, Project Grants, IDEA (Innovate, Develop, Experiment, Access) Grants, Equity Grants, and Incubator Grants.
- ▶ Provide support to organizations on not-for-profit structure, governance, and capacity development in general and as it relates to Arts Service programs.
- ▶ Provide support to Arts Commission by maintaining accountable processes for allocation of program budgets.
- ▶ Respond to inquiries on funding (CRD and other sources) within three business days.
- ▶ Collect data about trends and impact of arts and culture for internal use and for dissemination to arts communities.
- ▶ Manage publically available online database of regional public art.
- ▶ Connect and facilitate dialogue within the regional arts community and with CRD through biennial summit, social media presence, e-newsletter, and funding application workshops.

##### Staffing Complement

Arts & Culture Support Service: **2.8 FTE (includes 0.8 FTE Manager and 1 FTE Administrative Support)**

---

<sup>1</sup> Service budget(s) listed may fund other services

### 2. THE MCPHERSON PLAYHOUSE SERVICE

#### Description

Contribution agreement for the municipal support of the theatre.

#### What you can expect from us

- ▶ Provides capital and operational support for pleasure, recreation and community uses related to the McPherson Playhouse Theatre

#### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

---

### 3. THE ROYAL THEATRE SERVICE

#### Description

Contribution agreement for the municipal support of the theatre.

#### What you can expect from us

- ▶ Provides capital and operational support for pleasure, recreation and community uses related to the Royal Theatre.

#### Staffing Complement

Arts & Culture Support Service: **0.1 FTE (Manager only)**

### Panorama Recreation

#### SERVICE BUDGET REFERENCES<sup>2</sup>

- › 1.44X Panorama Recreation Centre

---

### 3. PENINSULA RECREATION

#### Description

Provides recreational programming and maintains recreational facilities in North Saanich. Peninsula Recreation also operates satellite locations, including Greenglade Community Centre, Central Saanich Cultural Centre and North Saanich Middle School. Greenglade Community Centre has become a valuable asset for the delivery of recreation programs and services.

#### What you can expect from us

For Panorama Recreation Centre, administration of the delivery of programs and services for:

- ▶ Two arenas
- ▶ An indoor swimming pool and indoor leisure pool with the tallest, wheelchair-accessible waterslide in the region
- ▶ Four indoor tennis courts, two outdoor tennis courts and squash and racquetball courts
- ▶ Weight room and fitness studio
- ▶ Three small multi-purpose rooms
- ▶ A 13,200 square foot outdoor Jumpstart Multi Sport Court

For Greenglade Community Centre, amenities include:

- ▶ Gymnasium
- ▶ Activity rooms for program use
- ▶ Pottery studio
- ▶ Weight and fitness room, mind and body studio and dance studio
- ▶ Teen lounge and sports fields
- ▶ Licensed childcare
- ▶ Community Garden

For North Saanich Middle School, operating agreement with Saanich School District 63 for the use of facility spaces outside of school hours to deliver programs and services:

- ▶ Gymnasium
- ▶ Multipurpose room
- ▶ Multipurpose dance/fitness studio
- ▶ Foods and textiles room

---

<sup>2</sup> Service budget(s) listed may fund other services

## Appendix D : Community Need Summary 2024

For Central Saanich Cultural Centre, operating agreement with Central Saanich for the use of:

- ▶ Two activity rooms for program use

### Staffing Complement

Panorama Recreation: **36.85 FTE (includes Manager and Administrative Support)**

## SEAPARC

### SERVICE BUDGET REFERENCES<sup>3</sup>

- › 1.40X SEAPARC – Facilities & Recreation

### 4. SEAPARC

#### Description

Provides recreational programming and maintains recreational facilities with a focus on the citizens of the District of Sooke and the JdF Electoral Area.

#### What you can expect from us

Administration of:

- ▶ Ice arena/dry floor
- ▶ Aquatic center
- ▶ Community recreation programs
- ▶ Facility and grounds maintenance
- ▶ Program, multi-purpose and boardroom spaces
- ▶ Slo-pitch field and baseball diamond
- ▶ Bike park
- ▶ Skateboard park
- ▶ Joint Use Agreement with School District 62
- ▶ Community Events
- ▶ Multi-use trail
- ▶ DeMamiel Creek golf course
- ▶ Fitness studio and programs
- ▶ Weight Room
- ▶ Outdoor sport box

### Staffing Complement

SEAPARC: **19.1 FTE (includes Manager and Administrative Support)**

---

<sup>3</sup> Service budget(s) listed may fund other services

## 05 Initiatives

Below are the initiatives listed in the [Capital Regional District 2023-2026 Corporate Plan](#) and the related initiative business cases (IBCs), including financial and staffing impacts, proposed for 2024. The financial impacts reflect full program costs, including cost of staffing.

| Initiative  | Implementation year(s) | Impacts in 2024           |                            |
|---|------------------------|---------------------------|----------------------------|
| 10a-1 Develop and implement a revised Arts & Culture Support Service Strategic Plan   | 2023-2026              | -                         | -                          |
| 10b-1 Scale up regional participation in the CRD Arts & Culture Support Service   | 2026                   | -                         | -                          |
| 10b-2 Scale up regional support for performing art facilities within the region   | 2026                   | -                         | -                          |
| 10c-1 Consider service expansions to address gaps and opportunities, as they emerge   | Ongoing                | -                         | -                          |
| ▶ <b>NEW IBC 10c-1.1</b> Peninsula Recreation – Management and Operations Planning  | 2024-ongoing           | \$27K<br>requisition      | Auxiliary                  |
| ▶ <b>NEW IBC 10c-1.2</b> Peninsula Recreation – Facility Maintenance Supervisor   | 2024-ongoing           | \$30K<br>fee-for-service  | 0.9 New Ongoing            |
| 10c-2 Regularly monitor and review services to determine appropriate types of recreational programming and recovery rates to meet Community Needs | Ongoing                |                           |                            |
| ▶ <b>FUTURE IBC 10c-2.1</b> SEAPARC – Maintain Reception Staffing   | Planned for 2025       | \$ -<br>cost offset       | 0.5 Auxiliary<br>Converted |
| ▶ <b>NEW IBC 10c-2.2</b> SEAPARC – Manager of Operations  | 2024-ongoing           | \$157K<br>fee-for-service | 1 New Ongoing              |
| 10c-3 Develop and implement a long-term strategic plan for SEAPARC  | 2024                   | \$50K<br>Fee-for-service  | -                          |
| 10c-4 Undertake a review of youth-focused programming at SEAPARC  | 2023-2025              | -                         | -                          |

## 06 Performance

### GOAL 10A: SUPPORT, CHAMPION & DEVELOP THE ARTS

#### Targets & Benchmarks

Through funding programs and other activities, the Arts & Culture Support Service amplifies the contribution that arts organizations make to economic sustainability, community vitality and quality of life across the region and their role in providing a wide range of activities for citizens and visitors.

#### Measuring Progress

| Ref                         | Performance Measure(s)                                 | Type     | 2022 Actual | 2023 Forecast | 2024 Target | Desired trend |
|-----------------------------|--|----------|-------------|---------------|-------------|---------------|
| <b>Social Contributions</b> |  |          |             |               |             |               |
