

**REPORT TO CORE AREA LIQUID WASTE MANAGEMENT COMMITTEE
MEETING OF WEDNESDAY 24 MARCH 2010**

SUBJECT **APPOINTMENTS UNDER SECTION 29 OF THE ENVIRONMENTAL MANAGEMENT ACT**

PURPOSE

To update appointments under the Environmental Management Act (EMA).

BACKGROUND

Appointments of municipal sewage control officers, deputy sewage control managers and the sewage control manager are made by the Capital Regional District (CRD) Board under the EMA. Such appointments provide CRD Environmental Sustainability department staff with the authority to regulate non-domestic waste discharges to sanitary sewers in accordance with the CRD Sewer Use Bylaw and manage the disposal of septage generated in the CRD under the CRD Septage Disposal Bylaw. The types of activities authorized for appointed staff include: inspection of properties, collection of information, licensing, sampling and enforcement of bylaw provisions.

Updates to these appointments are necessary due to recent staff changes and are made by rescinding the current staff appointments (Appendix A) and adopting the new staff appointments (Appendix B).

SUMMARY

The appointment of new Environmental Sustainability department staff members under the EMA is necessary to provide timely and consistent legal authority for staff to carry out inspections, collect information and enforce the provisions of the CRD Sewer Use and Septage Disposal bylaws.

RECOMMENDATIONS

That the Committee recommend to the Board that:

1. the appointments outlined in Appendix A be rescinded; and
2. the CRD Environmental Sustainability department staff listed in Appendix B be appointed to the positions indicated under Section 29 of the Environmental Management Act.

Glenn Harris, PhD, RPBio
Senior Manager, Environmental Protection

Larisa Hutcheson, PEng
Acting General Manager, Environmental Sustainability
Concurrence

Kelly Daniels
CAO Concurrence
