

# Past Research - Examples

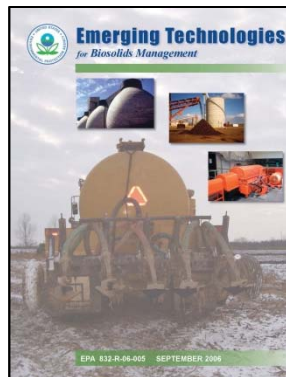

CRD

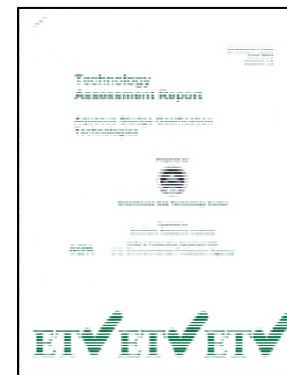

2013 EPA publication evaluating emerging technologies in wastewater treatment

2013 Water Environment Federation examination of the emerging technologies for organics, energy and nutrients in biosolids

2006 EPA publication on biosolids generation, use and disposal

2012 EPA publication evaluating existing sludge gasification technologies and stages of development

## Market sounding technologies for integration with other solid waste streams

1. **Delay of Request for Proposals for a Kitchen Scraps Processing Facility**
2. **Pause Solid Waste Management Plan review**
3. **Continue contracted hauling kitchen scraps out of region for processing**

## Next Steps

1. Confirm market sounding sectors
  - a. Wastewater Treatment
  - b. Residual Solids Processing
  - c. Resource Recovery
  - d. Integration with other Solid Waste Streams
  
2. Confirm market sounding option
  - a. High-level request for technical information (8 to 12 weeks)
  - b. Comprehensive Market Sounding by consultant (15 to 24 weeks)
    - i. Sole source procurement of consultant
    - ii. RFP procurement of consultant
  
3. Complete market sounding and distribute to Eastside and Westside select committees
