Subject: Save the BMX track and the velodrome!

To all CRD members

Although I am not a user of the BMX track and/or the velodrome, I would LOVE for these 2 venues to remain intact for the recreational and competitive communities of these respective sports. I do believe that the velodrome should remain a LEGACY of the 1994 games, as it was agreed to at the time. Also, I believe that the sport of BMX offers a tremendous sporting option; not everyone is interested in team sports such as soccer. From what I have seen entire families often participate together in BMX. As a physiotherapist, I also believe that communities are much more livable and will have healthier communities when they offer a variety of sporting venues.

Even though soccer is gaining in popularity, I DO NOT agree that we should build a large stadium in this location. Please reconsider and let the BMX tracks and velodrome remain intact!!

Sincerely,

Erna Bruce
