9. NEW BUSINESS

Old Pump Station on Walfred – Commissioner Sifert noted that, as the new Walfred Pump Station is operational, she would like the old structure on her property removed. She was assured that the old structure will be removed from her property once the new facility is transferred to the CRD.

Colour in the Water – Commissioner Szpak reported that the water on Treanor has been very coloured recently. T. Robbins noted that a flushing program is conducted annually but also noted that work is underway on replacing the valves in the Sooke Lake Intake Tower. Both of these events could cause an increase in turbidity in the water, which should clear up very soon.

10. ADJOURNMENT

MOVED by Commissioner Logan and **SECONDED** by Commissioner Sifert, that the meeting of the Juan de Fuca Water Distribution Commission be adjourned at 12:25 pm.
