

REGIONAL TRANSPORTATION PLAN

Workshop

August 22, 2012

Feedback Workbook

This Workbook is for your input and comments on the CRD Regional Transportation Plan Workshop being held during the regular Planning, Transportation and Protective Services Committee meeting on August 22, 2012. The Workshop presentation of the Regional Transportation Plan Issues and Opportunities, and Vision and Principles, accompanies this workbook.

Bob Lapham will do the presentation, and there will be opportunities for questions, comments and requests for clarifications from Committee members.

Please review the accompanying presentation and make comments in this Workbook before the Committee meeting and workshop if you wish. You may add to these comments and add new ones during the Workshop presentation.

The Workbooks will be collected at the end of the Committee meeting. Workbook input along with meeting minutes will provide input to further Regional Transportation development.
