

**REPORT TO THE REGIONAL WATER SUPPLY COMMISSION
MEETING OF WEDNESDAY, 18 APRIL 2007**

SUBJECT 2006 ANNUAL OVERVIEW OF GREATER VICTORIA'S DRINKING WATER QUALITY

PURPOSE

Provide information on the quality of drinking water in the Greater Victoria drinking water system.

BACKGROUND

Each year, as part of the formal data reporting structure currently in place, Water Quality Division staff prepare annual summaries of the data collected on the quality of Greater Victoria's drinking water. These reports are sent to individual water suppliers, the Chief Medical Health Officer and, by regulation, are made available to the public. The reports are posted at <http://www.crd.bc.ca/water/waterquality/annualreports.htm> on the CRD Website.

RECOMMENDATION

That the Regional Water Supply Commission receive the staff report for information.

G. Stewart Irwin
Senior Manager, Water Quality

J. A. (Jack) Hull, MBA, P. Eng.
General Manager, Water Services
