## REPORT TO ELECTORAL AREAS COMMITTEE MEETING OF WEDNESDAY, OCTOBER 14, 2020

---

**SUBJECT** 2019-2022 Electoral Areas Service Planning

### **ISSUE SUMMARY**

To provide the Electoral Areas Committee with an overview of relevant initiatives undertaken by the Salt Spring Island (SSI) Administration, Southern Gulf Island (SGI) Administration and Juan de Fuca (JdF) Electoral Area Planning divisions to deliver on approved Board Priorities and the Corporate Plan. The report also highlights initiatives to be approved by other Standing Committees and Commissions that directly benefit the three Electoral Areas.

### **BACKGROUND**

The Capital Regional District (CRD) Board completed its strategic planning early in 2019 and approved the CRD Board Strategic Priorities 2019-2022.

The four priorities are:

1. Community Well-being – Transportation & Housing;
2. Climate Action & Environmental Stewardship;
3. First Nations Reconciliation; and
4. Advocacy, Governance & Accountability.

The priorities were confirmed at the annual check-in on May 13, 2020.

The 2019-2022 CRD Corporate Plan is aligned to Board direction. It highlights the initiatives the CRD needs to deliver over the Board's four-year term to address the region's most important needs. Initiatives that directly work towards making progress on addressing the needs of the communities in the Electoral Areas have been identified across all of the Community Needs.

Appendix A *Community Need Summary - Electoral Areas 2021* is a summary of the planned activities for 2021. It contains details about core service levels and performance metrics. No new initiatives to deliver on Board or corporate priorities are proposed this year.

Appendix B *Electoral Areas - Initiatives Progress Report* provides insights into what has been delivered through the 20 initiatives approved last year, across nine Community Needs, for delivery in 2020.

The Service Planning process gathered information necessary to assemble a provisional budget for Committee and Board review. The purpose of this report is to explain how the SSI Administration, SGI Administration and JdF Electoral Area Planning divisional program of work connects to the Board Priorities, Corporate Plan and provisional budget.

## **ALTERNATIVES**

### *Alternative 1*

The Electoral Areas Committee recommends to the Capital Regional District Board: That Appendix A Community Need Summary - Electoral Areas be approved as presented and advanced to the October 28, 2020 provisional budget review process.

### *Alternative 2*

The Electoral Areas Committee recommends to the Capital Regional District Board: That Appendix A Community Need Summary - Electoral Areas be approved as amended and advanced to the October 28, 2020 provisional budget review process.

## **IMPLICATIONS**

### *Financial Implications*

Initiatives identified in the Corporate Plan (including Board Priorities) cannot be undertaken without resourcing. The Board determines resourcing through its annual review and approval of financial plans. To support the Board's decision-making, staff, through the service planning process, provide recommendations on funding, timing and service levels.

During this year's service planning process, staff have been mindful of the fiscal challenges facing the region. No new initiatives to deliver on Board or corporate priorities are proposed this year.

Any budget changes driven by local services are reflected in the Electoral Areas' budgets.

### *Service Delivery Implications*

The Community Need Summary found in Appendix A provides an overview of all work that needs to be undertaken in order to meet regulatory requirements, satisfy Board direction and meet the needs of the communities served by the CRD.

### *Alignment with Board & Corporate Priorities*

Staff have not identified any new delivery initiatives for 2021.

18 of the 20 initiatives approved in 2020 have either been completed or are now part of our core services. Two will start in 2021. No additional budget impacts have been identified.

## **CONCLUSION**

Staff have been progressing initiatives and actions identified in the Corporate Plan, including Board Priorities. The Board determines resourcing through its annual review and approval of financial plans. As per previous years, to support the Board's decision-making, staff are providing recommendations on funding, timing and service levels through the service and financial planning processes.

**RECOMMENDATION**

The Electoral Areas Committee recommends to the Capital Regional District Board:  
That Appendix A Community Need Summary - Electoral Areas be approved as presented and advanced to the October 28, 2020 provisional budget review process.

### Electoral Area

#### Strategy

##### Overview

There are three Electoral Areas (EA) in the capital region: Juan de Fuca (JdF), Salt Spring Island (SSI) and the Southern Gulf Islands (SGI). An EA Director is elected every four years by the local communities to represent the area on the CRD Board. In each EA, the CRD provides some of the services of a municipal government, including water, sewage, fire protection, recreation and parks. Community planning and land use regulation services are provided in the JdF EA. In the SSI EA and the SGI EA, the Islands Trust local trust committees have land use planning authority.

Since its inception, the CRD has established many different commissions to assist with service delivery. At present, there are over 60 commissions that assist with a wide range of services, from fire protection to theatre management. Each CRD commission has a unique purpose and there is wide diversity in operational practice that stems from the role of the commission, its governance structure, its relationship to CRD staff and the service that it helps administer.

##### Strategic Context

###### Strategies

- [SSI Parks Strategic Plan](#): provide access to quality, safe, diverse, year-round, and inclusive parks, recreation and sport facilities, trails and water access, and deliver recreational programs that enhance quality of life, promote healthy lifestyles, strengthen the sense of community, and connect all residents and visitors with nature, while following environmental best practices.
- Broaden shoulder season tourism, agriculture, food, housing, economic diversity, business efficiency, improve island business core, and build economic support through coordination, communication, and advocacy.
- Establish a Gulf Islands Shared Business Services entity to act as a “single window” point-of-access for local producers, artisans, operators and institutions to obtain information and referral to service providers; act as a “broker” to help obtain favourable rates for services.
- Optimize allocation of resources, support long term financial plans to fund infrastructure renewal/replacement as required to ensure water and sewer systems meet acceptable levels of service, regulatory requirements, and recommendations from asset management plans.

### Trends, Risks and Issues

- Support a regional economic development focus to achieve economies of scale by advocating for federal/provincial funding mechanisms.
- Advocate for rural designation within the EAs to ensure rural areas of the CRD qualify for the same provincial and federal grant programs that are available for other rural areas of the province.
- Help local businesses grow and thrive through economic challenges, including Covid-19, by developing entrepreneurial opportunities and establishing shared service offerings to diversify marketing and sales resources, shared labour force pool, coordinated island supply and delivery chain management, distribution and export hub for island products, access to professional services, IT and administrative services, and business skills training.
- Protect and sustain rural island culture through housing strategies and by facilitating ways to implement effective and sustainable year-round tourism destination management practices.
- Address local transportation needs by optimizing integrated transportation opportunities through coordination with BC Ferries and local entities and consideration of service establishment in the SGI EA.
- Stimulate sustainable economic growth and improve community health resilience by improving broadband connections and ensuring access to sustainable broadband networks.
- From a land planning and building inspection point of view, changes to the Building Code, seasonal and weather patterns and building activity cycles related to the economy can all affect the cost and volume of construction projects and therefore processing time for applications and permits.
- Annual changes (increase/decrease) in residential, commercial and industrial construction and the number of building permits and development permits being issued (e.g. as a result of changes in market demand for new parcels of land and changes in land use); existing staffing capacity is redirected to longer-term project work, such as OCP and land use bylaw review, during periods of lower development activity.
- Changes to federal and/or provincial legislation, including changes to public consultation procedures and bylaw enforcement action (e.g. introduction of Cannabis Retail licensing process), have resulted in additional staff time required to process applications and permits.
- Prioritized capital project improvements to water and sewer systems in the EAs.

<ul style="list-style-type: none"> <li>• <b>Metric 1:</b> All fire services in BC are required to meet the standards for their declared service levels as established by the OFC Playbook and WSBC.</li> <li>• <b>Metric 2:</b> *This is an indicator of construction level therefore a target is not appropriate. Estimated volume has been provided instead. This volume of permits results in 6,000 to 8,000 inspections per year.</li> <li>• <b>Metric 3:</b> *This is an indicator of development activity therefore a target is not appropriate. Estimated volume has been provided instead.</li> <li>• <b>Metric 4:</b> This is highlighted as a future metric; the CRD's intention is to report on this starting October 2021. This metric highlights the success of the Shared Business Services strategy for the gulf islands measured as the total number of participants in the project. A pilot project will be run in 2020 to validate the proposed service offering and refine before scaling up and making this service available to all businesses in the gulf islands. This initiative will be contracted out.</li> </ul>			

# Community Need

## 2021 Summary

- **Metric 5:** This is highlighted as a future metric; the CRD's intention is to report on this from October 2021. This metric highlights the total amount of ISP investment attracted to bring high-speed broadband connection to the SGI community (high-speed defined as per the federal standard of download/upload speeds of 50/10 Mbps). Connectivity planning ensures infrastructure investments are coordinated, scalable, provide value for money, and achieve priority objectives for the region. A community-based connectivity plan is currently under development. It is hoped that it will guide Internet Service Providers in their investment decisions. The plan will help determine future KPI targets.

Initiatives approved in 2020 Budget		
Ref	Initiative	Progress to date
Transportation		
2e-1	SSI Transit Services	<b>Progressing</b> – BC Transit initiating Salt Spring transit review on Salt Spring Fall 2020. Project completion anticipated in Q3 2021.
2e-2	SSI Cycling & Pedestrian Infrastructure	<b>Progressing</b> - North Ganges Transportation Plan project nearing completion in Q4 2020. <b>Progressing</b> – Baker Road to Vesuvius Bay Road pathway project nearing completion in Q4 2020. <b>Initiating</b> – Booth Canal to Baker Road pathway planned to Q4 2020.
2e-3	SGI Public Transportation	<b>Progressing</b> – the project purpose is to investigate the establishment of an integrated, multi-modal transportation service or services for the SGI EA. Work is underway to engage qualified professionals to develop and cost a service model, including the steps necessary to develop a land-based public transit system, water-based passenger service and a multi-model trail system. This work is currently being funded through Community Works Funds; applications for additional funding via external grants is also underway.
Economic Development		
4a-1	High-speed Internet Services	<b>Progressing</b> – Phase 1 report, “Connecting SGI”, is complete. Based on in-depth community engagement, it documents how greater connectivity can advance each island’s goals of sustainable economic development, community health, and resilience. Phase 2 involves engaging an engineering firm to complete a connectivity infrastructure design plan. This work is underway and funded through Community Works Funds and through a grant from the Province of British Columbia.
4b-1	Grants Dashboards for EAs	<b>Initiative planned for 2021</b>
