ADDENDUM NO. 1

Invitation to Quote

ITQ No. 2020-642

Supply and Delivery of Dry Bulk B-Train

November 12th, 2020

The following information is hereby provided as part of ITQ No. 2020-642:

1. **Question:** Can you provide a data sheet for the bio-solid material that includes the physical properties (i.e. bulk density, granule size and moisture content)?

CRD Response:

Bio-solid material data:

- Bulk Density – 600 - 800 kg/m³;
- Size – 90% (by weight) between 0.5 mm and 4 mm;
- Energy Content – 5,000 to 7,000 Btu/lb (11.63 to 16.28 megajoule/kilogram);
- Total Solids – minimum 90%
- Trace Metals – meets Trade Memo T-4-93 maximum values;
