System Type: Tank Volume:
Type 1 _____ gallons
Type 2
Type 3

Type of Service <small>(pump out, maintenance, inspection)</small>	Date of Service	Name of Service Provider	Results/Findings

Tip: Keep a copy of your septic receipts with this record

Do's

Do take leftover hazardous household chemicals to your approved hazardous waste collection depot for disposal.

Do practice water conservation.

Do have your tank pumped out and system inspected every 2-5 years.

Do divert roof drains and surface water from driveways and hillsides away from the septic system.

Do plant grass on your drainfield rather than trees or shrubs.

Do install an effluent filter if you don't already have one.

Don'ts

Don't allow anyone to drive or park over any part of the septic system.

Don't use your toilet or drains as trash cans by dumping nondegradables down them.

Don't make or allow repairs to your septic system without obtaining the required permit.
