

WILDFIRE EVACUATION CHECKLIST

TAKE GRAB & GO BAG - See Reverse side for list of items.

FAMILY MEMBERS/PETS/LIVESTOCK:

- If possible evacuate all family members not essential to preparing the house for wildfire.
- Plan several evacuation routes from your home.
- Designate a safe meeting place and "out of area" contact person.
- Relay your plans to the contact person.
- Evacuate pets and livestock whenever possible, AND never turn animals loose.

VEHICLE PREPARATION:

- Place vehicles outside the garage pointing out.
- Keep vehicle fuel tank above half-full during fire season.
- Roll up the windows to keep out smoke and ash.
- Close the garage door, but leave unlocked.
- Place essential items in the car.
- If you do not drive, make other arrangements for transportation in advance.

PREPARING THE HOUSE:

- Close all exterior doors and windows.
- Turn off all pilot lights.
- Place combustible patio furniture or other items in the house or garage.
- Shut off propane or gas tanks.
- Make sure that all garden hoses are connected to faucets and attach nozzles set on "spray"
- Turn on outside lights.
- If you have an emergency water source (pool, pond, etc.) and/or portable pump, clearly mark its availability so it can be seen from the street or place a note on your front door.

LAST STEP

• When you have evacuated your house place a dishtowel in the middle of your driveway at the street entrance or if you do not have a driveway place at your front door. Ensure you put a rock or stick on the dishtowel to hold it down. This advises SSI Responders that you have evacuated from your home.

NOTES:	Mark down other items you may wish to take with you (i.e. family heirlooms, laptops, etc.)						

EMERGENCY EVACUATION KIT GRAB & GO BAG
