

ODOROUS HOUSE ANT CONTROL

WHAT YOU SHOULD DO

Clean Thoroughly

Thoroughly clean all parts of the kitchen to remove all spilled food that Odorous House Ants can feed on. Be sure to clean the floor, countertops, cupboards, and under and behind stoves and refrigerators.

Keep Food Away

Prevent ants from finding your food. Keep all food, including pet food in clean, sealed containers. Remove any uneaten pet food when pets are done eating. Wash dirty dishes as soon as you are finished with them.
