CRD Regional Parks School Field Trip - Pre-trip Instructions

Arrival time

Please arrive at the park 15 minutes before your program time in order to have a washroom break and snacks. This allows time for organizing the students without cutting into the program time.

Prepare your students

1. **Name Tags:** Prior to arrival, divide your students into 2 groups, and have each student wear a large, waterproof nametag.
2. **Clothing:** Be prepared to participate outdoors, rain or shine. Wear clothing appropriate to the season, and be prepared for cold and wet conditions. Wear sturdy footwear and please do not bring umbrellas.
3. **Guidelines:** Please review expectation for physical distancing with your students. Be sure the students are aware that this is an educational field trip in an “outdoor classroom”. Classroom manners are expected.

Role of teacher and adult helpers

Teachers are responsible for group management. We invite adult helpers to participate in all activities and help with individual student needs. Suggested ratio is one adult: eight students.

Educators Guide and Covid-19 Safety Procedures

See Educators Guide and Covid-19 Safety Procedures for details of physical distancing expectations and other safety measures, a detailed program description, BC Curriculum links and other helpful resources related to your program.

First Aid

While park naturalists make every effort to keep participants safe, and do carry a first aid kit, there will not be a certified first aid attendant leading the program. Please continue to follow the first aid procedures in keeping with your school district’s policies for field trips.
