## Clover Forcemain: Utility Relocates

The Wastewater Treatment Project includes construction of a pipe which will transport wastewater from the upgraded Clover Point Pump Station to the McLoughlin Point Wastewater Treatment Plant. This pipe, the Clover Forcemain, will run along Dallas Road from Clover Point to Ogden Point, where it will connect to the cross-harbour undersea pipe.

The contractor, Windley Contracting Ltd., is conducting utility relocations on Dallas Road from Government Street to Douglas Street and the Douglas Street intersection and will continue for approximately four months. This work is being completed prior to forcemain installation.

### What to Expect

- Work includes excavation and relocation of storm, sewer and water pipes. The trench will be backfilled as the pipes are installed.
- Blasting will occur if rock is encountered in the trench.
- Noise associated with this work includes excavation machinery and truck back-up beepers and will not exceed the City of Victoria's noise bylaws.

### Work Hours

- Monday to Friday from 7:00 a.m. to 7:00 p.m.

### Traffic Impacts

- At times, Dallas Road will be temporarily closed between Government and Douglas during work hours.
- Single lane alternating traffic will generally be maintained during work hours with road plates installed overnight to allow two-way traffic.
- Traffic control areas will be delineated by cones and signs and controlled by flaggers.
- There will be parking impacts on Dallas Road.

### About the Wastewater Treatment Project

The Wastewater Treatment Project will provide tertiary treatment for wastewater from the core area municipalities of Victoria, Esquimalt, Saanich, Oak Bay, View Royal, Langford and Colwood, and the Esquimalt and Songhees Nations by the end of 2020.

Thank you for your patience as this work is completed.
