NOTICE TO LOCAL AREA RESIDENTS HIGHLAND / FERNWOOD WATER SERVICE AREA

WATER SYSTEM MAINTENANCE NOTIFICATION

As part of an infrastructure maintenance project, the Capital Regional District (CRD) will be performing maintenance work at the Highland/Fernwood Water Treatment Plant on Wednesday June 19, 2019. The work requires an 8-hour (8:00 am to 4:00 pm) shutdown of a portion of the water treatment process that services all of the Highland area. This work does not affect the Fernwood water service area.

Although we do not anticipate an interruption of water service to the Highland water service area during this scheduled maintenance, we ask that all Highland area water users (see attached map) be aware that water resources are limited. Please use water sparingly while this necessary maintenance is completed and refrain from all lawn watering or irrigation.

Thank you for your patience and understanding.
