## NOTICE TO LOCAL AREA RESIDENTS MAGIC LAKE ESTATES WATER SERVICE AREA

### WATER INTERRUPTION

During the month of October 2020 between the hours of 9:00 am and 3:00 pm, the Capital Regional District (CRD) will be performing air valve replacements at various locations within the Magic Lake Estates Water Service Area on Pender Island.

In order to complete the work, it may be necessary to interrupt water service to a portion of the community. Property owners affected by a water service interruption will receive at least 24 hours advanced warning by way of a hand delivered notification that will be placed at your door informing you of the date and anticipated time of the outage.

Property owners can also check the Capital Regional Districts water services outages website for additional information at- <https://www.crd.bc.ca/service/drinking-water/water-service-outages>.

As water to your property may be shut off as a result of this work, residents may want to set aside some water to meet their individual needs during this time.

It is also important to note that after the work has been completed and services restored, you may experience intermittent brown water and/or air at your tap for short durations. Should this occur, continue to run your water until it clears. The water remains safe to drink.

***Thank you for your patience and understanding.***
