# WATER MAIN UPGRADE

## NOTICE TO LOCAL AREA RESIDENTS ADMIRALS ROAD

Beginning Monday, December 5, 2016, CRD water main replacement crews will begin layout and then start replacing a water main on Admirals Road between Craigflower Road and Maplebank Road. This project will take approximately twelve (12) weeks to complete.

Construction noise and temporary traffic delays can be expected during regular working hours throughout this time. Traffic control personnel will be on site to assist traffic through the construction zone.

Residents will be notified in advance of all scheduled water shutdowns, but temporary shutdowns may occur without warning. Message boards will be on site advising of work hours.

The CRD will endeavour to minimize any inconvenience, however, customers are responsible for their own due diligence in relation to the water shutdown.

Please refer to the CRD website for additional information
