SEWER FLUSHING

NOTICE TO LOCAL AREA RESIDENTS MAGIC LAKE ESTATES WATER DISTRICT, PENDER ISLAND

On Wednesday, December 7, 2016 to Thursday, December 8, 2016 between the hours of 8am and 5pm, the Capital Regional District will be undertaking the annual sewer flushing in the Buck Lake area.

The areas likely to be influenced by this activity are:

- Galleon Way
- Privateers Road
- Signal Hill Road
- Spyglass Road
- Tiller Crescent

Please note that during this process, there may be some odors present. In certain areas, air can make its way back into the residential sewer lines. This air may cause some water to splash from the toilets as it bubbles out. For this 2-day period, it is recommended that all residents keep their toilet lids closed and covered with a towel. This will keep any water release to a minimum. Plastic bags are available but sealing the toilet is not recommended. CRD staff can assist with this process upon request.

*Note; flushing scheduled for November 9th and 10th was rescheduled due to equipment resourcing issues.

Thank you for your patience and understanding.
