## SKANA WATER SERVICE AREA WATER SYSTEM MAINTENANCE NOTIFICATION

As part of the infrastructure maintenance program, the Capital Regional District (CRD) will be carrying out cleaning of the Skana reservoir(s).

The work is scheduled to occur:

**Thursday, February 2, 2017**  
**between 9am to 5pm**

Please note that this maintenance activity may stir up sediments within the water reservoir and distribution pipes. As a result, residents may notice discoloured water from their taps for short durations. If this occurs, continue to run your water until it is clear.

Additionally, although we do not anticipate an interruption of water service during this scheduled maintenance, residents may want to set aside some water to meet their individual needs during this time.

For further information, please contact John Magi (CRD) at 250.883.2550.

A handwritten signature in black ink, appearing to read 'D. Robson', is positioned above the typed name of the manager.
